ABOUT THIS FORM C/A

You should rely only on the information contained in this Form C/A. We have not authorized anyone to provide any information or make any representations other than those contained in this Form C/A, and no source other than OpenDeal Portal LLC dba Republic (the “**Intermediary**”) has been authorized to host this Form C/A and the Offering. If anyone provides you with different or inconsistent information, you should not rely on it. We are not offering to sell, nor seeking offers to buy, the Securities in any jurisdiction where such offers and sales are not permitted. The information contained in this Form C/A and any documents incorporated by reference herein is accurate only as of the date of those respective documents, regardless of the time of delivery of this Form C/A or the time of issuance or sale of any Securities.

Statements contained herein as to the content of any agreements or other documents are summaries and, therefore, are necessarily selective and incomplete and are qualified in their entirety by the actual agreements or other documents. Prior to the consummation of the investment commitment of Required Consideration and issuance of the Securities, the Issuer will afford prospective Investors (defined below) an opportunity to ask questions of, and receive answers from, the Issuer and its management concerning the terms and conditions of this Offering and the Issuer. Potential investors of the Securities are referred to herein as “**Investors**” or “**you**”. The Issuer is referred to herein as the “**Issuer**” or “**we**”.

In making an investment decision, you must rely on your own examination of the Issuer and the terms of the Offering, including the merits and risks involved. The statements of the Issuer contained herein are based on information believed to be reliable; however, no warranty can be made as to the accuracy of such information or that circumstances have not changed since the date of this Form C/A. For example, our business, financial condition, results of operations, and prospects may have changed since the date of this Form C/A. The Issuer does not expect to update or otherwise revise this Form C/A or any other materials supplied herewith.

This Form C/A is submitted in connection with the Offering described herein and may not be reproduced or used for any other purpose.

CAUTIONARY NOTE CONCERNING FORWARD-LOOKING STATEMENTS

This Form C/A and any documents incorporated by reference herein contain forward-looking statements and are subject to risks and uncertainties. All statements other than statements of historical fact or relating to present facts or current conditions included in this Form C/A are forward-looking statements. Forward-looking statements give our current reasonable expectations and projections regarding our financial condition, results of operations, plans, objectives, future performance and business. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. These statements may include words such as “anticipate,” “estimate,” “expect,” “project,” “plan,” “intend,” “believe,” “may,” “should,” “can have,” “likely” and other words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events.

The forward-looking statements contained in this Form C/A and any documents incorporated by reference herein are based on reasonable assumptions we have made in light of our industry experience, perceptions of historical trends, current conditions, expected future developments and other factors we believe are appropriate under the circumstances. As you read and consider this Form C/A, you should understand that these statements are not guarantees of performance or results. Although we believe that these forward-looking statements are based on reasonable assumptions, you should be aware that many factors could affect our actual operating and financial performance and cause our performance to differ materially from the performance anticipated in the forward-looking statements. Should one or more of these risks or uncertainties materialize, or should any of these assumptions prove incorrect or change, our actual operating and financial performance may vary in material respects from the performance projected in these forward-looking statements.

Investors are cautioned not to place undue reliance on these forward-looking statements. Any forward-looking statements made in this Form C/A or any documents incorporated by reference herein are accurate only as of the date of those respective documents. Except as required by law, we undertake no obligation to publicly update any forward-looking statements for any reason after the date of this Form C/A or to conform these statements to actual results or to changes in our expectations.

THE OFFERING AND THE SECURITIES

The Offering

The Issuer is offering a minimum amount of \$1.00 (the “**Target Offering Amount**”), as calculated by aggregate the Required Consideration without application of any multipliers, and up to a maximum amount of \$1,235,000, as calculated by the aggregate Required Consideration without application of any multipliers, (the “**Maximum Offering Amount**”) of SAFEs (Simple Agreement for Future Equity) (the “**Securities**” or “**Safe**”) on a best-efforts basis as described in this Form C/A (this “**Offering**”). The Issuer must raise an amount equal to or greater than the Target Offering Amount by March 27, 2024 11:59 pm prevailing Pacific Time (the “**Offering Deadline**”). The minimum and maximum individual investment amount for the Safes as calculated by the Required Consideration without application of any multipliers is \$0.01 per Investor (which may be waived by the Issuer, in its sole and absolute discretion). Unless such investment commitments of Required Consideration meet all requirements set by this Offering, no Safe will be issued in this Offering, all investment commitments of Required Consideration will be canceled and all committed consideration will be returned or when context requires, destroyed.

The price of the Safe was determined arbitrarily, does not necessarily bear any relationship to the Issuer’s asset value, net worth, revenues or other objective established criteria of value, and should not be considered indicative of the actual value of the Safe.

Any Investor who holds a NFT from GoblinTown, IlluminatiNFT, Grumpls, Big Inc, Mcgoblin Burger, and any Truth related collections and passes (Illuminati Merch Passes, Puzzlers, Believer, Accessories, Undao, etc) (each, an “**Eligible NFT**”) is eligible to participate in the Offering. Any Investor who holds a NFT from The 187 and any 1:1 NFTs is not eligible.

The consideration required to be given by the Investor to the Issuer in order to participate in this Offering is the burning of an Eligible NFT, and the Investor-holder of such Eligible NFT acknowledges and agrees for purposes of this Offering, notwithstanding any other value or auction metric of the Eligible NFT, the burning of the Eligible NFT in accordance with the below procedure will constitute an investment commitment of required consideration of \$0.01 (the “**Required Consideration**”). However, the ultimate value of the Required Consideration reflected as the Investor’s investment amount in the Safe issued to the Investor in this Offering will be subject to upward adjustment pursuant to certain Multipliers specified by the Issuer (as initially set forth below), subject to amendment in the Issuer’s sole discretion at any time (the “**Safe Amount**”).

In order to receive the Safe, the Investor must log onto <https://www.app.trutharts.com> and click on “**Operation Resurrection**” to connect the crypto wallet that holds the Investor’s Truth Labs NFTs. Once the wallet is connected, the Investor will see the resulting SAFE Amount for the Safe such Investor is eligible to receive in exchange for burning such Investor’s Eligible NFTs. The Investor can choose to burn none, some, or all of such Investor’s Eligible NFTs. Each Investor is able to redeem between \$100 and \$50,000 of the Safe Amount for the Safe in exchange for burning the Eligible NFTs. The sum of the value of the Eligible NFTs, as outlined in the below table, each Investor wants to burn will make such Investor eligible for different levels of future equity. The tiers are outlined below:

Eligible NFT Value	Tiers	Required Consideration	Multiplier	Resulting Safe Amount
\$100.00-\$999.99	Tier 1	\$0.01	10,000	\$100.00
\$1,000.00-2,499.99	Tier 2	\$0.01	100,000	\$1,000.00
\$2,500-4,999.99	Tier 3	\$0.01	250,000	\$2,500.00
\$5,000-9,999.999	Tier 4	\$0.01	500,000	\$5,000.00
\$10,000-24,999.99	Tier 5	\$0.01	1,000,000	\$10,000.00
\$25,000-49,999.999	Tier 6	\$0.01	2,500,000	\$25,000.00
\$50,000-infinity	Tier 7	\$0.01	5,000,000	\$50,000.00

As the Investor selects Eligible NFTs to burn, the screen will reflect the total value of the bucket. Each eligible ERC-721 NFT will be valued as the greater of either (a) the valuation of the token at the time of the eligibility snapshot (February 20, 2024 at 9:00 a.m. prevailing eastern time) plus twenty percent (20%) or (b) the average value of tokens sold the week the token was either bought or received. As the Investor passes the floor of each tier, the burn will be worth that tier amount of the Safe Amount for the Safe, unless the next tier is reached. For illustrative purposes only, if an Investor burns \$1,100 of Eligible NFTs, such Investor will redeem \$1,000 of the Safe Amount of such Investor’s

Safe, such that, for the avoidance of any doubt, the Safe Amount of such Investor's Safe will be \$1,000. Similarly, burning \$40,000 of Eligible NFTs will only yield \$25,000 of Safe Amount of such Investor's Safe in the Issuer.

