(D) The Company's Business and Business Plan

The Problem

- Parents and guardians around the Southern Indiana area are in need of a local, kid-friendly space to allow our children time to interact with others, and play with different imaginative-based toys and fun play equipment they may not always have the opportunity to familiarize themselves with.
- As a parent in the Southern Indiana area myself, I feel the need for a place to take my toddler where she can run and play with other littles her age and I can work, meet up with friends or make new ones, enjoy a cup of coffee or bakery treat, or just have fun watching her play.
- There are trampoline parks and other fun places for the older kids in the area, but you'd have to cross the bridge to Louisville or travel even further to find a place where babies and toddlers can safely play.

The Solution

- Bear Cub Play Cafe would bring Southern Indiana a community-based, kid-friendly space that allows our children to imagine, explore, socialize, and be a kid while allowing adults a

space to sit and relax, work, eat, read a book, talk to other parents, or make new friends in the community.

- Providing our community with a family- oriented space allows for even more community activities to take place in addition to the play cafe. We could become the village we parents truly need; offering parenting classes, networking parents and caregivers in need with those that could help, mommy & me yoga classes, and so much more. All within our Southern Indiana community.

Why now?

- In recent years, there has been an increasing demand for indoor play establishments that offer children opportunities to engage in open-ended, imaginative play. This type of play allows children to explore their creativity, develop problem-solving skills, and learn through play. Many indoor play establishments are designed to cater specifically to children aged 0-4, offering a range of play activities that are age-appropriate and designed to stimulate their development.
- One of the main market trends for indoor play establishments that focus on open-ended, imaginative play is the increasing popularity of sensory play. Sensory play is a type of play that stimulates a child's senses, such as touch, smell, taste, sight, and sound. This type of play is beneficial for young children as it helps to develop their cognitive, language, and social skills.
- Another trend in the market is the use of technology to enhance play experiences. Some indoor play establishments are incorporating digital elements, such as augmented reality, interactive screens, and digital games, into their play areas to create a more immersive and engaging experience for children.
- Additionally, there is a growing emphasis on safety and cleanliness in indoor play establishments. Parents are increasingly concerned about the risk of illness and infection in public spaces, especially those that cater to young children. As a result, many indoor play establishments are investing in measures to ensure that their premises are hygienic and safe for children to play.

A special thanks...

One of our biggest mentors and advisors has been the team and partners at the Southern Indiana Chamber of Commerce and Indiana Small Business Development Center. They have helped guide us and have provided valuable tools and information to get us started on this venture.

We also have the support of our tax & financial advisor; a professional who is certified in the Profit First method, on whom we rely for guidance and expertise. We are supported by our friends and family, most of whom also have young children, and feel the need for this type of business in our community. These friends and family have already been generous with their time and opinions by filling out our first market research survey, and we know they will continue to be valuable resources.

Why Us?

- As parents ourselves, we understand firsthand the importance of finding a space where our little one feels at home. A place filled with engaging toys, appropriately sized play equipment, and imagination-building activities.

- By combining our knowledge of what families like ours are looking for with our vision for the theme and design of the play cafe, we believe parents will be eager to bring their children back time and time again.
- We've noticed that the only other local play cafe is somewhat minimalist, so we aim to provide a wide variety of toys, play structures, bookshelves, and cozy decor complete with colorful forest friends.
- Our concept is designed to delight children and get rave reviews from parents.

Our Advantages

- **Unique Concept:** Bear Cub Play Cafe is the only play cafe in Southern Indiana that will combine a play area for children with food and beverage services for both adults and children. This unique concept provides a one-stop shop for families with young children, who can enjoy playing and socializing while also having a meal or a snack.
- **Inclusive Environment:** Our play cafe is committed to creating a welcoming and inclusive space that fosters creativity, curiosity, and imagination. We strive to provide an environment that is safe and comfortable for children of all abilities, including those with special needs.
- **High-Quality Food:** Bear Cub Play Cafe hopes to offer a range of healthy and tasty food and beverage options for both adults and children. We plan to partner with local restaurants and bakeries who source their ingredients from local and organic suppliers, and offer options that cater to various dietary needs, including gluten-free, vegan, and vegetarian choices.
- **Exceptional Service:** We are committed to providing exceptional service to our customers. Our staff will be trained to be friendly, attentive, and knowledgeable about our offerings. We will strive to create a memorable experience for each customer and build long-lasting relationships with our patrons.

If a material change occurs after you make an investment commitment but before the Offering closes, then the Company will notify you and ask whether you want to invest anyway. If you do not affirmatively choose to invest, then your commitment will be cancelled, your funds will be returned to you, and you will not receive any securities.

(L) Price of the Securities

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as “Notes.” The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000.

