*In order to receive perks from an investment, one must submit a single investment in the same offering that meets the minimum perk requirement. Bonus shares from perks will not be granted if an investor submits multiple investments that, when combined, meet the perk requirement. All perks occur when the offering is completed. Crowdfunding investments made through a self-directed IRA cannot receive perks due to tax laws. The Internal Revenue Service (IRS) prohibits self-dealing transactions in which the investor receives an immediate, personal financial gain on investments owned by their retirement account. As a result, an investor must refuse those perks because they would be receiving a benefit from their IRA account.

**Perks involving product discounts are subject to state shipping laws and regulations. Alcohol orders can only be shipped to states where the company is legally permitted to distribute. Availability may vary, and certain restrictions may apply.

***Perks occur after offering is complete.

The 10% StartEngine Venture Club Bonus

Coastal Brands, Inc. will offer 10% additional bonus shares for all investments that are committed by investors that are eligible for the StartEngine Venture Club.

This means eligible StartEngine shareholders will receive a 10% bonus for any shares they purchase in this offering. For example, if you buy 100 shares of Common Stock at \$2.00 / share, you will receive 110 shares of Common Stock, meaning you'll own 110 shares for \$2000. Fractional shares will not be distributed and share bonuses will be determined by rounding down to the nearest whole share.

This 10% Bonus is only valid during the investor's eligibility period. Investors eligible for this bonus will also have priority if they are on a waitlist to invest and the company surpasses its maximum funding goal. They will have the first opportunity to invest should room in the offering become available if prior investments are canceled or fail.

Investors will receive the highest single bonus they are eligible for among the bonuses based on the amount invested and the time of offering elapsed (if any). Eligible investors will also receive the Venture Club bonus and the Loyalty Bonus in addition to the aforementioned bonus.

The Company and its Business

Company Overview

Overview

Bushwacker Spirits manages the production and sale of ready-to-drink (RTD) Bushwacker cocktail products, specializing in delivering the beloved coastal cocktail experience in a convenient format. With a growing presence in 17 states, primarily in the Southeastern United States, we believe Coastal Brands is poised to expand its market reach while maintaining the active status of Bushwacker Spirits for its essential alcohol licensing.

Corporate History

Coastal Brands, Inc. was incorporated on October 7, 2024, in Delaware as a holding company for Bushwacker Spirits LLC, its

predecessor.

Competitors and Industry

Competitors

Key competitors in the RTD cocktail space include:

1. Cutwater Spirits: Known for a wide variety of canned cocktails with high-quality ingredients.
2. High Noon: A leading brand in vodka-based RTD beverages.
3. Canteen Spirits: Offers diverse, ready-to-enjoy canned cocktails.
4. White Claw and Truly: While primarily spiked seltzers, these brands cater to the same convenience-oriented, premium beverage consumer base.

We believe Bushwacker Spirits differentiates itself with its unique focus on tropical, coastal cocktails like the iconic Bushwacker, crafted with all-natural ingredients and awarded Double Gold at the prestigious San Francisco World Spirits Competition.

Industry

The Company operates within the rapidly expanding ready-to-drink (RTD) cocktail market, currently valued at \$19.5 billion. The industry has experienced significant growth due to increasing consumer demand for high-quality, convenient, and premium beverages that replicate bar-like experiences. Bushwacker Spirits leverages this trend with its unique coastal-inspired cocktails, appealing to consumers seeking convenience without compromising on taste or quality.

Current Stage and Roadmap

Current Traction

1. Awards & Recognition: Bushwacker Spirits earned Double Gold at the 2024 San Francisco World Spirits Competition, standing out among over 5,500 entries.
2. The brand has expanded into 17 states, partnering with 30+ top-tier distributors, creating a solid foundation for future growth.
3. The Bushwacker cocktail is gaining cultural relevance, as evidenced by being the most searched cocktail on Google in multiple states.
4. Strong consumer interest in convenient, high-quality beverages is driving sales and bolstering Bushwacker's reputation.

Future Roadmap

Over the next few years, Coastal Brands aims to:

- Expand Market Reach: Increase distribution to additional states beyond the current 17, with a focus on high-demand regions in the U.S.
- New Product Development: Develop and launch additional RTD cocktail variations and other beverage offerings to diversify the portfolio.
- Enhanced Branding: Continue to invest in brand awareness and marketing campaigns to reinforce Bushwacker Spirits as a leading name in the RTD market.
- Strategic Partnerships: Strengthen relationships with distributors and retailers to maximize shelf presence and sales velocity.
- Revenue Growth: Achieve substantial growth in sales through an expanded product lineup and increased retail penetration.

Risk Factors

The SEC requires the company to identify risks that are specific to its business and its financial condition. The company is still subject to all the same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently more risky than more developed companies. You should consider general risks as well as specific risks when deciding whether to invest.

These are the risks that relate to the Company:

Uncertain Risk

An investment in the Company (also referred to as “we”, “us”, “our”, or the “Company”) involves a high degree of risk and should only be considered by those who can afford the loss of their entire investment. Furthermore, the purchase of any securities should only be undertaken by persons whose financial resources are sufficient to enable them to indefinitely retain an illiquid investment. Each investor in the Company should research thoroughly any offering before making an investment decision and consider all of the information provided regarding the Company as well as the following risk factors, in addition to the other information in the Company’s Form C. The following risk factors are not intended, and shall not be deemed to be, a complete description of the commercial, financial, and other risks inherent in the investment in the Company.

Our business projections are only projections

There can be no assurance that the Company will meet its projections. There can be no assurance that the Company will be able to find sufficient demand for its product or service, that people think it’s a better option than a competing product or service, or that we will be able to provide a product or service at a level that allows the Company to generate revenue, make a profit, or grow the business.

Any valuation is difficult to assess

The valuation for the offering was established by the Company. Unlike listed companies that are independently valued through market-driven stock prices, the valuation of private companies, especially startups, is difficult to assess, may not be exact, and you may risk overpaying for your investment.

The transferability of the Securities you are buying is limited

You should be prepared to hold this investment for several years or longer. For the 12 months following your investment, there will be restrictions on the securities you purchase. More importantly, there are a limited number of established

markets for the resale of these securities. As a result, if you decide to sell these securities in the future, you may not be able to find, or may have difficulty finding, a buyer, and you may have to locate an interested buyer when you do seek to resell your investment. The Company may be acquired by an existing player in the industry. However, that may never happen or it may happen at a price that results in you losing money on this investment.

Your investment could be illiquid for a long time

You should be prepared to hold this investment for several years or longer. For the 12 months following your investment, there will be restrictions on how you can resell the securities you receive. More importantly, there are limited established markets for these securities. As a result, if you decide to sell these securities in the future, you may not be able to find a buyer. The Company may be acquired by an existing player in the same or a similar industry. However, that may never happen or it may happen at a price that results in you losing money on this investment.

The Company may undergo a future change that could affect your investment

The Company may change its business, management or advisory team, IP portfolio, location of its principal place of business or production facilities, or other change which may result in adverse effects on your investment. Additionally, the Company may alter its corporate structure through a merger, acquisition, consolidation, or other restructuring of its current corporate entity structure. Should such a future change occur, it would be based on management's review and determination that it is in the best interests of the Company.

Your information rights are limited with limited post-closing disclosures

The Company is required to disclose certain information about the Company, its business plan, and its anticipated use of proceeds, among other things, in this offering. Early-stage companies may be able to provide only limited information about their business plan and operations because it does not have fully developed operations or a long history to provide more disclosure. The Company is also only obligated to file information annually regarding its business, including financial statements. In contrast to publicly listed companies, investors will be entitled only to that post-offering information that is required to be disclosed to them pursuant to applicable law or regulation, including Regulation CF. Such disclosure generally requires only that the Company issue an annual report via a Form C-AR. Investors are generally not entitled to interim updates or financial information.