The Investor must comply with the Intermediary's know your customer (KYC) and anti-money laundering (AML) policies. **If an Investor makes an investment commitment of Required Consideration under a name that is not their legal name, they may be unable to redeem their Safe indefinitely, and neither the Intermediary nor the Issuer are required to correct any errors or omissions made by the Investor.**

Investor investment commitments of Required Consideration will be held in escrow with a qualified third party escrow agent meeting the requirements of Regulation CF ("**Escrow Agent**") until the conditions of the Offering have been satisfied, including, for the avoidance of any doubt, that the Target Offering Amount has been met or exceeded and one or more closings occur. Investors may cancel an investment commitment of Required Consideration until up to March 27, 2024 at 11:59 p.m. prevailing pacific time; provided, however, there is no guarantee that such investment commitment of Required Consideration or other consideration may be returned; provided, further, that after March 27, 2024, at 11:59 p.m. prevailing pacific time, once an Investor's NFT is burned, it is impossible to reverse the burn of such NFT. If Investor decides to cancel an investment commitment of Required Consideration, such Investor NFT will remain locked for the entirety of the holding period up through March 27, 2024 at 11:59 p.m. prevailing pacific time and returned thereafter. Issuer and Intermediary are not responsible for the inability to participate in market activity while the NFT is locked during this such holding period.

If the Intermediary approves an Investor or an investment commitment of Required Consideration, subject to such Investor complying with the Intermediary's KYC and AML policies, the consideration will be released to the Issuer and the Investor will receive their Safe. **If the Intermediary does not approve an Investor or an investment commitment of Required Consideration, subject to such Investor complying with the Intermediary's KYC and AML policies, the consideration will be returned to the Investor or when context requires, destroyed and the Investor will not receive their Safe.**

The Issuer will notify Investors when the Target Offering Amount has been reached through the Intermediary. If the Issuer reaches the Target Offering Amount prior to the Offering Deadline, it may close the Offering early *provided* (i) the expedited Offering Deadline must be twenty-one (21) days from the time the Offering was opened, (ii) the Intermediary must provide at least five (5) business days' notice prior to the expedited Offering Deadline to the Investors and (iii) the Issuer continues to meet or exceed the Target Offering Amount on the date of the expedited Offering Deadline.

The Deal Page

A description of our products, services and business plan can be found on the Issuer's profile page on the Intermediary's website under <https://republic.com/truth-arts> (the "**Deal Page**"). The Deal Page can be used by prospective Investors to ask the Issuer questions and for the Issuer to post immaterial updates to this Form C/A as well as make general announcements. You should view the Deal Page at the time you consider making an investment commitment of Required Consideration. Updates on the status of this Offering can also be found on the Deal Page.

Material Changes

If any material change occurs related to the Offering prior to the current Offering Deadline the Issuer will provide notice to Investors and receive reconfirmations from Investors who have already made commitments of Required Consideration. If an Investor does not reconfirm their investment commitment of Required Consideration after a material change is made to the terms of the Offering within five (5) business days of receiving notice, the Investor's investment commitment of Required Consideration will be canceled and the committed consideration will be returned or when context requires, destroyed.

Intermediate Closings

In the event an amount equal to two (2) times the Target Offering Amount is committed and meets all required terms of the Offering prior to the Offering Deadline on such date or such later time the Issuer designates pursuant to Rule 304(b) of Regulation CF, the Issuer may conduct the first of multiple closings of the Offering early, *provided* (i) the early closing date must be twenty-one (21) days from the time the Offering opened and (ii) that all Investors will receive notice of such early closing date at least five (5) business days prior to such new offering deadline (absent a material change that would require an extension of the Offering and reconfirmation of all investment commitments of Required Consideration). Investors who committed on the date such notice is provided or prior to the issuance of such

notice will be able to cancel their investment commitment of Required Consideration until 48 hours before such early closing date.

If the Issuer conducts an initial closing (the “**Initial Closing**”), the Issuer agrees to only withdraw seventy percent (70%) of the proceeds that are in escrow and will only conduct such Initial Closing if there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of the Initial Closing. The Issuer may only conduct another close (a “**Subsequent Closing**”) before the Offering Deadline if the amount of investment commitments of Required Consideration made as of the date of such Subsequent Closing exceeds two times the Target Offering Amount as of the date of the Initial Closing and there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of such Subsequent Closing.

Any investment commitments of Required Consideration received after an intermediate closing will be released to the Issuer upon a subsequent closing and the Investor will receive evidence of the Safe via electronic certificate/PDF in exchange for their investment commitment of Required Consideration as soon as practicable thereafter.

The Issuer has agreed to return all consideration to Investors in the event a Form C-W is ultimately filed in relation to this Offering, regardless of whether multiple closings are conducted.

Investment commitments of Required Consideration are not binding on the Issuer until they are accepted by the Issuer, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any investment commitment of Required Consideration. If the Issuer rejects all or a portion of any investment commitment of Required Consideration, the applicable prospective Investor’s consideration will be returned without interest or deduction.

The Safe

We request that you please review this Form C/A and the Instrument attached as Exhibit B, in conjunction with the following summary information.

Not Currently Equity Interests

The Safes are not currently equity interests in the Issuer and merely provide a right to receive equity at some point in the future upon the occurrence of certain events (which may or may not occur).

Dividends and/or Distributions

The Safes do not entitle Investors to any dividends.

Nominee

The Nominee (as defined below) will act on behalf of the Investors as their agent and proxy in all respects. The Nominee will be entitled, among other things, to exercise any voting rights (if any) conferred upon the holder of Safes or any securities acquired upon their conversion, to execute on behalf of an investor all transaction documents related to the transaction or other corporate event causing the conversion of the Safes, and as part of the conversion process the Nominee has the authority to open an account in the name of a qualified custodian, of the Nominee’s sole discretion, to take custody of any securities acquired upon conversion of the Safes. The Nominee will take direction from a pre-disclosed party selected by the Issuer and designated below on any matter in which affects the Investors’ economic rights. The Nominee is not a fiduciary to the Investors and the Investors agree to indemnify the Nominee per the terms of the Security.

