tint control, to address this gap.

We have positioned **Ampere** as a market leader in this new and exciting technology that we believe will **revolutionize** the massive eyewear market.

Product

Introducing Dusk - The future of eyewear

Dusk are the world's first pair of app-enabled, electronic tint-adjustable glasses. That means **you control the tint** — exactly the tint level you want, whenever you want it.

Reserve Ampere

\$350 minimum reservation

Dusk can change tint instantly at the press of a button or automatically using our patent-pending **InstaOptic™ technology**. They're uniquely dynamic, the way glasses should be. Users can personalize their Dusk experience through the Ampere app and unlock additional smart features like HuddleMode™.

Airport sales

2023 Dusk airport sales grew over 500% YoY. And that growth trajectory has continued into 2024 - January was our biggest month of all time in airports. With almost 150 million passengers flowing through Dusk airports already, we are getting Dusk in front of an enormous number of high-value potential customers. Now we are planning to rapidly expand to airports with over 1 billion total travelers per year.

Business model

Ampere started with a simple goal -
to make **fun, functional tech** that
you'll love using every day.

Our history

We believe we're on track to have launched an innovative **million-dollar** product **every year** we've been in business

Reserve Ampere

\$350 minimum reservation

Ampere's proven the need for instant electronic tint-adjustable glasses and demonstrated our technology foothold in the eyewear market. We believe we've laid the groundwork for rapidly scaling across both D2C and retail channels. Our business model is designed to bring innovative products to market as efficiently as possible – we launched two completely game-changing new versions of Dusk, back-to-back CES Award Winners, addressing all key pieces of customer feedback. We have retail pilots planned with 3 of the top 10 biggest optical retailers in the world. And, we're advancing in talks with a number of strategic partners, one of which we expect will invest several million dollars and close our Series A round.

Problem

Regular Glasses

are not suitable for all conditions due to the fixed unit.

Smart Glasses

are big and bulky, and for most, the only “smart” feature is the audio.

Photochromic Glasses

are slow and unfashionable, and designed with outdated technology.

Time to Transition to Dusk

Vision and strategy

Our mission is leveraging on technology to empower the world to see beyond 20-20. Our strategy focuses on expanding our Dusk product line and developing new eyewear innovations. This includes InstaOptic™, our patent-pending technology for automatic tint adjustment. We aim to optimize our supply chain and retail distribution through strategic partnerships, enhancing accessibility and market reach. Future expansions, such as Dusk AR and specialty lines, will continue to push the boundaries of eyewear technology.

FAQ

Reserve Ampere

\$350 minimum reservation

Do I have the same rights as if I had invested in the operating company itself?

Do I have the same rights as if I had invested in the operating company itself?

Yes. The intention is for the SPV to “function as a conduit” for you to invest in the operating business.

Which entity am I investing in?

Which entity am I investing in?

As an investor, you purchase securities in the SPV, which purchases securities in the operating company. This differs from an offering that doesn’t use an SPV because, in that case, you generally buy securities of the operating company itself.

Are there special requirements for special purpose vehicles in crowdfunding offerings?

Are there special requirements for special purpose vehicles in crowdfunding offerings?

Yes. An SPV in the context of crowdfunding is referred to as a “Crowdfunding Vehicle” and must follow the specific rules set forth in the Investment Company Act of 1940 Rule 3a-9, which could be found [here](#). For example, the SPV must: (1) be organized and operated for the sole purpose of directly acquiring, holding, and disposing of securities issued by a single crowdfunding issuer and raising capital in one or more offerings made in compliance with Reg CF; (2) not borrow money and uses the proceeds from the sale of its securities solely to purchase a single class of securities of a single crowdfunding issuer; (3) issue only one class of securities in one or more offerings under Reg. CF in which the crowdfunding vehicle and the crowdfunding issuer are deemed to be co-issuers under the Securities Act; (4) receive a written undertaking from the crowdfunding issuer to fund or reimburse the expenses associated with its formation, operation, or winding up, receives no other compensation, and any compensation paid to any person operating the vehicle is paid solely by the crowdfunding issuer; (5) maintains the same fiscal year-end as the crowdfunding issuer; (6) maintains a one-to-one relationship between the number, denomination, type and rights of crowdfunding issuer securities it owns and the number, denomination, type and rights of its securities outstanding; (7) seek instructions from the holders of its securities with regard to various matters including voting and material transactions, (8) receives, from the crowdfunding issuer, all disclosures and other information required under Reg. CF and the SPV promptly provides such disclosures and other information to the investors and potential investors in the SPVs securities and to Republic; and (9) provide investors the right to direct the SPV to assert the rights under State and Federal law that the investor would have if he or she had invested directly in the crowdfunding issuer and provides to investors any information that it receives from the crowdfunding issuer as a shareholder of record of the crowdfunding issuer.

Reserve Ampere

\$350 minimum reservation

A special purpose vehicle (SPV), also known as a Crowdfunding vehicle is an entity formed and operated for the sole purpose of directly acquiring, holding, and disposing of securities issued by a single crowdfunding issuer. The SPV is typically managed by the issuing company, and serves as a co-issuer to the offering. In a crowdfunding offering involving an SPV, investors are investing in the SPV, rather than investing into the company directly, and the SPV holds an interest in the underlying company.

What factors should I consider before investing in common stock?

What factors should I consider before investing in common stock?

Evaluate the company's financial health, growth potential, industry trends, and the overall economic climate. Consider your risk tolerance and investment goals.

EARLY ACCESS: Ampere Investment Round 2024

Created by: Reid Covington

Time

5:15pm - 7:15pm (Coordinated Universal Time)

Guests

✓ Ampere Technology
Reid Covington

Date

Mon Apr 8, 2024

Where

Location: Ampere Early Access Investment Launch

Description

This is your requested EARLY ACCESS to Ampere's 2024 Republic investment round, which is launching soon.

When: Monday April 8 at 1pm EST (1 hour before the public)

RESERVE & FUND YOUR 2024 INVESTMENT HERE on Monday at 1pm EST

*Note: Investors that make up the first \$300k will get a ~25% discount on the price of the rest of the round (reserve your investment as soon as the round goes live for the best chance at this price).

DETAILS:

After another year of strong growth Ampere finds itself at an exciting inflection point. Our

innovative instant electronic tint-adjustable glasses are set for significant expansion in both D2C and retail sectors in 2024.

It's been amazing to see the level of support we've received from so many of you already. Thank you!

What you need to know with your investment:

Existing investors receive an additional 5%+ in bonus shares.

Investments over \$995 get another free Dusk... and now you can choose from the original Dusk as well as Dusk Generation 2 (Dusk Rx) or Dusk Sport, each retailing at \$400.

For investments over \$2495, choose any of the above Dusk models or any next gen Dusk models (valued up to \$800), including Dusk Indoor, Dusk AR, Dusk Goggles, and more.

Larger investments get more bonus shares.

Just like last year, the earlier you invest, the better deal you can get: the first \$300k of investors will receive a ~25% discount on the rest of the round's price (but hurry to fund your investment when the round goes live because over \$350k is already reserved).

This is likely the last opportunity to invest in Ampere at (almost) the ground floor.

RESERVE & FUND YOUR 2024 INVESTMENT NOW

Thanks for joining us as we empower the world to see beyond 20-20!
