RISK FACTORS

Risks Related to the Company's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.

We were organized under the laws of California on February 15, 2022. Accordingly, we have no history upon which an evaluation of our prospects and future performance can be made. Our proposed operations are subject to all business risks associated with a new enterprise. The likelihood of our creation of a viable business must be considered in light of the problems, expenses, difficulties, complications, and delays frequently encountered in connection with the inception of a business, operation in a competitive industry, and the continued development of advertising, promotions, and a corresponding client base. We anticipate that our operating expenses will increase for the near future. There can be no assurances that we will ever operate profitably. You should consider the Company's business, operations and prospects in light of the risks, expenses and challenges faced as an early-stage company.

We may face potential difficulties in obtaining capital.

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of an approved product and revenues from sales, as well as the inherent business risks associated with our company and present and future market conditions. Our business currently does not generate any sales and future sources of revenue may not be sufficient to meet our future capital requirements. We will require additional funds to execute our business strategy and conduct our operations. If adequate funds are unavailable, we may be required to delay, reduce the scope of or eliminate one or more of our research, development or commercialization programs, product launches or marketing efforts, any of which may materially harm our business, financial condition and results of operations.

We face risks related to health epidemics and other outbreaks, which could significantly disrupt the Company's operations and could have a material adverse impact on us.

The outbreak of pandemics and epidemics could materially and adversely affect the Company's business, financial condition, and results of operations. If a pandemic occurs in areas in which we have material operations or sales, the Company's business activities originating from affected areas, including sales, materials, and supply chain related activities, could be adversely affected. Disruptive activities could include the temporary closure of facilities used in the Company's supply chain processes, restrictions on the export or shipment of products necessary to run the Company's business, business closures in impacted areas, and restrictions on the Company's employees' or consultants' ability to travel and to meet with customers, vendors or other business relationships. The extent to which a pandemic or other health outbreak impacts the Company's results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of a virus and the actions to contain it or treat its impact, among others. Pandemics can also result in social, economic, and labor instability which may adversely impact the Company's business.

If the Company's employees or employees of any of the Company's vendors, suppliers or customers become ill or are quarantined and in either or both events are therefore unable to work, the Company's operations could be subject to disruption. The extent to which a pandemic affects the Company's results will depend on future developments that are highly uncertain and cannot be predicted.

We are subject to the risk of substantial environmental liability and limitations on our operations due to environmental laws and regulations.

We are subject to extensive federal, state, local and foreign environmental, health and safety laws and regulations concerning matters such as air emissions, wastewater discharges, solid and hazardous waste handling and disposal and the investigation and remediation of contamination. The risks of substantial costs and liabilities related to compliance with these laws and regulations are an inherent part of our business, and future conditions may develop, arise or be discovered that create substantial environmental compliance or remediation liabilities and costs. Compliance with environmental, health and safety legislation and regulatory requirements may prove to be more limiting and costly than we anticipate. We may be subject to legal proceedings brought by private parties or governmental authorities with respect to environmental matters, including matters involving alleged property damage or personal injury. New laws and regulations, including those which may relate to emissions of greenhouse gases, stricter enforcement of existing laws and regulations, the discovery of previously unknown contamination or the imposition of new clean-up requirements could require us to incur costs or become the basis for new or increased liabilities that could have a material adverse effect on our business, financial condition or results of operations.

In order for the Company to compete and grow, it must attract, recruit, retain and develop the necessary personnel who have the needed experience.

Recruiting and retaining highly qualified personnel is critical to our success. These demands may require us to hire additional personnel and will require our existing management personnel to develop additional expertise. We face intense competition for personnel. The failure to attract and retain personnel or to develop such expertise could delay or halt the development and commercialization of our product candidates. If we experience difficulties in hiring and retaining personnel in key positions, we could suffer from delays in product development, loss of customers and sales and diversion of management resources, which could adversely affect operating results. Our consultants and advisors may be employed by third parties and may have commitments under consulting or advisory contracts with third parties that may limit their availability to us.

Quality management plays an essential role in determining and meeting customer requirements, preventing defects, improving the Company's products and services and maintaining the integrity of the data that supports the safety and efficacy of our products.

Our future success depends on our ability to maintain and continuously improve our quality management program. An inability to address a quality or safety issue in an effective and timely manner may also cause negative publicity, a loss of customer confidence in us or our current or future products, which may result in the loss of sales and difficulty in successfully launching new products. In addition, a successful claim brought against us in excess of available insurance or

not covered by indemnification agreements, or any claim that results in significant adverse publicity against us, could have an adverse effect on our business and our reputation.

