Reveal.ai, Inc.
Notes to the Financial Statement
Fiscal Years Ended December 31, 2022

1. ORGANIZATION AND PURPOSE

Reveal.ai, Inc. (the “Company”), is a corporation organized under the laws of the State of Delaware. The Company operates an artificial intelligence (AI) platform and derives revenue from using AI interviews to perform qualitative research and discovery, at scale.

2. FINANCIAL CONDITION

The Company had a net loss of \$491,963.67 for the year ended December 31, 2022. The Company had negative cash flows from operating activities of \$351,291.89 for the year ended December 31, 2022. The negative cash flows from operating activities were funded through equity financing activities. The Company expects to rely on the above sources of financing until their cash flows become substantial and consistent enough to fund ongoing operations. Additionally, the Company plans to keep expenditures fixed and manage cash flow in order to meet its ongoing commitments.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the Company’s significant accounting policies applied in the preparation of the accompanying financial statements follows:

a. Basis of Accounting

The Company prepares its financial statements on an accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP). Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

b. Fiscal Year

The Company operates on a 52-week fiscal year ending on December 31.

Reveal.ai, Inc.
Notes to the Financial Statement
Fiscal Years Ended December 31, 2022

c. Cash Equivalents

Cash and cash equivalents include cash and short-term highly liquid investments with an original maturity of three months or less held in domestic financial institutions. For the fiscal years ended December 31, 2022, the Company's cash positions include its operating bank account.

d. Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

e. Fair Value Financial Instruments

The Company measures its financial assets and liabilities at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., exit price) in an orderly transaction between market participants at the measurement date. Additionally, companies are required to provide disclosure and categorize assets and liabilities measured at fair value into one of three different levels depending on the assumptions (i.e. inputs) used in the valuation. Level 1 provides the most reliable measure of fair value while Level 3 generally requires significant management judgment. Financial assets and liabilities are classified in their entirety based on the lowest level of input significant to the fair value measurement. The fair value hierarchy is defined as follows:

Level 1—Valuations are based on unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2—Valuations are based on quoted prices for similar assets or liabilities in active markets, or quoted prices in markets that are not active for which significant inputs are observable, either directly or indirectly.

Level 3—Valuations are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Inputs

reflect management's best estimate of what market participants would use in valuing the asset or liability at the measurement date.

The carrying amounts of the Company's financial assets and liabilities, such as cash, receivables, prepaid expenses, payables, and accrued expenses approximate their fair values because of the short maturity of these instruments.

4. RELATED PARTY TRANSACTIONS

The Company entered into two related party transactions with BMNT, Inc, an owner with more than 20% voting power and a board member. In August 2022, BMNT, Inc purchased \$500,000 of Most Favored Nation (MFN) SAFEs with no valuation cap or discount rate. In March 2023, BMNT, Inc purchased another \$75,000 worth of MFN SAFEs with no valuation cap or discount rate.

The Company also entered into two related party transactions with co-founder and CEO Robert Dimicco. In July 2023, Robert Dimicco purchased \$150,000 of MFN SAFEs with no valuation cap or discount rate and in February 2024 he purchased \$75,000 MFN SAFEs with no valuation cap or discount rate.

5. SUBSEQUENT EVENTS

The Company has evaluated events and transactions subsequent to the period. No events require recognition in the financial statements or disclosures of the Company per the definitions and requirements of ASC Section 855-10, Subsequent Events.
