 WEFUNDER

Close

We are "testing the waters" to gauge investor interest in an offering under Regulation Crowdfunding. No money or other consideration is being solicited. If sent, it will not be accepted. No offer to buy securities will be accepted. No part of the purchase price will be received until a Form C is filed and only through Wefunder's platform. Any indication of interest involves no obligation or commitment of any kind.

Exciting news! **Clean Earth Rovers** is officially launching our Pre-Seed raise on **#WeFunder**.

Since our inception, we've been blown away by the tremendous support we have received from family and friends, **Xavier University**, the **1819 Innovation Hub**, and the amazing **#startupcincy** community. By making this early-stage financing available to our networks, we aim to bring our supporters on board and give them the opportunity to play a crucial role in transforming coastal water management and sustainability with us.

We hope you join us as we continue our journey toward creating healthier and safer waters for future generations. Your support, whether it's in the form of a contribution, resharing, or reposting, would be greatly appreciated and will help us in our efforts to successfully raise this round. Let's work together to make a positive impact on our coastal waters!

Thank you to all those supporting us 🙌🏽