Conversion

Upon the next sale (or series of related sales) by the Issuer of its Capital Stock to one or more third parties resulting in gross proceeds to the Issuer of not less than \$1,000,000 cash and cash equivalent (each an “**Equity Financing**”), the Safes are convertible into shares of the securities issued in said Equity Financing, as follows:

Conversion Upon an Equity Financing

Upon an Equity Financing, the Investor will receive the number of securities equal to the greater of the quotient obtained by dividing the Safe Amount by (a) or (b) immediately below:

(a) the quotient of \$132,500,000 (“**Valuation Cap**”) divided by the aggregate number of issued and outstanding shares of capital stock, assuming full conversion or exercise of all convertible and exercisable securities then outstanding, including shares of convertible preferred stock and all outstanding vested or unvested options or warrants to purchase capital stock, but excluding (i) shares of capital stock reserved for future issuance under any equity incentive or similar plan, (ii) convertible promissory notes, (iii) any Simple Agreements for Future Equity, including the Safes (collectively, “**Safes**”), and (iv) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or Safes;

OR

(b) if the pre-money valuation of the Issuer immediately prior to the Equity Financing is less than or equal to the Valuation Cap, the lowest price per share of the securities sold in such Equity Financing.

Such conversion price shall be deemed the “**Equity Financing Price**”.

Conversion Upon a Liquidity Event

In the case of the Issuer’s undergoing an **IPO** (as defined below) of its Capital Stock (as defined in the Security), a **Direct Listing** (as defined below) or a **Change of Control** (as defined below) of the Issuer (all of these events, a “**Liquidity Event**”), the Investor will receive a cash payment equal to the greater of (1) the Safe Amount (or a lesser amount as described below) (the “**Cash-Out Amount**”) or (2) the amount payable on the number of shares of Common Stock equal to the Safe Amount (or a lesser amount as described below) divided by the quotient of (a) \$132,500,000 divided by (b) the number, as of immediately prior to the Liquidity Event, of shares of the Issuer’s capital stock outstanding (on an as-converted basis), assuming the exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (w) shares of capital stock reserved for future issuance under any equity incentive or similar plan; (x) any Safes; (y) convertible promissory notes; and (z) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or SAFEs (such quotient, the “**Liquidity Price**”).

In connection with the Cash Out Option, the Safe Amount (or a lesser amount as described below) will be due and payable by the Issuer to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event. If there are not enough funds to pay the Investors and the holders of other Safes (collectively, the “**Cash-Out Investors**”) in full, then all of the Issuer’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Safe Amounts.

“**Change of Control**” as used above, means (i) a transaction or series of related transactions in which any person or group becomes the beneficial owner of more than fifty percent (50%) of the outstanding voting securities entitled to elect the Issuer’s board of directors, (ii) any reorganization, merger or consolidation of the Issuer, in which the outstanding voting security holders of the Issuer fail to retain at least a majority of such voting securities following such transaction or (iii) a sale, lease or other disposition of all or substantially all of the assets of the Issuer.

“**Direct Listing**” means the Issuer’s initial listing of its Common Stock (other than shares of Common Stock not eligible for resale under Rule 144 under the Securities Act) on a national securities exchange by means of an effective registration statement on Form S-1 filed by the Issuer with the SEC that registers shares of existing capital stock of the Issuer for resale, as approved by the Issuer’s board of directors. For the avoidance of doubt, a Direct Listing will not be deemed to be an underwritten offering and will not involve any underwriting services.

“**IPO**” as used above, means: (A) the completion of an underwritten initial public offering of Capital Stock by the Issuer pursuant to: (I) a final prospectus for which a receipt is issued by a securities commission of the United States or of a province of Canada, or (II) a registration statement which has been filed with the United States Securities and Exchange Commission and is declared effective to enable the sale of Capital Stock by the Issuer to the public, which in each case results in such equity securities being listed and posted for trading or quoted on a recognized exchange; (B) the Issuer’s initial listing of its Capital Stock (other than shares of Capital Stock not eligible for resale under Rule 144 under the Securities Act) on a national securities exchange by means of an effective registration statement on Form S-1 filed by the Issuer with the SEC that registers shares of existing capital stock of the Issuer for resale, as approved by the Issuer’s board of directors, where such listing shall not be deemed to be an underwritten offering and shall not involve any underwriting services; or (C) the completion of a reverse merger or take-over whereby an entity (I) whose securities are listed and posted for trading or quoted on a recognized exchange, or (II) is a reporting issuer in the United States or the equivalent in any foreign jurisdiction, acquires all of the issued and outstanding Capital Stock of the Issuer.

If the Issuer's board of directors determines in good faith that delivery of equity securities to the Investor pursuant to Liquidity Event paragraphs above would violate applicable law, rule or regulation, then the Issuer shall deliver to Investor in lieu thereof, a cash payment equal to the fair market value of such capital stock, as determined in good faith by the Issuer's board of directors.

Dissolution

If there is a **Dissolution Event** (as defined below) or a Liquidity Event before the Safes terminate, the Issuer will distribute all proceeds legally available for distribution in accordance with the following priority: (i) junior to payment of outstanding indebtedness and creditor claims, including contractual claims for payment and convertible promissory notes (to the extent such convertible promissory notes are not actually or notionally converted into Capital Stock); (ii) junior to payment of the Issuer's existing Preferred Stock and of any other Safes that are not from this series of Safes; (iii) on par with payments for other Safes from this series of Safes, and if the applicable proceeds are insufficient to permit full payments to the Investor and such other Safes from this series of Safes, the applicable proceeds will be distributed pro rata to the Investor and such other Safes from this series of Safes in proportion to the full payments that would otherwise be due; and (iv) all holders of Common Stock.

A "**Dissolution Event**" means (i) a voluntary termination of operations by the Issuer, (ii) a general assignment for the benefit of the Issuer's creditors or (iii) any other liquidation, dissolution or winding up of the Issuer (excluding a Liquidity Event), whether voluntary or involuntary.

Termination

The Safes terminate (without relieving the Issuer of any obligations arising from a prior breach of or non-compliance with the Safes) upon the earlier to occur of: (i) the issuance of shares in the converted securities to the Investor pursuant to the conversion provisions of the Safe agreement or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to a Liquidity Event or a Dissolution Event.

Voting and Control

Neither the Safes nor the securities issuable upon the conversion of the Safes have voting rights unless otherwise provided for by the Issuer. In addition, to facilitate the Offering Safe Investors being able to act together and cast a vote as a group, to the extent any securities acquired upon conversion of the Safes confer the holder with voting rights (whether provided by the Issuer's governing documents or by law), the Nominee (as defined above) will act on behalf of the holders as agent and proxy in all respects. The Nominee will vote consistently with at the direction of the largest holder of the Security (the "**Nominee Designee**").

The Issuer does have voting agreements in place. On May 16, 2022, the Issuer and certain investors and Key Holders (as defined therein) entered into that certain Fifth Amended and Restated Voting Agreement.

The Issuer does have shareholder or equity holder agreements in place. On May 16, 2022, the Issuer and certain investors and Key Holders (as defined therein) entered into that certain Fifth Amended and Restated Investors' Rights Agreement and that certain Fifth Amended and Restated Right of First Refusal and Co-Sale Agreement.

Anti-Dilution Rights

The Safes do not have anti-dilution rights, which means that future equity issuances and other events will dilute the ownership percentage that Investors may eventually have in the Issuer.

