

Offering Memorandum: Part II of Offering Document (Exhibit A to Form C)

RegenMed, Inc.  
125 Field Point Rd., B5  
GREENWICH, CT 06830  
<https://rgnmed.com/>

Up to \$1,234,982.40 in Class B Non-Voting Common Stock, Restricted at \$9.60  
Minimum Target Amount: \$14,995.20

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

In the event that we become a reporting company under the Securities Exchange Act of 1934, we intend to take advantage of the provisions that relate to "Emerging Growth Companies" under the JOBS Act of 2012, including electing to delay compliance with certain new and revised accounting standards under the Sarbanes-Oxley Act of 2002.

## Company:

Company: RegenMed, Inc.  
Address: 125 Field Point Rd., B5, GREENWICH, CT 06830  
State of Incorporation: DE  
Date Incorporated: September 05, 2014

## Terms:

### Equity

Offering Minimum: \$14,995.20 | 1,562 shares of Class B Non-Voting Common Stock, Restricted  
Offering Maximum: \$1,234,982.40 | 128,644 shares of Class B Non-Voting Common Stock, Restricted  
Type of Security Offered: Class B Non-Voting Common Stock, Restricted  
Purchase Price of Security Offered: \$9.60  
Minimum Investment Amount (per investor): \$336.00

\*Maximum number of shares offered subject to adjustment for bonus shares. See Bonus info below.

### Forward-Looking Information Legend

THE OFFERING MATERIALS MAY CONTAIN FORWARD-LOOKING STATEMENTS AND INFORMATION RELATING TO, AMONG OTHER THINGS, THE COMPANY, ITS BUSINESS PLAN AND STRATEGY, AND ITS INDUSTRY. THESE FORWARD-LOOKING STATEMENTS ARE BASED ON THE BELIEFS OF, ASSUMPTIONS MADE BY, AND INFORMATION CURRENTLY AVAILABLE TO THE COMPANY'S MANAGEMENT. WHEN USED IN THE OFFERING MATERIALS, THE WORDS "ESTIMATE," "PROJECT," "BELIEVE," "ANTICIPATE," "INTEND," "EXPECT" AND SIMILAR EXPRESSIONS ARE INTENDED TO IDENTIFY FORWARD-LOOKING STATEMENTS, WHICH CONSTITUTE FORWARD LOOKING STATEMENTS. THESE STATEMENTS REFLECT MANAGEMENT'S CURRENT VIEWS WITH RESPECT TO FUTURE EVENTS AND ARE SUBJECT TO RISKS AND UNCERTAINTIES THAT COULD CAUSE THE COMPANY'S ACTUAL RESULTS TO DIFFER MATERIALLY FROM THOSE CONTAINED IN THE FORWARD-LOOKING STATEMENTS. INVESTORS ARE CAUTIONED NOT TO PLACE UNDUE RELIANCE ON THESE FORWARD-LOOKING STATEMENTS, WHICH SPEAK ONLY AS OF THE DATE ON WHICH THEY ARE MADE. THE COMPANY DOES NOT UNDERTAKE ANY OBLIGATION TO REVISE OR UPDATE THESE FORWARD-LOOKING STATEMENTS TO REFLECT EVENTS OR CIRCUMSTANCES AFTER SUCH DATE OR TO REFLECT THE OCCURRENCE OF UNANTICIPATED EVENTS.

### Investment Incentives and Bonuses\*

#### Loyalty Perk

If you are a predesignated member of RegenMed's community, you are eligible for additional bonus shares (10%)

#### Time-Based Perks

Early Bird 1: Invest \$1,000+ within the first 2 weeks | 3% bonus shares

Early Bird 2: Invest \$5,000+ within the first 2 weeks | 5% bonus shares

Early Bird 3: Invest \$10,000+ within the first 2 weeks | 7% bonus shares

Early Bird 4: Invest \$25,000+ within the first 2 weeks | 15% bonus shares

#### Mid-Campaign Perks (Flash Perks)

Flash Perk 1: Invest \$5,000+ between day 35 - 40 and receive 5% bonus shares

Flash Perk 2: Invest \$5,000+ between day 60 - 65 and receive 5% bonus shares

#### Amount-Based Perks

##### Tier 1 Perk:

Invest \$1,000+ and receive 2% bonus shares

##### Tier 2 Perk:

Invest \$5,000+ and receive 3% bonus shares

##### Tier 3 Perk:

Invest \$10,000+ and receive 5% bonus shares

#### Tier 4 Perk:

Invest \$25,000+ and receive 10% bonus shares

\*In order to receive perks from an investment, one must submit a single investment in the same offering that meets the minimum perk requirement. Bonus shares from perks will not be granted if an investor submits multiple investments that, when combined, meet the perk requirement. All perks occur when the offering is completed.

Crowdfunding investments made through a self-directed IRA cannot receive non-bonus share perks due to tax laws. The Internal Revenue Service (IRS) prohibits self-dealing transactions in which the investor receives an immediate, personal financial gain on investments owned by their retirement account. As a result, an investor must refuse those non-bonus share perks because they would be receiving a benefit from their IRA account.

#### The 10% StartEngine Venture Club Bonus

RegenMed will offer 10% additional bonus shares for all investments that are committed by investors that are eligible for the StartEngine Venture Club.

This means eligible StartEngine shareholders will receive a 10% bonus for any shares they purchase in this offering. For example, if you buy 100 shares of Class B Non-Voting Common Stock at \$9.60 / share, you will receive 110 shares of Class B Non-Voting Common Stock, meaning you'll own 110 shares for \$960. Fractional shares will not be distributed and share bonuses will be determined by rounding down to the nearest whole share.

This 10% Bonus is only valid during the investor's eligibility period. Investors eligible for this bonus will also have priority if they are on a waitlist to invest and the company surpasses its maximum funding goal. They will have the first opportunity to invest should room in the offering become available if prior investments are canceled or fail.

Investors will receive the highest single bonus they are eligible for among the bonuses based on the amount invested and the time of offering elapsed (if any). Eligible investors will also receive the Venture Club bonus, the Loyalty Bonus, and the Audience Bonus in addition to the aforementioned bonus.

## The Company and its Business

### Company Overview

#### Overview

RegenMed is a SaaS healthcare data company dedicated to revolutionizing the \$500 billion clinical research market. By leveraging its patented Circles platform, RegenMed transforms everyday physician-patient interactions into valuable, real-world datasets that drive medical innovations. With solutions that are HIPAA, GDPR, and GCP compliant, the company provides an efficient and lower-cost alternative for healthcare providers and product manufacturers to generate meaningful, regulatorily-compliant datasets. RegenMed is currently experiencing strong growth in monthly recurring revenues and aims to further expand its IP development, sales force, and global reach.

RegenMED has one foreign subsidiary, Regen Med Europe which is 100% owned by RegenMed, Inc. The subsidiary may license inCytes™ and Benchmarc™ to European clients from time to time.

### Competitors and Industry

#### Industry

The clinical research and healthcare data industry is undergoing significant transformation driven by the demand for real-world evidence, value-based care, and AI-powered healthcare models. With a global clinical research market valued at \$500 billion, the industry is shifting from traditional clinical trials to more accessible, data-driven solutions that prioritize cost-effectiveness and inclusion. The push for healthcare equity, combined with regulatory compliance for data privacy and security, is also shaping this dynamic market.

#### Competitors

RegenMed's key competitors include traditional Clinical Research Organizations (CROs) like ICON and PRA Health Sciences, which specialize in managing clinical trials for product development. Additionally, companies like Verana Health and Flatiron Health offer data-driven healthcare solutions focused on real-world evidence (RWE) and value-based care. These competitors have established footholds in the healthcare data space by providing advanced analytics and dataset solutions.

### Current Stage and Roadmap

#### Current Stage

RegenMed is in the growth phase, actively expanding its client base and enhancing its SaaS platforms. The company

currently serves over sixty provider groups and product manufacturers across North America, Europe, and Latin America. With validated datasets in various medical fields and strong recurring revenue growth, we believe RegenMed is positioned as a leader in transforming clinical research through its Circles platform.

## Future Roadmap

Looking ahead, RegenMed plans to accelerate its growth by expanding its sales force, further developing its intellectual property, and increasing its geographic reach. The company is focused on enhancing the Circles platform's capabilities to include more medical specialties and strengthen its presence in the value-based care and health equity sectors. Additionally, RegenMed aims to leverage AI for healthcare models, solidifying its role as an innovator in real-world evidence datasets.

## The Team

### Officers and Directors

Name: Michael P Tierney

Michael P Tierney's current primary role is with the Issuer.

Positions and offices currently held with the issuer:

- Position: CEO  
Dates of Service: September, 2014 - Present  
Responsibilities: Chief Executive Officer, Legal Counsel. Michael Tierney has received in the past Restricted Stock Awards. - Position: Chief Operating Officer & Head of Sales  
Dates of Service: September, 2015 - Present  
Responsibilities: Responsible for revenue generation, go-to-market strategy and execution, and product development and marketing. Salary: \$200,000

## Risk Factors

The SEC requires the company to identify risks that are specific to its business and its financial condition. The company is still subject to all the same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently more risky than more developed companies. You should consider general risks as well as specific risks when deciding whether to invest.

