

Offering Statement for Ionic Wearables, Inc. ("Ionic Wearables")

Ionic Wearables, Inc. ("Ionic Wearables," the "Company," "we," or "us"), a Delaware Corporation incorporated on October 4, 2023, is holding the following offering:

Up to \$4,999,995 in Class B Non-Voting Common Stock at \$5.55 per share with a minimum target amount of \$9,995.55.

Offering Minimum: \$9,995.55 | 1,801 shares of Common Stock

Offering Maximum: \$4,999,995 | 900,900 shares of Common Stock

Type of Security Offered: Class B Non-Voting Common Stock

Purchase Price of Security Offered: \$5.55 Per Share

Minimum Investment Amount (per investor): \$499.50

The Minimum Individual Purchase Amount accepted under this Regulation CF Offering is \$499.50. The Company must reach its Target Offering Amount of \$9,995.55 by December 31, 2024 (the "Offering Deadline"). Unless the Company raises at least the Target Offering Amount under the Regulation CF offering by the Offering Deadline, no securities will be sold in this Offering, investment commitments will be cancelled, and committed funds will be returned.

***Company's Repurchase Option.**

a) The Company shall, for a period of ten (10) years from date that the Securities are issued to the Purchaser hereunder (the "Repurchase Period"), have an irrevocable option (the "Repurchase Option") to repurchase all or any portion of the Securities held by the Purchaser for an amount equal to (i) 1.5X the price per share paid by the Purchase under this Subscription Agreement if the Repurchase Option is exercised within the first three (3) years of the Repurchase Period, (ii) 2X the price per share paid by the Purchase under this Subscription Agreement if the Repurchase Option is exercised in years three (3) to five (5) of the Repurchase Period, and (iii) 3X the price per share paid by the Purchase under this Subscription Agreement if the Repurchase Option is exercised in years five (5) to ten (10) (in each case, the "Repurchase Price").

b) The Company may exercise its Repurchase Option by delivering written notice to the Purchaser of its intention to do so at any point during the Repurchase Period, specifying the number of Securities it intends to repurchase (the "Repurchase Notice"). If the Company delivers the Repurchase Notice during the Repurchase Period, then the Purchaser shall sell, and the Company shall purchase, the number of Securities designated within the Repurchase Notice. The Company shall satisfy its payment obligation to the Purchaser with respect to exercise of the Repurchase

Option by delivering a check to the Purchaser in the amount of the aggregate Repurchase Price for the Securities being repurchased. Purchaser shall execute such purchase and sale agreements, consents, and other conveyance documents as the Company may reasonably require to consummate the repurchase of the Securities as provided in this Section 8 and, at the closing thereof, shall deliver any certificates evidencing the Securities (endorsed in favor of Company) to the Company, accompanied by duly executed stock powers, as needed, free and clear of all encumbrances and liens of any kind (other than those imposed by this Agreement). As a result of any repurchase of Securities pursuant to this Section 8 and notwithstanding anything to the contrary in this Agreement, the Company shall become the legal and beneficial owner of the repurchased Securities and shall have all rights and interest therein or related thereto, and the Company shall have the right to transfer to its own name, cancel, and/or retire any or all Securities without further action by the Purchaser.

c) In the event that the Repurchase Option is exercised or deemed exercised, the sole right and remedy of the Purchaser thereafter shall be to receive the Repurchase Price, and in no case shall the Purchaser have any claim of ownership as to any repurchased Securities.

d) The Company in its sole discretion may assign all or part of the Repurchase Option to one or more employees, officers, directors or stockholders of the Company or other persons or organizations

Time-Based Incentives (Discount applied at time of investing):

***In order to receive perks from an investment, one must submit a single investment in the same offering that meets the minimum perk requirement. Bonus shares from perks will not be granted if an investor submits multiple investments that, when combined, meet the perk requirement. All perks occur when the offering is completed.*

****Crowdfunding investments made through a self-directed IRA cannot receive non-bonus share perks due to tax laws. The Internal Revenue Service (IRS) prohibits self-dealing transactions in which the investor receives an immediate, personal financial gain on investments owned by their retirement account. As a result, an investor must refuse those non-bonus share perks because they would be receiving a benefit from their IRA account.*

PicMii does not make investment recommendations and no communication through this website or in any other medium should be construed as a recommendation for any security offered on or off this investment platform. Equity crowdfunding investments in private placements, Regulation A, D and CF offerings, and start-up investments in particular are speculative and involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest in start-ups. Companies seeking startup investments through equity crowdfunding tend to be in earlier stages of development and their business model, products and services may not yet be fully developed, operational or tested in the public marketplace. There is no guarantee that the stated valuation and other terms are accurate or in agreement with the market or industry valuations. Additionally, investors may receive illiquid and/or restricted stock that may be subject to holding period requirements and/or liquidity concerns. In the most sensible investment strategy for start-up investing, start-ups should only be part of your overall investment portfolio. Further, the start-up portion of your portfolio may include a balanced portfolio of different start-ups. Investments in startups are highly illiquid and those investors who cannot hold an investment for the long term (at least 5-7 years) should not invest.

