Leonardo Bernal, C, St. Louis Cardinals

Bernal hit a big-time HR on Friday that left the bat at 106 mph. I like his bat a lot and Bernal threw out 35 percent of base runners this year in High-A. Still just 20 years old.

Equity crowdfunding investments in private placements, and start-up investments in particular, are speculative and involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest in start-ups. Companies seeking startup investment through equity crowdfunding tend to be in earlier stages of development and their business model, products and services may not yet be fully developed, operational, or tested in the public marketplace. There is no guarantee that the stated valuation and other terms are accurate or in agreement with the market or industry valuations. Further, investors may receive illiquid and/or restricted stock that may be subject to holding period requirements and/or liquidity concerns.

In order to receive perks from an investment, one must submit a single investment that meets the minimum perk requirement. Bonus shares from perks will not be granted if an investor submits multiple investments that, when combined, meet the perk requirement. Perks are expected to be issued upon the completion of the Offering. Fractional shares will not be distributed and Bonus Shares will be determined by rounding down to the nearest whole share.
