I've known John, the founder since junior high school. Given his track record of innovation and success, I didn't want to miss out on this opportunity. Having seen the specs of the BoatBites app, I'm hoping it will be the best food delivery app anyone has ever seen. John has consistently demonstrated a remarkable ability to succeed, driven by a unique foresight and determination. Despite having no background in technology, he managed to convince APPLE to invest in his first tech startup in Orlando. In 2001, he conceptualized, designed, and built the world's first digital marketplace utilizing a technology similar to "blockchain".

Invested \$25,000 this round & \$50,000 previously

Highlights

- 1 The founder/team members have founded and had profitable exits.
- 2 Huge market. Boaters, No Competition (really).
- 3 Think Uber Eats for Boaters. Mobile app. Low Overhead.
- 4 Defensible. App utilizes multiple layers of AI and proprietary logistical algorithms.
- 5 Beta tests have been profitable & proved logistics.
- 6 60+ years of successful business experience.
- 7 Partnerships in place.

Our Team

John Bonaccorso CEO

On a small team that developed a global marketing framework for American Express. Created & licensed first tech company to APPLE. Created, archived, & deployed the world's first legal digital marketplace using proprietary "blockchain" technology in 2004.

Kipp Kochera Director of Maritime

Tamera Grundhoefer VP of Marketing

Marketing executive with 10 years of experience. My strategies have increased sales for a client by 297%. I have a proven track record in developing and implementing effective marketing strategies that drive growth and improve brand visibility.

Think Uber Eats, but for the water!

What is BoatBites?

Think Uber Eats, but for the water.

The BoatBites app connects Boaters and Beachgoers to hot food, cold drinks, beer, ice, sunscreen, and all the forgotten items while not having to leave their fun in the sun!

- ✓ Hungry boaters?
- ✓ Ice all melted?
- ✓ Need more beer?
- ✓ Need something for the kids?

Get it all delivered using our app!

There is always a party that wants more...

We have surveyed 7,500 USA **boaters** and **beachgoers** who said they regularly:

- Did not pack enough food - 64%
- Ran out of cold drinks - 78% - *we all know you need more beer*
- Most or all of their ice melted - 63%
- Unexpectedly needed medicine, bandaids, etc. - 21%
- Forgot essential items: sunscreen, baby items, sunglasses - 45%

That's where we come in, delivering what you need right to you on the water!

BoatBites

Where Waves Meet Delivery.

- Order
- Pay via app
- Deliver within 1 hour

Why has no one done this before?

It's Hard. No, its freaking REALLY hard.

Uber Eats is easy:

- Your house doesn't move
- The restaurant isn't moving
- Only the delivery driver moves

BoatBites:

- Boats change locations after ordering
- Often food trucks move
- Delivery boats move & fight waves
- There are NO addresses on the water
- Tides and weather change
- Many boats look alike
- Often 100's of boats cluster together

We use AI-driven Predictive Analytics Modeling also used by:

But, we have made it fun!

Stats we love!

- Boats in northern states are operated for MORE days, on average than boats in southern states.
- Two out of three boaters are middle-class.
- While 50% of boat owners have two-people homes, 30% of boat owners have kids.
- 100 million Americans go boating 54 days each year.
- Millennials make up 31% of boater demographics
- 11.9% of U.S. households own a recreational boat
- 61% of boat owners earn less than \$100,000
- Open powerboats are the most popular boat in the U.S.
- 95% of recreational boats are less than 26 feet in length

This is a NATIONAL business.

Region	Days of Operation
Midwest	56 days
Northeast	55 days
South/West	52 days

Who we connect.

- ✓ 7,000+ food boats
- ✓ 75,000+ food trucks
- ✓ 120,000+ water front restaurants
- ✓ 250,000+ grocery and convenience stores
- ✓ 5,000,000+ water delivery people
- ✓ 15,000,000+ boat owners

The complexity behind the app.

Our multi-layered, proprietary AI-driven predictive analytics modeling includes more than 30+ data sets that inform both the food vendors and delivery drivers, in real-time, of the locations to make the most money! Even weeks, days, and hours in advance. We inform boaters of the most popular spots of the day.

These data points include:

- Tides
- Safety issues
- Special events (lake and sandbar parties, holiday events, etc.)
- Historical and current weather (wind, temperature, etc.)
- Current & expected locations of boats in the areas of their choice

**Delivery via drone, jet ski, and well,
who knows what else the future holds?**

Note: forward-looking projections cannot be guaranteed.

Doing our part to keep the water clean.

Environmentally friendly

- Free eco-friendly, dissolving packaging to food vendors
- Mandating eco-friendly paper and bio-degradable straws
- Delivery drivers will be required to ask to remove trash from boats

Environmental Manager:

- Developing processes to minimize environmental impact
- Ensuring compliance with all environmental regulations
- Educating Employees on their responsibility for conservation
- Maintaining Environmental Permits and Records

BOAT PARTIES

SANDBAR PARTIES

SPECIAL EVENTS

Our exclusive BoatBites promo team is the face of the brand, engaging with customers, and crashing sandbar parties with food, drinks, and BoatBites merch!

We have used them to start the fun, promoting our brand, the perks of memberships, and showcasing the way BoatBites brings the fun to the party!

What people are saying.

xwolfden14x Can't tell you how many times this would have made being out on the water more enjoyable!! Let's go!

katrob2151 This is such a great idea! When will you be in Michigan?

austinnave02 this is an amazing concept as a part time uber driver and avid fisherman shouldve considered 🤔🤔🤔🤔🤔

a_potts6146 I would do it! I've said this needs to happen for years! I would love having fun just driving my boat around uber on water for sure!!

froztytheceo This is honestly a great idea y'all keep going

Why BoatBites?

Since the dawn of time...

- The sun has been hot
- Ice melts
- People get hungry
- Humans fail to plan
- Humans have been boating
- Beer gets warm
- Food gets eaten before you're ready to go home
- Sunscreen runs out and you burn your buns
- Your kids don't want to go home yet

You get the idea. We are "where delivery meets the water!" It is not any more complicated than that. All the rest is BS.

BoatBites. Keeping it simple.

What makes us special?

We do not markup items, we compensate delivery drivers 2x more than any other

delivery drivers 2-3x more than any other food delivery app, and offer food vendors a 7-day-a-week/12 hours-a-day opportunity to earn more.

- ✓ **BoatBites Wins**
- ✓ **Boaters and Beachgoers Win**
- ✓ **Food Vendors Win**
- ✓ **Delivery Drivers Win**
- ✓ **YOU WIN**