Some early-stage companies may lack professional guidance

Some companies attribute their success, in part, to the guidance of professional early-stage advisors, consultants, or investors (e.g., angel investors or venture capital firms). advisors, consultants, or investors may play an important role in a company through their resources, contacts, and experience in assisting early-stage companies in executing their business plans. An early-stage company primarily financed through Regulation Crowdfunding may not have the benefit of such professional investors, which may pose a risk to your investment.

We may not have enough capital as needed and may be required to raise more capital.

We anticipate needing access to credit in order to support our working capital requirements as we grow. It is a difficult environment for obtaining credit on favorable terms. If we cannot obtain credit when we need it, we could be forced to raise additional equity capital, modify our growth plans, or take some other action. Issuing more equity may require bringing on additional investors. Securing these additional investors could require pricing our equity below its current price. If so, your investment could lose value as a result of this additional dilution. In addition, even if the equity is not priced lower, your ownership percentage would be decreased with the addition of more investors. If we are unable to find additional investors willing to provide capital, then it is possible that we will choose to cease our sales activity. In that case, the only asset remaining to generate a return on your investment could be our intellectual property. Even if we are not forced to cease our sales activity, the unavailability of credit could result in the Company performing below expectations, which could adversely impact the value of your investment.

Terms of subsequent financings may adversely impact your investment

We will likely need to engage in common equity, debt, or preferred stock financings in the future, which may reduce the value of your investment in the Company. Interest on debt securities could increase costs and negatively impact operating results. Preferred stock could be issued in series from time to time with such designation, rights, preferences, and limitations as needed to raise capital. The terms of preferred stock could be more advantageous to those investors than to the holders of common stock or other securities. In addition, if we need to raise more equity capital from the sale of Common Stock, institutional or other investors may negotiate terms that are likely to be more favorable than the terms of your investment, and possibly a lower purchase price per security.

Management's Discretion as to Use of Proceeds

Our success will be substantially dependent upon the discretion and judgment of our management team with respect to the application and allocation of the proceeds of this offering. The Use of Proceeds described below is an estimate based on our current business plan. We, however, may find it necessary or advisable to re-allocate portions of the net proceeds reserved for one category to another, and we will have broad discretion in doing so.

Projections: Forward Looking Information

Any projections or forward-looking statements regarding our anticipated financial or operational performance are hypothetical and are based on management's best estimate of the probable results of our operations and may not have been reviewed by our independent accountants. These projections are based on assumptions that management believes are

reasonable. Some assumptions invariably will not materialize due to unanticipated events and circumstances beyond management's control. Therefore, actual results of operations will vary from such projections, and such variances may be material. Any projected results cannot be guaranteed.

The amount raised in this offering may include investments from company insiders or immediate family members. Officers, directors, executives, and existing owners with a controlling stake in the Company (or their immediate family members) may make investments in this offering. Any such investments will be included in the raised amount reflected on the campaign page.

Reliance on a single service or product

All of our current services are variants of one type of service and/or product. Relying heavily on a single service or product can be risky, as changes in market conditions, technological advances, shifts in consumer preferences, or other changes can adversely impact the demand for the product or service, potentially leading to revenue declines or even business failure.

Developing new products and technologies entails significant risks and uncertainties

Competition can be intense in many markets, and a failure to keep up with competitors or anticipate shifts in market dynamics can lead to revenue declines or market share losses. We are currently in the research and development stage and have only manufactured a prototype for our product. Delays or cost overruns in the development of our product and failure of the product to meet our performance estimates may be caused by, among other things, unanticipated technological hurdles, difficulties in manufacturing, changes to design, and regulatory hurdles. Any of these events could materially and adversely affect our operating performance and results of operations.

Supply Chain and Logistics Risks

The availability of raw materials, transportation costs, and supply chain disruptions can all impact the ability to manufacture and distribute products or services, leading to lost revenue or increased costs. Products and services that are not available when customers need them can lead to lost sales and damage to the brand's reputation.

Quality and Safety of our Product and Service

The quality of a product or service can vary depending on the manufacturer or provider. Poor quality can result in customer dissatisfaction, returns, and lost revenue. Furthermore, products or services that are not safe can cause harm to customers and result in liability for the manufacturer or provider. Safety issues can arise from design flaws, manufacturing defects, or improper use.

Minority Holder; Securities with Voting Rights

The Common Stock that an investor is buying has voting rights attached to them. However, you will be part of the minority shareholders of the Company and have agreed to appoint the Chief Executive Officer of the Company (the "CEO"), or his or her successor, as your voting proxy. You are trusting in management discretion in making good business decisions that will grow your investments. Furthermore, in the event of a liquidation of our Company, you will only be paid out if there is any cash remaining after all of the creditors of our Company have been paid out.

You are trusting that management will make the best decision for the company

You are trusting in management's discretion. You are buying securities as a minority holder, and therefore must trust the management of the Company to make good business decisions that grow your investment.

Insufficient Funds

The Company might not sell enough securities in this offering to meet its operating needs and fulfill its plans, in which case it may cease operating and result in a loss on your investment. Even if we sell all the Common Stock we are offering now, the Company may need to raise more funds in the future, and if unsuccessful in doing so, the Company will fail. Even if we do make a successful offering in the future, the terms of that offering might result in your investment in the Company being worth less, if later investors have better terms than those in this offering.

This offering involves "rolling closings," which may mean that earlier investors may not have the benefit of information that later investors have.

Once we meet our target amount for this offering, we may request that StartEngine instruct the escrow agent to disburse offering funds to us. At that point, investors whose subscription agreements have been accepted will become our investors. All early-stage companies are subject to a number of risks and uncertainties, and it is not uncommon for material changes to be made to the offering terms, or to companies' businesses, plans, or prospects, sometimes with little or no notice. When such changes happen during the course of an offering, we must file an amendment to our Form C with the SEC, and investors whose subscriptions have not yet been accepted will have the right to withdraw their subscriptions and get their money back. Investors whose subscriptions have already been accepted, however, will already be our investors and will have no such right.

Non-accredited investors may not be eligible to participate in a future merger or acquisition of the Company and may lose a portion of their investment

Investors should be aware that under Rule 145 under the Securities Act of 1933 if they invest in a company through Regulation Crowdfunding and that company becomes involved in a merger or acquisition, there may be significant regulatory implications. Under Rule 145, when a company plans to acquire another and offers its shares as part of the deal,

the transaction may be deemed an offer of securities to the target company's investors, because investors who can vote (or for whom a proxy is voting on their behalf) are making an investment decision regarding the securities they would receive. All investors, even those with non-voting shares, may have rights with respect to the merger depending on relevant state laws. This means the acquirer's "offer" to the target's investors would require registration or an exemption from registration (such as Reg. D or Reg. CF), the burden of which can be substantial. As a result, non-accredited investors may have their shares repurchased rather than receiving shares in the acquiring company or participating in the acquisition. This may result in investors' shares being repurchased at a value determined by a third party, which may be at a lesser value than the original purchase price. Investors should consider the possibility of a cash buyout in such circumstances, which may not be commensurate with the long-term investment they anticipate.

Our new product could fail to achieve the sales projections we expect

Our growth projections are based on the assumption that with an increased advertising and marketing budget, our products will be able to gain traction in the marketplace at a faster rate than our current products have. It is possible that our new products will fail to gain market acceptance for any number of reasons. If the new products fail to achieve significant sales and acceptance in the marketplace, this could materially and adversely impact the value of your investment.

