Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

To calculate total voting power, include all securities for which the person directly or indirectly has or shares the voting power, which includes the power to vote or to direct the voting of such securities. If the person has the right to acquire voting power of such securities within 60 days, including through the exercise of any option, warrant or right, the conversion of a security, or other arrangement, or if securities are held by a member of the family, through corporations or partnerships, or otherwise in a manner that would allow a person to direct or control the voting of the securities (or share in

such direction or control — as, for example, a co-trustee; they should be included as being “beneficially owned.” You should include an explanation of these circumstances in a footnote to the “Number of and Class of Securities Now Held.” To calculate outstanding voting equity securities, assume all outstanding options are exercised and all outstanding convertible securities converted.

BUSINESS AND ANTICIPATED BUSINESS PLAN

7. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

For a description of our business and our business plan, please refer to the attached Appendix A, Business Description & Plan.

INSTRUCTION TO QUESTION 7: Wefunder will provide your company's Wefunder profile as an appendix (Appendix A) to the Form C in PDF format. The submission will include all Q&A items and "read more" links in an uncollapsed format. All videos will be transcribed.

This means that any information provided in your Wefunder profile will be provided to the SEC in response to this question. As a result, your company will be potentially liable for misstatements and omissions in your profile under the Securities Act of 1933, which requires you to provide material information related to your business and anticipated business plan. Please review your Wefunder profile carefully to ensure it provides all material information, is not false or misleading, and does not omit any information that would cause the information included to be false or misleading.

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

The success of Muvr is heavily reliant on the collective expertise and dedication of our team in achieving our objectives. While we strive to maintain a skilled workforce, all team members, including founder, gig workers and key employees, are employed on an at-will basis, and there can be no guarantee of their continued employment or the success of their contributions to the company. The departure of critical team members could adversely impact Muvr's operational efficiency, financial stability, and ability to execute our business strategies.

Muvr has a relatively short operating history and remains in the initial stages of operations and expansion. As a result, there is no assurance that we will successfully achieve our outlined objectives or generate consistent profitability. Our business is subject to various inherent risks, costs, complexities, and challenges typically associated with early-stage enterprises.

At Muvr, we acknowledge the potential risks associated with fraudulent activities, cybersecurity threats, and breaches of information security. Despite having robust compliance and onboarding teams dedicated to mitigating these risks, we remain vulnerable to various forms of fraudulent activities, including electronic fraud, phishing, and social engineering. While we've implemented systems and processes to detect and prevent security breaches and cyber-attacks, our evolving mobile and digital product offerings may heighten cybersecurity risks in the future. As we expand our internet-based applications, breaches of information security could occur through intentional or unintentional actions by individuals with access to our systems or sensitive client data, including employees and third-party contractors. Though we continuously invest in security measures, our risk mitigation strategies may not fully protect against all forms of fraud, security breaches, or cyber-attacks. Additionally, any insurance coverage we maintain may not adequately compensate for potential losses. The repercussions of failing to anticipate or effectively mitigate these risks could include financial losses, damage to our reputation, loss of business or clients, data exposure, additional expenses, business disruptions, or exposure to litigation. Despite our proactive approach, there remains a possibility of financial and reputational repercussions due to these threats.

At Muvr, our ambitious growth plans necessitate substantial scalability, which may strain our operations. Successfully managing this anticipated growth requires consistent enhancement of our platform, information technology infrastructure, financial systems, and controls. Additionally, it mandates the attraction, training, and retention of a large number of skilled professionals across various domains, including software development, engineering, management, sales, marketing, customer support, and professional services. Scaling our business might demand considerable capital investments and could potentially divert financial resources from other critical projects, such as the innovation and development of new products and services. The requirements to sustain and manage growth effectively could put pressure on our operational capacity and financial allocations, affecting our ability to execute new initiatives promptly.

At Muvr, our revenue is intricately tied to our business reputation and the positive endorsements from our valued customers. Retaining our existing customer base and attracting new clients hinges upon delivering consistently exceptional customer service and technical support. Our customers rely on our dedicated service support team to navigate our platform efficiently, explore new applications, enhance productivity and efficiency, swiftly resolve any issues, and provide ongoing assistance. Maintaining a high level of customer satisfaction is paramount to our success. It ensures not only the retention of our existing clientele but also acts as a catalyst in acquiring new customers who are impressed by our commitment to service excellence.

