RISK FACTORS

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

An investment in the Company involves a high degree of risk. You should carefully consider the risks described below and all of the other information contained in this Memorandum before deciding whether to purchase the securities being offered by Achieve Clinics, Inc. If any of the following risks actually materialize, as well as other risks not currently known to us or that we currently consider immaterial, our business and prospects could be seriously harmed and you could lose all or part of your investment. The risks and uncertainties described below are not exclusive and investors should also consider other sources of information regarding before making a decision.

We have a history of losses that may continue, which may negatively impact our ability to achieve our business objectives.

We cannot assure you that we can achieve or sustain profitability on a quarterly or annual basis in the future. There can be no assurance that future operations will be profitable. We may not achieve our business objectives and the failure to achieve such goals would have an adverse impact on us.

Our ability to generate revenue to support our operations is uncertain.

We are in the early stage of our business and have a limited history of generating revenues. We have a limited operating history upon which you can evaluate our potential for future success, and we are subject to the additional risks affecting early-stage businesses. Rather than relying on historical information, financial or otherwise, to evaluate our Company, you should evaluate our Company in light of your assessment of the growth potential of our business and the expenses, delays, uncertainties, and complications typically encountered by early-stage businesses, many of which will be beyond our control.

The Company has not obtained an independent opinion regarding the valuation of the Company or the Securities, nor has there been any legal, investment banking, or other diligence in connection with the valuation of the Company or the Securities. Prospective investors must rely on their

own business and investment background and their own investigation of the Company and its proposed business in determining whether to invest in the Company and its securities.

This Offering is being made in reliance on an exemption from registration contained in the Securities Act and the rules and regulations thereunder, and on similar exemptions from the qualification provisions of applicable state securities laws. No regulatory authority has reviewed the terms of this Offering, the disclosure of risks and the fairness of the terms of the Offering or the business of the Company. Prospective investors must also recognize that they do not necessarily have any of the protections afforded by applicable federal and state securities laws as may be provided in registered and/or qualified offerings and therefore must judge the fairness of the terms of this Offering and the adequacy and accuracy of this Memorandum without the benefit of prior review by any regulatory agency.

Our planned expense levels are, and will continue to be, based in part on our expectations, which are difficult to forecast accurately based on our stage of development and factors outside of our control. We may be unable to adjust spending in a timely manner to compensate for any unexpected developments. Further, business development expenses may increase significantly as we expand operations. To the extent that any unexpected expenses precede, or are not rapidly followed by, a corresponding increase in revenue, our business, operating results, and financial condition may be materially and adversely affected.

Our success depends on our ability to effectively market our services and products and successfully manage our operations. Our ability to successfully accomplish these objects will depend upon a number of factors, including the following:

- signing with strategic partners;
 - the continued development of our business;
 - the hiring, training, and retention of competent personnel;
 - the ability enhance our operational, financial, and management systems;
 - the availability of adequate financing;
- competitive factors;
- general economic and business conditions;
 - the impact of competitors or competitive products and services, and our ability to compete in the cancer cell therapy trial services and cancer patient biospecimen markets;

The market for our services and biomaterial is highly fragmented and rapidly changing. We can potentially compete against a variety of companies with respect to different aspects of our business. We may also be subject to competition from large, well-established companies which have significantly greater financial, marketing and other resources than we do. We may face competition from companies we do not yet know about. If existing or new companies develop, market or offer competitive solutions, acquire one of our existing competitors or form a strategic alliance with one of our competitors, our ability to compete effectively could be significantly compromised and our operating results could be harmed.

We are subject to a variety of laws, regulations and industry standards that involve matters related to our business, including Good Manufacturing Practice standards, patient data related laws from Health Insurance Portability and Accountability Act of 1996 (HIPAA), along with taxation and state, local and municipal laws. Our business, including our ability to operate and expand, could be adversely affected if legislation, regulations or industry standards are adopted, interpreted or implemented in a manner that is inconsistent with our current business practices and that require changes to these practices. Existing and future laws, regulations and industry standards could restrict our operations, and our ability to retain or increase our business and we may not be able to maintain or grow our revenues as anticipated.

Our ability to raise capital in the future may be limited, and our failure to raise capital when needed could prevent us from growing. We may in the future find it necessary to raise additional capital through public or private financing or other arrangements. Such financing may not be available on acceptable terms, or at all, and our failure to raise capital when needed could harm our business. Additional equity financing may dilute the interests of our stockholders, and debt financing, if available, may involve

restrictive covenants and could reduce our profitability. If we cannot raise funds on acceptable terms, we may not be able to grow our business or respond to competitive pressures.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

Related Party Transaction

Refer to Question 26 of this Form C for disclosure of all related party transactions.

Liquidity & Capital Resources

To-date, the company has been financed with \$45,000 in convertibles and \$10,000 in SAFEs.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 36 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 9 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Achieve Clinics, Inc. cash in hand is \$144,515, as of April 2024. Over the last three months, revenues have averaged \$5,725/month, cost of goods sold has averaged \$2,650/month, and operational expenses have averaged \$10,650/month, for an average burn rate of \$7,575 per month. Our intent is to be profitable in 4 months.

