L.B. FISHER & COMPANY
Notes to the Financial Statements
June 30, 2022

NOTE 1 – NATURE OF BUSINESS

L.B. Fisher & Company (the “Company”) is a broker-dealer registered with the Securities and Exchange Commission (“SEC”) and is a member of the Financial Industry Regulatory Authority (“FINRA”). The Company is engaged in full-service broker dealer activities.

The Company was organized on August 26, 1976 under the laws of the State of Texas. Customer transactions are cleared through a third-party clearing firm, RBC Capital Markets Corporation (“RBC”), on a fully disclosed basis. The Company has claimed exemption from Rule 15c3-3 (“Rule”) under section (k)(2)(ii) of the SEC, and accordingly is exempt from the remaining provisions of that Rule. For the Company’s other business activities, it is considered a Non-Covered Firm exempt from 17 C.F.R. § 240.15c3-3. The Company does not hold customer funds or securities, or carry accounts for customers (as defined in Rule 15c3-3).

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

These financial statements are presented on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America (“GAAP”). The Company is engaged in a single line of business as a securities broker-dealer, which comprises several classes of services, including principal transactions and agency transactions.

Cash Equivalents

Cash and cash equivalents include cash and highly liquid investments with a maturity at date of purchase of ninety days or less. The Company considers highly liquid investments in money market funds to be cash equivalents.

Use of Estimates

The preparation of the financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reported period. Actual results could differ from those estimates.

Securities Transactions

Purchases and sales of securities are recorded on a trade date basis. Securities are recorded at fair value in accordance with FASB ASC 820, Fair Value Measurement.

Current Expected Credit Losses (CECL)

The Company accounts for estimated credit losses on financial assets measured at an amortized cost basis and certain off-balance sheet credit exposures in accordance with FASB ASC 326-20, Financial Instruments – Credit Losses. FASB ASC 326-20 requires the Company to estimate expected credit losses over the life of its financial assets and certain off-balance sheet exposures as of the reporting date based on relevant information about past events, current conditions, and reasonable and supportable forecasts. The Company records the estimate of expected credit losses as an allowance for credit losses. For financial assets measured at an amortized cost basis the allowance for credit losses is reported as a valuation account on the balance sheet that adjusts the asset’s amortized cost basis. Changes in the allowance for credit losses are reported in Credit Loss expense.

L.B. FISHER & COMPANY
Notes to the Financial Statements
June 30, 2022

Receivables from Clearing-Broker Dealers and Clearing Organizations

Receivables from broker-dealers and clearing organizations. The Company's receivables from broker-dealers and clearing organizations include amounts receivable from unsettled trades, including amounts related to futures and options on futures contracts executed on behalf of customers, amounts receivable for securities failed to deliver, accrued interest receivables and cash deposits. A portion of the Company's trades and contracts are cleared through a clearing organization and settled daily between the clearing organization and the Company. Because of this daily settlement, the amount of unsettled credit exposures is limited to the amount owed the Company for a very short period of time. The Company continually reviews the credit quality of its counterparties.

Income Taxes

The Company accounts for income taxes using the asset and liability method whereby deferred tax asset and liability account balances are determined based on differences between financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the asset or liability is expected to be realized or settled. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. In the ordinary course of business, there are many transactions for which the ultimate tax outcome is uncertain. The Company regularly assesses uncertain tax positions in each of the tax jurisdictions in which it has operations and accounts for the related financial statement implications. Unrecognized tax benefits are reported using the two-step approach under which tax effects of a position are recognized only if it is "more-likely-than-not" to be sustained and the amount of the tax benefit recognized is equal to the largest tax benefit that is greater than fifty percent likely of being realized upon ultimate settlement of the tax position. Determining the appropriate level of unrecognized tax benefits requires the Company to exercise judgment regarding the uncertain application of tax law. The amount of unrecognized tax benefits is adjusted when information becomes available or when an event occurs indicating a change is appropriate. The Company includes interest and penalties related to its uncertain tax positions as part of income tax expense, if any. The company did not incur any interest or penalties for the year ended June 30, 2022.

