Live Event Production

Michael C. Morello

Founder at Novella AI
Los Angeles, California, United States

Summary

Welcome to my LinkedIn profile! I am the founder and COO of Novella AI, a software company that specializes in post-production. With over a decade of experience as a Production & Operations Manager for large music venues, I have developed a keen eye for detail and a passion for creating seamless events that leave a lasting impression on attendees.

In addition to my experience in live productions, I have spent over 8 years in post-production, which inspired me to launch Novella AI. As the COO of Novella AI, I have spearheaded the development of software tools that streamline and optimize post-production workflows. Our software enables post-production teams to work more efficiently, freeing up time to focus on creativity and delivering high-quality content.

As a highly motivated and results-driven professional, I am committed to driving innovation and finding new ways to push the boundaries of what is possible in post-production. Whether it's managing large-scale productions or developing cutting-edge software solutions, I am always seeking new opportunities to learn and grow. I am passionate about building connections within the industry and exploring new avenues for collaboration, so please don't hesitate to reach out and connect!