The prior three months includes approximately \$17,000 in revenues. In addition, increased contracting activities led to higher than usual legal expenses of approximately \$19,000 year to date. In addition, we received \$10,000 in additional investor capital in 2024. We expect to receive additional customer revenues during the next 3-6 months of approximately \$100-500K. With ongoing contracting and similar outside expense generating activities expected, expenses may continue to trend in the \$8-15K/month range.

We are not currently profitable. With expected patient collections and hiring plans, we expect approximately \$1-2 million additional capital can enable profitability. We plan to raise such capital by year end.

Combined with existing revenues, expected angel and VC investments should provide sufficient capital to cover short-term burn.

All projections in the above narrative are forward-looking and not guaranteed.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.

FINANCIAL INFORMATION

29. Include financial statements covering the two most recently completed fiscal years or the period(s) since inception, if shorter:

Refer to Appendix C, Financial Statements

I, Paul Chun, certify that:

- (1) the financial statements of Achieve Clinics, Inc. included in this Form are true and complete in all material respects ; and
- (2) the financial information of Achieve Clinics, Inc. included in this Form reflects accurately the information reported on the tax return for Achieve Clinics, Inc. filed for the most recently completed fiscal year.

Paul Chun
CFO

OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and
- (2) such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

The Lead Investor. As described above, each Investor that has entered into the Investor Agreement will grant a power of attorney to make voting decisions on behalf of that Investor to the Lead Investor (the "Proxy"). The Proxy is irrevocable unless and until a Successor Lead Investor takes the place of the Lead Investor, in which case, the Investor has a five (5) calendar day period to revoke the Proxy. Pursuant to the Proxy, the Lead Investor or his or her successor will make voting decisions and take any other actions in connection with the voting on Investors' behalf.

The Lead Investor is an experienced investor that is chosen to act in the role of Lead Investor on behalf of Investors that have a Proxy in effect. The Lead Investor will be chosen by the Company and approved by Wefunder Inc. and the identity of the initial Lead Investor will be disclosed to Investors before Investors make a final investment decision to purchase the securities related to the Company.

The Lead Investor can quit at any time or can be removed by Wefunder Inc. for cause or pursuant to a vote of investors as detailed in the Lead Investor Agreement. In the event the Lead Investor quits or is removed, the Company will choose a Successor Lead Investor who must be approved by Wefunder Inc. The identity of the Successor Lead Investor will be disclosed to Investors, and those that have a Proxy in effect can choose to either leave such Proxy in place or revoke such Proxy during a 5-day period beginning with notice of the replacement of the Lead Investor.

The Lead Investor will not receive any compensation for his or her services to the SPV. The Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a fund ("Fund") for accredited investors for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such as circumstance, the Lead Investor may act as a portfolio manager for that Fund (and as a supervised person of Wefunder Advisors) and may be compensated through that role.

Although the Lead Investor may act in multiple roles with respect to the Company's offerings and may potentially be compensated for some of its services, the Lead Investor's goal is to maximize the value of the Company and therefore maximize the value of securities issued by or related to the Company. As a result, the Lead Investor's interests should always be aligned with those of Investors. It is, however, possible that in some limited circumstances the Lead Investor's interests could diverge from the interests of Investors, as discussed in section 8 above.

Investors that wish to purchase securities related to the Company through Wefunder Portal must agree to give the Proxy described above to the Lead Investor, provided that if the Lead Investor is replaced, the Investor will have a 5-day period during which he or she may revoke the Proxy. If the Proxy is not revoked during this 5-day period, it will remain in effect.

Tax Filings. In order to complete necessary tax filings, the SPV is required to include information about each investor who holds an interest in the SPV, including each investor's taxpayer identification number ("TIN") (e.g., social security number or employer identification number). To the extent they have not already done so, each investor will be required to provide their TIN within the earlier of (i) two (2) years of making their investment or (ii) twenty (20) days prior to the date of any distribution from the SPV. If an investor does not provide their TIN within this time, the SPV reserves the right to withhold from any proceeds otherwise payable to the Investor an amount necessary for the SPV to satisfy its tax withholding obligations as well as the SPV's reasonable estimation of any penalties that may be charged by the IRS or other relevant authority as a result of the investor's failure to provide their TIN. Investors should carefully review the terms of the SPV Subscription Agreement for additional information about tax filings.

INSTRUCTIONS TO QUESTION 30: If information is presented to investors in a format, media or other means not able to be reflected in text or portable document format, the issuer should include:

(a) a description of the material content of such information;

(b) a description of the format in which such disclosure is presented; and

(c) in the case of disclosure in video, audio or other dynamic media or format, a transcript or description of such disclosure.

ONGOING REPORTING

32. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its website, no later than:

120 days after the end of each fiscal year covered by the report.

33. Once posted, the annual report may be found on the issuer's website at:

<https://achieveclinics.com/invest>

The issuer must continue to comply with the ongoing reporting requirements until:

1. the issuer is required to file reports under Exchange Act Sections 13(a) or 15(d);
2. the issuer has filed at least one annual report and has fewer than 300 holders of record;
3. the issuer has filed at least three annual reports and has total assets that do not exceed \$10 million;
4. the issuer or another party purchases or repurchases all of the securities issued pursuant to Section 4(a)(6), including any payment in full of debt securities or any complete redemption of redeemable securities; or the issuer liquidates or dissolves in accordance with state law.