We face significant market competition

We will compete with larger, established companies that currently have products on the market and/or various respective product development programs. They may have much better financial means and marketing/sales and human resources than us. They may succeed in developing and marketing competing equivalent products earlier than us, or superior products than those developed by us. There can be no assurance that competitors will not render our technology or products obsolete or that the products developed by us will be preferred to any existing or newly developed technologies. It should further be assumed that competition will intensify.

We are an early stage company and have limited revenue and operating history

The Company has a short history, few customers, and effectively no revenue. If you are investing in our company, it's because you think that our product is a good idea, that the team will be able to successfully market, and sell the product or service, that we can price them right and sell them to enough people so that the Company will succeed. Further, we have never turned a profit and there is no assurance that we will ever be profitable.

We are an early stage company operating in a new and highly competitive industry

The Company operates in a relatively new industry with a lot of competition from both startups and established companies. As other companies flood the market and reduce potential market share, Investors may be less willing to invest in a company with a declining market share, which could make it more challenging to fund operations or pursue growth opportunities in the future.

Intense Market Competition

The market in which the company operates may be highly competitive, with established players, emerging startups, and potential future entrants. The presence of competitors can impact the company's ability to attract and retain customers, gain market share, and generate sustainable revenue. Competitors with greater financial resources, brand recognition, or established customer bases may have a competitive advantage, making it challenging for the company to differentiate itself and achieve long-term success.

Vulnerability to Economic Conditions

Economic conditions, both globally and within specific markets, can significantly influence the success of early-stage startups. Downturns or recessions may lead to reduced consumer spending, limited access to capital, and decreased demand for the company's products or services. Additionally, factors such as inflation, interest rates, and exchange rate fluctuations can affect the cost of raw materials, operational expenses, and profitability, potentially impacting the company's ability to operate.

Uncertain Regulatory Landscape

Due to the unestablished nature of the market the business operates within, the potential introduction of new laws or industry-specific standards can impose additional costs and operational burdens on the company. Non-compliance or legal disputes may result in fines, penalties, reputational damage, or even litigation, adversely affecting the company's financial condition and ability to operate effectively.

Our trademarks, copyrights and other intellectual property could be unenforceable or ineffective

Intellectual property is a complex field of law in which few things are certain. It is possible that competitors will be able to design around our intellectual property, find prior art to invalidate it, or render the patents unenforceable through some other mechanism. If competitors are able to bypass our trademark and copyright protection without obtaining a sublicense, it is likely that the Company's value will be materially and adversely impacted. This could also impair the Company's ability to compete in the marketplace. Moreover, if our trademarks and copyrights are deemed unenforceable, the Company will almost certainly lose any potential revenue it might be able to raise by entering into sublicenses. This would cut off a significant potential revenue stream for the Company.

The cost of enforcing our trademarks and copyrights could prevent us from enforcing them

Trademark and copyright litigation has become extremely expensive. Even if we believe that a competitor is infringing on

one or more of our trademarks or copyrights, we might choose not to file suit because we lack the cash to successfully prosecute a multi-year litigation with an uncertain outcome; or because we believe that the cost of enforcing our trademark(s) or copyright(s) outweighs the value of winning the suit in light of the risks and consequences of losing it; or for some other reason. Choosing not to enforce our trademark(s) or copyright(s) could have adverse consequences for the Company, including undermining the credibility of our intellectual property, reducing our ability to enter into sublicenses, and weakening our attempts to prevent competitors from entering the market. As a result, if we are unable to enforce our trademark(s) or copyright(s) because of the cost of enforcement, your investment in the Company could be significantly and adversely affected.

The loss of one or more of our key personnel, or our failure to attract and retain other highly qualified personnel in the future, could harm our business

Our business depends on our ability to attract, retain, and develop highly skilled and qualified employees. As we grow, we will need to continue to attract and hire additional employees in various areas, including sales, marketing, design, development, operations, finance, legal, and human resources. However, we may face competition for qualified candidates, and we cannot guarantee that we will be successful in recruiting or retaining suitable employees. Additionally, if we make hiring mistakes or fail to develop and train our employees adequately, it could have a negative impact on our business, financial condition, or operating results. We may also need to compete with other companies in our industry for highly skilled and qualified employees. If we are unable to attract and retain the right talent, it may impact our ability to execute our business plan successfully, which could adversely affect the value of your investment. Furthermore, the economic environment may affect our ability to hire qualified candidates, and we cannot predict whether we will be able to find the right employees when we need them. This would likely adversely impact the value of your investment.

Our ability to sell our product or service is dependent on outside government regulation which can be subject to change at any time

Our ability to sell our products is subject to various government regulations, including but not limited to, regulations related to the manufacturing, labeling, distribution, and sale of our products. Changes in these regulations, or the enactment of new regulations, could impact our ability to sell our products or increase our compliance costs. Furthermore, the regulatory landscape is subject to regular change, and we may face challenges in adapting to such changes, which could adversely affect our business, financial condition, or operating results. In addition to government regulations, we may also be subject to other laws and regulations related to our products, including intellectual property laws, data privacy laws, and consumer protection laws. Non-compliance with these laws and regulations could result in legal and financial liabilities, reputational damage, and regulatory fines and penalties. It is also possible that changes in public perception or cultural norms regarding our products may impact demand for our products, which could adversely affect our business and financial performance, which may adversely affect your investment.

We rely on third parties to provide services essential to the success of our business

Our business relies on a variety of third-party vendors and service providers, including but not limited to manufacturers, shippers, accountants, lawyers, public relations firms, advertisers, retailers, and distributors. Our ability to maintain high-quality operations and services depends on these third-party vendors and service providers, and any failure or delay in their performance could have a material adverse effect on our business, financial condition, and operating results. We may have limited control over the actions of these third-party vendors and service providers, and they may be subject to their own operational, financial, and reputational risks. We may also be subject to contractual or legal limitations in our ability to terminate relationships with these vendors or service providers or seek legal recourse for their actions. Additionally, we may face challenges in finding suitable replacements for these vendors and service providers, which could cause delays or disruptions to our operations. The loss of key or other critical vendors and service providers could materially and adversely affect our business, financial condition, and operating results, and as a result, your investment could be adversely impacted by our reliance on these third-party vendors and service providers.

The Company is vulnerable to hackers and cyber-attacks

As an internet-based business, we may face risks related to cybersecurity and data protection. We rely on technology systems to operate our business and store and process sensitive data, including the personal information of our investors. Any significant disruption or breach of our technology systems, or those of our third-party service providers, could result in unauthorized access to our systems and data, and compromise the security and privacy of our investors. Moreover, we may be subject to cyber-attacks or other malicious activities, such as hacking, phishing, or malware attacks, that could result in theft, loss, or destruction of our data, disruption of our operations, or damage to our reputation. We may also face legal and regulatory consequences, including fines, penalties, or litigation, in the event of a data breach or cyber-attack. Any significant disruption or downtime of our platform, whether caused by cyber-attacks, system failures, or other factors, could harm our reputation, reduce the attractiveness of our platform, and result in a loss of investors and issuer companies. Moreover, disruptions in the services of our technology provider or other third-party service providers could adversely impact our business operations and financial condition. This would likely adversely impact the value of your investment.

Economic and market conditions

The Company's business may be affected by economic and market conditions, including changes in interest rates, inflation, consumer demand, and competition, which could adversely affect the Company's business, financial condition, and operating results.

Force majeure events

The Company's operations may be affected by force majeure events, such as natural disasters, pandemics, acts of terrorism, war, or other unforeseeable events, which could disrupt the Company's business and operations and adversely affect its financial condition and operating results.

Adverse publicity

The Company's business may be negatively impacted by adverse publicity, negative reviews, or social media campaigns that could harm the Company's reputation, business, financial condition, and operating results.

