## Summary

With over 15 years of experience in corporate strategy, business development, and strategic growth, I am a passionate and entrepreneurial leader who helps start-ups and SMEs achieve their vision and goals. I co-founded Beuhi, an at-home confectionary counter-top appliance that enables consumers to create reliable and consistent botanical-infused gummies, chocolates, or hard candies, from a device that is secure, discreet, and stylish. I also lead the strategic growth of Execution360, a SaaS technology platform that helps SMEs create and execute adaptive and accountable strategic plans with dedicated human co-pilot support.

As a managing member of Resurgence Investment, a boutique strategy and execution firm, I have built a pipeline of high-potential investment opportunities across various industries, such as real estate, fitness, FinTech, and professional consulting. I provide strategy development, marketing presentations, and contract negotiation to fund and advise start-up and early-stage businesses. I have also published multiple articles on industry trends, market needs, and business risks for reputable platforms, such as StartupNation and Thomson Reuters. I leverage my cross-functional expertise, creative thinking, and client relationship skills to deliver innovative and impactful solutions for my clients and partners.

## Experience

Beuhi

Co-Founder

April 2022 - Present (2 years 1 month)

United States

To solve many of the systemic issues within the \$20B+ infused confections industry, Beuhi has developed a first-of-its-kind at-home candy-making and infusing system (patent-pending) that utilizes pre-filled candy-making

ingredient pods (think Keurig) -- pods are sold via subscription or at the register -- the system includes a reusable universal pod that empowers users by allowing them to infuse their creations with market-available botanicals, including but not limited to melatonin, CBD, cannabis, and nutraceuticals -- and controlled by secure smart technology in an app to guarantee consistency and desired botanical dispersion in every bite.