Restrictions on Transfer

Any Securities sold pursuant to Regulation CF being offered may not be transferred by any Investor of such Securities during the one-year holding period beginning when the Securities were issued, unless such Securities are transferred: (1) to the Issuer; (2) to an accredited investor, as defined by Rule 501(d) of Regulation D promulgated under the Securities Act; (3) as part of an IPO; or (4) to a member of the family of the Investor or the equivalent, to a trust controlled by the Investor, to a trust created for the benefit of a member of the family of the Investor or the equivalent, or in connection with the death or divorce of the Investor or other similar circumstances. "Member of the family" as used herein means a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother/father/daughter/son/sister/brother-in-law, and includes adoptive relationships. Each Investor should be aware

that although the Securities may legally be able to be transferred, there is no guarantee that another party will be willing to purchase them.

In addition to the foregoing restrictions, prior to making any transfer of the Safes or any capital stock into which they are convertible, such transferring Investor must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Issuer with an opinion of counsel reasonably satisfactory to the Issuer stating that a registration statement is not necessary to effect such transfer.

In addition, the Investor may not transfer the Safes or any capital stock into which they are convertible to any of the Issuer's competitors, as determined by the Issuer in good faith.

Furthermore, upon the event of an IPO, the capital stock into which the Safes are converted will be subject to a lock-up period and may not be lent, offered, pledged, or sold for up to 180 days following such IPO.

If a transfer, resale, assignment or distribution of the Security should occur prior to the conversion of the Security or after, if the Security is still held by the original purchaser directly, the transferee, purchaser, assignee or distributee, as relevant, will be required to sign a new Nominee Rider (as defined in the Security) and provide personally identifiable information to the Nominee sufficient to establish a custodial account at a later date and time. Under the Terms of the Safes, the Nominee has the right to place shares received from the conversion of the Security into a custodial relationship with a qualified third party and have said Nominee be listed as the holder of record. In this case, Investors will only have a beneficial interest in the equity securities derived from the Safes, not legal ownership, which may make their resale more difficult as it will require coordination with the custodian and Republic Investment Services.

Other Material Terms

- The Issuer does not have the right to repurchase the Safes.
- The Safes do not have a stated return or liquidation preference.

COMMISSION AND FEES

Compensation

The Intermediary will be paid a one-hundred and twenty-five thousand dollar (\$125,000) flat fee for preparing the Offering. The Intermediary will also receive compensation in the form of the Safes equal to one percent (1%) of the total number of the Safes sold in the Offering. The total number of Safes outstanding after the Offering is subject to increase in an amount equal to the Intermediary's fee of one percent (1%) of the Safes issued in this Offering.

RISK FACTORS

Investing in the Safes involves a high degree of risk and may result in the loss of your entire investment. Before making an investment decision with respect to the Safes, we urge you to carefully consider the risks described in this section and other factors set forth in this Form C/A. In addition to the risks specified below, the Issuer is subject to the same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. Prospective Investors should consult with their legal, tax and financial advisors prior to making an investment in the Safes. Only investors who can afford to lose all of their consideration, including the Required Consideration, should participate in this Offering.

Risks Related to the Issuer's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.

The Issuer is still in an early phase and we are just beginning to implement our business plan. There can be no assurance that we will ever operate profitably. The likelihood of our success should be considered in light of the

problems, expenses, difficulties, complications and delays usually encountered by early stage companies. The Issuer may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

Global crises and geopolitical events, including without limitation, COVID-19 can have a significant effect on our business operations and revenue projections.

A significant outbreak of contagious diseases, such as COVID-19, in the human population could result in a widespread health crisis. Additionally, geopolitical events, such as wars or conflicts, could result in global disruptions to supplies, political uncertainty and displacement. Each of these crises could adversely affect the economies and financial markets of many countries, including the United States where we principally operate, resulting in an economic downturn that could reduce the demand for our products and services and impair our business prospects, including as a result of being unable to raise additional capital on acceptable terms, if at all.

The consideration the Issuer will receive from Investors in this Offering will not provide cash-based funding to the Issuer and is not sufficient to sustain the Issuer's current business plan.

The Offering's primary purpose is to offer Investors the opportunity to join the Issuer's network and community, and to gain equity in the Company via the Safes. The Offering is not a mechanism that has been designed with the aim of raising capital. In order to achieve the Issuer's near and long-term goals, the Issuer may need to procure funds. There is no guarantee the Issuer will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations will be in jeopardy and we may be forced to cease operations and sell or otherwise transfer all or substantially all of our remaining assets, which could cause an Investor to lose all or a portion of their investment.

We may face potential difficulties in obtaining capital.

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of revenues from sales, as well as the inherent business risks associated with our Issuer and present and future market conditions. We will require additional funds to execute our business strategy and conduct our operations. If adequate funds are unavailable, we may be required to delay, reduce the scope of or eliminate one or more of our research, development or commercialization programs, product launches or marketing efforts, any of which may materially harm our business, financial condition and results of operations.

We may implement new lines of business or offer new products and services within existing lines of business.

As an early-stage company, we may implement new lines of business at any time. There are substantial risks and uncertainties associated with these efforts, particularly in instances where the markets are not fully developed. In developing and marketing new lines of business and/or new products and services, we may invest significant time and resources. Initial timetables for the introduction and development of new lines of business and/or new products or services may not be achieved, and price and profitability targets may not prove feasible. We may not be successful in introducing new products and services in response to industry trends or developments in technology, or those new products may not achieve market acceptance. As a result, we could lose business, be forced to price products and services on less advantageous terms to retain or attract clients or be subject to cost increases. As a result, our business, financial condition or results of operations may be adversely affected.

We rely on other companies to provide components and services for our products.

We depend on suppliers and contractors to meet our contractual obligations to our customers and conduct our operations. Our ability to meet our obligations to our customers may be adversely affected if suppliers or contractors do not provide the agreed-upon supplies or perform the agreed-upon services in compliance with customer requirements and in a timely and cost-effective manner. Likewise, the quality of our products may be adversely impacted if companies to whom we delegate manufacture of major components or subsystems for our products, or from whom we acquire such items, do not provide components which meet required specifications and perform to our and our customers' expectations. Our suppliers may be unable to quickly recover from natural disasters and other events beyond their control and may be subject to additional risks such as financial problems that limit their ability to conduct their operations. The risk of these adverse effects may be greater in circumstances where we rely on only one or two contractors or suppliers for a particular component. Our products may utilize custom components available from only one source. Continued availability of those components at acceptable prices, or at all, may be affected for any number of reasons, including if those suppliers decide to concentrate on the production of common components instead of components customized to meet our requirements. The supply of components for a new or existing product

could be delayed or constrained, or a key manufacturing vendor could delay shipments of completed products to us adversely affecting our business and results of operations.

We rely on various intellectual property rights, including trademarks, in order to operate our business.