Operational Reliance on Technology: Muvr is highly dependent on its technology platform for coordinating moving services. Any unexpected system failures, cybersecurity threats, or technical glitches could disrupt operations and affect customer satisfaction.

Regulatory Challenges: The on-demand service industry, including moving and logistics, is subject to evolving regulations. Changes in local, state, or federal regulations may necessitate adjustments to Muvr's business model, potentially impacting costs and operational processes.

Dependence on Workforce Availability: Muvr relies on gig workers for its moving services. Any fluctuations in the availability of these gig workers, whether due to external economic factors, labor market shifts, or other reasons, could affect the company's ability to meet demand.

Customer Satisfaction and Reviews: The reputation of Muvr heavily relies on customer reviews and satisfaction. Negative reviews or service-related issues could impact brand perception and customer acquisition.

Economic Downturn: Economic downturns or recessions may influence consumer spending behavior, potentially affecting demand for moving services. Muvr needs to be agile in adapting to changing economic conditions.

Insurance and Liability Issues: As a moving service, there are inherent risks of property damage or accidents. Ensuring comprehensive insurance coverage and addressing liability concerns is crucial to mitigate potential financial and legal risks.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$50,000**

Use of Proceeds: 92.1% - General operating expenses, including hiring, marketing, working capital, and other expenses. 7.9% - Wefunder intermediary fee.

If we raise: **\$1,235,000**

Use of Proceeds: 92.1% - General operating expenses, including hiring, marketing, working capital, and other expenses. 7.9% - Wefunder intermediary fee. Raising our maximum allows us to implement an aggressive marketing strategy, accelerate technology development for additional service offerings, and scale our operations nationwide, ensuring Muvr's swift and impactful expansion beyond our current markets.

INSTRUCTION TO QUESTION 10: An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of oversubscriptions. If you do not do so, you may later be required to amend your Form C. Wefunder is not responsible for any failure by you to describe a potential use of offering proceeds.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

If we reach our target offering amount prior to the deadline, we may conduct an initial closing of the offering early if we provide notice about the new offering deadline at least five business days prior to the new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Wefunder will notify investors if we conduct an initial closing. Thereafter, we may conduct additional closings from time to time at our and Wefunder's discretion until the deadline date.

The following describes the process to invest in the Company, including how the Company will complete an Investor's transaction and deliver securities to the investor.

- Investor Commitment.** The investor will submit, through Wefunder Portal, a requested investment amount. When doing so, the investor will also execute an investment contract with the Company ("Investment Agreement"), using the investor's electronic signature.
- Acceptance of the Investment.** If the investor Agreement is complete, the investor's commitment will typically be recorded within a few minutes. The commitment will also be available on the investor's "My Investments" screen on the wefunder.com website. After the offering closes, the contract will be counter-signed by the Company. The executed investment contract will then be sent to the investor via email, and is also available to download on the "My Investments" screen.
- Investor Transfer of Funds.** Upon receiving confirmation that an investment has been accepted, the investor will be responsible for transferring funds from a source that is accepted by Wefunder Portal into an escrow account held with a third party bank on behalf of issuers offering securities through Wefunder Portal.
- Progress of the Offering.** The investor will receive periodic email updates on the progress of the offering, including total amounts raised at any given time, and will be notified by email and through the "My Investments" screen when the target offering amount is met.
- Closing: Original Deadline.** Unless we meet the target offering amount early, investor funds will be transferred from the escrow account to the Company on the deadline date identified in the Cover Page to this Form C and the Company's Wefunder Portal Profile.
- Early Closings.** If the target offering amount is met prior to the original deadline date, we may close the offering earlier, but no less than 21 days after the date on which information about the Company, including this Form C, is posted on our Wefunder Portal Profile. We will reschedule the offering deadline, and at least five days prior to the new deadline, investors will receive notice of it by email and through the "My Investments" screen. At the time of the new deadline, your funds will be transferred to the Company from the escrow account, provided that the target offering amount is still met after any cancellations.
- Book Entry.** Investments may be in book entry form. This means that the investor may not receive a certificate representing his or her investment. Each investment will be recorded in our books and records and will be recorded in each investor's "My Investments" screen. The investor will also be emailed the Investment Agreement again. The Investment Agreement will also be available on the "My Investments" screen. At the option of the Company, you may receive an electronic certificate.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension

not offering become (cancel a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

