\* We have not included a response to this item in this document since no response is required pursuant to the reduced disclosure format permitted by General Instruction H to Form 10-Q.

Below is a list of terms that are common to our industry and used throughout this document:

/d	= per day		MMcf	= million cubic feet
BBtu	= billion British thermal units			

When we refer to cubic feet measurements, all measurements are at a pressure of 14.73 pounds per square inch.

When we refer to “us”, “we”, “our”, or “ours”, we are describing Colorado Interstate Gas Company and/or our subsidiaries.

**COLORADO INTERSTATE GAS COMPANY**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

**1. Basis of Presentation and Significant Accounting Policies**

*Basis of Presentation*

We are an indirect wholly owned subsidiary of El Paso Corporation (El Paso). We prepared this Quarterly Report on Form 10-Q under the rules and regulations of the United States Securities and Exchange Commission (SEC). Because this is an interim period filing presented using a condensed format, it does not include all of the disclosures required by generally accepted accounting principles. You should read it along with our 2004 Annual Report on Form 10-K, which includes a summary of our significant accounting policies and other disclosures. The financial statements as of March 31, 2005, and for the quarters ended March 31, 2005 and 2004, are unaudited. We derived the balance sheet as of December 31, 2004, from the audited balance sheet filed in our 2004 Annual Report on Form 10-K. In our opinion, we have made all adjustments which are of a normal, recurring nature to fairly present our interim period results. Due to the seasonal nature of our business, information for interim periods may not be indicative of our results of operations for the entire year.

*Significant Accounting Policies*

Our significant accounting policies are consistent with those discussed in our 2004 Annual Report on Form 10-K.

*New Accounting Pronouncements Issued But Not Yet Adopted*

As of March 31, 2005, there were several accounting standards and interpretations that had not yet been adopted by us. Below is a discussion of a significant standard that may impact us.

*Accounting for Asset Retirement Obligations.* In March 2005, the Financial Accounting Standards Board (FASB) issued FASB Interpretation (FIN) No. 47, *Accounting for Conditional Asset Retirement Obligations*. FIN No. 47 requires companies to record a liability for those asset retirement obligations in which the timing or amount of settlement of the obligation are uncertain. These conditional obligations were not addressed by Statement of Financial Accounting Standards No. 143, which we adopted on January 1, 2003. FIN No. 47 will require us to accrue a liability when a range of scenarios indicate that the potential timing and settlement amounts of our conditional asset retirement obligations can be determined. We will adopt the provisions of this standard in the fourth quarter of 2005 and have not yet determined the impact, if any, that this pronouncement will have on our financial statements.

**2. Debt and Credit Facilities**

*Debt*

In March 2005, we issued \$200 million of 5.95% senior notes due 2015. The net proceeds of the offering will be used to repay \$180 million of senior debentures that are scheduled to mature in June 2005, and for general corporate purposes.

*Credit Facilities*

We are an eligible borrower under El Paso's \$3 billion credit agreement. At March 31, 2005, El Paso had \$1.2 billion outstanding under the term loan and \$1.4 billion of letters of credit issued under the credit agreement, none of which was borrowed by us or issued on behalf of us. For a further discussion of El Paso's \$3 billion credit agreement and our restrictive covenants, see our 2004 Annual Report on Form 10-K.

### 3. Commitments and Contingencies

#### *Legal Proceedings*

*Grynberg.* In 1997, we and a number of our affiliates were named defendants in actions brought by Jack Grynberg on behalf of the U.S. Government under the False Claims Act. Generally, these complaints allege an industry-wide conspiracy to underreport the heating value as well as the volumes of the natural gas produced from federal and Native American lands, which deprived the U.S. Government of royalties. The plaintiff in this case seeks royalties that he contends the government should have received had the volume and heating value been differently measured, analyzed, calculated and reported, together with interest, treble damages, civil penalties, expenses and future injunctive relief to require the defendants to adopt allegedly appropriate gas measurement practices. No monetary relief has been specified in this case. These matters have been consolidated for pretrial purposes (In re: Natural Gas Royalties *Qui Tam* Litigation, U.S. District Court for the District of Wyoming, filed June 1997). Motions to dismiss have been briefed and argued and the parties are awaiting the court's ruling. Our costs and legal exposure related to these lawsuits and claims are not currently determinable.

