14. We note your response to prior comment 6. Please address the following with respect to your application of ASC Topic 820:
  - Provide us with your accounting policy for determining the fair value of bitcoin in accordance with ASC Topic 820.

- As the trust is expected to primarily transact with the bitcoin markets through the Authorized Participant, confirm for us that your determination of the principal market will be from the perspective of the Authorized Participant.
  - Tell us if you and/or your Authorized Participant plan to transact in multiple markets. If so, please ensure that your accounting policy reflects that fact and describe the types of markets in which you and/or your Authorized Participant expect to transact.   - Clarify for us whether you anticipate your principal market will be one which you or your Authorized Participant will be able to access and in which you or your Authorized Participant will normally transact. Refer to ASC Topics 820-10-35-6A and 820-10-35-5A respectively.
  - In your disclosure on page 62 you disclose your intention to engage a third party to obtain a price from a principal market for bitcoin, and that price will form the basis for your determination of fair value in accordance with GAAP. Please explain how your determination of “a principal market” for bitcoin is consistent with the guidance in ASC Topic 820-10-35-6A which states the principal market shall be considered from the perspective of the reporting entity.
15. Please tell us what you mean by your disclosure that “[t]he selection of exchanges for use in the CF Benchmarks Index is based on the accessible venues on which the Trust will primarily execute transactions” and that “[t]he list of exchanges on which the Trust executes transactions may evolve from time to time.” Also disclose the characteristics of a trading venue that is eligible to be a Constituent Exchange for the CF Benchmarks Index.
16. Please revise to describe the oversight procedures to ensure that the Index is administered through the Index Administrator's codified policies for Index integrity, and provide a brief description of the material codified policies for Index integrity.

In this regard, we note your disclosure on page 84 that "[t]he Prime Broker is not required to hold any of the bitcoin in the Trust's Trading Balance in cold storage or to hold any such bitcoin in segregation, and neither the Trust nor the Sponsor can control the method by which the Prime Broker holds the bitcoin credited to the Trust's Trading Balance." Also identify the Connected Trading Venues, how the Prime Broker selects the Connected

Please clarify what you mean by "a pro rata share of the bitcoin."