If We Do Not Comply With The Specialized Regulations And Laws That Regulate The Alcoholic Beverage Industry, Our Business Could Be Materially Adversely Affected

The alcohol industry is regulated extensively by federal agencies, including without limitation the Alcohol and Tobacco Tax and Trade Bureau of the U.S. Department of the Treasury ("TTB"), the Federal Communications Commission and the Food and Drug Administration. Every state has its own separate alcoholic beverage regulations and regulatory agencies, including without limitation the California Department of Alcoholic Beverage Control ("ABC"), the California Department of Food and Agriculture, the California Department of Tax and Fee Administration. Many local jurisdictions have separate rules and regulations governing the alcohol industry as well. Regulated areas include licensing, production, importation, exportation, distribution, retail, sale, product labeling and advertising, taxes, marketing, pricing, delivery, ownership restrictions, prohibitions on sales to minors, franchise laws, trade practices (including marketing methods, and interactions and relationships among the three tiers of the alcohol industry -- producers, wholesalers and retailers). We cannot assure you that we are or will always be in full compliance with all applicable regulations or laws, that we will be able to comply with any future regulations and laws, that we will not incur material costs or liabilities in connection with compliance with applicable regulatory and legal requirements, or that such regulations and laws will not materially adversely affect our alcohol business. We rely on various internal and external personnel with relevant experience to comply with applicable regulatory and legal requirements, and the loss of personnel with such expertise could adversely affect our alcohol business. Licenses, tax permits, registrations and additional approvals issued by state and federal alcoholic beverage regulatory agencies are required in order to produce, import, distribute, sell and ship alcohol. We have basic permits with TTB under the Federal Alcohol Administration Act, and we will have state importation permits with ABC, and various out-of-state permits with other states. These approvals and permits as well as our other registrations and approvals must remain in compliance with state and federal laws in order to keep our licenses in good standing. There is no guarantee the Company can maintain its current licenses, permits, registrations and other government approvals. There is no guarantee the Company will be able to obtain additional licenses, permits, registration and other government approvals to grow or adjust its business objectives. Failure of investors to disclose information to the Company can result in compliance failures. Generally, compliance failures of any sort can result in fines, license suspension, license revocation, and expulsion of owners or officers from the Company by federal and state agencies. In some cases, compliance failures can also result in cease-and-desist orders, injunctive proceedings or other criminal or civil penalties by federal and state agencies. If our licenses do not remain in good standing, our alcohol business could be materially adversely affected. The federal government and most states impose taxes on alcohol beverage production, distribution, shipping and/or sales in varying amounts which are frequently changing. Significant increases in such taxes on alcohol beverage products and delivery thereof could materially and adversely affect the financial condition or results of operations for the Company, and thereby affect the Company and/or its subsidiaries' operations.

Federal And State Laws Governing Ownership Interests In Alcoholic Beverage Licensees May Impact Your Ability To Invest In The Company.

Alcohol beverage licensees, their owners, officers, employees and agents are subject to state and federal trade practices and "tied-house" laws that restrict and/or prohibit certain ownership or financial interests, relationships and interactions among and between the three tiers of the alcoholic beverage industry -- those tiers being the manufacturing or supply tier, the wholesale tier, and the retail tier. The rules and exceptions to the rules regarding such investments are materially different among the federal government and each state. They are also subject to frequent change and varying degrees of enforcement and focus. Further, alcohol beverage licensees are subject to applicable state and federal laws restricting and/or prohibiting ownership and relationships with individuals with certain criminal histories, including without limitation, felonies, certain misdemeanor violations, and crimes of moral turpitude. We cannot make any assurances that investments in the company by investors are permissible by the federal government or state regulatory agencies if (a) an investor or qualifying family member has an impermissible criminal violation, or (ii) such investor or investor's qualifying family member holds direct or indirect interests in domestic or foreign alcoholic beverage licensees or, in some instances, is even just employed by or contracted as an agent with another licensee, or (c) such investor's investment results in any other trade practice or tied-house violation under state or federal law. No state alcohol regulatory agency or federal alcohol regulatory authority has reviewed, passed on or endorsed the merits, adequacy or accuracy of this Offering, or the conformity of its/their provisions under any law or act, including without limitation the California Alcohol Beverage Act or Federal Alcohol Administration Act. It is within the purview of the TTB, ABC and each state alcohol regulatory agency to investigate our compliance with federal and state trade practice and tied-house requirements regardless of such investors' amount of investment in the Company. In connection therewith, the Investor is required to represent and warrant to the Company in connection with this offering that each investor is not disqualified under applicable laws from owning equity interests in the Company and that Investor will promptly provide the Company with all information and documentation necessary or desirable for the Company to make such determination. If an investor is disqualified at the time of investment, not truthful in its

representation to the Company, or subsequently takes any actions or causes any omissions that result in a disqualifying event, the investor's shares may be subject to redemption.

Compliance with Alcohol Beverage Laws and Potential Ownership Restrictions Including Redemption

Investors should be aware that the Company operates in a highly regulated environment, particularly concerning federal, state, and local alcohol beverage laws, including Tied-House laws. These laws govern the relationships between alcohol manufacturers, wholesalers, and retailers to prevent undue influence and ensure fair competition. If the Company determines, in its sole discretion and upon the advice of counsel, that an investor's continued ownership of stock, or failure to provide requested information to verify compliance with these laws, jeopardize the Company's current or prospective alcoholic beverage licenses, privileges, or its overall compliance with applicable laws, the Company reserves the right to redeem some or all of the investor's shares or require the investor to withdraw from the Company. If an investor's ownership creates a violation or risk of violating Tied-House laws—such as through prohibited ownership in another tier, undue influence, or regulatory changes— the investor may be required to sell or transfer their ownership interest. This transfer must occur within a set period and at fair market value, subject to the Company's right of first refusal and approval of any third-party transfer. These actions are essential to ensure the Company's continued compliance and protect its licenses and operations.

Prior Litigation

The CEO, during their tenure at a previous company, was involved in a patent lawsuit that was amicably settled in 2019. This matter does not relate to the current issuer or its operations.

CEO's Father

The CEO's father, Michael Dwaine Smith Sr., was subject to an SEC complaint. Michael Dwaine Smith Sr. is not involved in the management or operations of Coastal Brands Inc. or Bushwacker Spirits LLC.

Pending Dispute with Vendor Regarding Alleged Orders

The company is currently in discussions with Berlin Packaging regarding a disagreement over the number of bottles and corks allegedly ordered. Berlin Packaging asserts additional amounts are owed, but the company believes these claims are unsubstantiated, as no signed purchase orders or agreements exist. The company is working with legal counsel to resolve the matter and does not anticipate significant operational or financial impact.

Voting Rights

Please see voting rights of securities sold in this offering below.

Material Rights

Voting Rights of Securities Sold in this Offering

Voting Proxy. Each Subscriber shall appoint the Chief Executive Officer of the Company (the "CEO"), or his or her successor, as the Subscriber's true and lawful proxy and attorney, with the power to act alone and with full power of substitution, to, consistent with this instrument and on behalf of the Subscriber, (i) vote all Securities, (ii) give and receive notices and communications, (iii) execute any instrument or document that the CEO determines is necessary or appropriate in the exercise of its authority under this instrument, and (iv) take all actions necessary or appropriate in the judgment of the CEO for the accomplishment of the foregoing. The proxy and power granted by the Subscriber pursuant to this Section are coupled with an interest. Such proxy and power will be irrevocable. The proxy and power, so long as the Subscriber is an individual, will survive the death, incompetency and disability of the Subscriber and, so long as the Subscriber is an entity, will survive the merger or reorganization of the Subscriber or any other entity holding the Securities. However, the Proxy will terminate upon the closing of a firm-commitment underwritten public offering pursuant to an effective registration statement under the Securities Act of 1933 covering the offer and sale of Common Stock or the effectiveness of a registration statement under the Securities Exchange Act of 1934 covering the Common Stock.