Cautionary Note Concerning Forward-Looking Statements

This Form C and any documents incorporated by reference herein contain forward-looking statements and are subject to risks and uncertainties. All statements other than statements of historical fact or relating to present facts or current conditions included in this Form C are forward-looking statements. Forward-looking statements give our current reasonable expectations and projections regarding our financial condition, results of operations, plans, objectives, future performance and business. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. These statements may include words such as "anticipate," "estimate," "expect," "project," "plan," "intend," "believe," "may," "should," "can have," "likely," and other words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events.

The forward-looking statements contained in this Form C and any documents incorporated by reference herein are based on reasonable assumptions we have made in light of our industry experience, perceptions of historical trends, current conditions, expected future developments and other factors we believe are appropriate under the circumstances. As you read and consider this Form C, you should understand that these statements are not guarantees of performance or results. Although we believe that these forward-looking statements are based on reasonable assumptions, you should be aware that many factors could affect our actual operating and

financial performance and cause our performance to differ materially from the performance anticipated in the forward-looking statements. Should one or more of these risks or uncertainties materialize or should any of these assumptions prove incorrect or change, our actual operating and financial performance may vary in material respects from the performance projected in these forward-looking statements.

Investors are cautioned not to place undue reliance on these forward-looking statements. Any forward-looking statements made in this Form C or any documents incorporated by reference herein is accurate only as of the date of those respective documents. Except as required by law, we undertake no obligation to publicly update any forward- looking statements for any reason after the date of this Form C or to conform these statements to actual results or to changes in our expectations.

5. Provide the name and ownership level of each person, as of the most recent practicable date, who is the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power. To calculate total voting power, include all securities for which the person directly or indirectly has or shares the voting power, which includes the power to vote or to direct the voting of such securities. If the person has the right to acquire voting power of such securities within 60 days, including through the exercise of any option, warrant or right, the conversion of a security, or other arrangement, or if securities are held by a member of the family, through corporations or partnerships, or otherwise in a manner that would allow a person to direct or control the voting of the securities (or share in such direction or control - as, for example, a co-trustee) they should be included as being "beneficially owned." You should include an explanation of these circumstances in a footnote to the "Number of and Class of Securities Now Held." To calculate outstanding voting equity securities, assume all outstanding options are exercised and all outstanding convertible securities converted.

Business and Anticipated Business Plan

6. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

Focus of the Raise:

For this raise, Ionic Wearables is strategically directing attention towards their two groundbreaking ventures: BRN and Oshun.

Ionic Wearables aims to leverage this raise to accelerate the development and market penetration of BRN and Oshun. With a solid foundation established through Incrediwear, Ionic Wearables is poised to redefine the landscape of intimate apparel with Oshun and revolutionize weight management with BRN. Investors are invited to be part of these groundbreaking ventures!

Launching Two New Businesses:

1. Oshun

Oshun stands at the forefront of sexual wellness, introducing a paradigm shift in intimate apparel. **In a market lacking meaningful apparel brands addressing sexual wellness through functional fabric**, Oshun emerges as a disruptor, offering a class of products designed to enhance sexual intimacy like never before. This unique approach positions Oshun in a league of its own, setting the stage for unprecedented success.

Currently, the only options consumers have to enhance sexual wellness are:

- - Nutritional supplements
- - Pharmaceutical products
- - Invasive surgeries

Oshun will be the world's **FIRST AND ONLY** micronized semiconductor infused apparel with science-based and research-backed efficacy to assist with sexual wellness.

This creates a prime opportunity for investors to be part of a venture that not only addresses this gap but also diversifies revenue streams through innovative products like supplements, high-end aligned sexual pleasure products, and information guides. By investing in Oshun, backers contribute to the growth of a disruptive force in the sexual wellness industry (worth hundreds of billions of dollars) that combines cutting-edge technology with intimate lifestyle products.

2. BRN

In a market saturated with weight loss companies, **BRN brings a distinct edge with its use of semiconductor-infused functional fabric technology** that triggers blood flow and cellular activity, leading to increased caloric burn at rest. This differentiation is not only game-changing,

but it's history-making, positioning BRN as an attractive prospect for investors seeking innovation in the weight loss sector.

Despite the vast array of companies in the weight loss market, **there is not a single business incorporating functional fabric technology into wearables to enhance weight loss results.**

The only current options for people across the world trying to lose weight are:

- - Pharmaceutical drugs (with unwanted side effects)
- - Costly weight-loss membership programs
- - Un-exciting diet programs

BRN addresses this gap by leveraging substantial scientific research that demonstrates how increased blood flow correlates to increased metabolism. **BRN will be the first “wearable weight loss” brand in history!**

Business Model:

1. Oshun:

The business model for Oshun involves not only selling innovative wearable tech apparel but also strategically integrating diverse revenue drivers. These include supplements, high-end aligned sexual pleasure products, and information guides, creating a holistic approach to sexual intimacy enhancement. Beyond traditional apparel sales, the supplementary revenue streams underscore Oshun's commitment to long-term sustainability and growth. By diversifying income sources, Oshun offers investors an opportunity to be part of a venture that goes beyond conventional boundaries, pioneering a new standard in the sexual wellness industry.