These are the risks that relate to the Company:

### Uncertain Risk

An investment in the Company (also referred to as "we", "us", "our", or the "Company") involves a high degree of risk and should only be considered by those who can afford the loss of their entire investment. Furthermore, the purchase of any securities should only be undertaken by persons whose financial resources are sufficient to enable them to indefinitely retain an illiquid investment. Each investor in the Company should research thoroughly any offering before making an investment decision and consider all of the information provided regarding the Company as well as the following risk factors, in addition to the other information in the Company's Form C. The following risk factors are not intended, and shall not be deemed to be, a complete description of the commercial, financial, and other risks inherent in the investment in the Company.

### Our business projections are only projections

There can be no assurance that the Company will meet its projections. There can be no assurance that the Company will be able to find sufficient demand for its product or service, that people think it's a better option than a competing product or service, or that we will be able to provide a product or service at a level that allows the Company to generate revenue, make a profit, or grow the business.

### Any valuation is difficult to assess

The valuation for the offering was established by the Company. Unlike listed companies that are independently valued through market-driven stock prices, the valuation of private companies, especially startups, is difficult to assess, may not be exact, and you may risk overpaying for your investment.

### The transferability of the Securities you are buying is limited

You should be prepared to hold this investment for several years or longer. For the 12 months following your investment, there will be restrictions on the securities you purchase. More importantly, there are a limited number of established markets for the resale of these securities. As a result, if you decide to sell these securities in the future, you may not be able to find, or may have difficulty finding, a buyer, and you may have to locate an interested buyer when you do seek to resell your investment. The Company may be acquired by an existing player in the industry. However, that may never happen or it may happen at a price that results in you losing money on this investment.

### Your investment could be illiquid for a long time

You should be prepared to hold this investment for several years or longer. For the 12 months following your investment, there will be restrictions on how you can resell the securities you receive. More importantly, there are limited established markets for these securities. As a result, if you decide to sell these securities in the future, you may not be able to find a buyer. The Company may be acquired by an existing player in the same or a similar industry. However, that may never happen or it may happen at a price that results in you losing money on this investment.

### The Company may undergo a future change that could affect your investment

The Company may change its business, management or advisory team, IP portfolio, location of its principal place of business or production facilities, or other change which may result in adverse effects on your investment. Additionally, the Company may alter its corporate structure through a merger, acquisition, consolidation, or other restructuring of its current corporate entity structure. Should such a future change occur, it would be based on management's review and determination that it is in the best interests of the Company.

### Your information rights are limited with limited post-closing disclosures

The Company is required to disclose certain information about the Company, its business plan, and its anticipated use of

proceeds, among other things, in this offering. Early-stage companies may be able to provide only limited information about their business plan and operations because it does not have fully developed operations or a long history to provide more disclosure. The Company is also only obligated to file information annually regarding its business, including financial statements. In contrast to publicly listed companies, investors will be entitled only to that post-offering information that is required to be disclosed to them pursuant to applicable law or regulation, including Regulation CF. Such disclosure generally requires only that the Company issue an annual report via a Form C-AR. Investors are generally not entitled to interim updates or financial information.

#### Some early-stage companies may lack professional guidance

Some companies attribute their success, in part, to the guidance of professional early-stage advisors, consultants, or investors (e.g., angel investors or venture capital firms). advisors, consultants, or investors may play an important role in a company through their resources, contacts, and experience in assisting early-stage companies in executing their business plans. An early-stage company primarily financed through Regulation Crowdfunding may not have the benefit of such professional investors, which may pose a risk to your investment.

#### We may not have enough capital as needed and may be required to raise more capital.

We anticipate needing access to credit in order to support our working capital requirements as we grow. It is a difficult environment for obtaining credit on favorable terms. If we cannot obtain credit when we need it, we could be forced to raise additional equity capital, modify our growth plans, or take some other action. Issuing more equity may require bringing on additional investors. Securing these additional investors could require pricing our equity below its current price. If so, your investment could lose value as a result of this additional dilution. In addition, even if the equity is not priced lower, your ownership percentage would be decreased with the addition of more investors. If we are unable to find additional investors willing to provide capital, then it is possible that we will choose to cease our sales activity. In that case, the only asset remaining to generate a return on your investment could be our intellectual property. Even if we are not forced to cease our sales activity, the unavailability of credit could result in the Company performing below expectations, which could adversely impact the value of your investment.

#### Terms of subsequent financings may adversely impact your investment

We will likely need to engage in common equity, debt, or preferred stock financings in the future, which may reduce the value of your investment in the Company. Interest on debt securities could increase costs and negatively impact operating results. Preferred stock could be issued in series from time to time with such designation, rights, preferences, and limitations as needed to raise capital. The terms of preferred stock could be more advantageous to those investors than to the holders of common stock or other securities. In addition, if we need to raise more equity capital from the sale of Common Stock, institutional or other investors may negotiate terms that are likely to be more favorable than the terms of your investment, and possibly a lower purchase price per security.

#### Management's Discretion as to Use of Proceeds

Our success will be substantially dependent upon the discretion and judgment of our management team with respect to the application and allocation of the proceeds of this offering. The Use of Proceeds described below is an estimate based on our current business plan. We, however, may find it necessary or advisable to re-allocate portions of the net proceeds reserved for one category to another, and we will have broad discretion in doing so.

#### Projections: Forward Looking Information

Any projections or forward-looking statements regarding our anticipated financial or operational performance are hypothetical and are based on management's best estimate of the probable results of our operations and may not have been reviewed by our independent accountants. These projections are based on assumptions that management believes are reasonable. Some assumptions invariably will not materialize due to unanticipated events and circumstances beyond management's control. Therefore, actual results of operations will vary from such projections, and such variances may be material. Any projected results cannot be guaranteed.

#### The amount raised in this offering may include investments from company insiders or immediate family members

Officers, directors, executives, and existing owners with a controlling stake in the Company (or their immediate family members) may make investments in this offering. Any such investments will be included in the raised amount reflected on the campaign page.

#### Reliance on a single service or product

All of our current services are variants of one type of service and/or product. Relying heavily on a single service or product can be risky, as changes in market conditions, technological advances, shifts in consumer preferences, or other changes can adversely impact the demand for the product or service, potentially leading to revenue declines or even business failure.

#### Some of our products are still in the prototype phase and might never be operational products

Developing new products and technologies can be a complex process that involves significant risks and uncertainties. Technical challenges, design flaws, manufacturing defects, and regulatory hurdles can all impact the success of a product or service. It is possible that there may never be an operational product or that the product may never be used to engage in transactions. It is possible that the failure to release the product is the result of a change in business model upon the Company's making a determination that the business model, or some other factor, will not be in the best interest of the Company and its stockholders.

Developing new products and technologies entails significant risks and uncertainties

Competition can be intense in many markets, and a failure to keep up with competitors or anticipate shifts in market dynamics can lead to revenue declines or market share losses. We are currently in the research and development stage and have only manufactured a prototype for our service. Delays or cost overruns in the development of our service and failure of the product to meet our performance estimates may be caused by, among other things, unanticipated technological hurdles, difficulties in manufacturing, changes to design, and regulatory hurdles. Any of these events could materially and adversely affect our operating performance and results of operations.

Quality and Safety of our Product and Service

The quality of a product or service can vary depending on the manufacturer or provider. Poor quality can result in customer dissatisfaction, returns, and lost revenue. Furthermore, products or services that are not safe can cause harm to customers and result in liability for the manufacturer or provider. Safety issues can arise from design flaws, manufacturing defects, or improper use.

Minority Holder; Securities with No Voting Rights

The Class B Non-Voting Common Stock that an investor is buying has no voting rights attached to them. This means that you will have no rights in dictating how the Company will be run. You are trusting in management's discretion in making good business decisions that will grow your investments. Furthermore, in the event of a liquidation of our company, you will only be paid out if there is any cash remaining after all of the creditors of our company have been paid out.

You are trusting that management will make the best decision for the company

You are trusting in management's discretion. You are buying securities as a minority holder, and therefore must trust the management of the Company to make good business decisions that grow your investment.

This offering involves "rolling closings," which may mean that earlier investors may not have the benefit of information that later investors have.

Once we meet our target amount for this offering, we may request that StartEngine instruct the escrow agent to disburse offering funds to us. At that point, investors whose subscription agreements have been accepted will become our investors. All early-stage companies are subject to a number of risks and uncertainties, and it is not uncommon for material changes to be made to the offering terms, or to companies' businesses, plans, or prospects, sometimes with little or no notice. When such changes happen during the course of an offering, we must file an amendment to our Form C with the SEC, and investors whose subscriptions have not yet been accepted will have the right to withdraw their subscriptions and get their money back. Investors whose subscriptions have already been accepted, however, will already be our investors and will have no such right.

Non-accredited investors may not be eligible to participate in a future merger or acquisition of the Company and may lose a portion of their investment

Investors should be aware that under Rule 145 under the Securities Act of 1933 if they invest in a company through Regulation Crowdfunding and that company becomes involved in a merger or acquisition, there may be significant regulatory implications. Under Rule 145, when a company plans to acquire another and offers its shares as part of the deal, the transaction may be deemed an offer of securities to the target company's investors, because investors who can vote (or for whom a proxy is voting on their behalf) are making an investment decision regarding the securities they would receive. All investors, even those with non-voting shares, may have rights with respect to the merger depending on relevant state laws. This means the acquirer's "offer" to the target's investors would require registration or an exemption from registration (such as Reg. D or Reg. CF), the burden of which can be substantial. As a result, non-accredited investors may have their shares repurchased rather than receiving shares in the acquiring company or participating in the acquisition. This may result in investors' shares being repurchased at a value determined by a third party, which may be at a lesser value than the original purchase price. Investors should consider the possibility of a cash buyout in such circumstances, which may not be commensurate with the long-term investment they anticipate.