The Company's success depends on the experience and skill of the board of directors, its executive officers and key employees.

In particular, the Company is dependent on Paul Bianchi who is the CEO, President, and Secretary of the Company. Paul Bianchi is also the CEO and President of Bianchi-Tillett Developers, Inc., a California corporation. Bianchi-Tillett Developers, Inc. serves as the manager of Brookwood Estates LLC. The Company has a full team on board that handles day to day operations, including Michael Moreland, Vice President of Construction. The loss of Paul Bianchi could harm the Company's business, financial condition, cash flow and results of operations.

Although dependent on certain key personnel, the Company does not have any key man life insurance policies on any such people.

The Company is dependent on Paul Bianchi in order to conduct its operations and execute its business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if Paul Binachi dies or becomes disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and its operations.

We are subject to income taxes as well as non-income based taxes, such as payroll, sales, use, value-added, net worth, property and goods and services taxes, in both the U.S. and various foreign jurisdictions.

Significant judgment is required in determining our provision for income taxes and other tax liabilities. In the ordinary course of our business, there are many transactions and calculations where the ultimate tax determination is uncertain. Although we believe that our tax estimates are reasonable: (i) there is no assurance that the final determination of tax audits or tax disputes will not be different from what is reflected in our income tax provisions, expense amounts for non-income based taxes and accruals and (ii) any material differences could have an adverse effect on our financial position and results of operations in the period or periods for which determination is made.

General economic conditions could have an adverse effect on our business and results of operations.

Our business is sensitive to general economic conditions, both nationally and locally, as well as international economic conditions. General poor economic conditions and the resulting effect of non-existent or slow rates of growth in the markets in which we operate could have an adverse effect on the demand for our real estate business. These poor economic conditions include higher unemployment, inflation, deflation, increased commodity costs, decreases in consumer demand, changes in buying patterns, a weakened dollar, higher transportation and fuel costs, higher consumer debt levels, higher tax rates and other changes in tax laws or other economic factors that may affect commercial and residential real estate. Specifically, high national or regional unemployment may arrest or delay any significant recovery of the residential real estate markets in which we operate, which could adversely affect the demand for our real estate asset.

Uninsured losses may adversely affect our business.

We, or in certain instances, tenants of our properties, carry property and liability insurance policies with respect to the properties. This coverage has policy specifications and insured limits customarily carried for similar properties. However, certain types of losses (such as from earthquakes and floods) may be either uninsurable or not economically insurable. [Further, certain properties are located in areas that are subject to earthquake activity and floods. Should a property sustain damage as a result of an earthquake or flood, we may incur losses due to insurance deductibles, co-payments on insured losses or uninsured losses. Additionally, we have elected to obtain insurance coverage for "certified acts of terrorism" as defined in the Terrorism Risk Insurance Act of 2002, as amended and reauthorized to date; however, our policies of insurance may not provide coverage for other acts of terrorism. Any losses from such other acts of terrorism might be uninsured. Should an uninsured loss occur, we could lose some or all of our capital investment, cash flow and anticipated profits related to one or more properties. This could have an adverse effect on our business and results of operations.

Inflation or deflation may adversely affect our results of operations and cash flows.

Increased inflation could have an adverse impact on interest rates, property management expenses and general and administrative expenses, as these costs could increase at a rate higher than our rental and other revenue. Conversely, deflation could lead to downward pressure on rents and other sources of income without an accompanying reduction in our expenses. Accordingly, inflation or deflation may adversely affect our results of operations and cash flows.

Our business operations are susceptible to, and could be significantly affected by, adverse weather conditions and natural disasters that could cause significant damage to our properties.

Although we intend to obtain insurance for our properties, our insurance may not be adequate to cover business interruption or losses resulting from adverse weather or natural disasters. In addition, our insurance policies may include substantial self-insurance portions and significant deductibles and co-payments for such events, and recent hurricanes in the United States have affected the availability and price of such insurance. As a result, we may incur significant costs in the event of adverse weather conditions and natural disasters. If we experience a loss that is uninsured or which exceeds our policy limits, we could incur significant costs and lose the capital invested in the damaged properties, as well as the anticipated future cash flows from those properties. In addition, if the damaged properties are subject to recourse indebtedness, we would continue to be liable for the indebtedness, even if these properties were irreparably damaged.