2. BRN:

BRN's revenue streams extend beyond innovative wearable tech apparel sales, encompassing also **supplements, monthly weight loss app subscriptions, and information guides.** We even will have **the world's first BRN Smart Ring** designed entirely to help people monitor key biomarkers of metabolism and caloric burn to give customers real-time data on their progress (as well as real-time support and fitness and nutrition resources). This comprehensive approach ensures diversified monetization avenues for investors, highlighting BRN's commitment to sustainable growth. By incorporating proven scientific principles into weight loss solutions, BRN positions itself as a unique player in the industry, and has incorporated multiple revenue streams into their business model.

Risk Factors

Investing in the Securities involves a high degree of risk and may result in the loss of your entire investment. Before making an investment decision with respect to the Securities, we urge you to carefully consider the risks described in this section and other factors set forth in this Form C. In addition to the risks specified below, the Company is subject to same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. Prospective Investors should consult with their legal, tax and financial advisors prior to making an investment in the Securities. The Securities should only be purchased by persons who can afford to lose all of their investment.

Risks Related to the Company's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters. The Company is still in an early phase and we are just beginning to implement our business plan. There can be no assurance that we will ever operate profitably. The likelihood of our success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by early-stage companies. The Company may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

Global crises such as COVID-19 can have a significant effect on our business operations and revenue projections.

There is an ongoing outbreak of a novel and highly contagious form of coronavirus ("COVID-19"), which the World Health Organization declared a global pandemic on March 11, 2020. The outbreak of COVID-19 has caused a worldwide public health emergency with a substantial number of hospitalizations and deaths and has significantly adversely impacted global commercial activity and contributed to both volatility and material declines in equity and debt markets. The global impact of the outbreak is rapidly evolving, and many national, state, and local governments have reacted by instituting mandatory or voluntary quarantines, travel prohibitions and restrictions, closures or reductions of offices, businesses, schools, retail stores, restaurants, and other public venues and/or cancellations, suspensions and/or postponements of certain events and activities, including certain non-essential government and regulatory activities. Businesses are also implementing their own precautionary measures, such as voluntary closures, temporary or permanent reductions in work force, remote working arrangements and emergency contingency plans.

Such measures, as well as the general uncertainty surrounding the dangers, duration, and impact of COVID-19, are creating significant disruption to supply chains and economic activity, impacting consumer confidence and contributing to significant market losses, including by having particularly adverse impacts on transportation, hospitality, healthcare, tourism, sports,

entertainment and other industries dependent upon physical presence. Technological infrastructure has, and will likely continue to be, strained for so long as mandatory or voluntary quarantines are instituted, which will change, and potentially disrupt, the operations of the Company. As COVID-19 continues to spread, potential additional adverse impacts, including a global, regional or other economic recession of indeterminate duration, are increasingly likely and difficult to assess and, if the spread of COVID-19 is prolonged, it could adversely affect many economies, global financial markets and the Company even after COVID- 19 is contained.

The extent of the impact of COVID-19 on the Company's operational and financial performance will depend on many factors, all of which are highly uncertain and cannot be predicted. Those factors include the duration and scope of the resulting public health emergency; the extent of any related restrictions implemented; the impact of such public health emergency on overall supply and demand, goods and services, investor liquidity, consumer confidence and levels of economic activity; and the extent of its disruption to important global, regional and local supply chains and economic markets. The effects of the COVID-19 pandemic may materially and adversely impact the value, performance and liquidity of the Company.

In addition, COVID-19 and the resulting changes to global businesses and economies likely will adversely impact the business and operations of the Company and therefore the business and operations of the Company. Certain businesses and activities may be temporarily or permanently halted as a result of government or other quarantine measures, voluntary and precautionary restrictions on travel or meetings and other factors, including the potential adverse impact of COVID-19 on the health of key personnel.

Regulatory changes and uncertainties.

The Company operates in a highly regulated industry subject to substantial change. In addition, both its labor and customer base are licensed and regulated by local, state, and federal governments. Policies may be changed for several reasons including, but not limited to economic conditions, public safety, socio-political factors, and such. As policy changes are made by regulators, there is no guarantee that the company will be able to provide services in its current form, which may place a substantial hardship on operations, causing an Investor to lose all or a portion of their investment.

The amount of capital the Company is attempting to raise in this Offering may not be enough to sustain the Company's current business plan.

In order to achieve the Company's near and long-term goals, the Company may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations may require a significant pivot in strategy and execution, which could cause an Investor to lose all or a portion of their investment.

We may face potential difficulties in obtaining capital

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of revenue, as well as the inherent business risks associated with our Company and present and future market conditions.

The Company's success depends on the experience and skill of its manager and other key personnel.