The Issuer relies on certain intellectual property rights to operate its business. The Issuer's intellectual property rights may not be sufficiently broad or otherwise may not provide us a significant competitive advantage. In addition, the steps that we have taken to maintain and protect our intellectual property may not prevent it from being challenged, invalidated, circumvented or designed-around, particularly in countries where intellectual property rights are not highly developed or protected. In some circumstances, enforcement may not be available to us because an infringer has a dominant intellectual property position or for other business reasons, or countries may require compulsory licensing of our intellectual property. Our failure to obtain or maintain intellectual property rights that convey competitive advantage, adequately protect our intellectual property or detect or prevent circumvention or unauthorized use of such property, could adversely impact our competitive position and results of operations. We also rely on nondisclosure and noncompetition agreements with employees, consultants and other parties to protect, in part, trade secrets and other proprietary rights. There can be no assurance that these agreements will adequately protect our trade secrets and other proprietary rights and will not be breached, that we will have adequate remedies for any breach, that others will not independently develop substantially equivalent proprietary information or that third parties will not otherwise gain access to our trade secrets or other proprietary rights. As we expand our business, protecting our intellectual property will become increasingly important. The protective steps we have taken may be inadequate to deter our competitors from using our proprietary information. In order to protect or enforce our patent rights, we may be required to initiate litigation against third parties, such as infringement lawsuits. Also, these third parties may assert claims against us with or without provocation. These lawsuits could be expensive, take significant time and could divert management's attention from other business concerns. The law relating to the scope and validity of claims in the technology field in which we operate is still evolving and, consequently, intellectual property positions in our industry are generally uncertain. We cannot assure you that we will prevail in any of these potential suits or that the damages or other remedies awarded, if any, would be commercially valuable.

The Issuer's success depends on the experience and skill of the board of directors, its executive officers and key employees.

We are dependent on our board of directors, executive officers and key employees. These persons may not devote their full time and attention to the matters of the Issuer. The loss of our board of directors, executive officers and key employees could harm the Issuer's business, financial condition, cash flow and results of operations.

Although dependent on certain key personnel, the Issuer does not have any key person life insurance policies on any such people.

We are dependent on certain key personnel in order to conduct our operations and execute our business plan, however, the Issuer has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Issuer will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Issuer and our operations. We have no way to guarantee key personnel will stay with the Issuer, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

Damage to our reputation could negatively impact our business, financial condition and results of operations.

Our reputation and the quality of our brand are critical to our business and success in existing markets, and will be critical to our success as we enter new markets. Any incident that erodes consumer loyalty for our brand could significantly reduce its value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience of consumers and other interested persons. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correction.

Our business could be negatively impacted by cyber security threats, attacks and other disruptions.

We continue to face advanced and persistent attacks on our information infrastructure where we manage and store various proprietary information and sensitive/confidential data relating to our operations. These attacks may include sophisticated malware (viruses, worms, and other malicious software programs) and phishing emails that attack our products or otherwise exploit any security vulnerabilities. These intrusions sometimes may be zero-day malware that are difficult to identify because they are not included in the signature set of commercially available antivirus scanning programs. Experienced computer programmers and hackers may be able to penetrate our network security and misappropriate or compromise our confidential information or that of our customers or other third-parties, create system disruptions, or cause shutdowns. Additionally, sophisticated software and applications that we produce or procure from third-parties may contain defects in design or manufacture, including “bugs” and other problems that could unexpectedly interfere with the operation of the information infrastructure. A disruption, infiltration or failure of our information infrastructure systems or any of our data centers as a result of software or hardware malfunctions, computer viruses, cyber-attacks, employee theft or misuse, power disruptions, natural disasters or accidents could cause breaches of data security, loss of critical data and performance delays, which in turn could adversely affect our business.

Security breaches of confidential customer information, in connection with our electronic processing of credit and debit card transactions, or confidential employee information may adversely affect our business.

Our business requires the collection, transmission and retention of personally identifiable information, in various information technology systems that we maintain and in those maintained by third parties with whom we contract to provide services. The integrity and protection of that data is critical to us. The information, security and privacy requirements imposed by governmental regulation are increasingly demanding. Our systems may not be able to satisfy these changing requirements and customer and employee expectations, or may require significant additional investments or time in order to do so. A breach in the security of our information technology systems or those of our service providers could lead to an interruption in the operation of our systems, resulting in operational inefficiencies and a loss of profits. Additionally, a significant theft, loss or misappropriation of, or access to, customers’ or other proprietary data or other breach of our information technology systems could result in fines, legal claims or proceedings.

The use of Individually identifiable data by our business, our business associates and third parties is regulated at the state, federal and international levels.

The regulation of individual data is changing rapidly, and in unpredictable ways. A change in regulation could adversely affect our business, including causing our business model to no longer be viable. Costs associated with information security – such as investment in technology, the costs of compliance with consumer protection laws and costs resulting from consumer fraud – could cause our business and results of operations to suffer materially. Additionally, the success of our online operations depends upon the secure transmission of confidential information over public networks, including the use of cashless payments. The intentional or negligent actions of employees, business associates or third parties may undermine our security measures. As a result, unauthorized parties may obtain access to our data systems and misappropriate confidential data. There can be no assurance that advances in computer capabilities, new discoveries in the field of cryptography or other developments will prevent the compromise of our customer transaction processing capabilities and personal data. If any such compromise of our security or the security of information residing with our business associates or third parties were to occur, it could have a material adverse effect on our reputation, operating results and financial condition. Any compromise of our data security may materially increase the costs we incur to protect against such breaches and could subject us to additional legal risk.

The Issuer is not subject to Sarbanes-Oxley regulations and may lack the financial controls and procedures of public companies.

The Issuer may not have the internal control infrastructure that would meet the standards of a public company, including the requirements of the Sarbanes Oxley Act of 2002. As a privately-held (non-public) issuer, the Issuer is currently not subject to the Sarbanes Oxley Act of 2002, and its financial and disclosure controls and procedures reflect its status as a development stage, non-public company. There can be no guarantee that there are no significant deficiencies or material weaknesses in the quality of the Issuer’s financial and disclosure controls and procedures. If it were necessary to implement such financial and disclosure controls and procedures, the cost to the Issuer of such compliance could be substantial and could have a material adverse effect on the Issuer’s results of operations.

We operate in a highly regulated environment, and if we are found to be in violation of any of the federal, state, or local laws or regulations applicable to us, our business could suffer.

We are also subject to a wide range of federal, state, and local laws and regulations, such as local licensing requirements, and retail financing, debt collection, consumer protection, environmental, health and safety, creditor, wage-hour, anti-discrimination, whistleblower and other employment practices laws and regulations and we expect these costs to increase going forward. The violation of these or future requirements or laws and regulations could result in administrative, civil, or criminal sanctions against us, which may include fines, a cease and desist order against the subject operations or even revocation or suspension of our license to operate the subject business. As a result, we have incurred and will continue to incur capital and operating expenditures and other costs to comply with these requirements and laws and regulations.

We are not currently registered to conduct business in the State of Florida.

The Issuer is incorporated in and licensed to do business in the State of Delaware. The Issuer does have its own physical office in the State of Florida. The Issuer has not filed all appropriate documentation, obtained necessary authorizations, paid all fees and any taxes owed or obtained all licensing or approvals necessary to conduct business in Florida. The Issuer intends to engage in all such actions as promptly as possible.

We are not a reporting company at this time.

We are not a reporting company and are not subject to the reporting requirements under Section 12(g) of the Securities and Exchange Act of 1934. There can be no assurance that we will ever become a reporting company. As a result, the Safes are not freely tradeable.

Risks Related to the Offering

State and federal securities laws are complex, and the Issuer could potentially be found to have not complied with all relevant state and federal securities law in prior offerings of securities.

The Issuer has conducted previous offerings of securities and may not have complied with all relevant state and federal securities laws. If a court or regulatory body with the required jurisdiction ever concluded that the Issuer may have violated state or federal securities laws, any such violation could result in the Issuer being required to offer rescission rights to investors in such offering. If such investors exercised their rescission rights, the Issuer would have to pay to such investors an amount of consideration equal to the purchase price paid by such investors plus interest from the date of any such purchase. No assurances can be given the Issuer will, if it is required to offer such investors a rescission right, have sufficient consideration to pay the prior investors the amounts required or that proceeds from this Offering would not be used to pay such amounts.

