Jonny Boyarsky

Former and Current Founder Who Helps Startups for Free
Boston, Massachusetts, United States

Summary

Startup operator and advisor currently helping founders for free. Also a Principal at Athenian VC.

If you're going to reach out via DMs and you're a startup, provide a two sentence description and then the tags of stage, industry, and geography. Please include traction metrics as well. If you're pre-product, I'm also guaranteed to tell you to go find a way to build it, which I know is hard, but people don't usually want to bet on preproduct startups unless you know them personally or you're an edge case.

B2B startups in FinTech and AI can be pre product if they're based in Boston/NYC or nearby.

Experience

Athenian VC

Principal

September 2023 - Present (3 months)
Boston, Massachusetts, United States

Literally Helping Startups

Co-Founder

March 2023 - Present (9 months)