In particular, we are dependent on our managers. The loss of the Managers, the Principals or any other key personnel could harm the Company's business, financial condition, cash flow and performance. Accordingly, you should not invest in the Company unless you are willing to entrust all aspects of the management of the Company and the investment decisions we make on the behalf of the Company.

Although dependent on certain key personnel, the Company does not have any key person life insurance policies on any such people

We are dependent on certain key personnel in order to conduct our operations and execute our business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and our operations. We have no way to guarantee key personnel will stay with the Company, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

Damage to our reputation could negatively impact our business, financial condition and results of operations.

Our reputation and the quality of our brand are critical to our business and success and will be critical to our success as we form and advise new markets. Any incident that erodes confidence in our brand could significantly reduce the Company's value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be averse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correct.

Risks Related to the Offering

The U.S. Securities and exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.

You should not rely on the fact that our Form C is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C, nor any document or literature related to this Offering.

Neither the Offering nor the Securities have been registered under federal or state securities laws.

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits available in registered Offerings, which may include access to quarterly and annual financial statements that have been audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C and the accompanying exhibits.

The Company's management may have broad discretion in how the Company uses the net proceeds of the Offering.

Unless the Company has agreed to a specific use of the proceeds from the Offering, the Company's management will have considerable discretion over the use of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

The Company has the right to limit individual Investor commitment amounts based on the Company's determination of an Investor's sophistication.

The Company may prevent any Investor from committing more than a certain amount in this Offering based on the Company's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Company's determination and not in line with relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Company's determination.

The Company has the right to extend the Offering Deadline.

The Company may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Target Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment in the event the Company extends the Offering Deadline, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Company receiving the Target Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Target Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after the release of such funds to the Company, the Securities will be issued and distributed to you.

The Company may also end the Offering early.

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Company can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to invest in this Offering; it also means the Company may limit the amount of capital it can raise during the Offering by ending the Offering early.

The Company has the right to conduct multiple closings during the Offering.

If the Company meets certain terms and conditions, an intermediate close of the Offering can occur, which will allow the Company to draw down on half of the proceeds committed and captured in the Offering during the relevant period. The Company may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

Risks Related to the Securities

The Securities will not be freely tradable under the Securities Act until one year from the initial purchase date. Although the securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be affected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof.

Although Investors will have no right to voluntarily withdraw capital from the Company or withdraw their Securities, in certain circumstances they may be forced to withdraw from the Company.

An Investor may be forced to withdraw from the Company if the Company reasonably determines that it is necessary or desirable to do so in order to comply with applicable law or regulations, or to avoid a material adverse effect on the Company or the other holders of securities in the Company.

Investors will have no right to control the Company's operations.

The Investors will have no opportunity to control the day-to-day operations of the Company, including, without limitation, the investment and disposition decisions of the Portfolio Companies. In order to safeguard your limited liability for the liabilities and obligations of the Company, you must rely entirely on the Manager and Principals to conduct and manage the business affairs of the Company

Investors will not be entitled to any inspection or information rights other than those required by law.

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by law. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information. Additionally, there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Company such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

The Company may never undergo a liquidity event and Investors may have to hold the Securities indefinitely.

The Company may never undergo a liquidity event such as a repurchase of the Securities by the Company, a sale of the Company or an initial public or coin offering. If a liquidity event does not occur, Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities have no voting rights or ability to direct the Company or its actions.

The Securities may be significantly diluted as a consequence of subsequent equity financings.

The Company's equity securities will be subject to dilution. The Company may issue additional equity to third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of the Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the Investor's economic interests in the Company. The amount of additional financing needed by the Company will depend upon several contingencies not foreseen at the time of this Offering. Generally, additional financing (whether in the form of loans or the issuance of other securities) will be intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds received in any additional financing are not sufficient to meet the Company's needs, the Company may have to raise additional capital at a price unfavorable to their existing investors, including the holders of the Securities. The availability of capital is at least partially a function of capital market conditions

that are beyond the control of the Company. There can be no assurance that the Company will be able to accurately predict the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain financing on favorable terms could dilute or otherwise severely impair the value of the Securities.

The Securities may be substantially different from other equity securities offered or issued by the Company.

The Securities may be materially different from the other equity securities of the Company in many ways, including, but not limited to, liquidation preferences, dividend rights, or anti-dilution protection. The Securities may not provide the holders of such Securities with the same rights, preferences, protections, and other benefits or privileges provided to other investors of the Company.

In the event of the dissolution or bankruptcy of the Company, Investors will not be treated as debt holders and therefore are unlikely to recover any proceeds.

In the event of the dissolution or bankruptcy of the Company, the holders of the Securities will be entitled to distributions as described in the Securities. This means that such holders will only receive distributions once all of the creditors and more senior security holders, including any holders of preferred membership interests, have been paid in full. Neither holders of the Securities can be guaranteed any proceeds in the event of the dissolution or bankruptcy of the Company.

There is no guarantee of a return on an Investor's investment.

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

IN ADDITION TO THE RISKS LISTED ABOVE, RISKS AND UNCERTAINTIES NOT PRESENTLY KNOWN, OR WHICH WE CONSIDER IMMATERIAL AS OF THE DATE OF THIS FORM C, MAY ALSO HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND RESULT IN THE TOTAL LOSS OF YOUR INVESTMENT.