*Will Price (formerly Quinque).* We and a number of our affiliates are named defendants in *Will Price, et al. v. Gas Pipelines and Their Predecessors, et al.*, filed in 1999 in the District Court of Stevens County, Kansas. Plaintiffs allege that the defendants mismeasured natural gas volumes and heating content of natural gas on non-federal and non-Native American lands and seek to recover royalties that they contend they should have received had the volume and heating value of natural gas produced from their properties been differently measured, analyzed, calculated and reported, together with prejudgment and postjudgment interest, punitive damages, treble damages, attorneys' fees, costs and expenses, and future injunctive relief to require the defendants to adopt allegedly appropriate gas measurement practices. No monetary relief has been specified in this case. Plaintiffs' motion for class certification of a nationwide class of natural gas working interest owners and natural gas royalty owners was denied in April 2003. Plaintiffs were granted leave to file a Fourth Amended Petition which narrows the proposed class to royalty owners in wells in Kansas, Wyoming and Colorado and removes claims as to heating content. A second class action petition has since been filed as to the heating content claims. Motions for class certification have been briefed and argued in both proceedings, and the parties are awaiting the court's ruling. Our costs and legal exposure related to these lawsuits and claims are not currently determinable.

In addition to the above matters, we and our subsidiaries and affiliates are named defendants in numerous lawsuits and governmental proceedings that arise in the ordinary course of our business.

For each of our outstanding legal matters, we evaluate the merits of the case, our exposure to the matter, possible legal or settlement strategies and the likelihood of an unfavorable outcome. If we determine that an unfavorable outcome is probable and can be estimated, we establish the necessary accruals. As further information becomes available, or other relevant developments occur, we adjust our accrual amounts accordingly. While there are still uncertainties related to the ultimate costs we may incur, based upon our evaluation and experience to date, we had no accruals for our outstanding legal matters at March 31, 2005.

### *Environmental Matters*

We are subject to federal, state and local laws and regulations governing environmental quality and pollution control. These laws and regulations require us to remove or remedy the effect on the environment of the disposal or release of specified substances at current and former operating sites. At March 31, 2005, we had accrued approximately \$17 million for expected remediation costs and associated onsite, offsite and groundwater technical studies. This accrual includes \$8 million for environmental contingencies related to properties we previously owned. Our accrual was based on the most likely outcome that can be reasonably estimated. Below is a reconciliation of our accrued liability from January 1, 2005 to March 31, 2005 (in millions):

Balance at January 1, 2005 .....	\$14
Additions/adjustments for remediation activities .....	4
Payments for remediation activities .....	<u>(1)</u>
Balance at March 31, 2005 .....	<u>\$17</u>

For the remainder of 2005, we estimate that our total remediation expenditures will be approximately \$7 million, which will be expended under government directed clean-up plans. In addition, we expect to make capital expenditures for environmental matters of approximately \$2 million in the aggregate for the years 2005 through 2009. These expenditures primarily relate to compliance with clean air regulations.

It is possible that new information or future developments could require us to reassess our potential exposure related to environmental matters. We may incur significant costs and liabilities in order to comply with existing environmental laws and regulations. It is also possible that other developments, such as increasingly strict environmental laws and regulations and claims for damages to property, employees, other persons and the environment resulting from our current or past operations, could result in substantial costs and liabilities in the future. As this information becomes available, or other relevant developments occur, we will adjust our accrual amounts accordingly. While there are still uncertainties relating to the ultimate costs we may incur, based upon our evaluation and experience to date, we believe our reserves are adequate.

### *Rates and Regulatory Matters*

*Accounting for Pipeline Integrity Costs.* In November 2004, the Federal Energy Regulatory Commission (FERC) issued a proposed accounting release that may impact certain costs our interstate pipelines incur related to their pipeline integrity program. If the release is enacted as written, we would be required to expense certain future pipeline integrity costs instead of capitalizing them as part of our property, plant and equipment. Although we continue to evaluate the impact that this potential accounting release will have on our consolidated financial statements, we currently estimate that we would be required to expense an additional amount of pipeline integrity expenditures in the range of approximately \$1 million to \$4 million annually over the next eight years.

*Selective Discounting Notice of Inquiry.* In November 2004, the FERC issued a Notice of Inquiry (NOI) seeking comments on its policy regarding selective discounting by natural gas pipelines. The FERC seeks comments regarding whether its practice of permitting pipelines to adjust their ratemaking throughput downward in rate cases to reflect discounts given by pipelines for competitive reason is appropriate when the discount is given to meet competition from another natural gas pipeline. We, along with several of our affiliated pipelines, filed comments on the NOI in March 2005. The final outcome of this inquiry cannot be predicted with certainty, nor can we predict the impact that the final rule will have on us.

