Overview:

TOP TIER SPORTS (USA) INC.
**ELEVATING YOUTH FOOTBALL
 ACROSS THE COUNTRY**

OUR MISSION ////////////////

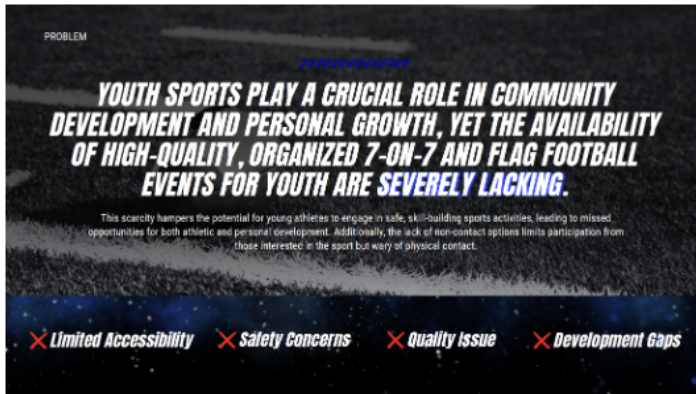

At Top Tier Sports USA, we believe in empowering young athletes by providing a safe, competitive, and professionally managed environment for growth. Our mission is to redefine youth sports through organized 7-on-7 and flag football tournaments across the country.

We focus on fostering skill development, teamwork, and sportsmanship while ensuring that every player experiences the joy and excitement of the game. By blending sports and entertainment, we create a community where athletes, families, and fans can come together to celebrate the spirit of youth sports.

Many of these academies have successful businesses growing over time. By investing in these programs a few things happen. They are able to travel to larger tournaments Giving their players more opportunities To be seen by scouts, they can market their programs to attract more youth to play and finally they are able to more readily give players that have a struggling struggle for these academies the scholarships they need to participate. **No youth left behind is a motto that we embrace at Top Tier Sports and is something that affects a large number of families across the United States.** Getting youth into sports can change their entire trajectory within their lives and it's important that money doesn't get in the way of that positive force.

***Crowdfunding investments made through a self-directed IRA cannot receive non-bonus share perks due to tax laws. The Internal Revenue Service (IRS) prohibits self-dealing transactions in which the investor receives an immediate, personal financial gain on investments owned by their retirement account. As a result, an investor must refuse those non-bonus share perks because they would be receiving a benefit from their IRA.

Solution

Safer and More Accessible!

Top Tier Sports addresses the critical shortage of high-quality, organized youth sports opportunities by providing a premier platform for 7-on-7 and flag football tournaments across North America. **Our league is designed to offer a safe, accessible, and developmentally enriching experience for young athletes, prioritizing skill-building, sportsmanship, and personal growth.** By organizing professionally managed tournaments with stringent safety standards, we create an environment where athletes can thrive without the risks associated with traditional tackle football.

Business Model

Investing in Youth Football Academies:

There are thousands of teams across the country that go 12 months of the year. Starting with 7on7 which goes into flag season which ends with tackle in the fall. That means these youth are busy with sport almost the entire year. One of my core beliefs as a parent and a coach is that youth today more than ever need outlets for their time and energy.

Many of these academies have successful businesses growing over time. By investing in these programs a few things happen. They are able to travel to larger tournaments Giving their players more opportunities To be seen by scouts, they can market their programs to attract more youth to play and finally they are able to more readily give players that have a struggle paying for these academies the scholarships they need to participate. **No youth left behind is a motto that we embrace at Top Tier Sports and is something that affects a large number of families across the United States.** Getting youth into sports can change their entire trajectory within their lives and it's important that money doesn't get in the way of that positive force.

By investing in these academies we also secure more teams for our tournaments.

Market Projection

Large Growth Potential:

The National Council of Youth Sports estimates that approximately 60 million youth participate in sports in the United States. The youth sports market is projected to be worth **\$69 billion by 2030**, a CAGR of ~7.2%. Spending of \$42.4 billion in 2023 marked a significant increase from \$20.4 billion spent in 2020. As concerns around the safety of traditional tackle football persist, more youth leagues are turning to 7-on-7 as a safer, skill-focused alternative, further fueling its popularity. With the rise of youth participation in flag and 7-on-7 football, particularly in leagues like Pop Warner, Top Tier Sports is positioned to capitalize on this expanding market.

Competition

League of Their Own!

The competitive landscape for Top Tier Sports is evolving as the demand for non-contact, skill-building football options like 7-on-7 and flag football grows. While traditional youth football organizations such as Pop Warner and USA Football have begun adopting 7-on-7 formats to address safety concerns, they still primarily focus on tackle football, limiting their offerings for athletes seeking less physical contact. Additionally, a number of regional and local flag football leagues have emerged, but many lack the organization, consistency, and professionalism that Top Tier Sports delivers with its high-quality tournaments and structured leagues. Unlike these competitors, Top Tier Sports differentiates itself through its exclusive focus on 7-on-7 and flag football, professionally managed events, and an unwavering commitment to safety, skill development, and athlete empowerment.