In addition, certain of our properties may not be able to be rebuilt to their existing height or size at their existing location under current land-use laws and policies. In the event that we experience a substantial or comprehensive loss of one of our properties, we may not be able to rebuild such property to its existing specifications and otherwise may have to upgrade such property to meet current code requirements.

We are not subject to Sarbanes-Oxley regulations and lack the financial controls and safeguards required of public companies.

We do not have the internal infrastructure necessary, and are not required, to complete an attestation about our financial controls that would be required under Section 404 of the Sarbanes-Oxley Act of 2002. There can be no assurance that there are no significant deficiencies or material weaknesses in the quality of our financial controls. We expect to incur additional expenses and diversion of management's time if and when it becomes necessary to perform the system and process evaluation, testing and remediation required in order to comply with the management certification and auditor attestation requirements.

Risks Related to the Securities

The Membership Interests will not be freely tradable until one year from the initial purchase date. Although the Membership Interests may be tradable under federal securities law, state securities regulations may apply and each Purchaser should consult with his or her attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Membership Interests. Because Membership Interests have not been registered under the Securities Act or under the securities laws of any state or non-United States jurisdiction, the Membership Interests have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be affected. Limitations on the transfer of the Membership Interests may also adversely affect the price that you might be able to obtain for the Membership Interests in a private sale. Purchasers should be aware of the long-term nature of their investment in the Company. Each Purchaser in this Offering will be required to represent that it is purchasing the Securities for its own account, for investment purposes and not with a view to resale or distribution thereof.

Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.

No governmental agency has reviewed or passed upon this Offering, the Company or any Securities of the Company. The Company also has relied on exemptions from securities registration requirements under applicable state securities laws. Investors in the Company, therefore, will not receive any of the benefits that such registration would otherwise provide. Prospective investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering on their own or in conjunction with their personal advisors.

No Guarantee of Return on Investment.

There is no assurance that a Purchaser will realize a return on its investment or that it will not lose its entire investment. For this reason, each Purchaser should read the Form C/A and all Exhibits carefully and should consult with its own attorney and business advisor prior to making any investment decision.

The Company is owned by a single owner.

Prior to the Offering, the Company's current owner, Bianchi-Tillett Developers, LLC,, a California limited liability company, owns 100.00% of the Company. Bianchi-Tillett Developers, LLC is owned 100.00% by Paul Bianchi. Subject to any fiduciary duties owed to our other owners or investors under California law, the owner (including Paul Bianchi, as an individual) may be able to exercise significant influence over matters requiring owner approval, including the election of officers or managers and approval of significant Company transactions, and will have significant control over the Company's management and policies. Some of these persons may have interests that are different from yours. For example, these owners may support proposals and actions with which you may disagree. The concentration of ownership could delay or prevent a change in control of the Company or otherwise discourage a potential acquirer from attempting to obtain control of the Company, which in turn could reduce the price potential investors are willing to pay for the Company. In addition, the owner could use their voting influence to maintain the Company's existing management, delay or prevent changes in control of the Company, or support or reject other management and ownership proposals that are subject to owner approval.

The Company has the right to extend the Offering deadline.

The Company may extend the Offering deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Minimum Amount even after the Offering deadline stated herein is reached. Your investment will not be accruing interest during this time and will simply be held until such time as the new Offering deadline is reached without the Company receiving the Minimum Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Minimum Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after the release of such funds to the Company, the Securities will be issued and distributed to you.

There is no present market for the Securities and we have arbitrarily set the price.

We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our net worth or prior earnings. We cannot assure you that the Securities could be resold by you at the Offering price or at any other price.

Your ownership of the Securities will be subject to dilution.

Owners of Securities do not have pre-emptive rights. If the Company conducts subsequent Offerings or issuances of Securities, Purchasers in this Offering who do not participate in those other Securities issuances will experience dilution in their percentage ownership of the Company's outstanding Securities. Furthermore, Purchasers may experience a dilution in the value of their interests depending on the terms and pricing of any future Securities issuances (including the Securities being sold in this Offering) and the value of the Company's assets at the time of issuance.

The Securities will be equity interests in the Company and will not constitute indebtedness.

