(D) The Company's Business and Business Plan

The Team

Steve Cruise, Co-Founder

Steve enjoyed many years of success in the mining equipment industry in various capacities including sales and management positions to owning and operating two successful companies with clients both domestically and internationally. After watching the growth of the legal cannabis market in Colorado, with industrial hemp and CBD starting to gain traction, Steve decided to participate in this burgeoning industry and formed MJ Insurance which focused on insurance products for the cannabis space. Being immersed in all aspects of the industry including cultivation, extraction, and new products that were being produced, he began to see the health and medicinal benefits of cannabis and started researching various water soluble technologies. In early 2020 he came across a unique emulsification solution that is now the primary ingredient that increases the bioavailability of the cannabinoid in Kahuna Cannabis Co products.

Our Story

Kahuna Cannabis Co. is a CPG cannabis brand with the core mission of providing the cannabis consumer with high-quality, rapid acting cannabis consumables, starting with our flagship

product, Kahuna Ice Freeze Pops. The primary motivation of cannabis use is for unwinding/stress relief, pain management and aiding sleep. Product purchases are dominated by flower and edibles with potency and efficacy as the prime selection factors for each. Utilizing our unique and exclusive solution, we provide the cannabis consumer with products that not only taste great, but also provide the potency and efficacy in an edible that meets these needs utilizing a unique delivery system, freeze pops.

- With our separate experiences in the hemp space that focused on water solubility and medical-grade inhalers as delivery methods we quickly learned of the effects that major and minor cannabinoids have on the human body and began to translate these ideas into the legal cannabis space.
- In early 2020 we were introduced to a new emulsification process that was simple to use, very effective and didn't have the bitterness or weediness that other products on the market had. Also, being in the Colorado market that is saturated with gummies and chocolates, we began looking at other products that could be created utilizing our unique and exclusive solution.
- After experimenting with multiple products including gummies, drink enhancers and then one day, freeze pops. Kahuna Ice was born. Kahuna Ice is optimized for bio-availability, texture and taste as a frozen treat, but can also be used for cannabis-infused mocktails, frozen drinks or straight out of the sleeve as an on-the-go treat.
- Kahuna Ice freeze pops is the only product of its kind in ANY legal cannabis infused market in the United States.

Colorado - 2023 Launch

As of May 1, 2023 we have called on and placed samples with approximately 100 individual dispensary groups which represents 200+ total stores

- Total Colorado Recreational Market has approximately 671 retail dispensary licenses.
- We received and delivered orders to 10 dispensaries in April 2023.

After extensive testing by both a 10 dispensary group and a 20 dispensary group we have received confirmation that they will bring our product online beginning in June 2023.

- We have entered into a Consignment agreement with the 20 Dispensary group and will start with Kahuna Ice in 6 stores. Expected expansion to all 20 stores by 9/15/2023. This Group was NOT expecting to bring on any new products in 2023 but obviously loved Kahuna Ice.

The only objection that we have had with the product has been some people feel it's a seasonal product.

- Everyone loves the flavors and efficacy.

Colorado has experienced a downturn in Cannabis sales in 2023 for the first time in it's history since legalization in 2012. Many dispensaries are sitting on slow moving or unsaleable products, primarily edibles. There are over 800 gummy skus in the Colorado market.

There is only ONE sku for Freeze Pops: Kahuna Ice.

What industry people are saying

"Quite fast acting. 5-10 min for beginning effect, 15-20min for full effect. No strong hashy taste. Great frozen smoothie flavours. "

"Flavor is excellent. The margarita one was the first I grabbed! Perfect for a hot summer day! Fun, unique concept!"

"Amazing and fast acting ice pops. The flavors were all absolutely tasty. I would buy these in a heartbeat from any dispensary. We need to have these on our shelves yesterday! Never had anything like this before, and was very, very impressed."

"The otter pop you never knew you wanted. Literally an adult ice pop. Shake well before freezing!"

If you do not affirmatively choose to invest, then your commitment will be cancelled, your funds will be returned to you, and you will not receive any securities.

(L) Price of the Securities

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as “Notes.” The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000.

(M) Terms of the Securities

Overview

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as the “Notes.” The Terms of the Notes are set forth in the Revenue Share Agreement accompanying this Form C in Appendix A. Copies of the Note and Revenue Sharing Agreement are attached to this Form C.

Summary of Terms

Revenue Percentage ¹	1.0 - 2.9% ²
Payment Deadline	2029-12-31
Maximum Payment Multiple ³ - Early Investors - All Other Investors	2.0 x 1.7 x
Sharing Start Date	The first day after disbursement that the company has revenues greater than one (\$1) dollar
First Payment Date	The last day of the calendar month ending not more than thirty days after the end of the first calendar year after the Sharing Start Date
Seniority	Subordinated
Securitization	Unsecured
Accrual Rate	3.52%

¹ as defined in the note agreement included in Appendix A

² The rate of revenue sharing is calculated on a linear scale with a minimum rate of 1.0% and a maximum rate of 2.9% and is rounded to the nearest 1/10th percent. The final rate is based on the amount raised and is calculated after the offering has successfully closed. As the amount raised in the offering increases, the rate of revenue sharing increases. For example, a hypothetical offering could result in the following revenue sharing percentages, depending on the amount raised:

Amount Raised	Revenue Sharing Percentage
\$35,000	1.0%
\$51,250	1.5%
\$67,500	1.9%
\$83,750	2.4%
\$100,000	2.9%

³ To reward early participation, the investors who contribute the first \$20,000.0 raised in the offering will receive a 2.0x cap. Investors who contribute after \$20,000.0 has been raised in the offering will receive a 1.7x cap.

Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C. Additionally, general terms are outlined below and in the Company's offering page.

Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

No Right to Transfer

You should plan to hold the Notes until maturity. The Notes will be illiquid (meaning you might not be able to sell them) for at least four reasons:

- The Revenue Sharing Agreement prohibits the sale or other transfer of Notes without the Company's consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.
- By law, for a period of one year you won't be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an "accredited" investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

Modification of Terms of Notes

The terms of the Notes and the Revenue Sharing Agreement may be modified or amended with the consent of Investors holding 50% of the Notes, measured by the total amount outstanding under each Note.

Other Classes of Securities

Name of Security	Limited Liability Company Interests
Number of Shares Outstanding	N/A
Describe Voting Rights of These Securities, Including Any Limitations on Voting Rights	N/A
How these securities differ from the revenue sharing notes being offered to investors	Limited Liability Company Interests are an equity interest, whereas Revenue Sharing Notes are a debt obligation of the Company.

Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

Name of Holder	% of Voting Power (Prior to Offering)
Edward Scherer	35%
Steve Cruise	65%

How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to pay you, or, if the Company does not make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its business. If they make good business decisions, it is more likely you will be paid. If they make poor business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.

(N) The Funding Portal

The Company is offering its securities through MainVest, Inc., which is a "Funding Portal" licensed by the Securities and Exchange Commission and FINRA. MainVest Inc.'s Central Index Key (CIK) number is 0001746059, their SEC File number is 007-00162, and their Central Registration Depository (CRD) number is 298384.

(O) Compensation of the Funding Portal

Upon successful funding of the Offering, the Funding Portal will receive as the "Revenue Securement Fee"; 4.5% of the amount of the Offering raised by In-Network Users of the Platform plus 9.0% of the amount of the Offering raised by all other investors. "In-Network Users" means a user of Mainvest.com who who have utilized the Company's specified in-network link on the Site.