The Offering

Minimum Amount of the Securities Offered	1,801 Class B Shares
Total Amount of the Securities Outstanding After Offering (if Target Offering Amount Met)	9,000,000 Class A Shares 1,801 Class B Shares
Maximum Amount of the Securities Offered	900,900 Class B Shares
Total Amount of the Securities Outstanding after Offering (if Maximum Offering Amount is Met)	9,000,000 Class A Shares 900,900 Class B Shares
Price Per Security	\$5.55
Minimum Individual Purchase Amount	\$499.50
Offering Deadline	December 31, 2024
Use of Proceeds	See Question 8
Voting Power	See Question 13

*The Company reserves the right to amend the Minimum Individual Purchase Amount, in its sole discretion. In particular, the Company may elect to participate in one of the Intermediary's special investment programs and may offer alternative Minimum Individual Purchase Amounts to Investors participating in such programs without notice.

Ionic Wearables, Inc. ("Company") is offering securities under Regulation CF, through PicMii Crowdfunding LLC ("PicMii"). PicMii is a FINRA/SEC registered funding portal and will receive cash compensation equal to 4.9% of the value of the securities sold through Regulation CF and a \$2,500 upfront payment. Investments made under Regulation CF involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest.

The Company plans to raise between \$9,995.55 and \$4,999,995 through an offering under Regulation CF. Specifically, if we reach the Minimum Raise Amount of \$9,995.55, we may conduct the first of multiple or rolling closings of the offering early if we provide notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have not yet to be closed.

In the event The Company fails to reach the minimum offering amount of \$9,995.55, any investments made under the offering will be cancelled and the investment funds will be returned to the investor.

7. What is the purpose of this offering?

If the maximum offering amount is raised, our anticipated use of proceeds is as follows in Question 8.

8. How does the issuer intend to use the proceeds of this offering?

Add rows as necessary to account for all ways you intend to use the proceeds of this offering.

	% of Capital if Target Offering Amount Raised	Amount if Target Offering Amount Raised	% of Capital if Maximum Offering Amount Raised	Amount if Maximum Offering Amount Raised
PicMii Portal Fee	4.90%	\$489.78	4.9%	\$244,999.76
Sales & Marketing	35.00%	\$3,498.44	35.00%	\$1,749,998.25
General Administration	14.00%	\$1,399.38	14.00%	\$699,999.30
Salaries & Human Capital	22.00%	\$2,199.02	22.00%	\$1,099,998.90
COGS/Inventory	10.10%	\$1,009.55	10.10%	\$504,999.50
Research & Development	14.00%	\$1,399.38	14.00%	\$699,999.30
Total	100%	\$9,995.55	100%	\$4,999,995

*We reserve the right to change the above use of proceeds if management believes it is in the best interest of the Company.

9. How will the issuer complete the transaction and deliver securities to the investors?

Transfer Agent - In entering into an agreement on PicMii Crowdfunding's Funding Portal to purchase securities, both investors and the Company must agree that a transfer agent, which keeps records of our outstanding Common Stock (the "Securities"), will issue digital Securities in the investor's name (a paper certificate will not be printed) or that the Company is capable of maintaining investment records on their own. In this case, the company will be utilizing a transfer agent.

10. How can an investor cancel an investment commitment?

You may cancel an investment commitment for any reason until 48 hours prior to the deadline identified in the offering. PicMii will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). PicMii Crowdfunding will notify investors when the target offering amount has been met. If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment. If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled, and the committed funds will be returned.

11. Can the company perform multiple closings or rolling closings for the offering?

If we reach the target offering amount prior to the offering deadline, we may conduct the first of multiple closings of the offering early, if we provide notice about the new offering deadline at least five business days prior (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Thereafter, we may conduct additional closings until the offering deadline. We will issue Securities in connection with each closing. Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have yet to be closed.

Ownership and Capital Structure

The Offering

12. Describe the terms of the securities being offered.

Up to \$4,999,995 in Class B Non-Voting Common Stock at \$5.55 per share with a minimum target amount of \$9,995.55.

Offering Minimum: \$9,995.55 | 1,801 shares of Common Stock

Offering Maximum: \$4,999,995 | 900,900 shares of Common Stock

Type of Security Offered: Class B Non-Voting Common Stock

Purchase Price of Security Offered: \$5.55 Per Share

Minimum Investment Amount (per investor): \$499.50

The Minimum Individual Purchase Amount accepted under this Regulation CF Offering is \$499.50. The Company must reach its Target Offering Amount of \$9,995.55 by December 31, 2024 (the "Offering Deadline"). Unless the Company raises at least the Target Offering Amount under the Regulation CF offering by the Offering Deadline, no securities will be sold in this Offering, investment commitments will be cancelled, and committed funds will be returned.