As such, the Securities will rank junior to all existing and future indebtedness and other non-equity claims on the Company with respect to assets available to satisfy claims on the Company, including in a liquidation of the Company. Additionally, unlike indebtedness, for which principal and interest would customarily be payable on specified due dates, there will be no specified payments with respect to the Securities and distributions are payable only if, when and as determined by the Company and depend on, among other matters, the Company's historical and projected results of operations, liquidity, cash flows, capital levels, financial .

Limitation of Manager's Liability.

The Company's Amended and Restated Limited Liability Company Operating Agreement provides that the Manager and the Company's Members, agents, attorneys, affiliates and employees will be indemnified against costs and expenses incurred in connection with, and will not be liable to the Company or a Purchaser for, any action taken, or failure to act, on behalf of the Company in connection with the business of the Company, determined by a court or arbitration panel to be taken in good faith and in a manner they reasonably believed to be in or not opposed to the best interest of the Company. This indemnification does not apply to gross negligence, bad faith, intentional misconduct or intentional material breach of the Amended and Restated Limited Liability Company Operating Agreement. Therefore, a Purchaser may have a more limited right of action against the Manager than would be available if these provisions were not contained in the Company's Amended and Restated Limited Liability Operating Agreement.

Purchasers Will Not Participate in Management.

The Manager has full responsibility for managing our Company. The Purchasers will not be entitled to participate in the management or operation of the Company or in the conduct of its business. The Purchasers may not vote their Securities in the election of the Company's Manager or for any other reason, except in limited circumstances as allowed under California law. Please consult the Amended and Restated Limited Liability Operating Agreement.

There can be no assurance that we will ever provide liquidity to Purchasers through either a sale of the Company or a registration of the Securities.

There can be no assurance that any form of merger, combination, or sale of the Company will take place, or that any merger, combination, or sale would provide liquidity for Purchasers. Furthermore, we may be unable to register the Securities for resale by Purchasers for legal, commercial, regulatory, market-related or other reasons. In the event that we are unable to effect a registration, Purchasers could be unable to sell their Securities unless an exemption from registration is available.

Income Tax Risks.

Each prospective Purchaser is urged to consult with its own representatives, including its own tax and legal advisors, with respect to the federal (as well as state and local) income tax consequences of this investment before purchasing any of the Securities. Certain prospective Purchasers, such as organizations which are exempt from federal income taxes, may be subject to

federal and state laws, rules and regulations which may prohibit or adversely affect their investment in the Company. We are not offering you any tax advice upon which you may rely.

Audit by Internal Revenue Service.

Information tax returns filed by the Company are subject to audit by the Internal Revenue Service. An audit of the Company's tax return may lead to adjustments to such return which would require an adjustment to each Purchaser's personal federal income tax return. Such adjustments can result in reducing the taxable loss or increasing the taxable income allocable to the Purchasers from the amounts reported on the Company's tax return. In addition, any such audit may lead to an audit of a Purchaser's individual income tax return, which may lead to adjustments other than those related to the investments in the Securities offered hereby.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each prospective Purchaser is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.

THE SECURITIES OFFERED INVOLVE A HIGH DEGREE OF RISK AND MAY RESULT IN THE LOSS OF YOUR ENTIRE INVESTMENT. ANY PERSON CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS Form C/A AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND FINANCIAL ADVISORS PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

Description of the Business

Brookwood Estates LLC is a company that develops land and builds subdivisions and custom homes. Paul Bianchi (through Bianchi-Tillett Developers LLC) created Brookwood Estates LLC to build out a subdivision in Roseville, California that will consist of seventeen homes. The lender is Anchor Loans.

Description of the Property

The land used for the subdivision was acquired in February 2022. Since the land was acquired, Bianchi-Tillett Developers, Inc. has spent time working with architects, engineers, and the city to obtain permits and floor plan approvals. The project is now needing to complete capital raise before beginning construction.

This project is expected to sell out within two years or less due to the housing shortage California is experiencing. Sacramento/Roseville area is one of the most desired cities to live in in California.

Property Condition

Currently the property only exists of land and has a final map ready. The property is ready for construction as soon as capital raise has materially kicked off.

Financing

The land was purchased for \$1,500,000.00. Of this amount \$1,000,000.00 was paid in cash and the remainder of \$500,000.00 is financed through a note payable to the seller of the land.

