I believe that Live BFF is on the right path for sustainable homes in America! The housing crisis appears to be a very large problem in our country, and this idea that Live BFF has come up with will be a great solution. The team that is put in place, has a great deal of prior experience, and with Justin running the show, this company will go very far. I feel that I can provide a great deal of experience to this team as well. I am very excited for the future of Live BFF and to be part of team!

Invested \$5,000 this round

DON'T WORRY, WE'VE GOT YOU COVERED.

LIVE BFF is reinventing the home engineering process and solving the housing crisis, for good. With our extensive background in construction, automation, and engineering, we have created a manufacturing process that has redefined the home building process.

Our process is revolutionary, efficient, and produces the highest quality minimalist homes on the market today. We have taken the archaic process of building homes and improved it significantly.

REDESIGNING THE HOME BUILDING PROCESS

- Your house will be built on an assembly line and delivered to the location of your choice.
- Our homes are set to disrupt the housing market, coming in at a projected price under \$99,000.
- Our industry leading architects and engineers have resigned the home building process.
