Anand Butani

Machine Learning | Data Science | AI | Healthtech | Manufacturing
Irvine, California, United States

Summary

I've worked in manufacturing, healthcare, financial technology (fintech), mortgages and lending, machine learning, subscription-based services, and eCommerce. As a product leader, I am accountable for the entire process, which includes customer research, strategy development, and driving outcome-driven roadmaps. I'll use this data to initiate conversations with product designers and UI/UX designers in order to develop wireframes and prototypes for customer testing.

As a product manager and software engineer, I understand how to bring both sides together for in-depth technical discussions. I am an intellectually curious, goal-oriented individual with diverse consulting experience who is driven to move quickly.

What I've built:
- Enterprise-level AI/ML products for forecasting, segmentation, prediction, and generation.
- Enterprise Resource Planning (ERP)
- Challenger banks, expense management systems, and card issuing
- Machine learning applications using natural language processing (NLP) and computer vision
- HIPAA & FDA-compliant software systems
- Business/Robotic Process Automations (BPA/RPA)
- eCommerce subscription & marketing automation platforms

Experience

Syllaby

Product & Engineering
March 2023 - Present (2 years 1 month)
Los Angeles, California, United States

Dell Technologies
Sr Principal AI/ML Product Manager
March 2022 - March 2023 (1 year 1 month)