In addition, if the Issuer violated federal or state securities laws in connection with a prior offering and/or sale of its securities, federal or state regulators could bring an enforcement, regulatory and/or other legal action against the Issuer which, among other things, could result in the Issuer having to pay substantial fines and be prohibited from selling securities in the future.

There is no guarantee that an investor's commitment of Required Consideration or other consideration may be returned.

In the event an investment commitment of Required Consideration must be returned, including as pursuant to Rule 303 of Regulation Crowdfunding, there is no guarantee that an investor's commitment of Required Consideration or other consideration may be returned.

The U.S. Securities and Exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.

You should not rely on the fact that our Form C/A is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C/A, nor any document or literature related to this Offering.

Neither the Offering nor the Securities have been registered under federal or state securities laws.

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits

available in registered offerings, which may include access to quarterly and annual financial statements that have been audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C/A and the accompanying exhibits.

The Issuer's management may have broad discretion in how the Issuer uses the net proceeds of the Offering.

Unless the Issuer has agreed to a specific use of the proceeds from the Offering, the Issuer's management will have considerable discretion over the use of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

The Intermediary Fees paid by the Issuer are subject to change depending on the success of the Offering.

The Intermediary will be paid a flat fee of one-hundred and twenty-five thousand dollars (\$125,000) for preparing the Offering.

The Issuer has the right to limit individual Investor Safe Amounts based on the Issuer's determination of an Investor's sophistication.

The Issuer may prevent any Investor from committing more than a certain amount in this Offering based on the Issuer's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Issuer's determination and not in line with relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Issuer's determination.

The Issuer has the right to extend the Offering Deadline.

The Issuer may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Issuer attempts to raise the Target Offering Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment in the event the Issuer extends the Offering Deadline, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Issuer receiving the Target Offering Amount, at which time it will be returned or when context requires, destroyed, or the Issuer receives the Target Offering Amount, at which time it will be released to the Issuer to be used as set forth herein. Upon or shortly after the receipt of such committed consideration to the Issuer, the Safes will be issued and distributed to you.

The Issuer may also end the Offering early.

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Issuer can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to invest in this Offering – it also means the Issuer may limit the amount of capital it can raise during the Offering by ending the Offering early.

The Issuer has the right to conduct multiple closings during the Offering.

If the Issuer meets certain terms and conditions, an intermediate close (also known as a rolling close) of the Offering can occur, which will allow the Issuer to draw down on seventy percent (70%) of Investor proceeds committed and captured in the Offering during the relevant period. The Issuer may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments of Required Consideration in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments of Required Consideration were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

Risks Related to NFTs

The value of Nonfungible Tokens ("NFTs"), any investment in NFTs, and the regulation of NFTs are uncertain and may subject us to unforeseeable risks.

NFTs are unique, one-of-a-kind digital assets made possible by certain digital asset network protocols. Because of their non-fungible nature, NFTs introduce digital scarcity and have become popular as online “collectibles,” similar to physical rare collectible items, such as trading cards or art. Like real world collectibles, the value of NFTs may be prone to “boom and bust” cycles as popularity increases and subsequently subsides. Certain metadata pertaining to NFTs or the collectible itself (such as digital art) represented by the NFT may be stored “offchain,” i.e., not on a decentralized digital asset network. If we or any potential third-party hosting service or platform ceases hosting relevant data relating to NFTs, such NFTs may become worthless. Because NFTs generally rely on the same types of underlying technologies as digital assets, most risks applicable to digital assets (including phishing, hacking, blockchain risks) are also applicable to NFTs. We have developed and released our own NFTs. The application of the securities laws to NFTs is particularly uncertain, as most guidance related to the application of the federal securities laws to digital assets has been applied to more fungible forms of digital assets, such as cryptocurrencies. Any determination that the NFTs we develop and release are securities under the federal securities laws would adversely affect us.

There are risks associated with issuing NFTs, including a potential finding of a violation of securities laws by a regulatory authority.

The Commission evaluates whether a particular digital asset, including an NFT, is a security based on what is commonly referred to as the Howey Test. The Howey Test looks at four factors: (i) an investment of money (ii) in a common enterprise (iii) with the expectation of profit (iv) to be derived from the efforts of others. We believe the commemorative NFTs issued by us do not meet the definition for securities under the Howey Test.

Although we believe that these NFTs are not securities, there is risk that the issuance of NFTs may be considered a public offering in violation of the federal securities laws, and perhaps certain state securities laws. For issuances that are deemed to be public offerings under federal securities laws or in violation of certain state securities laws, purchasers of such products might be granted the right to rescind the sale of these products and demand that we return the purchase price of these products. We did not receive a purchase price for these NFTs; however, there is risk that the Company may be subject to other penalties or that other remedies may apply.

The further development and acceptance of blockchain networks, which are part of a new and rapidly changing industry, are subject to a variety of factors that are difficult to evaluate. The slowing or stopping of the development or acceptance of blockchain networks and blockchain assets could have an adverse material effect on the successful development and adoption of our NFT and digital collectible business.

The growth of the blockchain industry in general, as well as the blockchain networks on which our NFT and digital collectible business relies, is subject to a high degree of uncertainty. The factors affecting the further development of blockchain networks and digital assets, include, without limitation:

- worldwide growth in the adoption and use of digital assets and other blockchain technologies;
- government and quasi-government regulation of digital assets and their use, or restrictions on or regulation of access to and operation of blockchain networks or similar systems;
- the maintenance and development of the open-source software protocol of blockchain networks;
- changes in consumer demographics and public tastes and preferences;
- the availability and popularity of other forms or methods of buying and selling goods and services, or trading assets including new means of using government-backed currencies or existing networks;
- the extent to which current purchaser interest in cryptocurrencies represents a speculative “bubble;”
- the extent to which historic price volatility in cryptocurrencies and digital assets continues into the future;
- general economic conditions in the United States and the world;
- the regulatory environment relating to cryptocurrencies and blockchains; and
- a decline in the popularity or acceptance of cryptocurrencies or other blockchain-based tokens.

Moreover, if and to the extent we are unable to successfully expand our NFT and digital collectible business, we may incur unanticipated costs and losses, and face other adverse consequences, such as negative reputational effects. In addition, the actual effects of pursuing these initiatives may differ, possibly materially, from the benefits that we expect to realize from them, such as the generation of additional revenues.

The digital assets industries as a whole have been characterized by rapid changes and innovations and are constantly evolving. Although they have experienced significant growth in recent years, the slowing or stopping of the development, general acceptance and adoption and usage of blockchain networks and blockchain assets may deter or delay the acceptance and adoption of our NFT and digital collectible business and, as a result, adversely affect the future prospects of our NFT and digital collectible business as well as our financial results and financial condition.

Digital assets are a novel asset class that carries unique risks, including extreme price volatility.

Cryptocurrencies, digital currencies, coins, tokens, NFTs, stablecoins, and other digital or crypto assets or instruments that are issued and transferred using distributed ledger or blockchain technology (collectively referred to herein as “digital assets”) are a new and evolving asset class. The characteristics of particular digital assets within this broad asset class may differ significantly.

