President/CEO

September 2016 - January 2020 (3 years 5 months)

La Habra, CA

Central Drugs Outsourcing Facility is a FDA registered 503B outsourcing facility. We manufacture and distribute compounded sterile medications to clinics and hospitals across the country. cGMP compliant, our products undergo rigorous testing for:

Potency

Sterility

Endotoxin

Particulate Matter

Visual Appearance

pH

Container Closure

Preservative Effectiveness

Other - qualitative and quantitative measures

Central Drugs Outsourcing Facility features a microbiology and chemistry lab, 24/7 environmental room monitoring, and an independent quality control department. Our internal team consists of quality control, quality assurance, microbiologists, chemists, engineer, and pharmacists. We are licensed in over 20 states and growing. As an industry expert in IV therapy since 2004, we are a resource for custom compounding needs, during times of drug shortages, and a leading provider of sterile injectables for office use, hospitals, Surgery centers, Clinics and veterinary hospitals and clinics.