Our new product could fail to achieve the sales projections we expect

Our growth projections are based on the assumption that with an increased advertising and marketing budget, our products will be able to gain traction in the marketplace at a faster rate than our current products have. It is possible that our new products will fail to gain market acceptance for any number of reasons. If the new products fail to achieve significant sales and acceptance in the marketplace, this could materially and adversely impact the value of your investment.

We face significant market competition

We will compete with larger, established companies that currently have products on the market and/or various respective product development programs. They may have much better financial means and marketing/sales and human resources than us. They may succeed in developing and marketing competing equivalent products earlier than us, or superior products than those developed by us. There can be no assurance that competitors will not render our technology or products obsolete or that the products developed by us will be preferred to any existing or newly developed technologies. It should further be assumed that competition will intensify.

We are an early stage company operating in a new and highly competitive industry

The Company operates in a relatively new industry with a lot of competition from both startups and established companies.

As other companies flood the market and reduce potential market share, Investors may be less willing to invest in a company with a declining market share, which could make it more challenging to fund operations or pursue growth opportunities in the future.

#### Intense Market Competition

The market in which the company operates may be highly competitive, with established players, emerging startups, and potential future entrants. The presence of competitors can impact the company's ability to attract and retain customers, gain market share, and generate sustainable revenue. Competitors with greater financial resources, brand recognition, or established customer bases may have a competitive advantage, making it challenging for the company to differentiate itself and achieve long-term success.

#### Vulnerability to Economic Conditions

Economic conditions, both globally and within specific markets, can significantly influence the success of early-stage startups. Downturns or recessions may lead to reduced consumer spending, limited access to capital, and decreased demand for the company's products or services. Additionally, factors such as inflation, interest rates, and exchange rate fluctuations can affect the cost of raw materials, operational expenses, and profitability, potentially impacting the company's ability to operate.

#### Uncertain Regulatory Landscape

Due to the unestablished nature of the market the business operates within, the potential introduction of new laws or industry-specific standards can impose additional costs and operational burdens on the company. Non-compliance or legal disputes may result in fines, penalties, reputational damage, or even litigation, adversely affecting the company's financial condition and ability to operate effectively.

#### Our trademarks, copyrights and other intellectual property could be unenforceable or ineffective

Intellectual property is a complex field of law in which few things are certain. It is possible that competitors will be able to design around our intellectual property, find prior art to invalidate it, or render the patents unenforceable through some other mechanism. If competitors are able to bypass our trademark and copyright protection without obtaining a sublicense, it is likely that the Company's value will be materially and adversely impacted. This could also impair the Company's ability to compete in the marketplace. Moreover, if our trademarks and copyrights are deemed unenforceable, the Company will almost certainly lose any potential revenue it might be able to raise by entering into sublicenses. This would cut off a significant potential revenue stream for the Company.

#### The cost of enforcing our trademarks and copyrights could prevent us from enforcing them

Trademark and copyright litigation has become extremely expensive. Even if we believe that a competitor is infringing on one or more of our trademarks or copyrights, we might choose not to file suit because we lack the cash to successfully prosecute a multi-year litigation with an uncertain outcome; or because we believe that the cost of enforcing our trademark(s) or copyright(s) outweighs the value of winning the suit in light of the risks and consequences of losing it; or for some other reason. Choosing not to enforce our trademark(s) or copyright(s) could have adverse consequences for the Company, including undermining the credibility of our intellectual property, reducing our ability to enter into sublicenses, and weakening our attempts to prevent competitors from entering the market. As a result, if we are unable to enforce our trademark(s) or copyright(s) because of the cost of enforcement, your investment in the Company could be significantly and adversely affected.

#### The loss of one or more of our key personnel, or our failure to attract and retain other highly qualified personnel in the future, could harm our business

Our business depends on our ability to attract, retain, and develop highly skilled and qualified employees. As we grow, we will need to continue to attract and hire additional employees in various areas, including sales, marketing, design, development, operations, finance, legal, and human resources. However, we may face competition for qualified candidates, and we cannot guarantee that we will be successful in recruiting or retaining suitable employees. Additionally, if we make hiring mistakes or fail to develop and train our employees adequately, it could have a negative impact on our business, financial condition, or operating results. We may also need to compete with other companies in our industry for highly skilled and qualified employees. If we are unable to attract and retain the right talent, it may impact our ability to execute our business plan successfully, which could adversely affect the value of your investment. Furthermore, the economic environment may affect our ability to hire qualified candidates, and we cannot predict whether we will be able to find the right employees when we need them. This would likely adversely impact the value of your investment.

#### Our ability to sell our product or service is dependent on outside government regulation which can be subject to change at any time

Our ability to sell our products is subject to various government regulations, including but not limited to, regulations related to the manufacturing, labeling, distribution, and sale of our products. Changes in these regulations, or the enactment of new regulations, could impact our ability to sell our products or increase our compliance costs. Furthermore, the regulatory landscape is subject to regular change, and we may face challenges in adapting to such changes, which could adversely affect our business, financial condition, or operating results. In addition to government regulations, we may also be subject to other laws and regulations related to our products, including intellectual property laws, data privacy laws, and consumer protection laws. Non-compliance with these laws and regulations could result in legal and financial liabilities,

reputational damage, and regulatory fines and penalties. It is also possible that changes in public perception or cultural norms regarding our products may impact demand for our products, which could adversely affect our business and financial performance, which may adversely affect your investment.

**We rely on third parties to provide services essential to the success of our business**

Our business relies on a variety of third-party vendors and service providers, including but not limited to manufacturers, shippers, accountants, lawyers, public relations firms, advertisers, retailers, and distributors. Our ability to maintain high-quality operations and services depends on these third-party vendors and service providers, and any failure or delay in their performance could have a material adverse effect on our business, financial condition, and operating results. We may have limited control over the actions of these third-party vendors and service providers, and they may be subject to their own operational, financial, and reputational risks. We may also be subject to contractual or legal limitations in our ability to terminate relationships with these vendors or service providers or seek legal recourse for their actions. Additionally, we may face challenges in finding suitable replacements for these vendors and service providers, which could cause delays or disruptions to our operations. The loss of key or other critical vendors and service providers could materially and adversely affect our business, financial condition, and operating results, and as a result, your investment could be adversely impacted by our reliance on these third-party vendors and service providers.

**The Company is vulnerable to hackers and cyber-attacks**

As an internet-based business, we may face risks related to cybersecurity and data protection. We rely on technology systems to operate our business and store and process sensitive data, including the personal information of our investors. Any significant disruption or breach of our technology systems, or those of our third-party service providers, could result in unauthorized access to our systems and data, and compromise the security and privacy of our investors. Moreover, we may be subject to cyber-attacks or other malicious activities, such as hacking, phishing, or malware attacks, that could result in theft, loss, or destruction of our data, disruption of our operations, or damage to our reputation. We may also face legal and regulatory consequences, including fines, penalties, or litigation, in the event of a data breach or cyber-attack. Any significant disruption or downtime of our platform, whether caused by cyber-attacks, system failures, or other factors, could harm our reputation, reduce the attractiveness of our platform, and result in a loss of investors and issuer companies. Moreover, disruptions in the services of our technology provider or other third-party service providers could adversely impact our business operations and financial condition. This would likely adversely impact the value of your investment.

**Economic and market conditions**

The Company's business may be affected by economic and market conditions, including changes in interest rates, inflation, consumer demand, and competition, which could adversely affect the Company's business, financial condition, and operating results.

**Force majeure events**

The Company's operations may be affected by force majeure events, such as natural disasters, pandemics, acts of terrorism, war, or other unforeseeable events, which could disrupt the Company's business and operations and adversely affect its financial condition and operating results.

**Adverse publicity**

The Company's business may be negatively impacted by adverse publicity, negative reviews, or social media campaigns that could harm the Company's reputation, business, financial condition, and operating results.

**The Company's CEO does not currently receive a salary.**

The Company's CEO, who is also the founder and principal security holder, currently does not receive a salary, which may reduce the CEO's financial incentive in the near term. However, as the founder and largest shareholder, the CEO remains heavily invested in the Company's success, though any future decision to compensate the CEO could significantly increase the Company's operating expenses, potentially affecting profitability and investor returns.

## Ownership and Capital Structure; Rights of the Securities

### Ownership

The following table sets forth information regarding beneficial ownership of the company's holders of 20% or more of any class of voting securities as of the date of this Offering Statement filing.

Stockholder Name	Number of Securities Owned	Type of Security Owned	Percentage
Tierney Family 2007 Spray Trust (Michael P Tierney as Grantor)	760,437	Class A Voting Shares	73.0%

### The Company's Securities

The Company has authorized Class A Voting Shares, Class B Non-Voting Common Stock, Restricted, and Preferred Stock. As part of the Regulation Crowdfunding raise, the Company will be offering up to 128,644 of Class B Non-Voting Common Stock, Restricted.

#### Class A Voting Shares

The amount of security authorized is 15,000,000 with a total of 1,731,296 outstanding.

#### Voting Rights

one vote per share

#### Material Rights

There are no material rights associated with Class A Voting Shares.

#### Class B Non-Voting Common Stock, Restricted

The amount of security authorized is 15,000,000 with a total of 352,037 outstanding.

#### Voting Rights

There are no voting rights associated with Class B Non-Voting Common Stock, Restricted.

#### Material Rights

These outstanding shares are pursuant to a Restricted Stock Agreement between the Company and the Awardees.

#### Preferred Stock

The amount of security authorized is 10,000,000 with a total of 0 outstanding.