An investor's right to cancel. An investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the investor about the offering and/or the Company, the investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the investor will receive, and refund the investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

Ownership and Capital Structure

THE OFFERING

13. Describe the terms of the securities being offered.

The company is issuing promissory notes to investors. The principal amount of each note is the amount invested by the investor. The company will use **3% of its gross revenues** to pay back principal on the notes. Each note will be paid back based on its pro rata share of all notes issued in this offering. The company will make interest payments to the investor quarterly. The company may prepay principal and interest at any time. The company will continue payments until investors have received **4.0x their principal investment** (the repayment amount) , provided however that at any time the company may defer up to 1 such payments upon notice to the Lender.

Investors in the **first \$250,000.00 of the fundraiser will receive 5.0x their principal**. Wefunder VIP investors will be entitled to these terms for the entire duration of the offering, even if the threshold limit noted above is met. Therefore, the company could potentially offer all \$1,235,000.00 at 5.0x their principal.

Upon the occurrence of an event of default (as defined in each note), all unpaid principal, accrued interest and other amounts owing will automatically be immediately due, payable and collectible by the company pursuant to applicable law.

The notes do not provide investors with any voting rights in the company.

See exact security attached as [Appendix B, Investor Contracts](#).

VIP Bonus: Muvr will offer a discount to the normal terms listed in this Form C for all investments that are committed by investors who are part of Wefunder, Inc's VIP program. This means eligible Wefunder investors will receive a discount for any securities they purchased in this offering. For more specific details on the company's discount, please review the description of the terms above.

The discount is only valid until the offering closes. Investors eligible for the bonus will also receive priority if they are on a waitlist to invest and the company exceeds its maximum funding goal. They will be given the first opportunity to invest if space in the offering becomes available due to the cancellation or failure of previous investments.

14. Do the securities offered have voting rights?

☐ Yes
☒ No

15. Are there any limitations on any voting or other rights identified above?

☒ Yes: No Voting Rights
☐ No:

16. How may the terms of the securities being offered be modified?

Any provision of this instrument (other than the Repayment Amount) may be amended, waived or modified as follows: upon the written consent of the Borrower the holders of a majority in principal of the Loan Amounts raised in this offering.

Pursuant to authorization in the Investor Agreement between each Investor and Wefunder Portal, Wefunder Portal is authorized to take the following actions with respect to the investment contract between the Company and an investor:

- A. Wefunder Portal may amend the terms of an investment contract, provided that the amended terms are more favorable to the investor than the original terms; and
- B. Wefunder Portal may reduce the amount of an investor's investment if the reason for the reduction is that the Company's offering is oversubscribed.

RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

- 1. to the issuer;
- 2. to an accredited investor;
- 3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
- 4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

DESCRIPTION OF ISSUER'S SECURITIES

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Securities (or Amount) Authorized	Securities (or Amount) Outstanding	Voting Rights
Common stock	100	100	Yes
Securities Reserved for Issuance upon Exercise or Conversion			
Warrants:			
Options:			

Describe any other rights:

The company has only authorized common stock.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

Because the Investor holds no voting rights in the company, the holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering). These decisions could affect gross revenues and diminish payments made to Investors.

Based on the risk that the company may never realize revenues or face a Default Event, the Investor may never see any returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, the shareholders may make decisions with which the Investor disagrees, or that negatively affect the gross revenues of the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, the shareholders may change the terms of the Operating Agreement for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. The shareholders may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

The shareholders have the right to redeem their securities at any time. shareholders could decide to force the Company to redeem their securities at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFEs, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be negatively affected.