There is no guarantee that these NFTs will maintain their value as measured against fiat currencies or that such digital assets can be converted into or sold for fiat currencies. Digital assets continue to be an emerging asset class based on emerging technologies, and our use of digital assets is subject to a number of factors relating to the capabilities and development of blockchain technologies, such as the infancy of their development, their dependence on the internet and other technologies, their dependence on the role played by miners, validators and developers and the potential for malicious activity, among other factors. Further, there can be no assurance that the blockchain technology on which digital assets are transacted does not have undiscovered flaws that may allow for such digital assets to be compromised, resulting in the loss of some or all of the digital assets we hold. Finally, the intrinsic value of digital assets is particularly uncertain and difficult to determine due to the novel and rapidly changing nature of digital asset markets. There can be no assurance that digital assets will maintain their value in the future, or that acceptance of using digital assets as currency or to make payments by mainstream retail merchants and commercial businesses, or for any other uses, will continue to grow. Moreover, due to the novelty of the asset class and the evolving patchwork of regulatory oversight of digital asset markets, fraud and market manipulation are not uncommon in such markets, all of which could negatively impact the value of our digital assets and have an adverse impact on our business.

Digital ecosystems, including offerings of digital assets, are evolving and uncertain. Our NFT business is subject to unknown risks that may materially adversely affect our development.

Exploring new technologies and offering related services to customers is one of our strategies to keep our service competitive for growth of our business. However, these newly developed ideas such as crypto assets, blockchain technologies, NFTs and Metaverse are still in the process of development.

We provide NFT-related services. Unlike many other traditional business sectors, NFT is a relatively new concept and market demand may be affected by the rapidly changing popular culture and market trends. Without a sufficient historical foundation and a solid customer base, NFT-related businesses may be prone to failure if market trend changes and their popularity decreases. Individuals interested in these newly developed ideas may refrain from creating or investing in related products due to unknown risks, such as the illiquidity of secondary markets, fraud, security, pricing, etc. On the other hand, businesses or activities involving NFT-related activities may be volatile to future regulations that may significantly affect the dynamics and operation of the business. Many interested enterprises delay expansion plans into NFT-related business due to the insufficient interest, limited public trading, and the uncertainty of the regulatory environment, which may adversely affect our growth strategies, business development, operating results, and financial condition. Hence, all these uncertainties related to NFT-related business could delay the introduction of our solutions, increase our research and development expenses and reduce demand for our solutions, which would materially and adversely affect our business, financial condition and results of operations.

Risks Related to the Securities

Investors will not have voting rights, even upon conversion of the Safes and will grant a third-party nominee broad power and authority to act on their behalf.

In connection with investing in this Offering to purchase a Safe (Simple Agreement for Future Equity) investors will designate Republic Investment Services LLC (f/k/a NextSeed Services, LLC) (the “**Nominee**”) to act on their behalf as agent and proxy in all respects. The Nominee will be entitled, among other things, to exercise any voting rights (if any) conferred upon the holder of the Safes or any securities acquired upon their conversion, to execute on behalf of an investor all transaction documents related to the transaction or other corporate event causing the conversion of the Safes, and as part of the conversion process the Nominee has the authority to open an account in the name of a qualified custodian, of the Nominee’s sole discretion, to take custody of any securities acquired upon conversion of the Safes. Thus, by participating in the Offering, investors will grant broad discretion to a third party (the Nominee and its agents)

to take various actions on their behalf, and investors will essentially not be able to vote upon matters related to the governance and affairs of the Issuer nor take or effect actions that might otherwise be available to holders of the Safes and any securities acquired upon their conversion. Investors should not participate in the Offering unless he, she or it is willing to waive or assign certain rights that might otherwise be afforded to a holder of the Safes to the Nominee and grant broad authority to the Nominee to take certain actions on behalf of the investor, including changing title to the Security.

The Safes will not be freely tradable under the Securities Act until one year from when the securities are issued. Although the Safes may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not ever be a public market for the Safes. Because the Safes have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Safes have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Safes may also adversely affect the price that you might be able to obtain for the Safes in a private sale. Investors should be aware of the long-term nature of their investment in the Issuer. Each Investor in this Offering will be required to represent that they are purchasing the Safes for their own account, for investment purposes and not with a view to resale or distribution thereof. If a transfer, resale, assignment or distribution of the Security should occur prior to the conversion of the Security or after, if the Security is still held by the original purchaser directly, the transferee, purchaser, assignee or distribute, as relevant, will be required to sign a new Nominee Rider (as defined in the Security) and provide personally identifiable information to the Nominee sufficient to establish a custodial account at a later date and time. Under the Terms of the Safes, the Nominee has the right to place shares received from the conversion of the Security into a custodial relationship with a qualified third party and have said Nominee be listed as the holder of record. In this case, Investors will only have a beneficial interest in the equity securities derived from the Safes, not legal ownership, which may make their resale more difficult as it will require coordination with the custodian and Republic Investment Services.

Investors will not become equity holders until the Issuer decides to convert the Safes or until there is a change of control or sale of substantially all of the Issuer's assets. The Investor may never directly hold equity in the Issuer.

Investors will not have an ownership claim to the Issuer or to any of its assets or revenues for an indefinite amount of time and depending on when and how the Safes are converted, the Investors may never become equity holders of the Issuer. Investors will not become equity holders of the Issuer unless the Issuer receives a future round of financing great enough to trigger a conversion and the Issuer elects to convert the Safes. The Issuer is under no obligation to convert the Safes. In certain instances, such as a sale of the Issuer or substantially all of its assets, an initial public offering or a dissolution or bankruptcy, the Investors may only have a right to receive cash, to the extent available, rather than equity in the Issuer. Further, the Investor may never become an equity holder, merely a beneficial owner of an equity interest, should the Issuer or the Nominee decide to move the Safe or the securities issuable thereto into a custodial relationship.

Investors will not have voting rights, even upon conversion of the Safes.

Investors will not have the right to vote upon matters of the Issuer even if and when their Safes are converted (the occurrence of which cannot be guaranteed). Under the terms of the Safes, a third-party designated by the Issuer will exercise voting control over the Safes. Upon conversion, the Safes will **continue** to be voted in line with the designee identified or pursuant to a voting agreement related to the equity securities the Security is converted into. For example, if the Safes are converted in connection with an offering of Series B Preferred Stock, Investors would directly or beneficially receive securities in the form of shares of Series B-CF Preferred Stock and such shares would be required to be subject to the terms of the Safes that allows a designee to vote their shares of Series B-CF Preferred Stock consistent with the terms of the Security. Thus, Investors will essentially never be able to vote upon any matters of the Issuer unless otherwise provided for by the Issuer.

Investors will not be entitled to any inspection or information rights other than those required by law.

Investors will not have the right to inspect the books and records of the Issuer or to receive financial or other information from the Issuer, other than as required by law. Other security holders of the Issuer may have such rights. Regulation CF requires only the provision of an annual report on Form C/A and no additional information. Additionally, there are numerous methods by which the Issuer can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors

at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Issuer such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

Investors will be unable to declare the Security in “default” and demand repayment.