The Company is subject to Texas franchise tax, which is based on taxable margin, rather than being based on federal taxable income. For the year ended June 30, 2022, the Company has no Texas margin tax expense.

Revenue Recognition

Revenue from contracts with customers includes commission income related to brokerage transactions and services. The recognition and measurement of revenue under FASB ASC 606, *Revenue from Contracts with Customers*, is based on the assessment of individual contract terms. Significant judgment is required to determine whether performance obligations are satisfied at a point in time or over time; how to allocate transaction prices where multiple performance obligations are identified; when to recognize revenue based on the appropriate measure of the Company's progress under the related agreement; and whether constraints on variable consideration should be applied due to uncertain future events.

Brokerage commissions: The Company buys and sells securities on behalf of its customers through its arrangements with its clearing firm. Each time a customer enters into a buy or sell transaction, the Company charges a commission. Commissions, transaction fees and clearing expenses are recorded each month based upon the trade date, which is the date that the Company fills the trade order by finding and contracting with a counterparty and confirms the trade with the customer. The Company believes that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to/from the customer.

L.B. FISHER & COMPANY
Notes to the Financial Statements
June 30, 2022

Mutual fund fees: The Company enters into arrangements with pooled investments vehicles (funds) to distribute shares to investors. The Company may receive distribution fees paid by the funds upfront, over time or as a combination thereof. The Company believes that its performance obligation is the sale of the securities and is fulfilled on the trade date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to/from the customer. For variable amounts, as the uncertainty is dependent on the value of the shares at future points in time as well as the length of time the investor remains in the fund, both of which are highly susceptible to factors outside the Company's influence, the Company does not believe that it can overcome this constraint until the market value of the fund and the investor activities are known, which are usually monthly or quarterly. Distribution fees recognized in the current period are primarily related to performance obligations that have been satisfied in prior periods.

Interest revenue represent fees and includes other asset-based fees. Other asset-based fees are recognized in the period that they are realized since the revenue cannot be accurately predicted at the time the policy becomes effective.

Leases

The Company accounts for its leases in accordance with FASB ASC 842, Leases. The Company is a lessee in a noncancellable operating lease, for office space. The Company determines if an arrangement is a lease, or contains a lease, at inception of a contract and when the terms of an existing contract are changed. The Company recognizes a lease liability and a right of use (ROU) asset at the commencement date of the lease.

Accounting policy election for short-term leases

The Company has elected, for all underlying classes of assets, to not recognize ROU assets and lease liabilities for short-term leases that have a lease term of 12 months or less at lease commencement, and do not include an option to purchase the underlying asset that the Company is reasonably certain to exercise. The Company recognizes lease cost associated with its short-term leases on a straight-line basis over the lease term.

Management Review

The Company has performed an evaluation of events that have occurred subsequent to June 30, 2022, and through September 12, 2022 the date of the financials were available for issuance. There have been no material subsequent events that occurred during such period that would require disclosure in this report or would be required to be recognized in the financial statements as of June 30, 2022.

Recently Issued Accounting Pronouncements

Recently issued accounting pronouncements that have been issued or proposed by the Financial Accounting Standards Board or other standards-setting bodies are not expected to have a material impact on the Company's financial position, results of operations or cash flows.

NOTE 3 – DEPOSIT WITH CLEARING BROKER-DEALER

The Company maintains a deposit account with RBC, the Company's clearing broker-dealer, as part of the Company's contract for services. RBC requires a deposit for its services that serves as a reserve for counterparty credit risk, including default risk and settlement risk, as well as market risk to open un-hedged positions. As of June 30, 2022, cash of \$50,000 has been maintained as a deposit.