While the outcome of our outstanding rates and regulatory matters cannot be predicted with certainty, based on current information, we do not expect the ultimate resolution of these matters to have a material adverse effect on our financial position, operating results or cash flows. However, it is possible that new information or future developments could require us to reassess our potential exposure and accruals related to these matters, which could have a material effect on our results of operations, our financial position, and our cash flows in the periods these events occur.

#### 4. Transactions with Affiliates

*Cash Management Program.* We participate in El Paso's cash management program which matches short-term cash surpluses and needs of participating affiliates, thus minimizing total borrowings from outside sources. We had advanced \$642 million at March 31, 2005, at a rate of interest which was 3.5%. At December 31, 2004, we had advanced \$598 million at a rate of interest which was 2.0%. This receivable is due upon demand; however, we do not anticipate settlement of the entire amount in the next twelve months. At March 31, 2005 and December 31, 2004, we have classified \$17 million and \$3 million of this receivable as a current note receivable from affiliates. In addition, at March 31, 2005 and December 31, 2004, we classified \$625 million and \$595 million as a non-current note receivable from affiliates.

*Taxes.* We are a party to a tax accrual policy with El Paso whereby El Paso files U.S. and certain state tax returns on our behalf. In certain states, we file and pay directly to the state taxing authorities. We have income taxes payable of \$42 million at March 31, 2005 and \$37 million at December 31, 2004, included in taxes payable on our balance sheet. The majority of these balances will become payable to El Paso.

*Other Affiliate Balances.* The following table shows other balances with our affiliates:

	<u>March 31,</u> <u>2005</u>	<u>December 31,</u> <u>2004</u>
	<u>(In millions)</u>	
Accounts receivable <sup>(1)</sup> .....	\$23	\$ 4
Other current assets .....	2	2
Non-current note receivable .....	6	7
Accounts payable <sup>(1)</sup> .....	29	9
Contractual deposits .....	5	5

<sup>(1)</sup> The change in these accounts is due to gas imbalances with our affiliates Wyoming Interstate Company and Cheyenne Plains Gas Company. These imbalances were settled during April 2005.

*Affiliate Revenues and Expenses.* The following table shows revenues and charges from our affiliates for the quarters ended March 31:

	<u>2005</u>	<u>2004</u>
	<u>(In millions)</u>	
Revenues from affiliates .....	\$ 9	\$ 8
Operations and maintenance expenses from affiliates .....	13	12
Reimbursements of operating expenses charged to affiliates .....	4	2

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The information contained in Item 2 updates, and should be read in conjunction with, the information disclosed in our 2004 Annual Report on Form 10-K, and the financial statements and notes presented in Item 1 of this Quarterly Report on Form 10-Q.

### Results of Operations

Our management, as well as El Paso's management, uses earnings before interest expense and income taxes (EBIT) to assess the operating results and effectiveness of our business. We define EBIT as net income adjusted for (i) items that do not impact our income from continuing operations, (ii) income taxes, (iii) interest and debt expense and (iv) affiliated interest income. We exclude interest and debt expense from this measure so that our management can evaluate our operating results without regard to our financing methods. We believe the discussion of our results of operations based on EBIT is useful to our investors because it allows them to more effectively evaluate the operating performance of our business using the same performance measure analyzed internally by our management. EBIT may not be comparable to measurements used by other companies. Additionally, EBIT should be considered in conjunction with net income and other performance measures such as operating income or operating cash flows.

The following is a reconciliation of EBIT to net income for the quarters ended March 31:

	<u>2005</u>	<u>2004</u>
	<u>(In millions, except volume amounts)</u>	
Operating revenues .....	\$ 77	\$ 75
Operating expenses .....	<u>(45)</u>	<u>(36)</u>
Operating income .....	32	39
Other income, net .....	<u>1</u>	<u>—</u>
EBIT .....	33	39
Interest and debt expense .....	(7)	(6)
Affiliated interest income, net .....	5	4
Income taxes .....	<u>(12)</u>	<u>(14)</u>
Net income .....	<u>\$ 19</u>	<u>\$ 23</u>
Throughput volumes (BBtu/d) <sup>(1)</sup> .....	<u>1,863</u>	<u>1,775</u>

<sup>(1)</sup> Throughput volumes include billable transportation throughput volume for storage activities.