Unlike convertible notes and some other securities, the Safes do not have any “default” provisions upon which Investors will be able to demand repayment of their investment. The Issuer has ultimate discretion as to whether or not to convert the Safes upon a future equity financing and Investors have no right to demand such conversion. Only in limited circumstances, such as a liquidity event, may Investors demand payment and even then, such payments will be limited to the amount of cash available to the Issuer.

The Issuer may never elect to convert the Safes or undergo a liquidity event and Investors may have to hold the Safes indefinitely.

The Issuer may never conduct a future equity financing or elect to convert the Safes if such future equity financing does occur. In addition, the Issuer may never undergo a liquidity event such as a sale of the Issuer or an initial public offering. If neither the conversion of the Safes nor a liquidity event occurs, Investors could be left holding the Safes in perpetuity. The Safes have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. If a transfer, resale, assignment or distribution of the Security should occur prior to the conversion of the Security or after, if the Security is still held by the original purchaser directly, the transferee, purchaser, assignee or distributee, as relevant, will be required to sign a new Nominee Rider (as defined in the Security) and provide personally identifiable information to the Nominee sufficient to establish a custodial account at a later date and time. Under the terms of the Safes, the Nominee has the right to place shares received from the conversion of the Security into a custodial relationship with a qualified third party and have said Nominee be listed as the holder of record. In this case, Investors will only have a beneficial interest in the equity securities derived from the Safes, not legal ownership, which may make their resale more difficult as it will require coordination with the custodian and Republic Investment Services. The Safes are not equity interests, have no ownership rights, have no rights to the Issuer’s assets or profits and have no voting rights or ability to direct the Issuer or its actions.

Any equity securities issued upon conversion of the Safes will rank junior to the Issuer’s existing Preferred Stock.

Any equity securities issued upon conversion of the Safes will rank junior to the Issuer’s existing Preferred Stock with respect to its rights, preferences and privileges, including, but not limited to, with respect to any payment of dividends, or any liquidation payment in the event of any voluntary or involuntary liquidation, dissolution or winding up of the Issuer or Deemed Liquidation Event (as defined in the Issuer’s charter, as amended).

Any equity securities acquired upon conversion of the Safes may be significantly diluted as a consequence of subsequent equity financings.

The Issuer’s equity securities will be subject to dilution. The Issuer intends to issue additional equity to employees and third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of equity securities resulting from the conversion of the Safes will be subject to dilution in an unpredictable amount. Such dilution may reduce the Investor’s control and economic interests in the Issuer.

The amount of additional financing needed by the Issuer will depend upon several contingencies not foreseen at the time of this Offering. Generally, additional financing (whether in the form of loans or the issuance of other securities) will be intended to provide the Issuer with enough capital to reach the next major corporate milestone. If the funds received in any additional financing are not sufficient to meet the Issuer’s needs, the Issuer may have to raise additional capital at a price unfavorable to their existing investors, including the holders of the Safes. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Issuer. There can be no assurance that the Issuer will be able to accurately predict the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain financing on favorable terms could dilute or otherwise severely impair the value of the Safes.

Any equity securities issued upon conversion of the Safes may be substantially different from other equity securities offered or issued by the Issuer at the time of conversion.

In the event the Issuer decides to exercise the conversion right, the Issuer will convert the Safes into equity securities that are materially different from the equity securities being issued to new investors at the time of conversion in many

ways, including, but not limited to, liquidation preferences, dividend rights, or anti-dilution protection. Additionally, any equity securities issued at the Equity Financing Price (as defined in the Safe agreement) shall have only such preferences, rights, and protections in proportion to the Equity Financing Price and not in proportion to the price per share paid by new investors receiving the equity securities. Upon conversion of the Safes, the Issuer may not provide the holders of such Safes with the same rights, preferences, protections, and other benefits or privileges provided to other investors of the Issuer.

The forgoing paragraph is only a summary of a portion of the conversion feature of the Safes; it is not intended to be complete, and is qualified in its entirety by reference to the full text of the Safe agreement, which is attached as Exhibit B.

There is no present market for the Safes and we have arbitrarily set the price.

The offering price was not established in a competitive market. We have arbitrarily set the price of the Safes with reference to the general status of the securities market and other relevant factors. The offering price for the Safes should not be considered an indication of the actual value of the Safes and is not based on our asset value, net worth, revenues or other established criteria of value. We cannot guarantee that the Safes can be resold at the offering price or at any other price.

In the event of the dissolution or bankruptcy of the Issuer, Investors will not be treated as debt holders and therefore are unlikely to recover any proceeds.

In the event of the dissolution or bankruptcy of the Issuer, the holders of the Safes that have not been converted will be entitled to distributions as described in the Safes. This means that such holders will only receive distributions once all of the creditors and more senior security holders, including any holders of preferred stock, have been paid in full. No holders of any of the Safes can be guaranteed any proceeds in the event of the dissolution or bankruptcy of the Issuer.

While the Safes provide mechanisms whereby holders of the Safes would be entitled to a return of their consideration amount upon the occurrence of certain events, if the Issuer does not have sufficient cash on hand, this obligation may not be fulfilled.

Upon the occurrence of certain events, as provided in the Safes, holders of the Safes may be entitled to a return of the principal amount invested. Despite the contractual provisions in the Safes, this right cannot be guaranteed if the Issuer does not have sufficient liquid assets on hand. Therefore, potential Investors should not assume a guaranteed return of their investment amount.

There is no guarantee of a return on an Investor's investment.

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C/A and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

IN ADDITION TO THE RISKS LISTED ABOVE, RISKS AND UNCERTAINTIES NOT PRESENTLY KNOWN, OR WHICH WE CONSIDER IMMATERIAL AS OF THE DATE OF THIS FORM C/A, MAY ALSO HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND RESULT IN THE TOTAL LOSS OF YOUR INVESTMENT.

FINANCIAL INFORMATION

Please see the financial information listed on the cover page of this Form C/A and attached hereto in addition to the following information. Financial statements are attached hereto as Exhibit A.

Cash and Cash Equivalents

As of January 31, 2024 the Issuer had an aggregate of \$10,215,928 in cash and cash equivalents, leaving the Issuer with approximately 26 months of runway. Runway is calculated by dividing cash-on-hand by average monthly net loss (if any).

Liquidity and Capital Resources

There will not be any proceeds as conventionally understood. See the section titled “Use of Proceeds” for more information.

Capital Expenditures and Other Obligations

The Issuer does not intend to make any material capital expenditures in the near future.

Valuation

Although the Safes provide certain terms, which may include a valuation cap, the Intermediary has ascribed no pre-Offering valuation to the Issuer; the Safes are priced arbitrarily and the Issuer makes no representations as to the reasonableness of any specified valuation cap.

Trends and Uncertainties

After reviewing the above discussion of the steps the Issuer intends to take, potential Investors should consider whether achievement of each step within the estimated time frame will be realistic in their judgment. Potential Investors should also assess the consequences to the Issuer of any delays in taking these steps and whether the Issuer will need additional financing to accomplish them.

Please see the financial statements attached as Exhibit A for subsequent events and applicable disclosures.

Material Changes and Other Information

Truth Arts Inc. is filing this material Form C/A to (i) update the liquidation priority in the Safe, (ii) update the terms of Dissolution herein, and (iii) update the Risk Factors to align with the terms of Dissolution. The Form C filed by the Company on February 27, 2024, is hereby amended and superseded in all respects by this Form C/A.