***Company's Repurchase Option.**

a) The Company shall, for a period of ten (10) years from date that the Securities are issued to the Purchaser hereunder (the "Repurchase Period"), have an irrevocable option (the "Repurchase Option") to repurchase all or any portion of the Securities held by the Purchaser for an amount equal to (i) 1.5X the price per share paid by the Purchase under this Subscription Agreement if the Repurchase Option is exercised within the first three (3) years of the Repurchase Period, (ii) 2X the price per share paid by the Purchase under this Subscription Agreement if the Repurchase Option is exercised in years three (3) to five (5) of the Repurchase Period, and (iii) 3X the price per share paid by the Purchase under this Subscription Agreement if the Repurchase Option is exercised in years five (5) to ten (10) (in each case, the "Repurchase Price").

b) The Company may exercise its Repurchase Option by delivering written notice to the Purchaser of its intention to do so at any point during the Repurchase Period, specifying the number of Securities it intends to repurchase (the "Repurchase Notice"). If the Company delivers the

Repurchase Notice during the Repurchase Period, then the Purchaser shall sell, and the Company shall purchase, the number of Securities designated within the Repurchase Notice. The Company shall satisfy its payment obligation to the Purchaser with respect to exercise of the Repurchase Option by delivering a check to the Purchaser in the amount of the aggregate Repurchase Price for the Securities being repurchased. Purchaser shall execute such purchase and sale agreements, consents, and other conveyance documents as the Company may reasonably require to consummate the repurchase of the Securities as provided in this Section 8 and, at the closing thereof, shall deliver any certificates evidencing the Securities (endorsed in favor of Company) to the Company, accompanied by duly executed stock powers, as needed, free and clear of all encumbrances and liens of any kind (other than those imposed by this Agreement). As a result of any repurchase of Securities pursuant to this Section 8 and notwithstanding anything to the contrary in this Agreement, the Company shall become the legal and beneficial owner of the repurchased Securities and shall have all rights and interest therein or related thereto, and the Company shall have the right to transfer to its own name, cancel, and/or retire any or all Securities without further action by the Purchaser.

c) In the event that the Repurchase Option is exercised or deemed exercised, the sole right and remedy of the Purchaser thereafter shall be to receive the Repurchase Price, and in no case shall the Purchaser have any claim of ownership as to any repurchased Securities.

d) The Company in its sole discretion may assign all or part of the Repurchase Option to one or more employees, officers, directors or stockholders of the Company or other persons or organizations

Time-Based Incentives (Discount applied at time of investing):

Super Early Bird Bonus: Invest within the first 7 days of this Regulation Crowdfunding offering and receive a 20% discount on the share price.

Early Bird Bonus: Invest within the 30 days of this Regulation Crowdfunding offering and receive a 10% discount on the share price.

Last Chance Bonus: Invest within the first 60 days of this Regulation Crowdfunding offering and receive a 5% discount on the share price.

***In order to receive perks from an investment, one must submit a single investment in the same offering that meets the minimum perk requirement. Bonus shares from perks will not be granted if an investor submits multiple investments that, when combined, meet the perk requirement. All perks occur when the offering is completed.*

****Crowdfunding investments made through a self-directed IRA cannot receive non-bonus share perks due to tax laws. The Internal Revenue Service (IRS) prohibits self-dealing transactions in which the investor receives an immediate, personal financial gain on investments owned by their retirement account. As a result, an investor must refuse those non-bonus share perks because they would be receiving a benefit from their IRA account.*

13. Do the securities offered have voting rights? Voting Rights and Proxy:

No. Per the Second Certificate of Amendment to the Certificate of Incorporation (See Exhibit D), Class B Common Stock are non-voting, and the holders of Class B Common Stock shall not be entitled to vote in any proceeding in which action shall be taken by the stockholders of the Corporation.

14. Are there any limitations on any voting or other rights identified above?

See Question 13.

15. How may the terms of the securities being offered be modified?

We may choose to modify the terms of the securities before the offering is completed. However, if the terms are modified, and we deem it to be a material change, we need to contact you and you will be given the opportunity to reconfirm your investment. Your reconfirmation must be completed within five business days of receipt of the notice of a material change, and if you do not reconfirm, your investment will be cancelled and your money will be returned to you.

Restrictions on Transfer of the Securities Offered

The securities being offered may not be transferred by any purchaser of such securities during the one-year period beginning when the securities were issued, unless such securities are transferred:

- to the issuer;
- to an accredited investor;
- as part of an offering registered with the U.S. Securities and Exchange Commission; or to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.
- The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person. The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Description of Issuer's Securities

16. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Amount Authorized	Amount Outstanding	Reserved Options	Convertible Note/SAFEs	Voting Rights
Class A Common Stock	9,000,000	9,000,000	N/A	N/A	Yes
Class B Common Stock	1,000,000	0	N/A	N/A	No

Options, Warrants and Other Rights

17. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of securities?

