## Summary

Confucius once said "Choose a job you love, and you will never have to work a day in your life." I am so lucky to have found my passion in life and my work is truly what I love to do. It is an honor and privilege to be able to witness the miracle of birth and be able to support women and their families on one of the most important days of their lives. Travel nursing has broadened my skills and allowed me to learn new things about my profession. I am always looking forward to the next adventure and can't wait to make an impact on where I go next!