(M) Terms of the Securities

Overview

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as the “Notes.” The Terms of the Notes are set forth in the Revenue Share Agreement accompanying this Form C in Appendix A. Copies of the Note and Revenue Sharing Agreement are attached to this Form C.

Summary of Terms

Revenue Percentage ¹	2.5 - 7.8% ²
Payment Deadline	2029-06-30
Maximum Payment Multiple ³ - Early Investors - All Other Investors	1.8 x 1.6 x
Sharing Start Date	The first day after disbursement that the company has revenues greater than one (\$1) dollar
First Payment Date	The last day of the calendar quarter ending not less than 90 days after the Sharing Start Date
Seniority	Subordinated
Securitization	Unsecured
Accrual Rate	3.52%

¹ as defined in the note agreement included in Appendix A

² The rate of revenue sharing is calculated on a linear scale with a minimum rate of 2.5% and a maximum rate of 7.8% and is rounded to the nearest 1/10th percent. The final rate is based on the amount raised and is calculated after the offering has successfully closed. As the amount raised in the offering increases, the rate of revenue sharing increases. For example, a hypothetical offering could result in the following revenue sharing percentages, depending on the amount raised:

Amount Raised	Revenue Sharing Percentage
\$40,000	2.5%
\$61,000	3.8%
\$82,000	5.2%
\$103,000	6.5%
\$124,000	7.8%

³ To reward early participation, the investors who contribute the first \$25,000.0 raised in the offering will receive a 1.8x cap. Investors who contribute after \$25,000.0 has been raised in the offering will receive a 1.6x cap.

Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document

called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C. Additionally, general terms are outlined below and in the Company's offering page.

Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

No Right to Transfer

You should plan to hold the Notes until maturity. The Notes will be illiquid (meaning you might not be able to sell them) for at least four reasons:

- The Revenue Sharing Agreement prohibits the sale or other transfer of Notes without the Company's consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.
- By law, for a period of one year you won't be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an "accredited" investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

Modification of Terms of Notes

The terms of the Notes and the Revenue Sharing Agreement may be modified or amended with the consent of Investors holding 50% of the Notes, measured by the total amount outstanding under each Note.

Other Classes of Securities

Name of Security	Limited Liability Company Interests
Number of Shares Outstanding	N/A
Describe Voting Rights of These Securities, Including Any Limitations on Voting Rights	N/A
How these securities differ from the revenue sharing notes being offered to investors	Limited Liability Company Interests are an equity interest, whereas Revenue Sharing Notes are a debt obligation of the Company.

Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

Name of Holder	% of Voting Power (Prior to Offering)
Cortney Kaczmarek	50%
Renny Kaczmarek	50%

How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to pay you, or, if the Company does not make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its business. If they make good business decisions, it is more likely you will be paid. If they make poor business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.

(N) The Funding Portal

The Company is offering its securities through MainVest, Inc., which is a "Funding Portal" licensed by the Securities and Exchange Commission and FINRA. MainVest Inc.'s Central Index Key (CIK) number is 0001746059, their SEC File number is 007-00162, and their Central Registration Depository (CRD) number is 298384.

(O) Compensation of the Funding Portal

Upon successful funding of the Offering, the Funding Portal will receive as the "Revenue Securement Fee"; 4.5% of the amount of the Offering raised by In-Network Users of the Platform plus 9.0% of the amount of the Offering raised by all other investors. "In-Network Users" means a user of Mainvest.com who who have utilized the Company's specified in-network link on the Site.

(P) Indebtedness of the Company

The Company has no indebtedness outside of the debt the Company is expecting to raise through regulation crowdfunding on MainVest.

(Q) Other Offerings of Securities within the Last Three Years

The Company has not made any offerings with other third-party regulation crowdfunding companies in the past three years.

(R) Transactions Between the Company and “Insiders”

(S) The Company’s Financial Condition

Bear Cub Play Cafe is a business that is in its early stages of operation, and therefore, it does not have a significant operating history to discuss. However, we have established financial milestones and have observed positive trends in our financial condition and results of operations since our inception.

Based on the financial statements provided, we can see a steady increase in revenue year over year, driven by our strong customer base and the growing demand for family-oriented play and community spaces. We expect this positive trend to continue as we expand our offerings and attract more families to our establishment.

The proceeds from our offering and any other known or pending sources of capital will greatly impact our liquidity and the viability of our business. These funds will be used to cover the startup costs, including leasehold improvements, equipment purchases, and initial inventory. By receiving these funds, we will be able to meet our financial obligations and ensure a strong start for Bear Cub Play Cafe.

In terms of available sources of capital, we have explored potential lines of credit and investment opportunities from shareholders. These additional sources of capital will provide us with the necessary financial resources to fuel our growth and support our ongoing operations.