Investors should understand the potential for dilution. The investor's stake in a company could be diluted due to the company issuing additional shares. In other words, when the company issues more shares, the percentage of the company that you own will go down, even though the value of the company may go up. You will own a smaller piece of a larger company. This increase in number of shares outstanding could result from a stock offering (such as an initial public offering, another crowdfunding round, a venture capital round, angel investment), employees exercising stock options, or by conversion of certain instruments (e.g., convertible bonds, preferred shares or warrants) into stock. If the company decides to issue more shares, an investor could experience value dilution, with each share being worth less than before, and control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per share (though this typically occurs only if the company offers dividends, and most early-stage companies are unlikely to offer dividends, preferring to invest any earnings into the company)

18. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

Ionic Wearables, Inc. has two classes of common stock: Class A and Class B Common Stock. The differences are described below:

On any matter submitted to the stockholders of the Corporation, holders of Class A Common Stock are entitled to one (1) vote per share. Class B Common Stock is non-voting, and the holders of Class B Common Stock shall not be entitled to vote in any proceeding in which action shall be taken by the stockholders of the Corporation. Except for the foregoing, the relative rights, preferences, qualifications, limitations, and restrictions of the Class A Common Stock and the Class B Common Stock shall be identical in all respects.

19. How could the exercise of rights held by the principal owners identified in Question 5 above affect the purchasers of Securities being offered?

The holder of a majority of the voting rights in the company may make decisions with which you disagree, or that negatively affect the value of your investment in the company, and you will have no recourse to change those decisions. Your interests may conflict with the interests of

other investors, and there is no guarantee that the company will develop in a way that is advantageous to you. For example, the majority shareholder may decide to issue additional shares to new investors, sell convertible debt instruments with beneficial conversion features, or make decisions that affect the tax treatment of the company in ways that may be unfavorable to you. Based on the risks described above, you may lose all or part of your investment in the securities that you purchase, and you may never see positive returns.

20. How are the securities being offered valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The Pre-Money valuation for the raise is \$49,950,000.

The securities being offered are valued at the issuer's discretion. An early-stage company typically sells its shares (or grants options over its shares) to its founders and early employees at a very low cash cost, because they are, in effect, putting their "sweat equity" into the company. When the company seeks cash investments from outside investors, like you, the new investors typically pay a much larger sum for their shares than the founders or earlier investors, which means that the cash value of your stake is immediately diluted because each share of the same type is worth the same amount, and you paid more for your shares than earlier investors did for theirs.

There are several ways to value a company, and none of them is perfect and all of them involve a certain degree of guesswork. Any of these methods, plus others, may be used to determine valuation in the future:

Liquidation Value - The amount for which the assets of the company can be sold, minus the liabilities owed, e.g., the assets of a bakery include the cake mixers, ingredients, baking tins, etc. The liabilities of a bakery include the cost of rent or mortgage on the bakery. However, this value does not reflect the potential value of a business, e.g., the value of the secret recipe. The value for most startups lies in their potential, as many early stage companies do not have many assets.

Book Value - This is based on analysis of the company's financial statements, usually looking at the company's balance sheet as prepared by its accountants. However, the balance sheet only looks at costs (i.e., what was paid for the asset), and does not consider whether the asset has increased in value over time. In addition, some intangible assets, such as patents, trademarks or trade names, are very valuable but are not usually represented at their market value on the balance sheet.

Earnings Approach - This is based on what the investor will pay (the present value) for what the investor expects to obtain in the future (the future return), taking into account inflation, the lost opportunity to participate in other investments, the risk of not receiving the return. However, predictions of the future are uncertain and valuation of future returns is a best guess.

Different methods of valuation produce a different answer as to what your investment is worth. Typically, liquidation value and book value will produce a lower valuation than the earnings approach. However, the earnings approach is also most likely to be risky as it is based on many assumptions about the future, while liquidation value and book value are much more conservative.

Future investors (including people seeking to acquire the company) may value the company differently. They may use a different valuation method, or different assumptions about the company's business and its market. Different valuations may mean that the value assigned to your investment changes. It frequently happens that when a large institutional investor such as a venture capitalist makes an investment in a company, it values the company at a lower price than the initial investors did. If this happens, the value of the investment would go down.

21. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

The company's Certificate of Incorporation or Bylaws can be amended by the holders of a majority of the issued and outstanding shares of the Company. As minority owners, the crowdfunding investors are subject to the decisions made by the majority owners. The issued and outstanding shares of common stock give management voting control of the company. As a minority owner, you may be outvoted on issues that impact your investment, such as, among other things: (a) the liquidation, dissolution or winding up of the company, or effecting any merger or consolidation; (b) amendment of any provision of the Certificate of Incorporation or Bylaws; (c) creation and issuance of other securities having rights, preferences or privileges senior to the common stock sold to the crowdfunding investors, or increasing the authorized number of shares of stock of the company; or (d) creation of any debt security.

