## Summary

2024 Winner of the Innovation Award from the National Board  
for Certification in Occupational Therapy. Cofounder and Chief  
Clinical Officer of Imago Rehab. An occupational therapist for 17  
years, she led stroke-specialty teams in the hospital setting, then  
worked as a Harvard Bioengineering researcher on patented soft  
robotic wearable technology now owned by Imago Rehab. Her post-  
professional doctoral thesis is the basis for Imago's proprietary  
clinical protocol, allowing our therapists to achieve 5X+ motor  
and functional gains in the chronic stroke population compared to  
traditional in-person care, all done from the comforts of our patients'  
homes.