The Company has also invested resources in getting final maps ready through structural engineering, civil engineering, and architects. The land is now ready to be developed and construction to begin. The plan is to raise capital and use those funds initially to finance the project. Then, the plan is to use the pre-approved loan through a lender to complete construction. The construction will begin once capital raise is complete. It will take between 15-24 months to complete the seventeen homes. Most homes will likely sell out prior to construction. Returns will be paid to investors upon sell-out and completion of construction. After this subdivision is complete, the entity will be dissolved. FINANCIAL INFORMATION

Operations

To date, funding has been received from various investors which were used to acquire the land and for the operating expenses for various service providers. The land was purchased for \$1,500,000.00 on which there is a \$500,000.00 note payable.

After the offering, we should have enough liquidity to execute our business plan for 2023-2025. Our main challenge is to raise capital, construct and sell the property.

The Company intends to achieve profitability within the next 12 months by taking the following steps:

- Raising Capital
- Building and pre-selling homes

It is important to note that Brookwood Estates LLC is owned 100% by Bianchi-Tillett Developers, LLC, a California limited liability company, and the Manager of the Company is Bianchi-Tillett Developers, Inc., a California corporation, which is owned 100% by Paul Bianchi. Bianchi-Tillett Developers, Inc. will manage the construction, and provide the employees and vendors to build out the subdivision.

Currently, Bianchi-Tillett Developers, LLC, a California limited liability company owned 100.00% by Paul Bianchi, owns 100.00% of Brookwood Estates LLC. Once the maximum amount of capital raise has been achieved, Bianchi-Tillett Developers, LLC will reduce its ownership by 40.00%.

Investors will receive a 40.00% ownership or equivalent to \$4,500,000.00 which is the maximum capital raise desired. Investors will also receive an 8% annual preferred return on adjusted capital. All returns will be paid upon the sale of one hundred percent (100%) of properties of the subdivision - no returns will be paid until all properties are sold.

The investor returns are projected to be paid out in less than 24 months of closing out the capital raise. The internal rate of return will be in the range of 14.50% to 18.50% depending on how quickly the close out will occur.

The total project is estimated to cost \$17,700,000.00 to build out of which \$4,500,000.00 will come from investor capital. The remainder will be financed through a bank. The Company already has loan approval.

The total sales price of the homes are projected to be \$21,300,000.00. The proceeds will go towards paying off the lender, returning investor capital, paying preferred returns, and profit split of 40.00% will go to the investors. The net profit is estimated to be \$3,600,000.00

Liquidity and Capital Resources

The Company does not have any additional sources of capital other than the proceeds from the Offering and the construction debt. If the Manager deems that additional capital is needed, the Company will first delay paying back any profits it owes to the Members, then (if needed) borrow money from banks or other outside lenders as short-term financing. If additional capital is still needed, the Company will seek financing from the Members for any cash flow shortages, which will be paid back before the Company makes any distributions of profits at a 10% per annum rate of return (or the maximum allowed under applicable law).

Capital Expenditures and Other Obligations

The majority of the funds raised will be used for property development costs and expenses for the project.

The Company intends to bring on additional personnel by hiring both independent contractors and full time employees as necessary for completion of the subdivision at Brookwood Estates (post raise/revenue).

Material Changes and Other Information

The Company does not intend to make any material changes to its business operations in the near future.

At the initial closing of this Offering (if the minimum amount is sold), the Company will have 6,750 Common Units and 100 Preferred Units membership interests outstanding.

Distributions

After paying expenses and establishing appropriate reserves, and before all the properties of the subdivision are sold, the Company will not make distribution of profits to the holders of the Securities or “Preferred“Units”. As soon as reasonably practicable, after 100% of the properties of the subdivision subject to the project are sold, distributions are required to be made. Distributions for non-tax purposes (see below for tax distributions) are paid (a) first, to Preferred Members pro-rata based on the number of Preferred Units held until each Preferred Member has received a cumulative, but not compounded, preferred dividend of 8% per annum of the average daily balance of the aggregate adjusted capital contributions of Preferred Members, (b) second, 40% to Preferred Members pro-rata based on the number of Preferred Units held, and 60% to the holders of Common Units pro-rata based on the number of Common Units held.

Distributions for tax purposes, if any (determined in the Manager’s sole and absolute discretion based on cash flow), are made based on available cash and the amounts are determined by calculating a Member’s tax liability, subtracting from that amount any losses, and the resulting distributed amount is treated as an advance distribution to the Member, subject to cash flow of the Company.
