6. Provide the name and ownership level of each person, as of the most recent practicable date, who is the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities,

To calculate total voting power, include all securities for which the person directly or indirectly has or shares the voting power, which includes the power to vote or to direct the voting of such securities. If the person has the right to acquire voting power of such securities within 60 days, including through the exercise of any option, warrant or right, the conversion of a security, or other arrangement, or if securities are held by a member of the family, through corporations or partnerships, or otherwise in a manner that would allow a person to direct or control the voting of the securities (or share in such direction or control — as, for example, a co-trustee) they should be included as being "beneficially owned." You should include an explanation of these circumstances in a footnote to the "Number of and Class of Securities Now Held." To calculate outstanding voting equity securities, assume all outstanding options are exercised and all outstanding convertible securities converted.

As a result, your company will be potentially liable for misstatements and omissions in your profile under the Securities Act of 1933, which requires you to provide material information related to your business and anticipated business plan. ***Please review your Wefunder profile carefully to ensure it provides all material information, is not false or misleading, and does not omit any information that would cause the information included to be false or misleading.***

RISK FACTORS

The U.S. Securities and Exchange Commission does not pass

upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

> The brand's close association with Philomina Kane, also known as NaturallyPhilo, presents both opportunities and risks. While Philomina's personal brand and influence have been instrumental in KIN Apparel's early success, any negative publicity or shifts in Philomina's personal brand could directly impact the company's reputation and sales. This dependence on a single individual for brand recognition and consumer trust poses a significant risk to the long-term sustainability of the business.
>
> As a company that prioritizes quality and uses specific materials like satin for its products, KIN Apparel may face challenges in maintaining a reliable and cost-effective supply chain. Any disruptions in the sourcing of materials or manufacturing processes could lead to production delays, increased costs, and potentially lower product quality. Given the importance of materials like satin in the brand's offerings, any compromise in quality or consistency could have a detrimental impact on customer satisfaction and brand reputation.
>
> While KIN Apparel aims to offer unique and functional products tailored to a specific market segment, it operates in a highly competitive industry. Competing against established brands with larger marketing budgets and broader distribution networks poses a challenge to KIN Apparel's growth ambitions. Without effective marketing strategies, the company may struggle to capture market share and sustain its competitive edge in the long term.
>
> While KIN Apparel's satin-lined hoodies and accessories offer unique benefits for hair care, the reliance on satin as a primary material could limit the scalability of its product line. Satin is typically associated with higher production costs compared to standard materials like cotton, which could pose challenges in expanding the product range or offering competitive pricing. Additionally, the niche appeal of satin products may limit their market reach, impacting the company's ability to achieve widespread adoption and scale operations efficiently.
>
> KIN Apparel requires additional funding to reach profitability, which may pose a risk due to the uncertainty

of securing necessary financing. Without sufficient capital, the company may face challenges in executing its growth strategies, such as investing in marketing initiatives, expanding product lines, or enhancing operational efficiency. Failure to secure adequate funding could impede KIN Apparel's ability to achieve profitability within the projected timeline, affecting investor confidence and long-term viability.

KIN Apparel aims to expand its distribution by entering retail spaces, but this endeavor carries inherent risks. Entering retail channels requires significant upfront investment in inventory, marketing, and store infrastructure, with no guarantee of immediate returns. Moreover, retail expansion entails navigating complex negotiations with landlords, managing inventory levels effectively, and competing for shelf space with established brands. Any missteps in the retail expansion strategy could result in financial losses, diminished brand reputation, and setbacks in the company's growth trajectory.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

Runway & Short/Mid Term Expenses

KIN Apparel, Inc cash in hand is $448,391, as of April 2025. Over the last three months, revenues have averaged $224,662/month, cost of goods sold has averaged $94,224/month, and operational expenses have averaged $139,346/month, for an average burn rate of $8,908 per month.The company did significant restructuring in 2024, lowering our expenses while increasing our gross profit. Although we showed a net loss of $198,438 in 2024, we increased our profitability by $304,995 over 2023. This while doing relatively the same amount of revenue both years.

There have not been any material changes in our finances or operations since the end of 2024.

In the 2nd quarter of 2025 (April to June), we expect the total revenues to be $640,000 and expenses to be $410,000.

We are not currently profitable. We expect our first profitable year to be 2026 if we receive no equity financing. It is important to note though that we expect to have profitable months before that because our business is highly seasonal, and we typically see significant increases to revenue in the 4th quarter.