Based on the risks described above, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

The value of the promissory notes will be determined by the Company's senior management in accordance with U.S. generally accepted accounting principles. For example, the notes may be valued based on principal plus anticipated interest payments over the course of the term of the note.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An investor in the promissory notes holds no position in the Company and will have no voting rights in the Company, and thus will be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its board of directors, and the Investor will have no independent right to name or remove an officer or member of the board of directors of the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

24. Describe the material terms of any indebtedness of the issuer:

None

INSTRUCTION TO QUESTION 24: name the creditor, amount owed, interest rate, maturity date, and any other material terms.

25. What other exempt offerings has the issuer conducted within the past three years?

Offering Date	Exemption	Security Type	Amount Sold	Use of Proceeds
No exempt offerings.				

26. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12- month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:

- any director or officer of the issuer;
 - any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;
 - if the issuer was incorporated or organized within the past three years, any promoter of the issuer;
 - or any immediate family member of any of the foregoing persons.
- ☐ Yes
☒ No

INSTRUCTIONS TO QUESTION 26: The term transaction includes, but is not limited to, any financial transaction, arrangement or relationship (including any indebtedness or guarantee of indebtedness) or any series of similar transactions, arrangements or relationships.

Beneficial ownership for purposes of paragraph (2) shall be determined as of a date that is no more than 120 days prior to the date of filing of this offering statement and using the same calculation described in Question 6 of this Question and Answer format.

The term "member of the family" includes any child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the person, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Compute the amount of a related party's interest in any transaction without regard to the amount of the profit or loss involved in the transaction. Where it is not practicable to state the approximate amount of the interest, disclose the approximate amount involved in the transaction.

FINANCIAL CONDITION OF THE ISSUER

27. Does the issuer have an operating history?

- ☒ Yes
☐ No

28. Describe the financial condition of the issuer, including, to the extent material, liquidity:

capital resources and historical results of operations.

Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

On-Demand Moving, Same-Day Furniture Delivery, Junk Removal, Labor & More

Muvr is an on-demand moving, delivery, and junk removal company founded to revolutionize the moving industry by treating workers and customers with fairness, care, and respect. The company provides comprehensive training and fair wages to its gig workers while offering a reliable, customizable moving experience that caters to customers' unique needs.

Milestones

Muvr Technologies, Inc. was incorporated in the State of Delaware in January 2023.

Since then, we have:

- Gig Worker Empowerment: Muvr's mission is to empower gig workers.
- Profit with Purpose: Balancing profit and social responsibility.
- Minority-owned Founder and spokesperson Rico Suarez has a combined total of 1 million followers.
- Led by a serial entrepreneur and team with years of mover backgrounds and deep tech knowledge.
- \$2,000/day in profit after launching only in Los Angeles County, CA., recently on November 1, 2023.
- 25 gig workers signing up daily with \$0 CAC, entirely word of mouth.
- 90% of users acquired through word-of-mouth referral

Historical Results of Operations

Our company was organized in January 2023 and has limited operations upon which prospective investors may base an evaluation of its performance.

- *Revenues & Gross Margin.* For the period ended December 31, 2023, the Company had revenues of \$195,192.
- *Assets.* As of December 31, 2023, the Company had total assets of \$7,087, including \$7,087 in cash.
- *Net Income.* The Company has had net income of \$91,604 for 2023.
- *Liabilities.* The Company's liabilities totaled \$36,401.59 for 2023.

Liquidity & Capital Resources To date, the Company has been bootstrapped with approximately \$300,000 in capital. After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 24 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Muvr Technologies, Inc. cash in hand is \$25,000, as of February 2024. Over the last three months, revenues have averaged \$45,000/month, cost of goods sold has averaged \$0/month, and operational expenses have averaged \$30,000/month, for an average net margin of \$15,000 per month. We are already profitable, but hope to be consistently profitable in 12-18 months.

