SynaMed

Project Manager

April 2010 - March 2012 (2 years)

Direct the Electronic Medical Record & Practice Management implementation process for new clients:

- Work closely with sales team during pre-sales and negotiations. Manage the handover from sales to implementation.
- Lead discovery sessions analyzing client business and clinical requirements and client workflow.
- Develop & implement training program for clients including implementation project plan and all associated training and documentation.
- Provide regular updates to management on all aspects of ongoing implementations, flagging potential issues early to allow for proactive management and correction.
- Organize implementation with outside vendors providing clearinghouse, fax, and electronic prescription services.
- Perform technical and functional training for end-users demonstrating optimal workflow to ensure maximum efficiency and effectiveness.
- Identify potential revenue generating opportunities as they arise during implementation.

Assist with EMR & PM product development with a cross-functional team identifying and providing input on potential system improvements while ensuring compliance with government regulations:

- Provide feedback and propose modifications to improve usability and learning curve based on knowledge of client workflow and requirements.
- Perform and analyze market research, customer, and staff feedback to identify new features, opportunities, and areas of improvement.

Extensive interaction with a diverse demographic of clients through product demonstrations, sales, implementation, training, and support:

- Ability to build solid client rapport and confidence by accurately understanding their needs and addressing problems in a timely manner.
- Consistently commended by clients and colleagues as being a problem solver.

Reliable Automatic Sprinkler Co., Inc

Assistant to the Director of Operations

October 2008 - March 2010 (1 year 6 months)

Supported the Director of Operations of an international manufacturing company:

- Acted as liaison between multiple departments in 13 offices nationwide and the corporate sales headquarters.
- Streamlined the circulation of pricing materials between all salesmen and their top-tier customer base resulting in a 60% increase in efficiency and significant reduction in paper costs.
- Consulted with programmers to implement new price processing software improving efficiency by 75%.
- Implemented enhancements to the recently launched online store for a more intuitive customer experience. Prepared the company-wide inventory system for use with online store.
- Utilized Microsoft Office, GoldMine, AS400 and internet resources to draft, format and edit charts, correspondence, reports, surveys, and confidential documents.

Lee Ik-Hoon Language Institute

English Instructor

August 2006 - August 2008 (2 years 1 month)

Incorporated advanced learning techniques across all class levels to improve oral and written communication skills of a diverse student body:

- Collaborated with team to develop and refine the curriculum of a top-3 private English institute in Korea.
- Supported department manager with scheduling and orientation of new instructional staff.
- Consistently commended by the President and upper-management for student satisfaction with highest rate of student return among all members of the department.