We currently have a 2 charge cards with a $170,000 limit for short term financing and a $200,000 line of credit for medium term financing. The company may, at its discretion, also pursue other debt or equity funding in the medium to long term, but we are not currently engaged in pursuing either type of financing. The company is projected to

have enough cash on hand and credit availability to get us thru the year.

All projections in the above narrative are forward-looking and not guaranteed.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.

OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in

this Form, include:

- (1) any other material information presented to investors; and
- (2) such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

The Lead Investor. As described above, each Investor that has entered into the Investor Agreement will grant a power of attorney to make voting decisions on behalf of that Investor to the Lead Investor (the "Proxy"). The Proxy is irrevocable unless and until a Successor Lead Investor takes the place of the Lead Investor, in which case, the Investor has a five (5) calendar day period to revoke the Proxy. Pursuant to the Proxy, the Lead Investor or his or her successor will make voting decisions and take any other actions in connection with the voting on Investors' behalf.

The Lead Investor is an experienced investor that is chosen to act in the role of Lead Investor on behalf of Investors that have a Proxy in effect. The Lead Investor will be chosen by the Company and approved by Wefunder Inc. and the identity of the initial Lead Investor will be disclosed to Investors before Investors make a final investment decision to purchase the securities related to the Company.

The Lead Investor can quit at any time or can be removed by Wefunder Inc. for cause or pursuant to a vote of investors as detailed in the Lead Investor Agreement. In the event the Lead Investor quits or is removed, the Company will choose a Successor Lead Investor who must be approved by Wefunder Inc. The identity of the Successor Lead Investor will be disclosed to Investors, and those that have a Proxy in effect can choose to either leave such Proxy in place or revoke such Proxy during a 5-day period beginning with notice of the replacement of the Lead Investor.

The Lead Investor will not receive any compensation for his or her services to the SPV. The Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a fund ("Fund") for accredited investors for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such as circumstance, the Lead Investor may act as a portfolio manager for that Fund (and as a supervised person of Wefunder Advisors) and may be compensated through that role.

Although the Lead Investor may act in multiple roles with respect to the Company's offerings and may potentially be compensated for some of its services, the Lead Investor's goal is to maximize the value of the Company and

therefore maximize the value of securities issued by or related to the Company. As a result, the Lead Investor's interests should always be aligned with those of Investors. It is, however, possiblethat in some limited circumstances the Lead Investor's interests could diverge from the interests of Investors, as discussed in section 8 above.

Investors that wish to purchase securities related to the Company through Wefunder Portal must agree to give the Proxy described above to the Lead Investor, provided that if the Lead Investor is replaced, the Investor will have a 5-day period during which he or she may revoke the Proxy. If the Proxy is not revoked during this 5-day period, it will remain in effect.

Tax Filings. In order to complete necessary tax filings, the SPV is required to include information about each investor who holds an interest in the SPV, including each investor's taxpayer identification number ("TIN") (e.g., social security number or employer identification number). To the extent they have not already done so, each investor will be required to provide their TIN within the earlier of (i) two (2) years of making their investment or (ii) twenty (20) days prior to the date of any distribution from the SPV. If an investor does not provide their TIN within this time, the SPV reserves the right to withhold from any proceeds otherwise payable to the Investor an amount necessary for the SPV to satisfy its tax withholding obligations as well as the SPV's reasonable estimation of any penalties that may be charged by the IRS or other relevant authority as a result of the investor's failure to provide their TIN. Investors should carefully review the terms of the SPV Subscription Agreement for additional information about tax filings.

INSTRUCTIONS TO QUESTION 30: If information is presented to investors in a format, media or other means not able to be reflected in text or portable document format, the issuer should include:
(a) a description of the material content of such information;
(b) a description of the format in which such disclosure is presented; and
(c) in the case of disclosure in video, audio or other dynamic media or format, a transcript or description of such disclosure.

ONGOING REPORTING

32. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its website, no later than:

120 days after the end of each fiscal year covered by the report.

33. Once posted, the annual report may be found on the issuer's website at:

https://www.kinapparel.com/invest

The issuer must continue to comply with the ongoing reporting requirements until:

1. the issuer is required to file reports under Exchange Act Sections 13(a) or 15(d);

3. the issuer has filed at least three annual reports and has total assets that do not exceed $10 million;