#### Voting Rights

one vote per share

#### Material Rights

There are no material rights associated with Preferred Stock.

### What it means to be a minority holder

As a minority holder of Class B Non-Voting Common Stock of the Company, you will have limited rights in regard to the corporate actions of the Company, including additional issuances of securities, company repurchases of securities, a sale of the Company or its significant assets, or company transactions with related parties. Further, investors in this offering may have rights less than those of other investors and will have limited influence on the corporate actions of the Company.

### Dilution

Investors should understand the potential for dilution. The investor's stake in a company could be diluted due to the Company issuing additional shares. In other words, when the Company issues more shares, the percentage of the Company that you own will go down, even though the value of the Company may go up. You will own a smaller piece of a larger company. This increase in the number of shares outstanding could result from a stock offering (such as an initial public offering, another crowdfunding round, a venture capital round, or angel investment), employees exercising stock options, or by conversion of certain instruments (e.g. convertible bonds, preferred shares or warrants) into stock. If the Company decides to issue more shares, an investor could experience value dilution, with each share being worth less than before, and

control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per share (though this typically occurs only if the Company offers dividends, and most early-stage companies are unlikely to offer dividends, preferring to invest any earnings into the Company).

## Transferability of securities

For a year, the securities can only be resold:

- In an IPO;
- To the company;
- To an accredited investor; and
- To a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

## Recent Offerings of Securities

We have made the following issuances of securities within the last three years:

- Type of security sold: Convertible Note  
Final amount sold: \$1,615,000.00  
Use of proceeds: Startup Funds  
Date: December 31, 2023  
Offering exemption relied upon: Section 4(a)(2)

## Financial Condition and Results of Operations

### Financial Condition

You should read the following discussion and analysis of our financial condition and results of our operations together with our financial statements and related notes appearing at the end of this Offering Memorandum. This discussion contains forward-looking statements reflecting our current expectations that involve risks and uncertainties. Actual results and the timing of events may differ materially from those contained in these forward-looking statements due to a number of factors, including those discussed in the section entitled “Risk Factors” and elsewhere in this Offering Memorandum.

### Results of Operations

Circumstances which led to the performance of financial statements:

#### Revenue

Revenue for fiscal year 2022 was \$63,382 compared to \$96,500 in fiscal year 2023. The increase in revenue from 2022 to 2023 was due to our growing client base and expansion in recurring revenue streams. As we onboarded more clients and enhanced our SaaS platform, revenue saw steady growth.

#### Cost of Sales

Cost of Sales for fiscal year 2022 was \$0 compared to \$0 in fiscal year 2023. There was no change in cost of sales over the two years as we operate a SaaS-based business model, which allows for minimal variable costs while maintaining high gross margins.

#### Gross Margins

Gross margins for fiscal year 2022 were \$63,382 compared to \$96,500 in fiscal year 2023. The increase in gross margins aligned with our higher revenues, as our client base grew, while the cost of sales remained minimal. The scalable nature of our business allowed us to achieve increased profitability with rising sales.

#### Expenses

Expenses for fiscal year 2022 were \$890,958 compared to \$1,036,094 in fiscal year 2023. The increase in expenses was driven by investments in product development, the expansion of our sales force, and rising operational costs as we continue to grow. These investments were made to drive future revenue growth.

Historical results and cash flows:

We are currently in the growth stage and are revenue-generating. We are of the opinion that our historical cash flows will not be fully indicative of the revenue and cash flows expected for the future because we anticipate significant growth in recurring revenue as we continue to onboard more clients globally. Past cash was primarily generated through sales and equity investments. Our goal is to further expand our client base and increase monthly recurring revenue as we scale our SaaS platform to new markets. Given our anticipated scale and future plans to license data for AI healthcare models, we expect future cash flows to outpace historical figures.

## Liquidity and Capital Resources

What capital resources are currently available to the Company? (Cash on hand, existing lines of credit, shareholder loans, etc...)

As of August 31st 2024, the Company has capital resources available in the form of \$23,340.61 cash on hand. The Company is funded by its principal shareholders, including the Tierney Family 2007 Spray Trust. The Trust has adequate resources to continue funding the Company for well over two years at its current burn rate.

The Company is funded by its principal shareholders, including the Tierney Family 2007 Spray Trust. We believe the Trust has adequate resources to continue funding the Company for well over two years at its current burn rate.

How do the funds of this campaign factor into your financial resources? (Are these funds critical to your company operations? Or do you have other funds or capital resources available?)

We believe the funds of this campaign are critical to our company operations. These funds are required to support the expansion of our sales team, further product development, and regulatory compliance efforts.

The Company is funded by its principal shareholders, including the Tierney Family 2007 Spray Trust. We believe the Trust has adequate resources to continue funding the Company for well over two years at its current burn rate.

Are the funds from this campaign necessary to the viability of the company? (Of the total funds that your company has, how much of that will be made up of funds raised from the crowdfunding campaign?)

We believe the funds from this campaign are necessary to the viability of the Company. Of the total funds that our Company has, approximately 60% will be made up of funds raised from the crowdfunding campaign if it raises its maximum funding goal.

The Company is funded by its principal shareholders, including the Tierney Family 2007 Spray Trust. We believe the Trust has adequate resources to continue funding the Company for well over two years at its current burn rate.

How long will you be able to operate the company if you raise your minimum? What expenses is this estimate based on?

If the Company raises the minimum offering amount, we anticipate the Company will be able to operate for 24 months. This is based on a current monthly burn rate of \$45,000, which includes expenses related to salaries, product development, and marketing.

The Company is funded by its principal shareholders, including the Tierney Family 2007 Spray Trust. We believe the Trust has adequate resources to continue funding the Company for well over two years at its current burn rate.

How long will you be able to operate the company if you raise your maximum funding goal?

If the Company raises the maximum funding goal, we anticipate the Company will be able to operate for 36 months. This is based on a current monthly burn rate of \$45,000, covering expenses such as salaries, product development, and scaling our sales force.

The Company is funded by its principal shareholders, including the Tierney Family 2007 Spray Trust. We believe the Trust has adequate resources to continue funding the Company for well over two years at its current burn rate.

Are there any additional future sources of capital available to your company? (Required capital contributions, lines of credit, contemplated future capital raises, etc...)

Currently, the Company has contemplated additional future sources of capital, including potential equity raises and partnerships with healthcare institutions, as well as exploring lines of credit from financial institutions to ensure long-term growth and sustainability.

The Company is funded by its principal shareholders, including the Tierney Family 2007 Spray Trust. We believe the Trust

has adequate resources to continue funding the Company for well over two years at its current burn rate.

## Indebtedness

The Company does not have any material terms of indebtedness.

## Related Party Transactions

The Company has not conducted any related party transactions

## Valuation

Pre-Money Valuation: \$19,999,996.80

Valuation Details:

This pre-money valuation was calculated internally by the Company without the use of any formal third-party evaluation.

The pre-money valuation has been calculated on a fully diluted basis. In making this calculation, we have assumed: (i) all preferred stock is converted to common stock; (ii) all outstanding options, warrants, and other securities with a right to acquire shares are exercised; and (iii) any shares reserved for issuance under a stock plan are issued.

## Use of Proceeds

If we raise the Target Offering Amount of \$14,995.20 we plan to use these proceeds as follows:

- StartEngine Platform Fees  
5.5%
- StartEngine Service Fee  
94.5%  
StartEngine Service Fee

If we raise the over allotment amount of \$1,234,982.40, we plan to use these proceeds as follows:

- StartEngine Platform Fees  
5.5%
- Research & Development  
24.0%  
We will use 24% of the funds raised for further market and customer research, continuous development of the Circles platform, and testing new features that enhance data collection and user experience. This includes advancements in AI integration and healthcare-specific data models.
- Inventory  
5.0%  
We will use 5% of the funds raised to purchase technology infrastructure necessary to support our expanding data collection and SaaS services as we scale our operations globally.
- Company Employment  
30.0%  
We will use 30% of the funds to hire key personnel for daily operations, including roles in Office Administration, Sales and Marketing, Customer Service, and Data Analysis. Hiring these team members is essential for managing our growing client base, expanding our geographic reach, and supporting our increasing data sets.
- Working Capital  
34.5%  
We will use 34.5% of the funds for working capital to cover expenses related to ongoing operations, the expansion of the Circles platform, and overall business scaling. This will include costs associated with client acquisition, operational costs, and maintaining regulatory compliance across different regions.
- StartEngine Service Fees  
1.0%  
Fees for certain creative design, legal, marketing, technical, and administrative support services provided by StartEngine, of which the final amount may vary.

The Company may change the intended use of proceeds if our officers believe it is in the best interests of the company.

## Regulatory Information

### Disqualification

No disqualifying event has been recorded in respect to the company or its officers or directors.

### Compliance Failure

The company has not previously failed to comply with the requirements of Regulation Crowdfunding.

### Ongoing Reporting

The Company will file a report electronically with the SEC annually and post the report on its website no later than April 30 (120 days after Fiscal Year End). Once posted, the annual report may be found on the Company's website at <https://rgnmed.com/> (<https://rgnmed.com/investors>).

The Company must continue to comply with the ongoing reporting requirements until:

- (1) it is required to file reports under Section 13(a) or Section 15(d) of the Exchange Act;
- (2) it has filed at least one (1) annual report pursuant to Regulation Crowdfunding and has fewer than three hundred (300) holders of record and has total assets that do not exceed \$10,000,000;
- (3) it has filed at least three (3) annual reports pursuant to Regulation Crowdfunding;
- (4) it or another party repurchases all of the securities issued in reliance on Section 4(a)(6) of the Securities Act, including any payment in full of debt securities or any complete redemption of redeemable securities; or
- (5) it liquidates or dissolves its business in accordance with state law.

