Invested \$7,500 ⓘ

Entrepreneur and Angel investor

"After more than 30 years in the transportation field, I am investing in Ecuatoriana Airlines because I am confident that Ed Delgado is doing exactly what is needed to make air transportation available in Ecuador. The field is wide open with minimum competition and will help reduce traffic congestion. Ecuatoriana Airlines is bringing luxury and convenience at affordable prices. The principals have determination, patience and persistence. I am very proud to be one of the founders to make it happen. Let us fly together."

## Our Team

**Eduardo Delgado Martillo** Chief Executive Officer

Senior Executive with 35 years of experience providing strategic and operations leadership in uniquely challenging situations in the luxury transportation industry and the commercial aviation industry.

**Nicolas Lasso** Chief Legal Officer

Lawyer with extensive experience in the area of corporate advice to companies, with focus on the aerospace industry and international corporations and practice in aviation law, corporate matters, mergers and acquisitions, negotiations, and more.

**Maria Fernanda Intriago** Chief Commercial Officer

Executive leader with 22+ years of experience in the commercial and private aviation industry, as well as in the tourism sector, leading regional and multicultural teams, and supervising all strategic areas of the business.

**Javier Ramos** Chief Financial Officer

Finance and Administrative Manager with more than 20 years of expertise overseeing transactions and reconciling monthly financial reports.

## Pitch

*Para leer el contenido en Español, sigue hacia abajo*

**Ecuadoriana Airlines Will Offer Service To All 14 Destinations Within Ecuador, Therefore Connecting Ecuador And People**

Ecuadoriana Airlines is dedicated to establishing robust connectivity among airports across the country, ensuring dependable transportation for both Ecuadorian residents and tourists. Our primary goal is to facilitate seamless travel experiences, fostering accessibility and convenience for all passengers. We intend to be the "Singapore Airlines" or "Emirates" of the region, offering connectivity, (an) excellent customer experience and reasonable fares.

**Traveling Within Ecuador Is Difficult**

Despite boasting an impressive infrastructure comprising around 30 airports, of which 22 are presently operational, including four international ones, navigating travel within Ecuador presents significant challenges.

This not only deprives tourists of the opportunity to explore stunning and less-traveled destinations like Lago Agrio, Salinas & Cuenca, but also denies local economies the benefits of increased economic spending.

Until now.

## **Ecuadoriana Is Connecting The Country**

Ecuadoriana Airlines aims to bridge connectivity gaps by reviving operations at presently inactive airports. Additionally, we strive to provide our customers with affordable pricing through the optimization of our fleet and operational costs.

Ecuadoriana Airlines intends to deploy aircraft suitable for the geographical features of Ecuador, ensuring ample seating capacity to meet demand and facilitate the development of new routes, which will be flown starting two to three times a day. This strategic approach is designed to enhance operational

efficiency and optimize costs for the airline. More importantly, it allows tourists, both foreign and domestic, to travel across the country. No longer will people need to endure dozens of hours on a bus or rent a private car. With Ecuatoriana, destinations can be reached across the country in under an hour. Whether customers want to see the beaches of the Ecuadorian coast or the jungles of the Amazon, the Andes of Sierras or the Islands of Galapagos, Ecuatoriana aims to be the airline of choice.

## A Unique Business Model

Ecuatoriana Airlines is set to introduce the highly efficient aircraft Dash Q400 that have not been deployed in Ecuador. What sets us apart is our commitment to transparent pricing—our ticket (fares) encompass all services, from snacks and drinks to (checked luggages) and travel insurance. We believe in providing customers with a hassle-free experience by eliminating additional charges for basic amenities. Furthermore, our Revenue Management System and Sales Strategy are meticulously designed to safeguard the bottom line while elevating the customer journey at every touchpoint.

## Use Of Funds

### INVESTMENT BREAKDOWN & DISTRIBUTION

Funds will be used to conclude the (AOC) Aircraft Operating Certificate and the acquisition of the basic assets for the development of the project. This includes the acquisition and operation of aircraft, and growth to become a regional leader in the industry. This also includes acquisition of the first aircrafts for Ecuatoriana Airline.

The current DGAC Ecuadorian Aviation Authority regulations state that a minimum of only two aircrafts is required. Currently, each aircraft is at \$3.0 million. In that case, we aim to seek additional funding outside of Wefunder to comply with these regulations.

## EN ESPAÑOL

Para leer el contenido en Español, sigue hacia abajo.

Ecuatoriana Airlines conecta de manera fácil y directa, a todo el Ecuador, a través de tarifas aéreas competitivas.

### Destacados

1. Lideramos un modelo de negocio, aplicado por primera vez en Ecuador, que proporciona valor y excelentes tarifas para los clientes.
2. Contamos con un equipo de amplia experiencia en la industria aeronáutica, a nivel nacional e internacional. El recorrido de nuestros profesionales incluye a empresas como Continental Airlines, Delta, KLM Royal Dutch Airlines, United Airlines, Air Madrid, entre otras.
3. Contamos con un amplio mercado, y poca competencia, en el 70% de las rutas.
4. Tenemos un acuerdo de inversión con el gobierno ecuatoriano, que implica la exención del impuesto a la renta durante los primeros 8 años de operación.
5. Tenemos un acuerdo con un GSA (Agentes Generales) que promocionan a la aerolínea en el exterior, preparando así el terreno para la futura expansión regional e internacional de Ecuatoriana Airlines.
6. Contamos con un nombre comercial inspirado en Ecuatoriana de Aviación, un ícono de la industria aeronáutica ecuatoriana, que añade un sentido único de nostalgia y pertenencia nacional.