What it means to be a minority holder

As a minority holder of Common Stock of this offering, you have granted your votes by proxy to the CEO of the Company. Even if you were to receive control of your voting rights, as a minority holder, you will have limited rights in regards to the corporate actions of the Company, including additional issuances of securities, company repurchases of securities, a sale of the Company or its significant assets, or company transactions with related parties. Further, investors in this offering may have rights less than those of other investors, and will have limited influence on the corporate actions of the Company.

Dilution

Investors should understand the potential for dilution. The investor's stake in a company could be diluted due to the Company issuing additional shares. In other words, when the Company issues more shares, the percentage of the Company that you own will go down, even though the value of the Company may go up. You will own a smaller piece of a larger company. This increase in the number of shares outstanding could result from a stock offering (such as an initial public offering, another crowdfunding round, a venture capital round, or angel investment), employees exercising stock options, or by conversion of certain instruments (e.g. convertible bonds, preferred shares or warrants) into stock.

If the Company decides to issue more shares, an investor could experience value dilution, with each share being worth less than before, and control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per share (though this typically occurs only if the Company offers dividends, and most early-stage companies are unlikely to offer dividends, preferring to invest any earnings into the Company).

Transferability of securities

For a year, the securities can only be resold:

- In an IPO;
- To the company;
- To an accredited investor; and
- To a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

Financial Condition and Results of Operations

Financial Condition

You should read the following discussion and analysis of our financial condition and results of our operations together with our financial statements and related notes appearing at the end of this Offering Memorandum. This discussion contains forward-looking statements reflecting our current expectations that involve risks and uncertainties. Actual results and the timing of events may differ materially from those contained in these forward-looking statements due to a number of factors, including those discussed in the section entitled “Risk Factors” and elsewhere in this Offering Memorandum.

Results of Operations

Circumstances which led to the performance of financial statements:

Revenue

Revenue for fiscal year 2022 was \$1,444,994 compared to \$1,477,451 in fiscal year 2023.

Sales were roughly the same as we had seen fast growth in the previous 2 years leading up to 2022. We then slowed expansion during 2023 and 2024 to build out the manufacturing process and secure new distribution contracts to prepare for further expansion in 2025.

Cost of sales

Cost of Sales for fiscal year 2022 was \$956,914 compared to \$1,163,067 in fiscal year 2023.

Cost of Sales was similar in both years with a slight rise in 2023 as we took on extra cost to prepare our manufacturing processes for future expansion.

Gross margins

Gross margins for fiscal year 2022 were \$488,080 compared to \$314,384

There was a slight decrease in gross margins as we absorbed some additional costs in our efforts to prepare our manufacturing processes for future expansion.

Expenses

Expenses for fiscal year 2022 were \$1,977,587 compared to \$2,013,157 in fiscal year 2023.

Expenses for these 2 years were very similar and were indicative of building out the team and company infrastructure for future growth.

Historical results and cash flows:

The Company is currently in the expansion and growth stage and revenue generating stage. We are of the opinion that the

historical cash are not indicative of the revenue and cash flows expected for the future because we have prepared expansion processes and contracts that we expect to push the company toward cash flow positive status quickly. Past cash was primarily generated through equity investments and sales. Our goal is to expand and increase revenue. Our past cash flow performance has been a result of building out company infrastructure in preparation for accelerated growth. That accelerated growth is scheduled to take place beginning in 2025 and continue from there. Once this expansion revenue begins to flow, it is expected to bring the company toward cash flow positive quickly.

Liquidity and Capital Resources

What capital resources are currently available to the Company? (Cash on hand, existing lines of credit, shareholder loans, etc...)

As of November 2024, the Company has capital resources available in the form of capital contributions of \$50,000 and \$50,000 in cash.

How do the funds of this campaign factor into your financial resources? (Are these funds critical to your company operations? Or do you have other funds or capital resources available?)

We believe the funds of this campaign are critical to our company operations. These funds are required to support our operations and expansions.

Are the funds from this campaign necessary to the viability of the company? (Of the total funds that your company has, how much of that will be made up of funds raised from the crowdfunding campaign?)

We believe the funds from this campaign are necessary to the viability of the Company. Of the total funds that our Company has, 80% will be made up of funds raised from the crowdfunding campaign, if it raises its maximum funding goal.

How long will you be able to operate the company if you raise your minimum? What expenses is this estimate based on?

If the Company raises the minimum offering amount, we anticipate the Company will be able to operate for 1 year. This is based on a current monthly burn rate of \$60k for expenses related to operations, sales, and marketing. If only the minimum is raised we plan to take steps to reduce expenses in order to operate for a longer period.

How long will you be able to operate the company if you raise your maximum funding goal?

If the Company raises the maximum offering amount, we anticipate the Company will be able to operate for 2-3 years minimum. This is based on a current monthly burn rate of \$60k for expenses related to operations and sales and marketing with the expectation that the company may become cash flow positive within 2 years if sales projections are achieved.

Are there any additional future sources of capital available to your company? (Required capital contributions, lines of credit, contemplated future capital raises, etc...)

Currently, the Company has raised capital from existing investors who are committed to operating the business with the goal of becoming cash flow positive or achieving a successful exit. These angel-type investors may be a source for additional capital if needed in the future.

INDEPENDENT ACCOUNTANT'S REVIEW REPORT

[Do not Delete]

To: Coastal Brands, Inc. Management

We have reviewed the accompanying financial statements of Coastal Brands, Inc. (the Company) which comprise the statement of financial position as of October 7, 2024 and the related statements of operations, statement of changes in shareholders' equity, and statement of cash flows for the period then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of Company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements:

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility:

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion:

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Substantial Doubt About the Entity's Ability to Continue as a Going Concern:

As discussed in Note 1, specific circumstances raise substantial doubt about the Company's ability to continue as a going concern in the foreseeable future. The provided financial statements have not been adjusted for potential requirements in case the Company cannot continue its operations. Management's plans in regard to these matters are also described in Note 1.

Emphasis of Matter Regarding a Predecessor Entity:

Bushwacker Spirits LLC was incorporated on March 4, 2020, in the State of Florida. Coastal Brands, Inc., which was incorporated on October 7, 2024, in Delaware, will serve as the successor to Bushwacker Spirits LLC. Coastal Brands, Inc. plans to conduct a regulation crowdfunding campaign in 2024.

Notes to the Unaudited Financial Statements
Inception to October 7, 2024
\$USD

NOTE 1 – DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS

Coastal Brands, Inc. ("the Company") was incorporated on October 7, 2024, in the state of Delaware. Historically, the Company operated through its predecessor, Bushwacker Spirits LLC "predecessor", to manage its business operations.

The transition to Coastal Brands Inc. as a holding company allows all current members to become shareholders. This structure is essential, as Bushwacker Spirits holds the necessary alcohol licenses, which require it to remain active for operational purposes.

The Company will continue to operate as its predecessor, producing and selling ready-to-drink Bushwacker cocktail products to distributors in 17 states, primarily in the Southeastern United States, with the goal of further expanding its market reach.

The Company will conduct a crowdfunding campaign in 2024 to raise operating capital. This initiative aims to strengthen the supply chain and broaden distribution, enabling Bushwacker Spirits to reach a larger customer base and establish a national presence.

Concentrations of Credit Risks

The Company's financial instruments that are exposed to concentrations of credit risk primarily consist of its cash and cash equivalents. The Company places its cash and cash equivalents with financial institutions of high credit worthiness. The Company's management plans to assess the financial strength and credit worthiness of any parties to which it extends funds, and as such, it believes that any associated credit risk exposures are limited.

