Draft Registration Statement on Form F-4

Cover Page

1. Please disclose prominently on the prospectus cover page that you are a Cayman Islands holding company with operations conducted by your subsidiaries based in Hong Kong and that this structure involves unique risks to investors. Provide a cross-reference to your detailed discussion of risks facing the company and the offering as a result of your corporate structure.

2. Provide prominent disclosure about the legal and operational risks associated with being based in or having the majority of the company's operations in Hong Kong. Your disclosure should make clear whether these risks could result in a material change in your operations and/or the value of the securities you are registering for sale or could significantly limit or completely hinder your ability to offer or continue to offer securities to investors and cause the value of such securities to significantly decline or be worthless. Your disclosure should address how recent statements and regulatory actions by China's government, such as those related to the use of variable interest entities and data security or anti-monopoly concerns, have or may impact the company's ability to conduct its business, accept foreign investments, or list on a U.S. or other foreign exchange. Please disclose the location of your auditor's headquarters and whether and how the Holding Foreign Companies Accountable Act, as amended by the Consolidated Appropriations Act, 2023, and related regulations will affect your company. Your prospectus summary should address, but not necessarily be limited to, the risks highlighted on the prospectus cover page.
3. Clearly disclose how you will refer to the holding company and subsidiaries when providing the disclosure throughout the document so that it is clear to investors which entity the disclosure is referencing and which subsidiaries or entities are conducting the business operations. For example, prominently disclose that your subsidiaries conduct operations in Hong Kong, and that the holding company does not conduct operations. Please also disclose clearly that investors will be receiving securities of the holding company.
4. Please revise your disclosure here to provide a description of how cash is transferred through your organization and disclose your intentions to distribute earnings or settle amounts. State whether any transfers, dividends, or distributions have been made to date between the holding company and its subsidiaries, or to investors, and quantify the amounts where applicable. In this regard, we note your risk factor disclosure regarding your reliance on dividends and other distributions on equity paid by your operating subsidiaries.

General

37. We note that Maxim Group LLC was the underwriter for the initial public offering of AIB Acquisition Corp. We further note that Maxim is the sole advisor on the business combination transaction with the target company. Please tell us, with a view to disclosure, whether you have received notice, or any other indication, from Maxim Group or any other firm engaged in connection with your initial public offering that it will cease involvement in your transaction and how that may impact your deal or the deferred underwriting compensation owed for AIB's initial public offering.
38. With a view toward disclosure, please tell us whether your sponsor is, is controlled by, or has substantial ties with a non-U.S. person. Please also tell us whether anyone or any entity associated with or otherwise involved in the transaction, including your target, is, is controlled by, or has substantial ties with a non-U.S. person. If so, also include risk factor disclosure that addresses how this fact could impact your ability to complete your initial business combination. For instance, discuss the risk to investors that you may not be able to complete an initial business combination with a U.S. target company should the transaction be subject to review by a U.S. government entity, such as the Committee on Foreign Investment in the United States (CFIUS), or ultimately prohibited. Further, disclose that the time necessary for government review of the transaction or a decision to prohibit the transaction could prevent you from completing an initial business combination and require you to liquidate. Disclose the consequences of liquidation to investors, such as the losses of the investment opportunity in a target company, any price appreciation in the combined company, and the warrants, which would expire worthless.