The following items contributed to our overall EBIT decrease of \$6 million for the quarter ended March 31, 2005 as compared to the same period in 2004:

	<u>Revenue</u>	<u>Expense</u>	<u>Other</u>	<u>EBIT Impact</u>
	<u>Favorable/(Unfavorable)</u>			
	<u>(In millions)</u>			
Gas not used in operations and processing revenues .....	\$ 3	\$(2)	\$ —	\$ 1
Environmental reserve accrual .....	—	(4)	—	(4)
Higher benefits and allocation of overhead and shared service costs from affiliates .....	—	(2)	—	(2)
Other items .....	<u>(1)</u>	<u>(1)</u>	<u>1</u>	<u>(1)</u>
Total impact on EBIT .....	<u>\$ 2</u>	<u>\$(9)</u>	<u>\$ 1</u>	<u>\$(6)</u>

The following provides further discussions on some of the significant items listed above as well as events that may affect our operations in the future.

*Gas Not Used in Operations and Processing Revenues.* The financial impact of operational gas, net of gas used in operations, is based on the amount of natural gas we are allowed to recover and dispose of according to our tariff, relative to the amounts of gas we use for operating purposes and the price of natural gas. Gas not needed for operations results in revenues to us, which are driven by volumes and prices during a given period. During the first quarter of 2005, we recovered, fairly consistently, volumes of natural gas that were not utilized for operations. These recoveries were based on factors such as system throughput, facility enhancements, gas processing margins and the ability to operate the system in the most efficient and safe manner. Additionally, a steadily increasing natural gas price environment during this timeframe resulted in favorable impacts on our operating results in 2005 versus 2004. We anticipate that this area of our business will continue to vary in the future and will be impacted by things such as rate actions, efficiency of our pipeline operations, natural gas and liquids prices and other factors.

*Expansions.* We have a filing before the FERC for the Raton Basin expansion, which is projected to add 104 MMcf/d capacity to our system by the end of 2005.

*Regulatory Matters.* In November 2004, the FERC issued a proposed accounting release that may impact certain costs we incur related to our pipeline integrity program. If the release is enacted as written, we would be required to expense certain future pipeline integrity costs instead of capitalizing them as part of our property, plant and equipment. Although we continue to evaluate the impact that this potential accounting release will have on our consolidated financial statements, we currently estimate that we would be required to expense an additional amount of pipeline integrity expenditures in the range of approximately \$1 million to \$4 million annually over the next eight years.

## Income Taxes

	Quarter Ended March 31,	
	2005	2004
	(In millions, except for rates)	
Income taxes . . . . .	\$12	\$14
Effective tax rate . . . . .	39%	38%

Our effective tax rates were different than the statutory rate of 35 percent, primarily due to the effect of state income taxes.

## Liquidity

Our liquidity needs have historically been provided by cash flows from operating activities and the use of El Paso's cash management program. Under El Paso's cash management program, depending on whether we have short-term cash surpluses or requirements, we either provide cash to El Paso or El Paso provides cash to us. We have historically provided cash advances to El Paso, and we reflect these advances as investing activities in our statement of cash flows. During much of 2004, we temporarily suspended advancing funds to El Paso, but resumed participation in the cash management program late in the year. At March 31, 2005, we had a cash advance receivable from El Paso of \$642 million as a result of this program. This receivable is due upon demand; however, we do not anticipate settlement of the entire amount in the next twelve months. At March 31, 2005, we have classified \$17 million of this receivable as a current note receivable and \$625 million as a non-current note receivable from affiliates in our balance sheet. We also have \$6 million in other note receivable from our parent, El Paso Noric Investments III, L.L.C., at March 31, 2005. In addition to El Paso's cash management program, we are also eligible to borrow amounts available under El Paso's \$3 billion credit agreement, under which we are pledged as collateral. We believe that cash flows from operating activities and amounts available under El Paso's cash management program, if necessary, will be adequate to meet our short-term capital requirements for our existing operations.

**Debt**

In March 2005, we issued \$200 million of 5.95% senior notes due 2015. The net proceeds of the offering will be used to repay \$180 million of senior debentures that are scheduled to mature in June 2005, and for general corporate purposes.