22. What are the risks to purchasers associated with corporate actions including:

- 1. Additional issuances of securities**
- 2. Issuer repurchases of securities**
- 3. A sale of the issuer or of assets of the issuer**
- 4. Transactions with related parties**

The authorization and issuance of additional shares of the company's common stock will dilute the ownership of the crowdfunding investors. As a result, if the company achieves profitable operations in the future, its net income per share will be reduced because of dilution, and the market price of the company's common stock, if there is a market price, could decline as a result of the additional issuances of securities. If the company repurchases securities, so that the above risk is mitigated, and there are fewer shares of common stock outstanding, the company may not have enough cash available for marketing expenses, growth, or operating expenses to reach our goals. If we do not have enough cash to operate and grow, we anticipate the market price of our securities would decline. A sale of the company or of all of the assets of the company may result in an entire loss of your investment. We cannot predict the market value of the company or its assets, and the proceeds of a sale may not be cash, but instead, unmarketable securities, or an assumption of liabilities. It is unlikely that in the near term, a sale would result in a premium that

is significant enough over book value to generate a return to our investors. We may need to negotiate with a related party for additional capital. No assurance can be given that such funds will be available or, if available, will be on commercially reasonable terms satisfactory to us. Even if such financing is available, it may be on terms that are materially adverse to your interests with respect to dilution of book value, dividend preferences, liquidation preferences, or other terms.

23. Describe the material terms of any indebtedness of the issuer:

Creditor(s)	Amount Outstanding	Interest Rate	Maturity Date
N/A	N/A	N/A	N/A

24. What other exempt offerings has the Company conducted within the past three years?

The company has not conducted any additional exempt offerings in the previous three years.

25. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12-month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:

1. Any director or officer of the issuer;
2. Any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;
3. If the issuer was incorporated or organized within the past three years, any promoter of the issuer; or
4. Any immediate family members of any of the foregoing persons.

Financial Condition of the Issuer

26. Does the issuer have an operating history?

The entity Ionic Wearables does not have operating history yet, however they have an exclusive license to use IP from its sister company Incrediwear, which has been in operation for 15 years. Since inception, Ionic Wearables has had no revenue and they are not yet selling product at this time.

Ionic Wearables is a sister company of Incrediwear, with Incrediwear itself being one of the founders and owners of Ionic Wearables and its brands BRN in the weight loss industry and

Oshun in the sexual wellness industry. Incrediwear has been in operation for 15 years developing the history-making, semi-conductor infused, functional fabric that powers the BRN and Oshun brands under the Ionic Wearables company.

Behind Incrediwear's 15 years are 9 completed research studies showing the powerful efficacy of our semi-conductor functional fabric technology. Several of these can be found on PubMed. And currently, 14 studies are under way spanning new areas of efficacy in human health including Diabetic neuropathy, menstrual cramp relief, and of course, caloric burn and metabolic increase for the BRN wearable weight loss brand.

Ionic Wearables also holds the exclusive license for the IP using Incrediwear's functional fabric for both (a) the weight loss industry and (b) the sexual wellness industry.

The efficacy of the functional fabric developed by Incrediwear and used in Ionic Wearables is so powerful that it is used by:

- Every NBA team
- Every NFL team
- Most every MLB, MLS, and NHL teams
- Many teams in the EPL in the UK
- Many teams in La Liga in Spain
- Many teams in the Bundesliga in Germany
- Many Olympic teams across the world
- Many celebrity superstar musicians and actors

And our technology also has been adopted by some of the most prestigious medical institutions in the USA:

- The Mayo Clinic
- Johns Hopkins
- Andrews Institute
- Shriner's Hospital

27. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.

Ionic Wearables currently has \$100 in liquidity. The company currently has no expenses, so there is infinite runway for the Company to operate at its current level. However, if the company would like to begin producing product to sell, it will need capital from this successful Regulation Crowdfunding campaign or other financing.

What capital resources are currently available to the Company? (Cash on hand, existing lines of credit, shareholder loans, etc...)

Ionic Wearables currently has \$100 in liquidity. The Company currently has no expenses, so there is infinite runway for the Company to operate at its current level. However, if the Company would like to begin producing product to sell, it will need capital from this successful Regulation Crowdfunding campaign or other financing. During the year ended December 31, 2023, the Company incurred a net revenue of \$0 had a net cash flow of \$100 from financing activities.

How do the funds of this campaign factor into your financial resources? (Are these funds critical to your company operations? Do you have other funds or capital resources available?)

Ionic Wearables believes the funds of this campaign are important, but not critical, to company operations. Ionic Wearables has other paths that they believe they can take to capitalize on the company, which includes additional partner contributions or fundraising rounds. To be clear, additional financing is critical to the Company being able to become revenue generating, whether through this Regulation Crowdfunding campaign or other financing.

How long will you be able to operate the company if you raise your minimum? What expenses is this estimate based on?

If the Company raises the minimum offering amount, we anticipate the Company will be able to operate as is infinitely, however in order to become revenue generating, the Company will need additional financing. Raising the minimum alone will not provide the Company with the required financing to become revenue generating.

How long will you be able to operate the company if you raise your maximum funding goal?

If the Company raises the maximum offering amount, Ionic Wearables anticipates the Company will be able to begin producing products, which will allow for us to generate revenue. This will provide us with at least 2 years of runway.

28. Include the financial information specified by regulation, covering the two most recently completed fiscal years or the period(s) since inception if shorter.