## EQUIPO

Eduardo Delgado - Presidente y Director Ejecutivo

Profesional trilingüe con sólidos conocimientos en planificación estratégica, administración turística, ventas y operaciones aeroportuarias, negociación de contratos, gestión del talento humano y resolución de conflictos.

Javier Ramos - Director Financiero

Director financiero y administrativo con más de 20 años de experiencia en la supervisión de transacciones y convenios de informes financieros.

Nicolás Lasso - Director Legal

Abogado con amplia experiencia en el área de asesoramiento corporativo a empresas, con enfoque en la industria aeroespacial, derecho aeronáutico, corporaciones internacionales, negociaciones, entre otros servicios legales.

**La Única Aerolínea Que Ofrece  
Conectividad A Todo El Ecuador**

Ecuatoriana Airlines está enfocada en establecer una fuerte conectividad entre los aeropuertos del país, asegurando un transporte confiable tanto para ecuatorianos como para extranjeros y turistas en general.

Nuestro objetivo principal es facilitar viajes sin interrupciones, fomentando la accesibilidad y la comodidad para todos los pasajeros. Nuestra ambición es ser el "Singapore Airlines" de la región, ofreciendo conectividad con tarifas razonables y una excelente experiencia en vuelo al cliente.

**Viajar Dentro De Ecuador Es Difícil**

A pesar de contar con una impresionante infraestructura compuesta por alrededor de 30 aeropuertos, de los cuales 22 están actualmente operativos

alrededor de 80 aeropuertos, de los cuales 22 están actualmente operativos, incluidos dos internacionales, navegar dentro de Ecuador presenta desafíos significativos.

Lamentablemente, el 40 % de los aeropuertos del país no están en servicio, obligando a los turistas a soportar largos viajes en autobús para acceder a exóticos destinos domésticos.

Esto no solo priva a los turistas de la oportunidad de explorar destinos maravillosos y menos transitados como Lago Agrio, sino que también impide a las economías locales beneficiarse de los réditos que atrae el turismo .

Hasta ahora.

**Ecuatoriana Está Conectando El País**

Ecuatoriana Airlines tiene como objetivo cerrar las brechas de conectividad reanudando las operaciones en aeropuertos actualmente inactivos. Nos esforzamos por ofrecer a nuestros clientes precios asequibles a través de la optimización de la flota aérea y costos operativos.

Ecuatoriana Airlines operará aeronaves que se ajusten a las particularidades geográficas de Ecuador y asegurará la capacidad de asientos para satisfacer la demanda, facilitando la implementación de nuevas rutas que serán servidas dos o tres veces al día. Este enfoque estratégico está diseñado para mejorar la eficiencia operativa y optimizar costos.

Y lo que es más importante aún, permitirá a los turistas viajar por todo el país. Ya no será necesario soportar viajes largos en autobús o rentar autos privados; con Ecuatoriana Airlines se podrá alcanzar todos los destinos del país en tan solo una hora o menos. Ya sea que los clientes quieran ver las playas de la costa ecuatoriana, las selvas del Amazonas, las sierras de los Andes o las islas de las Galápagos, Ecuatoriana aspira a ser la aerolínea de elección.

**Un Modelo de Negocio Único**

Ecuatoriana Airlines está preparada para introducir aeronaves modernas y altamente eficientes que no se han volado previamente en Ecuador. Lo que nos distingue es nuestro compromiso con la transparencia en los precios.

Nuestras tarifas incluyen todos los servicios: desde refrigerios y bebidas hasta chequeo de equipaje y seguro de viaje. Creemos en proporcionar a nuestros clientes una experiencia sin complicaciones, eliminando cargos adicionales por comodidades básicas.

Además, nuestro sistema de gestión de ingresos y estrategia de ventas está meticulosamente diseñado para proteger los resultados financieros, mientras que elevan el viaje del pasajero en cada punto de contacto.

### Uso De Los Fondos

### DESGLASE Y DISTRIBUCIÓN DE LA INVERSIÓN

Estos recursos serán invertidos para obtener la certificación de operador local y la adquisición de activos básicos para el desarrollo del proyecto. Esto incluye la compra y operación de aeronaves. Con este crecimiento

Ecuatoriana de Aviación se convertirá en líder regional de la industria.

La normativa vigente de la Autoridad Aeronáutica Ecuatoriana DGAC establece que se requiere un mínimo de dos aeronaves. Actualmente, cada avión cuesta 3,0 millones de dólares. En ese caso, nuestro objetivo es buscar financiación adicional fuera de Wefunder para cumplir con estas regulaciones.

## Llamada A La Acción
