Our Team

**James Reina** Cofounder & CEO

Before founding Jibby, James was a 2x founder—finding success in coffee and eCommerce. He started roasting with his coffee-fanatic mother when he was just 11 years old, and bootstrapped a neighborhood cafe in Brooklyn at 17.

**Alvaro Ortega** Cofounder & COO

Alvaro managed operations for two \$1M/year CPG brands (at the same time!) Before that, he was the Director of an Impact Investment Fund, helping underserved businesses raise capital. Plus, he's a stellar cold brewer.

**Laura Brooks** Fractional CMO

Laura is a growth whiz — our marketing & eComm expert. She's been part of 2 successful acquisitions including VP of Marketing & eComm at Solid Gold Pet to H&H Group for \$163M and Director of Marketing at Angie's Boomchickapop to Conagra for \$250M.

**Peter Strnad** Fractional Innovation, R&D

Peter is our in-house CPG data geek. With over 20 years of experience across PepsiCo, Mars, & MillerCoors—Peter is essential to Jibby's positioning, strategy, & product development.

**Symon Rowlands** Fractional Field Marketing

Beverage marketing is in Symon's DNA. His experience comes from some of the biggest names in beverage—Monster, Muscle Milk, and Celsius. He's been an integral advisor to Jibby, making sure we get liquid to lips as efficiently as possible.

## What if Your Morning Ritual Was Also Your Wellness Routine?

The modern world has become increasingly chaotic and stressful, and it's wreaking havoc on our minds and bodies. Our reliance on quick fixes like caffeine-heavy energy drinks, sugar-filled snacks, and digital distractions only amplify the strain.

It's time for a change.

In increasing fashion, Americans are looking for food and beverage to help with mental health, stress, brain power, and energy. Demand for functional foods is exploding—especially among Gen Z and Millennials.