### Updates

## INDEPENDENT ACCOUNTANT'S REVIEW REPORT

To: RegenMed, Inc. Management

We have reviewed the accompanying financial statements of RegenMed, Inc. formerly Regenerative Medicine, LLC (the Company) which comprise the statements of financial position as of December 31, 2023 & 2022 and the related statements of operations, statements of changes in members' equity, and statements of cash flows for the years then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of Company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

### **Management's Responsibility for the Financial Statements:**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

### **Accountant's Responsibility:**

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

### **Accountant's Conclusion:**

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

A handwritten signature in black ink, appearing to read 'Rashellee Herrera', is positioned above the printed name.

## REGENMED, INC. FORMERLY REGENERATIVE MEDICINE LLC

Notes to the Unaudited Financial Statements  
December 31st, 2023  
\$USD

### NOTE 1 – DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS

Regenerative Medicine, LLC was organized in September of 2014 in the State of Delaware as a limited liability company and maintains its headquarters in Greenwich, Connecticut. On September 4, 2024 the Company underwent a statutory merger and converted to RegenMed, Inc. (the "Company"), a Delaware, Corporation.

The company was originally formed to support the clinical translation of evidence-based regenerative medicine, a \$48 billion market forecast to grow to \$195 billion by 2032.

In 2017, recognizing the poor quality if not absence of evidence supporting the promising field of regenerative medicine, the Company began developing the technical platforms and processes necessary to support providers and industry in generating such evidence, with a particular focus on "real-world evidence". The U.S. FDA, policymakers, and the private sector have recognized the importance of real-world evidence in supporting regulatory decision-making, value-based care, and health equity.

Since then, the Company has launched the patented inCytes™ and Benchmarc™ platforms, and related services supporting healthcare clients in North America, Europe, Latin America and Southeast Asia in generating clinical, scientific and financial value through regulatorily-compliant real-world evidence. The Company's revenue model is clinical research software-as-a-service provided to for-profit and not-for-profit healthcare businesses.

The Company's clients include small and large provider groups, as well as healthcare product manufacturers and distributors. The Company is product-agnostic, and its real-world evidence programs are used in the context of a variety of medical specialties and indications.

#### Concentrations of Credit Risks

Financial instruments that potentially subject the Company to concentration of credit risk consist principally of cash. The Company does not maintain balances in excess of the federally insured limit.

#### Emphasis of Matter on Going Concern Consideration:

The accompanying financial statements have been prepared under the assumption that the Company will continue as a going concern for the next twelve months. The Company has incurred significant operating losses since its inception and has accumulated a deficit of approximately \$7,127,193 as of December 31, 2023. However, the company has experienced significant revenue growth over the most recent three six-month periods. As of June 30, 2023, December 31, 2023, June 30, 2024, the Company has earned recurring revenues on a cash basis of \$20,508, \$45,025, and \$184,000, respectively, representing period-over-period increases of 120% and 309%, respectively. The average monthly Net Retained Revenue through those three half-year periods was 119%.

Further, the Company has been primarily funded by its two original co-founders, who have sufficient assets to cover operating expenses for at least two year.

The financial statements do not account for potential adjustments that may arise from uncertainties extending beyond the date of these financials.

## **NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### Basis of Presentation

The Company's financial statements are prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). The Company's fiscal year ends on December 31. The Company has no interest in variable interest entities and no predecessor entities.

### Basis of Consolidation – Foreign Operations.

The financials of the Company include its wholly-owned subsidiary, Regen Med Europe, an entity operating out of Spain. All significant intercompany transactions are eliminated. Operations outside the United States are subject to risks inherent in operating under different legal systems and various political and economic environments. Among these risks are changes in existing tax laws, possible limitations on foreign investment and income repatriation, government price or foreign exchange controls, and restrictions on currency exchange. The Company does not engage in hedging activities to mitigate its exposure to fluctuations in foreign currency exchange rates.

In 2023 and 2022, the Company reported \$9,100 and \$15,086, respectively, in earnings from foreign subsidiaries. Net assets of foreign operations were \$100,825 and \$92,147 as of December 31, 2023, and 2022, respectively.

### Foreign Currency Translation

The functional currencies of the Company's foreign operations are the local currencies. The financial statements of the Company's foreign subsidiaries have been translated into U.S. dollars. All balance sheet accounts have been translated using the exchange rates in effect at the balance sheet date, while income statement amounts have been translated using the average exchange rate for the year. Foreign currency transaction gains (losses) resulting from exchange rate fluctuations on transactions denominated in a currency other than the functional currency totaled approximately \$2,735 in 2023 and (\$4,110) in 2022.

### Use of Estimates and Assumptions

The financial statements and accompanying notes are prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP), which require management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period.

### Fair Value of Financial Instruments

FASB Accounting Standards Codification (ASC) 820 "*Fair Value Measurements and Disclosures*" establishes a three-tier fair value hierarchy, which prioritizes the inputs in measuring fair value. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

These tiers include:

Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3: Unobservable inputs in which little or no market data exists, therefore developed using estimates and assumptions developed by us, which reflect those that a market participant would use.

There were no material items that were measured at fair value as of December 31, 2023 and December 31, 2022.

### Cash and Cash Equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company had \$60,816 and \$99,203 in cash as of December 31, 2023 and December 31, 2022, respectively.

### Capitalized Internal-Use Software Costs

The Company adheres to Accounting Standards Codification 350 ("ASC 350"), Intangibles- Goodwill and Other, regarding the accounting treatment of computer software developed for internal use and web-based product development costs. ASC 350 mandates the capitalization of qualifying computer software costs incurred during the application development stage, with subsequent amortization over the asset's estimated useful life on a straight-line basis.

Preliminary project activities and post-implementation costs are expensed as they are incurred.

In accordance with these guidelines, the Company has capitalized its development and R&D costs associated with its cloud-based platforms/software. These costs are amortized on a straight-line basis over their estimated useful lives of 10 years as determined by the Company. The details of the amortization are provided below:

	2023	2022
<b>Cost</b>		
Balance as of January 1	2,609,194	2,364,286
Additions during the year	241,194	244,908
Balance as of December 31	2,850,388	2,609,194

<b>Accumulated Amortization</b>		
Balance as of January 1	1,322,016	1,050,601
Additions during the year	311,614	271,415
Balance as of December 31	1,633,630	1,322,016
Net Book Value	1,216,758	1,287,178

### Revenue Recognition

The Company recognizes revenue from the sale of products and services in accordance with ASC 606, "Revenue Recognition" following the five steps procedure:

Step 1: Identify the contract(s) with customers

Step 2: Identify the performance obligations in the contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to performance obligations

Step 5: Recognize revenue when or as performance obligations are satisfied

The Company generates revenues by providing access to its inCytes™ and Benchmark platforms through subscription models, case usage fees, Circle study protocols, and support services. Payments are generally collected at the time of service or initiation of services. The primary performance obligation of the Company is to provide access to the inCytes™ and Benchmark platforms and deliver requested support services.

Revenue is recognized at the time the service is provided or access is granted, net of estimated returns. Coincident with revenue recognition, the Company establishes a liability for expected returns and records an asset (and corresponding adjustment to cost of services) for its right to recover products/services from customers on settling the refund liability.

Subscription fees are typically collected monthly in advance, and revenue is recognized monthly as the service is provided. Case usage fees are billed monthly in arrears, with revenue recognized based on usage. Circle study protocols involve an initial payment and a subsequent payment based on the client type, with revenue recognized upon delivery of the protocol. Support services, both clinical/scientific and technical, are prepaid, and revenue is recognized as services are delivered.

### Sales and Marketing

Sales and marketing costs associated with marketing and selling the Company's products and services are expensed as costs are incurred.

### General and Administrative

General and administrative expenses consist of various operational costs essential for business management and administration, primarily including payments for supplies, insurance, rent, traveling, legal and accounting services, information technology, and miscellaneous general administration expenses.

### Income Taxes

The Company is a pass-through entity therefore any income tax expense or benefit is the responsibility of the company's owners. As such, no provision for income tax is recognized on the Statement of Operations.

### Recent Accounting Pronouncements

The FASB issues Accounting Standards Updates (ASUs) to amend the authoritative literature in ASC. There have been a number of ASUs to date that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to us or (iv) are not expected to have a significant impact on our financial statements.

## **NOTE 3 – RELATED PARTY TRANSACTIONS**

The Company follows ASC 850, "Related Party Disclosures," for the identification of related parties and disclosure of related party transactions.

As noted in Note 5, the Company had Convertible Notes Payable of \$1,615,000 and \$800,000 outstanding as of December 31, 2023, and December 31, 2022, respectively, to its controlling member, the Tierney Family 2007 Spray Trust (the "Trust").

## **NOTE 4 – COMMITMENTS, CONTINGENCIES, COMPLIANCE WITH LAWS AND REGULATIONS**

The Company is not currently involved with or knows of any pending or threatening litigation against it or any of its officers. Further, the Company is currently complying with all relevant laws and regulations. The Company does not have any long-term commitments or guarantees.

## **NOTE 5 – LIABILITIES AND DEBT**

### Convertible Notes

Prior to 2022, the Company had entered into convertible note agreements with two of its Members: the Tierney Family 2007 Spray Trust (the "Trust") and J. William Futrell, M.D., both held a significant interest in the Company. The notes carried an interest rate of 7.5% and were repayable upon demand by the holder, with maturities ranging from 2016 to 2026. They are convertible into units of interest in the Company at a 20% discount during a change of control or a qualified financing event.