As of the date covered by our financials, Muvr has experienced several material changes and positive trends in both finances and operations:

1. **Financial Growth:** Muvr has seen a steady increase in revenue, reflecting the growing demand for our services. Our financial performance demonstrates the viability and scalability of our business model.
 2. **Technological Advancements:** Muvr has made significant advancements in our technology infrastructure. Our proprietary mobile app and logistics platform have undergone updates and optimizations, enhancing the user experience and operational efficiency.
 3. **Market Penetration:** The company has made strides in penetrating new markets domestically and laying down seeds internationally for the future. This expansion aligns with our strategic goal of becoming a key player in the on-demand moving and logistics industry.
 4. **Workforce Development:** Muvr has invested in the development and training of our workforce. Our gig workers and customer service representatives are equipped with the necessary skills and knowledge to ensure a high level of service quality.
 5. **Strategic Partnerships:** We have established strategic partnerships with key players in related industries, fostering collaborations that enhance our reach, capabilities, and overall market positioning.
- Muvr has achieved these milestones with minimal investment in marketing and advertising. The positive reception and growth have largely been organic, driven by satisfied customers who have spread the word about our services. This organic growth not only signifies the quality and reliability of our offerings but also presents a substantial opportunity for scaling with strategic marketing initiatives.

Furthermore, it's essential to highlight that, as of the financials' date, Muvr has primarily realized revenue from its store delivery service. This implies that the revenue figures presented represent only a fraction of our full revenue potential, as we are yet to tap into the extensive array of services we offer, including on-demand moving, furniture delivery, junk removal, and more. This presents a significant upside potential for revenue diversification and increased profitability as we fully leverage our comprehensive suite of services.

These strategic decisions align with our approach of ensuring a strong foundation and positive market reception before aggressively expanding marketing efforts. This measured strategy positions Muvr for sustained, scalable growth as we continue to roll out and optimize our complete service offerings in the market. An additional noteworthy point is that Muvr has achieved its impressive revenue figures by launching and enabling services exclusively in two counties—Los Angeles County and Orange County in California.

Remarkably, the substantial revenue of over \$200,000 has been generated within a confined geographic area and with only one of our diverse service offerings. This regional success serves as a promising indicator of the enormous untapped potential awaiting Muvr on a national scale. As we plan to expand our services beyond these initial counties and introduce our complete suite of offerings,

beyond these major sources and includes our complete suite of offerings, including on-demand moving, furniture delivery, and junk removal, the revenue growth trajectory is poised for significant acceleration. This strategic expansion aligns with our vision to become a prominent player not just in specific regions but nationwide, marking a pivotal phase in Muvr's journey toward industry leadership and sustained financial success.

In the next 3-6 months, we project a substantial increase in revenues, aiming to scale from our current \$200,000 to over \$2 million and beyond. In the same period, we expect to incur \$150k in monthly expenses.

This optimistic forecast is based on the strong traction we've gained in the market, with a demonstrated demand for our innovative tech-driven services. Leveraging our unique position in the moving and logistics sector, we anticipate capturing a larger market share. On the expense side, we're strategically managing our finances. Currently, marketing expenses are minimal, given our organic growth and word-of-mouth referrals. However, as we embark on an aggressive expansion plan, we anticipate allocating funds toward targeted marketing initiatives, technological advancements, and talent acquisition to sustain and propel this growth.

While we've achieved remarkable success with over \$200,000 in revenue within our first six months of operation, we're currently prioritizing growth over immediate profitability. To reach sustained profitability, we estimate an additional investment of \$1 million, which will be strategically deployed to expand our service offerings, enhance technological capabilities, and fuel marketing initiatives. Given our current growth trajectory, we anticipate reaching profitability within the next 12-18 months. This timeline is informed by our comprehensive business strategy, which includes penetrating new markets, diversifying our service portfolio, and optimizing operational efficiency to ensure a financially sustainable future.

Beyond Wefunder, Muvr is actively exploring strategic partnerships, private investments, and potential grants to secure additional capital. While not yet profitable, we've strategically managed our burn rate through operational efficiency and are confident in our ability to sustain short-term burn during the campaign.

As our campaign gains momentum, we anticipate heightened investor interest, potentially leading to increased investment and ensuring our continued growth trajectory. The successful execution of our business plan, coupled with the robust demand for our services, positions us optimistically in securing the necessary resources for both the short term and the overall success of Muvr.

All projections in the above narrative are forward-looking and not guaranteed.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.
