THE MENU

Kid Sister is influenced by other chef-driven wine bars in New York, San Francisco, Los Angeles, and beyond. A delicate balance of technique and simplicity, inventive but familiar. There isn't a dedicated genre of cuisine.

Kid Sister's menu is small, eight to ten dishes. Split into thirds, with each section gradually increasing in size.

The entire menu is built to be shared, encouraging guests to order multiple dishes. Dishes move with the season and rotate in and out, giving guests a chance to experience something different each time they dine.

Kid Sister stays up on current food trends and techniques, pulling inspiration from all over to make something exciting, challenging, and special for guests.

WINE PROGRAM'S INSPIRATION & DIRECTION

Kid Sister has a unique and ever-changing wine program developed through a culmination of experiences in varying wine-centric settings.

Through a carefully sourced rotating glass list, as well as a 70-100 bottle list, there are options to satisfy guests of any knowledge level. Because the list constantly evolves, guests are encouraged to experiment.

Creating an approachable environment to learn about – or just enjoy – wine is a key component of the program and brand.

Forecasted milestones

Kid Sister forecasts the following milestones:

Achieve \$550,000 revenue per year by 2024.

Achieve \$30,000 profit per year by 2025.

Limited operating history

Kid Sister was established in January, 2022. Accordingly, there are limited financial statements and information for investors to review. When evaluating this investment opportunity, investors should consider factors outlined in the risk section as well. Kid Sister applied an Extension of Time To File Certain Business Income Tax, Information, and Other Returns for 2022.

Risk Factors

Financial Forecasts Risks

The financial forecasts provided by us herein are reasonable forecasts by us based upon assumption of stable economic conditions and other various assumptions regarding operations. The validity and accuracy of these assumptions will depend in large part on future events over which Kid Sister and the key persons will have no control. Changes in assumptions or their underlying facts could significantly affect the forecasts. To the extent that the assumed events do not occur, the outcome may vary significantly from the projected outcomes. Consequently, there can be no assurance that the actual operating results will correspond to the forecasts provided herein. Additionally, Kid Sister is a newly established entity and therefore has no operating history from which forecasts could be projected with.

Payments and Return Are Unpredictable

Because your payments are based on the revenue of Kid Sister, and the revenue of Kid Sister can go up or down (or even disappear altogether) unpredictably, it is impossible to predict how much you will receive and when. And because the payments are unpredictable, so is your ultimate return.

Future Investors Might Have Superior Rights

If Kid Sister needs more capital in the future and takes on additional debt or other sources of financing, the new investors might have rights superior to yours. For example, they might have the right to be paid before you are, to receive larger distributions, to have a greater voice in management, or otherwise.

The Company is Not Subject to the Corporate Governance Requirements of the National Securities Exchanges

Any company whose securities are listed on a national stock exchange (for example, the New York Stock Exchange) is subject to a number of rules about corporate governance that are intended to protect investors. For example, the major U.S. stock exchanges require listed companies to have an audit committee made up entirely of independent members of the board of directors (i.e., directors with no material outside relationships with Kid Sister or management), which is responsible for monitoring Kid Sister's compliance with the law. Kid Sister will not be required to implement these and other investor protections.

The Notes Are Unsecured and Uninsured

The Notes are not secured by any collateral, nor are they guaranteed or insured by the FDIC or any other entity.

Inability to Sell Your Investment

The law prohibits you from selling your securities (except in certain very limited circumstances) for 12 months after you acquire them. Even after that one-year period, a host of Federal and State securities laws may limit or restrict your ability to sell your securities. Even if you are permitted to sell, you will likely have difficulty finding a buyer because there will be no established market. Given these factors, you should be prepared to hold your investment for its full term.