As of December 31, 2021, the convertible notes had an outstanding balance of \$4,881,494 and accrued interest of \$695,213. These notes, along with the accrued interest, were converted into 5,460 units of interest in the Company in 2022.

In 2022, the Company entered into new convertible note agreements with its major and controlling member, the Tierney Family 2007 Spray Trust (the "Trust"). A principal amount of \$800,000 was granted in 2022, and an additional \$815,000 was granted in 2023, totaling \$1,615,000 outstanding as of December 31, 2023. These notes carry an interest rate of 12% and are to be repaid upon demand by the holder on or before maturity in June

2028. The notes may be converted into units of interest or shares of stock in the Company once it converts into a corporation, at a 30% discount during a change of control or a qualified financing event.

As of December 31, 2023, and December 31, 2022, the total accrued interest on these Convertible Notes was \$150,113 and \$37,264, respectively.

## NOTE 6 – EQUITY

The Company has issued and outstanding Class A (Voting) and Class B (Non-Voting) Membership Interests. The Class A Membership Interests are issued against payment of \$1,000 per such Membership Interest, all of which has been paid into the Company. The Class B Membership Interests are issued upon the vesting of Profits Interest Awards granted from time to time by the Company, and subject to the distribution thresholds and other terms of such Awards.

Each Class membership Interest is entitled to one vote. All Class A and Class B Membership Interests as a single class are entitled pro-rata to any distributions from the Company.

### Liquidation

In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company, the holders of all Class A and Class B Membership Interests will participate pro-rata in the distribution of any assets remaining after payment to any creditors, and expenses of such liquidation.

The Company is a limited liability company with various members. The equity ownership of each member is represented by a percentage interest, with the Tierney Family 2007 Spray Trust (the "Trust") holding the controlling or major interest, as detailed below:

	2023		2022	
Members	Units	% of Interest	Units	% of Interest
Tierney Family 2007 Spray Trust (the "Trust")	5,226	64%	5,226	81%
J. William Futrell, M.D	1,184	14%	1,184	18%
Other Members	1,785	22%	35	0.5%
Total	8,195	100%	6,445	100%

## NOTE 7 – SUBSEQUENT EVENTS

The Company has evaluated events subsequent to December 31, 2023 to assess the need for potential recognition or disclosure in this report. Such events were evaluated through September 9, 2024, the date these financial statements were available to be issued.

From January to June 2024, the Company issued new convertible notes to its major and controlling member, the Tierney Family 2007 Spray Trust (the "Trust"). The total principal amount of these notes is \$254,900, with maturity in June 2028.

The Company underwent a statutory conversion from Regenerative Medicine, LLC to RegenMed, Inc. on September 4, 2024. Upon conversion, the Company authorized 15,000,000 Class A Voting shares with a par value of \$.001 per share and 15,000,000 Class B Non-Voting shares with a par value of \$.001 per share. As of its conversion date, 637,308 Class A Voting shares and 202,179 Class B Non-Voting shares have been issued and are outstanding.

Additionally, the Company has authorized 10,000,000 Preferred shares with a par value of \$.001 per share. No preferred shares have been issued.

Finally, all convertible notes have been converted to Common A voting shares in the corporation.

## THE PITCH

### Re-imagining & Democratizing Clinical Research

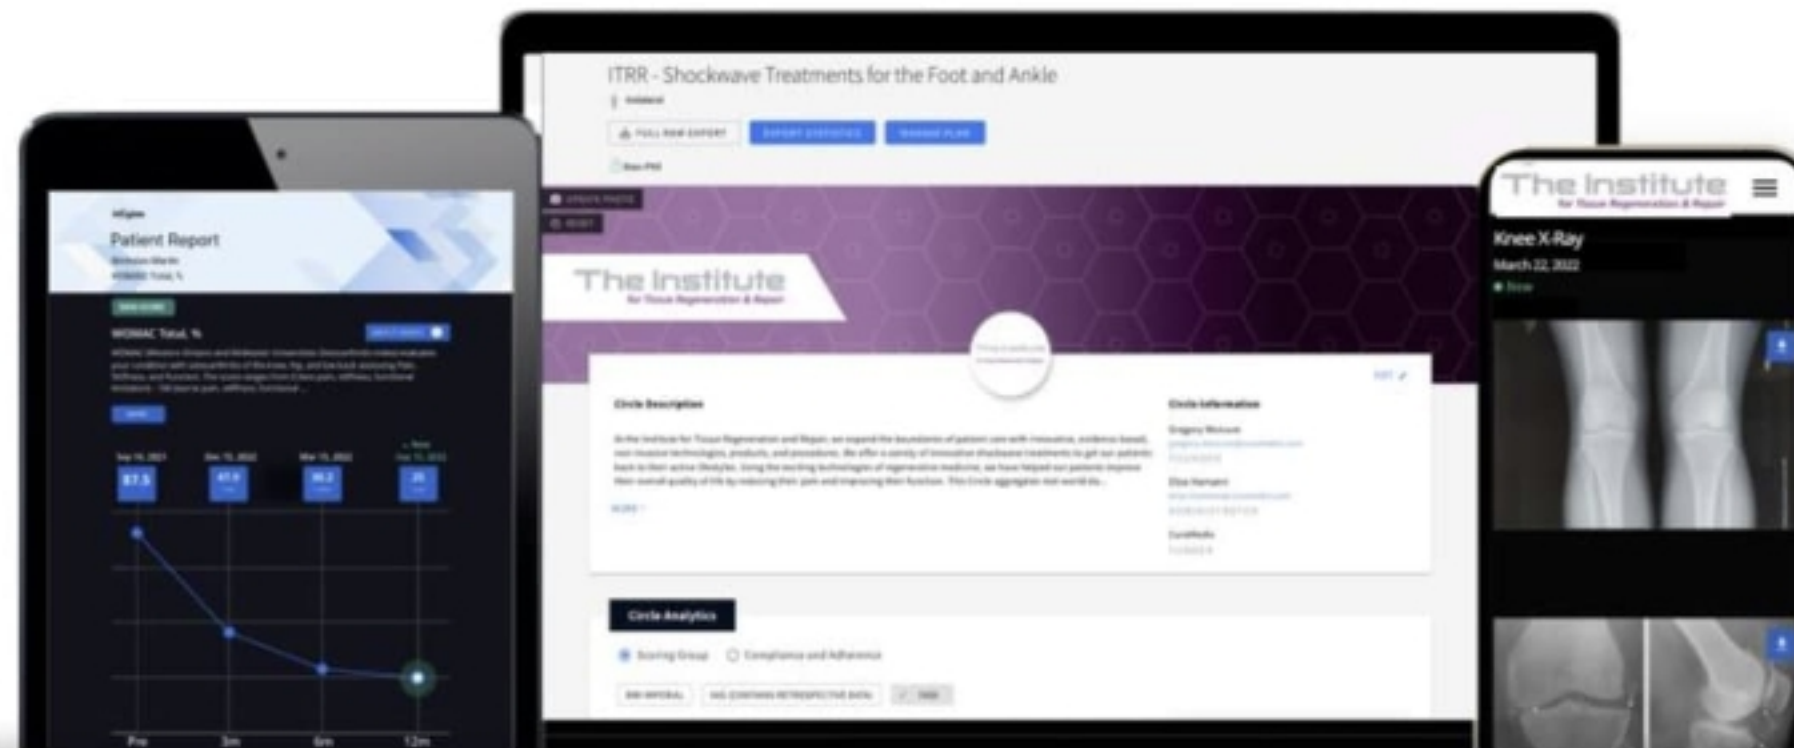

Governments, payers, providers, and patients depend on the \$500 billion clinical research market to drive medical innovation applicable to all.<sup>1</sup> However, due to rising costs and other factors, only 3% of physicians and 5% of patients have ever been involved in a clinical trial.<sup>2</sup> The result is steadily higher healthcare costs and poorer healthcare for most people.

RegenMed makes clinical research more accessible while meeting its high standards. The Circles platform, with its minimal clinical burden, affordability, and focus on value creation, has attracted and retained clients globally and across various medical specialties. Circles offer an exceptional user experience for patients, healthcare professionals, and researchers alike, providing 24/7 access to data from any device. It also fosters strong, ongoing collaboration among physicians and researchers, regardless of their location.

# INTRODUCING CIRCLES

Value-based Care. Professional Fulfillment. Advancing Medicine.

Patented, robust technical platform

Processes to minimize clinical burden

Proprietary, Part 11 compliant datasets

Excellent clinician and patient UX

Inherent collaboration (NFX)

Affordable, flexible SaaS pricing

Through Circles, **each** doctor can efficiently generate statistically significant datasets relevant to his specific patients. **Each** patient can participate in studies relevant to his or her specific healthcare indications and goals. **Each** product manufacturer can generate validated datasets to support meaningful medical innovations.

# HOW CIRCLES WORK

From Design to Value, RegenMed is Your Partner.

RegenMed's leadership comprises physicians with decades of clinical research experience and business executives with multiple successes in prior start-ups and SaaS businesses. They have already led the Company to strong growth in monthly recurring revenues and other key SaaS metrics. Investment capital will be used to accelerate this growth by expanding the Company's sales force, its IP development, and its geographic reach.