As of October 7, 2024, the Company has no off-balance sheet concentration of credit risk such as forward exchange contracts, option contracts or other foreign hedging arrangements.

Substantial Doubt About the Entity's Ability to Continue as a Going Concern:

The accompanying balance sheet has been prepared on a going concern basis, which means that the entity expects to continue its operations and meet its obligations in the normal course of business during the next twelve months. Conditions and events creating doubt include the fact that the Company has commenced principal operations through its predecessor and has incurred losses every year since its inception, which may continue in the future. The Company's management has evaluated this condition and plans to generate revenues and raise capital as needed to meet its capital requirements. However, there is no guarantee of success in these efforts. Considering these factors, there is substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Company's financial statements are prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). The Company's fiscal year ends on December 31.

Use of Estimates and Assumptions

In preparing these unaudited financial statements in conformity with the U.S. GAAP, the Company's management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from those estimates.

Fair Value of Financial Instruments

FASB Accounting Standards Codification (ASC) 820 "*Fair Value Measurements and Disclosures*" establishes a three-tier fair value hierarchy, which prioritizes the inputs in measuring fair value. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

These tiers include:

Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3: Unobservable inputs in which little or no market data exists, therefore developed using estimates and assumptions developed by us, which reflect those that a market participant would use.

There were no material items that were measured at fair value as of October 7, 2024.

Cash and Cash Equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company had \$0 in cash as of October 7, 2024.

Revenue Recognition

The Company recognizes revenue from the sale of products and services in accordance with ASC 606, "Revenue Recognition" following the five steps procedure:

- Step 1: Identify the contract(s) with customers
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price

Step 4: Allocate the transaction price to performance obligations

Step 5: Recognize revenue when or as performance obligations are satisfied

Following the model of its predecessor, the Company will generate revenues by selling ready-to-drink alcoholic beverages. Payments will generally be collected upfront, although some sales will likely be made on credit terms of 30 to 60 days. The Company will utilize a factoring group to accelerate cash inflow for certain transactions. The primary revenue-generating activity will involve securing distribution contracts with distributors that sell the products to retailers.

Revenue will be recognized at the time of shipment, net of estimated returns. Coincident with revenue recognition, the Company will establish a liability for expected returns and record an asset (along with a corresponding adjustment to cost of sales) for its right to recover products from customers upon settling the refund liability.

General and Administrative

General and administrative expenses consist of various operational costs essential for business management and administration, legal expenses and professional fees..

Recent Accounting Pronouncements

INDEPENDENT ACCOUNTANT'S REVIEW REPORT

To: Bushwacker Spirits, LLC Management

We have reviewed the accompanying financial statements Bushwacker Spirits, LLC (the Company) which comprise the statements of financial position as of December 31, 2023 & 2022 and the related statements of operations, statements of changes in members' equity, and statements of cash flows for the years then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of Company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements:

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility:

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion:

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Substantial Doubt About the Entity's Ability to Continue as a Going Concern:

As discussed in Note 1, specific circumstances raise substantial doubt about the Company's ability to continue as a going concern in the foreseeable future. The provided financial statements have not been adjusted for potential requirements in case the Company cannot continue its operations. Management's plans in regard to these matters are also described in Note 1.

Emphasis of Matter Regarding a Successor Entity:

Bushwacker Spirits, LLC was incorporated on March 4, 2020 in the State of Florida. Coastal Brands, Inc. will serve as the successor company for its predecessor Bushwacker Spirits, LLC. Coastal Brands, Inc. will conduct a regulation crowdfunding campaign in 2024.

NOTE 1 – DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS

Bushwacker Spirits, LLC ("the Company"), founded on March 4, 2020, in the state of Florida, specializes in producing a ready-to-drink version of the Bushwacker cocktail. The Company generates revenue by selling its product to distributors across 17 states, primarily in the Southeastern United States.

In its first full year of operation, the Company achieved a successful market entry, leading to plans for further development and expansion of distribution. To facilitate this growth, the Company initiated the incorporation of Coastal Brands, Inc. as a holding company in 2024, transitioning all current members of the Company to shareholders in Coastal Brands, Inc. This structure is essential, as Bushwacker Spirits holds the necessary alcohol licenses, requiring the Company to remain active for operational purposes.

Coastal Brands, Inc. will conduct a crowdfunding campaign in 2024 to raise operating capital. This initiative aims to strengthen the supply chain and broaden distribution, enabling Bushwacker Spirits to reach a larger customer base and establish a national presence.

Concentrations of Credit Risks

The Company's financial instruments that are exposed to concentrations of credit risk primarily consist of its cash and cash equivalents. The Company places its cash and cash equivalents with financial institutions of high credit worthiness. The Company's management plans to assess the financial strength and credit worthiness of any parties to which it extends funds, and as such, it believes that any associated credit risk exposures are limited.

As of December 31, 2023, the Company has no off-balance sheet concentration of credit risk such as forward exchange contracts, option contracts or other foreign hedging arrangements.

Substantial Doubt About the Entity's Ability to Continue as a Going Concern:

The accompanying balance sheet has been prepared on a going concern basis, which means that the entity expects to continue its operations and meet its obligations in the normal course of business during the next twelve months. Conditions and events creating the doubt include the fact that the Company has commenced principal operations and realized losses every year since inception and may continue to generate losses. The Company's management has evaluated this condition and plans to generate revenues and raise capital as needed to meet its capital requirements. However, there is no guarantee of success in these efforts. Considering these factors, there is substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Company's financial statements are prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). The Company's fiscal year ends on December 31. The Company has no interest in variable interest entities and no predecessor entities.

Use of Estimates and Assumptions

In preparing these unaudited financial statements in conformity with U.S. GAAP, the Company's management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from those estimates.

Fair Value of Financial Instruments

FASB Accounting Standards Codification (ASC) 820 "*Fair Value Measurements and Disclosures*" establishes a three-tier fair value hierarchy, which prioritizes the inputs in measuring fair value. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

These tiers include:

Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3: Unobservable inputs in which little or no market data exists, therefore developed using estimates and assumptions developed by us, which reflect those that a market participant would use.

There were no material items that were measured at fair value as of December 31, 2023 and December 31, 2022.

Cash and Cash Equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company had \$18,869 and \$26,164 in cash as of December 31, 2023 and December 31, 2022, respectively.

Inventory

Inventory consisted primarily of a combination of ingredients or raw materials, packaging, and finished goods of its ready-to-drink products. Inventories are stated at the lower of cost or net realizable value, utilizing the first-in, first-out method. Total inventory at December 31, 2023, and December 31, 2022, was \$791,568 and \$514,573, respectively.

Property and Equipment

Property and equipment are recorded at cost. Expenditures for renewals and improvements that significantly add to the productive capacity or extend the useful life of an asset are capitalized. Expenditures for maintenance and repairs are charged to expense. When equipment is retired or sold, the cost and related accumulated depreciation are eliminated from the accounts and the resultant gain or loss is reflected in income. Depreciation is provided using the straight-line method, based on useful lives of the assets.

The Company reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, the manner in which the property is used, and the effects of obsolescence, demand, competition, and other economic factors. Based on this assessment there was no impairment in 2023.

A summary of the Company's property and equipment as of December 31 is shown below:

Property Type	Useful Life in Years	2023	2022
Machinery & Equipment	1-2	168,524	168,524
Vehicle	2	94,842	94,842
Less Accumulated Depreciation		(263,366)	(263,366)
Totals		-	-

Revenue Recognition

The Company recognizes revenue from the sale of products and services in accordance with ASC 606, "Revenue Recognition" following the five steps procedure:

- Step 1: Identify the contract(s) with customers
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to performance obligations
- Step 5: Recognize revenue when or as performance obligations are satisfied

The Company generates revenues by selling ready-to-drink alcoholic beverages. Payments are generally collected upfront, but some are allowed on credit terms of 30 to 60 days. The Company also utilizes a factoring

group to accelerate cash inflow for certain sales. The primary revenue-generating activity is securing distribution contracts with distributors that sell the products to retailers.