L.B. FISHER & COMPANY
Notes to the Financial Statements
June 30, 2022

NOTE 4 – COMMITMENTS AND CONTINGENCIES

Leases

The Company has an obligation as a lessee for office space with initial noncancelable terms less than one year. The Company classifies this lease as an operating lease. This lease contains a renewal option for an additional year. Because the Company is not reasonably certain to exercise this renewal option, the optional period is not included in determining the lease term, and associated payments under the renewal option is excluded from lease payments used to determine the lease liability. The Company's lease does not include a termination option for either party to the lease or restrictive financial or other covenants. Payments due under the lease contract include fixed payments plus variable payments. The Company's office space lease requires it to make variable payments for the Company's proportionate share of the building's property taxes, insurance, and common area maintenance. These variable lease payments are not included in lease payments used to determine lease liability and are recognized as variable costs when incurred.

Short-term lease cost of \$80,148 is included in the occupancy and equipment expense line item on the Statement of Operations.

Litigation

The Company from time to time may be involved in litigation relating to claims arising out of its ordinary course of business. Management believes that there are no claims or actions pending or threatened against the Company, the ultimate disposition of which would have a material impact on the Company's financial position, results of operations or cash flows.

Risk Management

The Company maintains various forms of insurance that the Company's management believes are adequate to reduce the exposure to these risks to an acceptable level.

Clearing Agreement

Included in the Company's clearing agreement is an indemnification clause. This clause relates to instances where the Company's customers fail to settle security transactions. In the event this occurs, the Company will indemnify the clearing broker-dealer to the extent of the net loss on any unsettled trades. At June 30, 2022, management of the Company had not been notified by the clearing broker-dealer, nor were they otherwise aware, of any potential losses relating to this indemnification.

NOTE 5 - INCOME TAXES

The Company has a current year tax loss; therefore, there is no provision for current federal income taxes. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the Company's deferred taxes on June 30, 2022 are computed by applying the statutory federal income tax rate of 21%. As of June 30, 2022, temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts for income tax purposes were not significant.

L.B. FISHER & COMPANY
Notes to the Financial Statements
June 30, 2022

The Company, as a registered fully licensed broker and dealer in securities, is subject to the SEC Uniform Net Capital Rule (“Rule 15c3-1”). NOTE 7 – EMPLOYEE RETIREMENT PLAN

Contributions to the Trust Plan vest immediately and are declared at the discretion of the Board of Directors. New employees are subject to a vesting period defined by the Plan. For the year ended June 30, 2022, the Company has recorded \$30,150 in profit sharing plan expense.

Fisher & Company ("the Company") identified the following provisions of 17 C.F.R. §15c3-3(k) under which L.B. Fisher & Company claimed an exemption from 17 C.F.R. §240.15c3-3: (2)(ii) (the "exemption provisions") and (2) L.B. Fisher & Company stated that L.B. Fisher & Company met the identified exemption provisions throughout the most recent fiscal year, June 30, 2022, without exception.

The Company is also filing this Exemption Report because the Company's other business activities contemplated by Footnote 74 of the SEC Release No. 34-70073 adopting amendments to 17 C.F.R. § 240.17a-5 are limited to effecting securities transactions via subscriptions on a subscription way basis where the funds are payable to the issuer or its agent and not to the Company. In addition, the Company did not directly or indirectly receive, hold, or otherwise owe funds or securities for or to customers, (other than money or other consideration received and promptly transmitted in compliance with paragraph (a) or (b)(2) of Rule 15c2-4 and/or funds received and promptly transmitted for effecting transactions via subscriptions on a subscription way basis where the funds are payable to the issuer or its agent and not to the Company); (2) did not carry accounts of or for customers; and (3) did not carry PAB accounts (as defined in Rule 15c3-3) throughout the most recent fiscal year without exception.

L.B. Fisher & Company's management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about L.B. Fisher & Company's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934 and the Company's other business activities contemplated by Footnote 74 of the SEC Release No. 34-70073 adopting amendments to 17 C.F.R. § 240.17a-5, and related SEC Staff Frequently Asked Questions.