## THE PROBLEM & OUR SOLUTION

### Improving the Quality, Accessibility, & Value of Research

Clinical research today is largely focused on narrow studies aimed at promoting and selling expensive products. As a result, only a small percentage of patients (5%) and physicians (3%) participate, contributing to declining healthcare outcomes for the majority.<sup>2</sup>

#### CHALLENGES IN CLINICAL RESEARCH TODAY

**Geared towards reimbursement**

**No incentive to collect most valuable data**

**Data collection is too expensive**

**Major patient populations are ignored**

**Substantial regulatory barriers**

**“Big-data” does not and can not deliver**

RegenMed addresses these challenges by leveraging the power of evidence-based datasets arising from everyday physician-patient interactions. These datasets are regulatorily compliant, longitudinal, unbiased, accessible, and clinically significant. They can be developed efficiently and cost-effectively for any medical indication, wellness goal, or treatment protocol.

RegenMed's platforms and processes inherently support collaboration among physicians and scientists, wherever they are located. The resulting network effects greatly amplify the “n-value” of clinical studies and enrich professional fulfillment for participating healthcare professionals.

THE MARKET & OUR TRACTION

Revolutionizing Healthcare with Real-World Data

RegenMed's Addressable Markets

The U.S. spends far more on healthcare than any other country, while many key metrics are worsening.<sup>[3](#)</sup> Harnessing the power of real-world evidence datasets not only has the potential to disrupt the \$500 billion clinical research market, it also provides solutions for value-based care (approaching \$1 trillion in value), health equity, and AI healthcare learning models.<sup>[4,5](#)</sup>

[Source](#) / [Source](#)

Our Traction

Over the past two years, RegenMed has expanded its client base across North America, Europe, Latin America, and beyond. As of August 2024, the Company serves over sixty provider groups and product manufacturers. It is generating validated and growing clinical datasets in orthopedics, neurology, compounding pharmacies, sports medicine, sexual health, and other medical areas.

As of December 31, 2023, and June 30, 2024, the Company's six-month recurring cash revenues increased by 120% and 309%, respectively. Recurring revenues for the six-month periods ending June 30, 2023, December 31, 2023 and June 30, 2024 were \$20,603, \$45,027, and \$184,103 respectively. During these three half-year periods, the average monthly net retained revenue was 119%. Key recurring revenue indicators—including clinical cases, subscribers, Circles, client numbers, and proprietary datasets—demonstrate consistent growth.

As a B2B SaaS Company, RegenMed is committed to delivering sustainable value through recurring revenue, client acquisition, and operational excellence. We continuously invest in intellectual property, regulatory compliance, and internal systems to maintain our competitive edge.

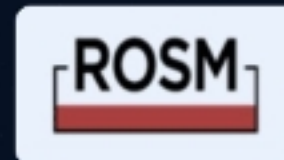

### What Our Clients Say

“The field of regenerative medicine remains growing, both in size and in need for evidence-based standards. ROSM has long been a pioneer of non-surgical treatment options, and that leadership will now extend to the generation and dissemination of real-world evidence across a growing number of protocols, products, and patient populations.

RegenMed shared our strategic vision, and with its turnkey platforms and deep regenerative medicine experience, was the natural partner to help us design and expand this broad initiative.”

---

Imran Siddiqui, M.D.,  
Director of Clinical Operations

“We partnered with RegenMed over a year ago to collect real-world data by using RegenMed’s Circles Program in order to collect data that can be used to provide evidence, more than trends only.

Our goal is ultimately to have clear cut evidence what optimal preparation methods and protocols are to facilitate physicians in optimizing their treatment strategies, using a variety of highly efficient and reproducible protocols.

The platform has accommodated our highly specific research objectives, customer engagement and feedback has been overwhelmingly positive, and we have already generated valuable, statistically

significant data for up to 1 year, clearly leading us to further refinement of our protocols.”

Early Bird 2: Invest \$5,000+ within the first 2 weeks | 5% bonus shares

Early Bird 3: Invest \$10,000+ within the first 2 weeks | 7% bonus shares

Early Bird 4: Invest \$25,000+ within the first 2 weeks | 15% bonus shares

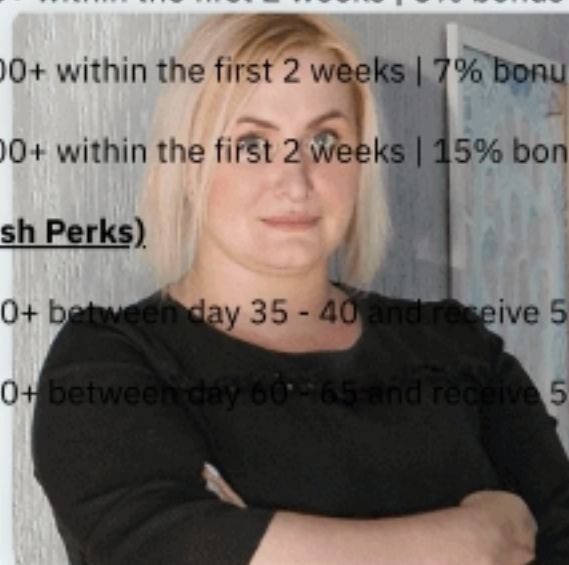

## Mid-Campaign Perks (Flash Perks)

Flash Perk 1: Invest \$5,000+ between day 35 - 40 and receive 5% bonus shares

Flash Perk 2: Invest \$5,000+ between day 60 - 65 and receive 5% bonus shares

## Amount-Based Perks

Tier 1 Perk:

Invest \$1,000+ and receive 2% bonus shares

Tier 2 Perk:

Invest \$5,000+ and receive 3% bonus shares

Tier 3 Perk:

Invest \$10,000+ and receive 5% bonus shares

The Company’s management, including its Clinical/Scientific Advisory Board, combines many decades of experience in SaaS business operations, international expansion, hospital operations, clinical research, and liquidity events.

*In order to receive perks from an investment, one must submit a single investment in the same offering that meets the minimum perk requirement. Bonus shares from perks will not be granted if an investor submits multiple investments that, when combined, meet the perk requirement. All perks occur when the offering is completed.*

### **Ready For Accelerated Development**

Crowdfunding investments made through a self-directed IRA cannot receive non-bonus share perks due to tax laws. The Internal Revenue Service (IRS) prohibits self-dealing transactions in which the investor receives an immediate, personal financial gain on investments owned by their retirement account. As a result, an investor must refuse those non-bonus share perks because they would be receiving a benefit from their IRA account.

proceeds from this Reg CF offering—its first share issuance to outside investors—with the aim to accelerate growth.

### **The 10% StartEngine Venture Club Bonus**

RegenMed will offer 10% additional bonus shares for all investments that are committed by investors that are eligible for the StartEngine Venture Club.

### **Profound Implications of the Company's Mission**

Few things are as important to us as living longer, healthier lives—both mentally and physically.

This means eligible StartEngine shareholders will receive a 10% bonus for any shares they purchase in this offering. For example, if you buy 100 shares of Class B Non-Voting Common Stock at \$9.60/shares, you will receive 110 shares of Class B Non-Voting Common Stock, meaning you'll own 110 shares for \$960. Fractional shares will not be distributed and share bonuses will be determined by rounding down to the nearest whole share.

Traditional clinical research aims to distinguish between anecdotal claims and verifiable evidence. By reimagining and democratizing the research process, RegenMed empowers every physician and their patients to make a meaningful impact, not only on their own health but on the lives of millions of others.

This 10% Bonus is only valid during the investor's eligibility period. Investors eligible for this bonus will also have priority if they are on a waitlist to invest and the company surpasses its maximum funding goal. They will have the first opportunity to invest should room in the offering become available if prior investments are canceled or fail.

Investors will receive the highest single bonus they are eligible for among the bonuses based on the amount invested and the time of offering elapsed (if any). Eligible investors will also receive the Venture Club bonus, the Loyalty Bonus, and the Audience Bonus in addition to the aforementioned bonus.

### *Irregular Use of Proceeds*

*The Company might incur Irregular Use of Proceeds that may include but are not limited to the following over \$10,000: Vendor payments.*

### Important Message

IN MAKING AN INVESTMENT DECISION, INVESTORS MUST RELY ON THEIR OWN EXAMINATION OF THE ISSUER AND THE TERMS OF THE OFFERING, INCLUDING THE MERITS AND RISKS INVOLVED. INVESTMENTS ON STARTENGINE ARE SPECULATIVE, ILLIQUID, AND INVOLVE A HIGH DEGREE OF RISK, INCLUDING THE POSSIBLE LOSS OF YOUR ENTIRE INVESTMENT.

[www.StartEngine.com](#) is a website owned and operated by StartEngine Crowdfunding, Inc. ("StartEngine"), which is neither a registered broker-dealer, investment advisor nor funding portal.

Unless indicated otherwise with respect to a particular issuer, all securities-related activity is conducted by regulated affiliates of StartEngine: StartEngine Capital LLC, a funding portal registered [here](#) with the US Securities and Exchange Commission (SEC) and [here](#) as a member of the Financial Industry Regulatory Authority (FINRA), or StartEngine Primary LLC ("SE Primary"), a broker-dealer registered with the SEC and [FINRA](#) / [SIPC](#). You can review the background of our broker-dealer and our investment professionals on FINRA's BrokerCheck [here](#). StartEngine Secondary is an alternative trading system (ATS) regulated by the SEC and operated by SE Primary. SE Primary is a member of SIPC and explanatory brochures are available upon request by contacting SIPC at (202) 371-8300.

