Gurban Haydarov

Founder of Tidbe, a website builder
New York, New York, United States

Summary

With over 15 years of hands-on experience in software development and IT, I bring a versatile skill set to the table. My expertise spans across a spectrum of technologies including Ruby, Ruby on Rails, JavaScript, CSS, HTML, React, Vue.js, and more. I thrive in dynamic environments, particularly startups, where my knack for problem-solving and passion for innovation can truly shine.

Throughout my career, I've honed my skills not only in coding but also in DevOps practices, Docker, and cloud solutions, ensuring robust and scalable architectures. My proficiency in building and managing APIs, as well as integrating third-party solutions, has consistently contributed to the success of projects I've been involved in.

Moreover, I take pride in my ability to mentor and lead teams, fostering a collaborative environment where everyone can thrive. Whether it's guiding junior developers or collaborating with cross-functional teams, I believe in the power of knowledge sharing and continuous learning.

My commitment to quality extends beyond just writing code; I place a strong emphasis on testing and research, ensuring that the solutions I deliver are not only functional but also reliable and future-proof.

In summary, I am a seasoned professional with a passion for technology and a proven track record of delivering results. I am eager to leverage my skills and experience to contribute to exciting projects and drive meaningful impact.

Experience

Tidbe
Founder
January 2024 - Present (11 months)

New York, United States

A website builder—helping small businesses create websites ridiculously easy, fast, and affordable

Aviaplex

Full Stack Developer