Revenue is recognized at the time of shipment, net of estimated returns. Coincident with revenue recognition, the Company establishes a liability for expected returns and records an asset (and corresponding adjustment to cost of sales) for its right to recover products from customers upon settling the refund liability.

Advertising Costs

Advertising costs associated with marketing the Company's products and services are expensed as costs are incurred.

General and Administrative

General and administrative expenses consist of various operational costs essential for business management and administration, primarily including office supplies, travel, legal and accounting services, storage, shipping, freight and delivery, licenses, training, supplies, and rent.

Recent Accounting Pronouncements

The FASB issues Accounting Standards Updates (ASUs) to amend the authoritative literature in ASC. There have been a number of ASUs to date that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to us or (iv) are not expected to have a significant impact on our financial statements.

NOTE 3 – RELATED PARTY TRANSACTIONS

The Company follows ASC 850, "Related Party Disclosures," for the identification of related parties and disclosure of related party transactions.

As detailed in Note 5, the Company had an outstanding loan of \$490,000 to its current member, Sand Flea LLC, as of December 31, 2022. This loan was fully paid by 2023.

NOTE 4 – COMMITMENTS, CONTINGENCIES, COMPLIANCE WITH LAWS AND REGULATIONS

The Company is not currently involved with or knows of any pending or threatening litigation against it or any of its officers. Further, the Company is currently complying with all relevant laws and regulations. The Company does not have any long-term commitments or guarantees.

NOTE 5 – LIABILITIES AND DEBT

THE PITCH

Escape to Paradise in Every Sip

Traditional cocktails often require time, effort, and multiple ingredients to achieve the authentic taste and experience people love, especially coastal-inspired drinks that evoke vacation memories. This makes it challenging for consumers to enjoy these drinks conveniently in everyday settings.

Bushwacker Spirits brings the beloved coastal cocktail experience to consumers in a ready-to-drink format, capturing the rich, tropical flavors of classic beachside favorites in premium packaging. This enables Bushwacker drinkers to enjoy high-quality cocktails easily, wherever they are, with all-natural ingredients and a memorable, refreshing experience.

THE PROBLEM & OUR SOLUTION

The Bushwacker Brand Advantage

The ready-to-drink (RTD) cocktail market is booming, with a current value of over \$19 billion. Increasing demand for convenient, premium cocktails highlights the shift toward high-quality, ready-made options that bring bar-like experiences into consumers' homes.

Bushwacker Spirits has shown exciting growth in just four years, partnering with over 30 top distributors and expanding into 17 states. With multiple prestigious awards, including Double Gold from the San

Francisco World Spirits Competition, the brand continues to build a strong market presence and reputation. Notably, the Bushwacker cocktail was among the most searched cocktails on Google in several states in 2020!

Risks

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment. In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document. The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature. These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

Voting Proxy. Each Subscriber shall appoint the Chief Executive Officer of the Company (the “CEO”), or his or her successor, as the Subscriber’s true and lawful proxy and attorney, with the power to act alone and with full power of substitution, to, consistent with this instrument and on behalf of the Subscriber, (i) vote all Securities, (ii) give and receive notices and communications, (iii) execute any instrument or document that the CEO determines is necessary or appropriate in the exercise of its authority under this instrument, and (iv) take all actions necessary or appropriate in the judgment of the CEO for the accomplishment of the foregoing. The proxy and power granted by the Subscriber pursuant to this Section are coupled with an interest. Such proxy and power will be irrevocable. The proxy and power, so long as the Subscriber is an individual, will survive the death, incompetency and disability of the Subscriber and, so long as the Subscriber is an entity, will survive the merger or reorganization of the Subscriber or any other entity holding the Securities. However, the Proxy will terminate upon the closing of a firm-commitment underwritten public offering pursuant to an effective registration statement under the Securities Act of 1933 covering the offer and sale of Common Stock or the effectiveness of a registration statement under the Securities Exchange Act of 1934 covering the Common Stock.

**In order to receive perks from an investment, one must submit a single investment in the same offering that meets the minimum perk requirement. Bonus shares from perks will not be granted if an investor submits multiple investments that, when combined, meet the perk requirement. All perks occur when the offering is completed. Crowdfunding investments made through a self-directed IRA cannot receive perks due to tax laws. The Internal Revenue Service (IRS) prohibits self-dealing transactions in which the investor receives an immediate, personal financial gain on investments owned by their retirement account. As a result, an investor must refuse those perks because they would be receiving a benefit from their IRA account.*

***Perks involving product discounts are subject to state shipping laws and regulations. Alcohol orders can only be shipped to states where the company is legally permitted to distribute. Availability may vary, and certain restrictions may apply.*

****Perks occur after offering is complete.*

The 10% StartEngine Venture Club Bonus

Coastal Brands, Inc. will offer 10% additional bonus shares for all investments that are committed by investors that are eligible for the StartEngine Venture Club.

This means eligible StartEngine shareholders will receive a 10% bonus for any shares they purchase in this offering. For example, if you buy 100 shares of Common Stock at \$2.00 / share, you will receive 110 shares of Common Stock, meaning you'll own 110 shares for \$2000. Fractional shares will not be distributed and share bonuses will be determined by rounding down to the nearest whole share.

This 10% Bonus is only valid during the investor's eligibility period. Investors eligible for this bonus will also have priority if they are on a waitlist to invest and the company surpasses its maximum funding goal. They will have the first opportunity to invest should room in the offering become available if prior investments are canceled or fail.

Investors will receive the highest single bonus they are eligible for among the bonuses based on the amount invested and the time of offering elapsed (if any). Eligible investors will also receive the Venture Club bonus and the Loyalty Bonus in addition to the aforementioned bonus.

Irregular Use of Proceeds

The Company might incur Irregular Use of Proceeds that may include but are not limited to the following over \$10,000: Vendor payments. Inter company debt or back payments.

FAQS

How much can I invest?

With Regulation A+, a non-accredited investor can only invest a maximum of 10% of their annual income or 10% of their net worth per year, whichever is greater. There are no restrictions for accredited investors.

With Regulation Crowdfunding, non-accredited investors with an annual income or net worth less than \$124,000 are limited to invest a maximum of 5% of the greater of those two amounts. For those with an annual income and net worth greater than \$124,000, they are limited to investing 10% of the greater of the two amounts.

When will I receive my shares?

At the close of an offering, all investors whose funds have “cleared” by this time will be included in the disbursement. At this time, each investor will receive an email from StartEngine with their Countersigned Subscription Agreement, which will serve as their proof of purchase moving forward.

Please keep in mind that a company can conduct a series of “closes” or withdrawals of funds throughout the duration of the campaign. If you are included in that withdrawal period, you will be emailed your countersigned subscription agreement and proof of purchase immediately following that withdrawal.

What will the return on my investment be?

StartEngine assists companies in raising capital, and once the offering is closed, we are no longer involved with whether the company chooses to list shares on a secondary market or what occurs thereafter. Therefore, StartEngine has no control or insight into your investment after the close of the live offering. In addition, we are not permitted to provide financial advice. You may want to contact a financial professional to discuss possible investment outcomes.

Can I cancel my investment?