StartEngine facilitates three types of primary offerings:

1) Regulation A offerings (JOBS Act Title IV; known as Regulation A+), which are offered to non-accredited and accredited investors alike. These offerings are made through StartEngine Primary, LLC (unless otherwise indicated). 2) Regulation D offerings (Rule 506(c)), which are offered only to accredited investors. These offerings are made through StartEngine Primary, LLC. 3) Regulation Crowdfunding offerings (JOBS Act Title III), which are offered to non-accredited and accredited investors alike. These offerings are made through StartEngine Capital, LLC. Some of these offerings are open to the general public, however there are important differences and risks.

Any securities offered on this website have not been recommended or approved by any federal or state securities commission or regulatory authority. StartEngine and its affiliates do not provide any investment advice or recommendation and do not provide any legal or tax advice concerning any securities. All securities listed on this site are being offered by, and all information included on this site is the responsibility of, the applicable issuer of such securities. StartEngine does not verify the adequacy, accuracy, or completeness of any information. Neither StartEngine nor any of its officers, directors, agents, and employees makes any warranty, express or implied, of any kind whatsoever related to the adequacy, accuracy, or completeness of any information on this site or the use of information on this site.

Investing in private company securities is not suitable for all investors. An investment in private company securities is highly speculative and involves a high degree of risk. It should only be considered a long-term investment. You must be prepared to withstand a total loss of your investment. Private company securities are also highly illiquid, and there is no guarantee that a market will develop for such securities. Each investment also carries its own specific risks, and you should complete your own independent due diligence regarding the investment. This includes obtaining additional information about the company, opinions, financial projections, and legal or other investment advice. Accordingly, investing in private company securities is appropriate only for those investors who can tolerate a high degree of risk and do not require a liquid investment. See additional general disclosures [here](#).

### Canadian Investors

Investment opportunities posted and accessible through the site will not be offered to Canadian resident investors. Potential investors are strongly advised to consult their legal, tax and financial advisors before investing. The securities offered on this site are not offered in jurisdictions where public solicitation for offerings is not permitted; it is solely your responsibility to comply with the laws and regulations of your country of residence.

California Investors Only – [Do Not Sell My Personal Information](#) (800-317-2200). StartEngine does not sell personal information. For all customer inquiries, please write to [contact@startengine.com](mailto:contact@startengine.com).

### StartEngine Marketplace

**StartEngine Marketplace** ("SE Marketplace") is a website operated by StartEngine Primary, LLC ("SE Primary"), a broker-dealer that is registered with the SEC and a member of FINRA and the SIPC.

StartEngine Secondary ("SE Secondary") is our investor trading platform. SE Secondary is an SEC-registered Alternative Trading System ("ATS") operated by SE Primary that matches orders for buyers and sellers of securities. It allows investors to trade shares purchased through Regulation A+, Regulation Crowdfunding, or Regulation D for companies who have engaged StartEngine Secure LLC as their transfer agent. The term "Rapid," when used in relation to transactions on SE Marketplace, specifically refers to transactions that are facilitated on SE Secondary. This is because, unlike with trades on the StartEngine Bulletin Board ("SE BB"), trades on SE Secondary are executed the moment that they are matched.

StartEngine Bulletin Board (“SE BB”) is a bulletin board platform on which users can indicate to each other their interest to buy or sell shares of private companies that previously executed Reg CF or Reg A offerings not necessarily through SE Primary. As a bulletin board platform, SE BB provides a venue for investors to access information about such private company offerings and connect with potential sellers. All investment opportunities on SE BB are based on indicated interest from sellers and will need to be confirmed. Even if parties express mutual interest to enter into a trade on SE BB, a trade will not immediately result because execution is subject to additional contingencies, including among others, effecting of the transfer of the shares from the potential seller to the potential buyer by the issuer and/or transfer agent. SE BB is distinct and separate from SE Secondary. SE Secondary facilitates the trading of securities by matching orders between buyers and sellers and facilitating executions of trades on the platform. By contrast, under SE BB, SE Primary assists with the facilitation of a potential resulting trade off platform including, by among other things, approaching the issuer and other necessary parties in relation to the potential transaction. The term “Extended”, when used in relation to transactions on SE Marketplace denotes that these transactions are conducted via SE BB, and that these transactions may involve longer processing times compared to SE Secondary for the above-stated reasons.

Even if a security is qualified to be displayed on SE Marketplace, there is no guarantee an active trading market for the securities will ever develop, or if developed, be maintained. You should assume that you may not be able to liquidate your investment for some time or be able to pledge these shares as collateral.

The availability of company information does not indicate that the company has endorsed, supports, or otherwise participates with StartEngine. It also does not constitute an endorsement, solicitation or recommendation by StartEngine. StartEngine does not (1) make any recommendations or otherwise advise on the merits or advisability of a particular investment or transaction, (2) assist in the determination of the fair value of any security or investment, or (3) provide legal, tax, or transactional advisory services.

VIDEO TRANSCRIPT

Campaign Video Script

Penicillin. Insulin. Anesthesia and Germ Theory. The polio vaccine. These discoveries have saved hundreds of millions of lives. Each started with individual physicians willing to ask questions and challenge the status quo.

Today, clinical research has lost its way. Its impact on health is far less than it should be. Clinical research is a \$500 billion market, yet only 3% of physicians are participating as investigators, and only 5% of American adults have participated in a clinical trial.

It's time to return clinical research to its roots – the inquisitive, thoughtful physician.

RegenMed is reimagining clinical research...

We're democratizing data collection and analysis, and creating clinically and statistically significant datasets which will help drive better healthcare, for more people, at a lower cost.

Doctors just need a way to unlock the power of this data.

Patient histories. Clinical examinations. Diagnoses. Scientific hypotheses. Interventional protocols. Long-term outcomes.

These are the data hidden in the everyday interactions between doctors and patients which will solve real-world healthcare problems.

Giving power to individual physicians to drive medical innovation.

Each visit is a clinical and scientific story which will lead to tomorrow's breakthroughs in healthcare.

Faster, more efficient, evidence-based medical innovation. Value-based care. Health equity.

This is clinical research based on real-world evidence.

Invest in RegenMed today, and help us shape the future of healthcare.

## STARTENGINE SUBSCRIPTION PROCESS (Exhibit E)

### Platform Compensation

- As compensation for the services provided by StartEngine Capital, the issuer is required to pay to StartEngine Capital a fee consisting of a 5.5-13% (five and one-half to thirteen) commission based on the dollar amount of securities sold in the Offering and paid upon disbursement of funds from escrow at the time of closing. The commission is paid in cash and in securities of the Issuer identical to those offered to the public in the Offering at the sole discretion of StartEngine Capital. Additionally, the issuer must reimburse certain expenses related to the Offering. The securities issued to StartEngine Capital, if any, will be of the same class and have the same terms, conditions, and rights as the securities being offered and sold by the issuer on StartEngine Capital's website.
- As compensation for the services provided by StartEngine Capital, investors are also required to pay StartEngine Capital a fee consisting of a 0-3.5% (zero to three and a half percent) service fee based on the dollar amount of securities purchased in each investment.

### Information Regarding Length of Time of Offering

- Investment Cancellations: Investors will have up to 48 hours prior to the end of the offering period to change their minds and cancel their investment commitments for any reason. Once within 48 hours of ending, investors will not be able to cancel for any reason, even if they make a commitment during this period.
- Material Changes: Material changes to an offering include but are not limited to: A change in minimum offering amount, change in security price, change in management, material change to financial information, etc. If an issuer makes a material change to the offering terms or other information disclosed, including a change to the offering deadline, investors will be given five business days to reconfirm their investment commitment. If investors do not reconfirm, their investment will be canceled and the funds will be returned.

### Hitting The Target Goal Early & Oversubscriptions

- StartEngine Capital will notify investors by email when the target offering amount has hit 25%, 50%, and 100% of the funding goal. If the issuer hits its goal early, the issuer can create a new target deadline at least 5 business days out. Investors will be notified of the

new target deadline via email and will then have the opportunity to cancel up to 48 hours before the new deadline.

- **Oversubscriptions:** We require all issuers to accept oversubscriptions. This may not be possible if: 1) it vaults an issuer into a different category for financial statement requirements (and they do not have the requisite financial statements); or 2) they reach \$5M in investments. In the event of an oversubscription, shares will be allocated at the discretion of the issuer, with priority given to StartEngine Owners Bonus members.
- If the sum of the investment commitments does not equal or exceed the target offering amount at the offering deadline, no securities will be sold in the offering, investment commitments will be canceled and committed funds will be returned.
- If a StartEngine issuer reaches its target offering amount prior to the deadline, it may conduct an initial closing of the offering early if they provide notice of the new offering deadline at least five business days prior to the new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). StartEngine will notify investors when the issuer meets its target offering amount. Thereafter, the issuer may conduct additional closings until the offering deadline.

#### Minimum and Maximum Investment Amounts

- In order to invest, commit to an investment or communicate on our platform, users must open an account on StartEngine Capital and provide certain personal and non-personal information including information related to income, net worth, and other investments.
- **Investor Limitations:** There are no investment limits for investing in crowdfunding offerings for accredited investors. Non-accredited investors are limited in how much they can invest in all crowdfunding offerings during any 12-month period. The limitation on how much they can invest depends on their net worth (excluding the value of their primary residence) and annual income. If either their annual income or net worth is less than \$124,000, then during any 12-month period, they can invest either \$2,500 or 5% of their annual income or net worth, whichever is greater. If both their annual income and net worth are equal to or more than \$124,000, then during any 12-month period, they can invest up to 10% of annual income or net worth, whichever is greater, but their investments cannot exceed \$124,000.
