Dennis was my roommate at Springfield College for several years. In that time I was a witness to the foundational growth and the true character of a young man evolving into the man he is today. He wore a t-shirt that said " We eat, sleep, ride, talk, breathe, dream, live and love motorcycles" his passion for soccer exceed that level of commitment.

Over a 40 year coaching career Dennis has inspired hundreds of soccer players all over the world. He has attained the top level FIFA coaching certification, and taken Springfield College's mantra " Spirit, Mind and Body" to the far reaches of...

Entering a \$7.3 Billion 2023 Transfer/Sales Market

We aim to initially buy 4 Professional Football/Soccer Clubs and forming a Multi Club network with 40 Foreign Roster Spots to fill with 40+ Young players with potential from around the World.

The City Football Group is one of many Groups that has lead the way with Multi Club Networks. They now have a valuation of \$5.9 Billion with ownership of 13 Clubs. In 2022 their valuation was Billions of Dollars lower.

The Market we are entering is the Football/Soccer World Transfer Market. The 2023 Transfer Market \$7.3 BILLION in fees were paid to acquire/buy players.

In the Summer Transfer Market 2023, one player was transferred/sold for \$144 million. Another player sold for \$132 million. These numbers are astronomical compared to 10 years ago.

Our Team has a wealth of experience and success in the development and movement of players to other bigger Clubs through the Transfer market.

With 40+ foreign roster spots with our Management Team's track record, experience and success in the development and movement of young players to bigger clubs we can expect to sell/transfer players for Millions of Dollars.

We are aiming to buy 4 Clubs in the 1st, 2nd and 3rd Divisions for a fraction of the cost spent by Companies such as City Football Group and Red Bulls. However, by owning FIFA Professional Football/Soccer Clubs we have all the rights and privileges as any Club in World. The same rights and privileges as Manchester United, Manchester City, Barcelona or Bayern Munich.

With our 4 Clubs we have targeted to buy we have 40+ foreign roster spots that we will fill using our knowledge, ability and connections to identify, train, develop and then transfer/sell young players from around the world with potential.

These transfers/sales could bring millions of dollars into our company and potentially provide a significant return on any investment (these are projections and cannot be guaranteed).

As FIFA sanctioned Professional Clubs we have all the same rights and

privileges as the biggest Clubs in the World. The same rights as Barcelona, Manchester City, Manchester United and Bayern Munich.

We also can prepare, sign and sell players for millions dollars (amount not guaranteed). We can own our Stadiums and training grounds. We can sell Replica Jersey, we can Live Stream and offer online betting, in addition to our Matches we can hold concerts and other events in our Stadiums.

Come invest in our Company as we form a Multi Club Network using City Football Group and the Red Bull Group as a model but do it at a fraction of the cost with the aim of earning profit as well as significant growth in the value of our company. And have fun doing it. *

We will get to watch our Multiple FIFA Professional clubs play and compete as well as watch our Young Players that we identify, sign, develop and then transfer to bigger Clubs reach their goals and heights that they could only dream of.

Our young players will play at the highest levels of Soccer/Football in the World, they will have income and a life that few people are able to obtain. It's a Win, Win, Win for our Company, our Investors and our young Football Players that we find from around the World.