**Capital Expenditures**

Our capital expenditures for the quarter ended March 31, 2005, were approximately \$9 million. We expect to spend approximately \$97 million for the remainder of 2005 for capital expenditures, consisting of approximately \$69 million to expand the capacity on our system and \$28 million for maintenance capital. Approximately \$58 million of our proposed expansion capacity expenditures are related to the Raton Basin expansion. We expect to fund capital expenditures through a combination of internally generated funds and/or by recovering amounts advanced to El Paso under its cash management program, if necessary.

**Commitments and Contingencies**

See Item 1, Financial Statements, Note 3, which is incorporated herein by reference.

## **CAUTIONARY STATEMENTS FOR PURPOSES OF THE “SAFE HARBOR” PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995**

This Report contains or incorporates by reference forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Where any forward-looking statement includes a statement of the assumptions or bases underlying the forward-looking statement, we caution that, while we believe these assumptions or bases to be reasonable and to be made in good faith, assumed facts or bases almost always vary from the actual results, and the differences between assumed facts or bases and actual results can be material, depending upon the circumstances. Where, in any forward-looking statement, we or our management express an expectation or belief as to future results, that expectation or belief is expressed in good faith and is believed to have a reasonable basis. We cannot assure you, however, that the statement of expectation or belief will result or be achieved or accomplished. The words “believe,” “expect,” “estimate,” “anticipate” and similar expressions will generally identify forward-looking statements.

With this in mind, you should consider the risks discussed elsewhere in this Report and other documents we file with the Securities and Exchange Commission from time to time.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

Omitted from this Report pursuant to the reduced disclosure format submitted by General Instruction H to Form 10-Q.

### **Item 4. Controls and Procedures**

#### **Material Weakness Previously Disclosed**

As discussed in our 2004 Annual Report on Form 10-K, we did not maintain effective controls as of December 31, 2004, over access to financial application programs and data in certain information technology environments. The remedial actions implemented in the first quarter of 2005 related to this material weakness are described below.

#### **Evaluation of Disclosure Controls and Procedures**

As of March 31, 2005, we carried out an evaluation under the supervision and with the participation of our management, including our President and our Chief Financial Officer (CFO), as to the effectiveness, design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). This evaluation considered the various processes carried out under the direction of our disclosure committee in an effort to ensure that information required to be disclosed in the SEC reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including the President and CFO, as appropriate, to allow timely discussion regarding required financial disclosure.

Based on the results of this evaluation, our President and CFO concluded that as a result of the material weaknesses discussed above, our disclosure controls and procedures were not effective as of March 31, 2005. Because of this material weakness, we performed additional procedures to ensure that our financial statements as of and for the quarter ended March 31, 2005, were fairly presented in all material respects in accordance with generally accepted accounting principles.

#### **Changes in Internal Control Over Financial Reporting**

During the first quarter of 2005, we implemented the following changes in our internal control over financial reporting:

- Implemented automated and manual controls for our primary financial system to monitor unauthorized password changes; and

- Developed a segregation of duties matrix for our primary financial system that documents existing role assignments.

We have identified other remedial actions to improve our internal control over financial reporting that are in the process of being implemented. In addition, we are continuing to evaluate the ongoing effectiveness and sustainability of the changes we have made in our internal control and, as a result of our ongoing evaluation, we may identify additional changes to improve our internal control over financial reporting.

## **PART II — OTHER INFORMATION**

### **Item 1. Legal Proceedings**

See Part I, Item 1, Financial Statements, Note 3, which is incorporated herein by reference. Additional information about our legal proceedings can be found in Part I, Item 3 of our 2004 Annual Report on Form 10-K filed with the Securities and Exchange Commission.

### **Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

Omitted from this Report pursuant to the reduced disclosure format permitted by General Instruction H to Form 10-Q.

### **Item 3. Defaults Upon Senior Securities**

Omitted from this Report pursuant to the reduced disclosure format permitted by General Instruction H to Form 10-Q.

### **Item 4. Submission of Matters to a Vote of Security Holders**

Omitted from this Report pursuant to the reduced disclosure format permitted by General Instruction H to Form 10-Q.

### **Item 5. Other Information**

None.

### **Item 6. Exhibits**

Each exhibit identified below is filed as a part of this Report. Exhibits not incorporated by reference to a prior filing are designated by an “\*”. Exhibits designated by “\*\*” are finished with this filing pursuant to Item 601(b)(32) of Regulation S-K. All exhibits not so designated are incorporated herein by reference to a prior filing as indicated.
