2024 REPORT

Caledonian Braves FC

LETTER

Dear investors,

What a remarkable year it's been! When we first shared our vision of creating Scotland's most innovative football club, it was just that – a vision. Today, thanks to you and over 9,000 fellow owners from 64 countries, we're writing history together.

Let me share some incredible milestones that YOU made possible:

• Our WeFunder campaign didn't just succeed – it shattered expectations, raising over $2.74 million! This overwhelming support proves that our community believes in building something truly special.

• We're not just any football club – we're YOUR club, representing a global family of owners from Seattle to Sydney. Our UK owners (61%) and growing US contingent (9.5%) are leading the charge, organizing meetups and bringing our community to life.

• We're making our first-ever European appearance in the Fenix Trophy, proving that dreams do become reality when we work together.
• Our motto "Because together we got power" isn't just words – it's being lived every matchday at Alliance Park, where we're building a fortress for our future.

Remember why you joined us? You saw more than a football club – you saw a revolution in how sports clubs can be owned, operated, and loved by a global community. That vision is now our reality, and we're just getting started.

The next chapter is even more exciting: we're developing a new stadium, launching the Caledonian Braves Charity in 2025, and continuing to push boundaries in digital fan engagement. Our journey from Scotland's youngest professional football club to a global phenomenon is a testament to what we can achieve together. Thank you for believing in us, for being part of our story, and for helping us prove that together, we truly do have power.

We need your help!

Actively discussing with the ownership community as to where owners can get involved as Non Executive Directors or on an advisory committee. We welcomed applications and asked the community to complete an online form should they wish to help the organization, listing their skillsets and areas of expertise. We are currently working through these applications and we are very excited, and humbled, but the goodwill shown to the club by our investors and the intellectual capital that we now have access to.

Sincerely,

Christopher Ewing

Founder and CEO

How did we do this year?

REPORT CARD

A+

☺ The Good

We reached our Wefunder Goal

We saw huge improvement of team performance

We raised our profile significantly, growing our online community and online social media presence beyond expectations

☹ The Bad

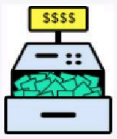
Perks took too long to ship

Communication with the community could have, at times, been better

Staffing levels left us stretched and under resourced leading to some frustrations

2024 At a Glance

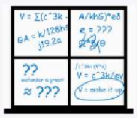
January 1 to December 31



$0
Revenue

-$30,405
Net Loss

$1,022,248
Short Term Debt



$750,000
Raised in 2024

$1,665,593
Cash on Hand

We ❤ Our 8,717 Investors

Thank You For Believing In Us

Options: 0

Form C Risks:

Poor performance by the team could trigger a relegation battle (demotion), decrease our attendance and negatively impact our finances.

EACH INVESTOR IS AWARE THAT AN INVESTMENT IN THE COMPANY IS SPECULATIVE AND INVOLVES A HIGH DEGREE OF RISK, INCLUDING THE POSSIBLE LOSS OF THE ENTIRE INVESTMENT, AND SUCH INVESTOR HAS CAREFULLY READ AND CONSIDERED THE FOLLOWING RISK FACTORS AND ALL MATTERS SPECIFIED IN THESE SUBSCRIPTION DOCUMENTS IN DETERMINING WHETHER OR NOT TO INVEST IN THE COMPANY AS SPECIFIED HEREIN. EACH INVESTOR UNDERSTANDS THAT THE FOLLOWING FACTORS ARE NOT AN ALL-INCLUSIVE LIST OF POSSIBLE RISKS INHERENT IN THE OFFERING.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

The Company is regulated by the Scottish FA and the SPFL. A change in rules by either could affect the progress of the club. Two notable areas where rules changes could affect the Company's success are the league pyramid structure and club licensing rights.

Tax Risks. No representation or warranty of any kind is made by the Company, the officers, directors, counsel to the Company, or any other professional advisors thereto with respect to any tax consequences of any investment in the Company. EACH PROSPECTIVE INVESTOR SHOULD SEEK THE INVESTOR'S OWN TAX ADVICE CONCERNING THE TAX CONSEQUENCES OF AN INVESTMENT IN THE COMPANY.

No Guarantee of Return. No assurance can be given that an Investor will realize a substantial return on investment, or any return at all, or that an Investor will not lose a substantial portion or all of the investment. For this reason, each prospective investor should carefully read the offering material and should consult with an attorney, accountant, and/or business advisor prior to making any investment decision.

Certain Factors May Affect Future Success. Any continued future success that the Company might enjoy will depend upon many factors including factors beyond our control and/or which cannot be predicted at this time. These factors may include but are not limited to: changes in general economic conditions; changes in the regulatory or league environment that makes it more difficult to operate as planned; our ability to expand our fan base and retain fans; and reduced margins caused by competitive pressures. These conditions may have a material adverse effect upon our business, operating results, and financial condition.

Revisions to Use of Proceeds. It is possible that the use of the proceeds will be revised by management. Management will have significant flexibility in applying the net proceeds of this offering within the scope of the business of the Company. The failure of management to apply such funds effectively could have a material adverse effect on the Company's business, prospects, financial condition, and results of operations.

We depend on the services of key employees and players, whose expertise would be difficult to replace. The Company's success depends on the Company's ability to recruit, train, and retain qualified personnel. The loss of the services of any of the key members of our management or team may have a material adverse effect on the Company's business, operating results, and financial condition. Our business may be harmed if we lose the services of these people and we are not able to attract and retain qualified replacements.

Because there is no market for the Company's common stock, you may not be able to sell your

Because there is no market for the Company's common stock, you may not be able to sell your shares. There is currently no, and there may never be any, secondary market trading in the stock, and investors' ability to sell their shares are further limited by transfer restrictions under applicable securities laws and the terms of the subscription agreement. You may never be able to sell your shares and recover any part of your investment.

Payment of dividends. The Company is not required to, and there is no guarantee that the Company will, pay dividends in any year.

The offering price of our shares is arbitrary. The offering price of $333 per share bears no relationship to established value criteria such as net tangible assets, or a multiple of earnings per share and accordingly should not be considered an indication of the actual value of the Company.

Description of Securities for Prior Reg CF Raise

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability

arising from the existence of any such conflict of interest.

Minority Ownership

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Board Of Directors, and the Investor will have no independent right to name or remove an officer or member of the Board Of Directors of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Exercise of Rights Held by Principal Shareholders

As holders of a majority-in-interest of voting rights in the Company, the shareholders may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, the shareholders may change the terms of the Articles of Incorporation for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. The shareholders may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns. The shareholders have the right to redeem their securities at any time. Shareholders could decide to force the Company to redeem their securities at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability. In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional stock, an

Investor's interest will typically also be diluted.

Based on the risks described above, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Restrictions on Transfer

The securities offered via Regulation Crowdfunding may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

to the issuer;
to an accredited investor ;
as part of an offering registered with the U.S. Securities and Exchange Commission; or
to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

Valuation Methodology for Prior Reg CF Raise

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

In the future, we will perform valuations of our common stock that take into account factors such as the following:

unrelated third party valuations of our common stock;
the price at which we sell other securities, such as convertible debt or preferred Stock, in light of the rights, preferences and privileges of our those securities relative to those of our common stock;
our results of operations, financial position and capital resources;
current business conditions and projections;
the lack of marketability of our common stock;
the hiring of key personnel and the experience of our management;
the introduction of new products;
the risk inherent in the development and expansion of our products;
our stage of development and material risks related to our business;
the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
industry trends and competitive environment;
trends in consumer spending, including consumer confidence;
overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
the general economic outlook.

We will analyze factors such as those described above using a combination of financial and

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.
