Rulx Muller Malbranche

Industrial Engineer | E-com Entrepreneur | Tech Enthusiast
Newark, New Jersey, United States

Summary

I am a skilled industrial engineer with a focus on optimizing labor management systems and driving operational excellence. I bring a unique blend of expertise in distribution and a successful entrepreneurial journey as the co-founder of an online Haitian coffee company.

Throughout my career, I have consistently leveraged my strong analytical skills and strategic mindset to streamline processes, increase productivity, and enhance overall business performance. I possess a deep understanding of labor management systems, utilizing data-driven insights to improve efficiency, reduce costs, and ensure optimal resource allocation.

As a co-founder, I have gained invaluable experience in building and scaling a successful e-commerce business. I have honed my abilities in strategic planning, market analysis, supply chain management, and customer relationship management. This entrepreneurial journey has instilled in me an unwavering drive, resilience, and the ability to thrive in dynamic and challenging environments.

Moreover, I am a passionate tech enthusiast, constantly seeking opportunities to expand my knowledge and stay abreast of emerging concepts and technologies. I embrace innovation and actively explore how advancements in automation, artificial intelligence, and data analytics can revolutionize the world as we know it and drive business transformation.