For Regulation Crowdfunding, investors are able to cancel their investment at any point throughout the campaign up until 48 hours before the closing of the offering. Note: If the company does a rolling close, they will post an update to their current investors, giving them the opportunity to cancel during this timeframe. If you do not cancel within this 5-day timeframe, your funds will be invested in the company, and you will no longer be able to cancel the investment. If your funds show as ‘Invested’ on your account dashboard, your investment can no longer be canceled.

For Regulation A+, StartEngine allows for a four-hour cancellation period. Once the four-hour window has passed, it is up to each company to set their own cancellation policy. You may find the company’s cancellation policy in the company’s offering circular.

Once your investment is canceled, there is a 10-day clearing period (from the date your investment was submitted). After your funds have cleared the bank, you will receive your refund within 10 business days.

Refunds that are made through ACH payments can take up to 10 business days to clear. Unfortunately, we are at the mercy of the bank, but we will do everything we can to get you your refund as soon as possible. However, every investment needs to go through the clearing process in order to be sent back to the account associated with the investment.

What is the difference between Regulation Crowdfunding and Regulation A+?

Both Title III (Regulation Crowdfunding) and Title IV (Reg A+) help entrepreneurs crowdfund capital investments from unaccredited and accredited investors. The differences between these regulations are related to the investor limitations, the differing amounts of money companies are permitted to raise, and differing disclosure and filing requirements. StartEngine facilitates three types of primary offerings:

1) Regulation A offerings (JOBS Act Title IV; known as Regulation A+), which are offered to non-accredited and accredited investors alike. These offerings are made through StartEngine Primary, LLC (unless otherwise indicated). 2) Regulation D offerings (Rule 506(c)), which are offered only to accredited investors. These offerings are made through StartEngine Primary, LLC. 3) Regulation Crowdfunding offerings (JOBS Act Title III), which are offered to non-accredited and accredited investors alike. These offerings are made through StartEngine Capital, LLC. Some of these offerings are open to the general public, however there are important differences and risks.

StartEngine Marketplace

StartEngine Marketplace (“SE Marketplace”) is a website operated by StartEngine Primary, LLC (“SE Primary”), a broker-dealer that is registered with the SEC and a member of FINRA and the SIPC.

StartEngine Secondary (“SE Secondary”) is our investor trading platform. SE Secondary is an SEC-registered Alternative Trading System (“ATS”) operated by SE Primary that matches orders for buyers and sellers of securities. It allows investors to trade shares purchased through Regulation A+, Regulation Crowdfunding, or Regulation D for companies who have engaged StartEngine Secure LLC as their transfer agent. The term “Rapid,” when used in relation to transactions on SE Marketplace, specifically refers to transactions that are facilitated on SE Secondary, This is because, unlike with trades on the StartEngine Bulletin Board (“SE BB”), trades on SE Secondary are executed the moment that they are matched.

StartEngine Bulletin Board (“SE BB”) is a bulletin board platform on which users can indicate to each other their interest to buy or sell shares of private companies that previously executed Reg CF or Reg A offerings not necessarily through SE Primary. As a bulletin board platform, SE BB provides a venue for investors to access information about such private company offerings and connect with potential sellers. All investment opportunities on SE BB are based on indicated interest from sellers and will need to be confirmed. Even if parties express mutual interest to enter into a trade on SE BB, a trade will not immediately result because execution is subject to additional contingencies, including among others, effecting of the transfer of the shares from the potential seller to the potential buyer by the issuer and/or transfer agent. SE BB is distinct and separate from SE Secondary. SE Secondary facilitates the trading of securities by matching orders between buyers and sellers and facilitating executions of trades on the platform. By contrast, under SE BB, SE Primary assists with the facilitation of a potential resulting trade off platform including, by among other things, approaching the issuer and other necessary parties in relation to the potential transaction. The term “Extended”, when used in relation to transactions on SE Marketplace denotes that these transactions are conducted via SE BB, and that these transactions may involve longer processing times compared to SE Secondary for the above-stated reasons.

Even if a security is qualified to be displayed on SE Marketplace, there is no guarantee an active trading market for the securities will ever develop, or if developed, be maintained. You should assume that you may not be able to liquidate your investment for some time or be able to pledge these shares as collateral.

The availability of company information does not indicate that the company has endorsed, supports, or otherwise participates with StartEngine. It also does not constitute an endorsement, solicitation or recommendation by StartEngine. StartEngine does not (1) make any recommendations or otherwise advise on the merits or advisability of a particular investment or transaction, (2) assist in the determination of the fair value of any security or investment, or (3) provide legal, tax, or transactional advisory services.

STARTENGINE SUBSCRIPTION PROCESS (Exhibit E)

Platform Compensation

- As compensation for the services provided by StartEngine Capital or StartEngine Primary, as identified in the Offering Statement filed on the SEC EDGAR filing system (the “Intermediary”), the issuer is required to pay to Intermediary a fee consisting of a 5.5-13% (five and one-half to thirteen) commission based on the dollar amount of securities sold in the Offering and paid upon disbursement of funds from escrow at the time of closing. The commission is paid in cash and in securities of the Issuer identical to those offered to the public in the Offering at the sole discretion of the Intermediary. Additionally, the issuer must reimburse certain expenses related to the Offering. The securities issued to the Intermediary, if any, will be of the same class and have the same terms, conditions, and rights as the securities being offered and sold by the issuer on StartEngine’s platform.
- As compensation for the services provided by StartEngine, investors are also required to pay the Intermediary a fee consisting of a 0-3.5% (zero to three and a half percent) service fee based on the dollar amount of securities purchased in each investment.

Information Regarding Length of Time of Offering

- Investment Cancellations: Investors will have up to 48 hours prior to the end of the offering period to change their minds and cancel their investment commitments for any reason. Once within 48 hours of ending, investors will not be able to cancel for any reason, even if they make a commitment during this period.
- Material Changes: Material changes to an offering include but are not limited to: A change in minimum offering amount, change in security price, change in management, material change to financial information, etc. If an issuer makes a material change to the offering terms or other information disclosed, including a change to the offering deadline, investors will be given five business days to reconfirm their investment commitment. If investors do not reconfirm, their investment will be canceled and the funds will be returned.

Hitting The Target Goal Early & Oversubscriptions

- The Intermediary will notify investors by email when the target offering amount has hit 25%, 50%, and 100% of the funding goal. If the issuer hits its goal early, the issuer can create a new target deadline at least 5 business days out. Investors will be notified of the

new target deadline via email and will then have the opportunity to cancel up to 48 hours before the new deadline.

- **Oversubscriptions:** We require all issuers to accept oversubscriptions. This may not be possible if: 1) it vaults an issuer into a different category for financial statement requirements (and they do not have the requisite financial statements); or 2) they reach \$5M in investments. In the event of an oversubscription, shares will be allocated at the discretion of the issuer, with priority given to StartEngine Venture Club members.
- If the sum of the investment commitments does not equal or exceed the target offering amount at the offering deadline, no securities will be sold in the offering, investment commitments will be canceled and committed funds will be returned.
- If a StartEngine issuer reaches its target offering amount prior to the deadline, it may conduct an initial closing of the offering early if they provide notice of the new offering deadline at least five business days prior to the new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). StartEngine will notify investors when the issuer meets its target offering amount. Thereafter, the issuer may conduct additional closings until the offering deadline.

Minimum and Maximum Investment Amounts

- In order to invest, commit to an investment or communicate on our platform, users must open an account on StartEngine and provide certain personal and non-personal information including information related to income, net worth, and other investments.
- **Investor Limitations:** There are no investment limits for investing in crowdfunding offerings for accredited investors. Non-accredited investors are limited in how much they can invest in all crowdfunding offerings during any 12-month period. The limitation on how much they can invest depends on their net worth (excluding the value of their primary residence) and annual income. If either their annual income or net worth is less than \$124,000, then during any 12-month period, they can invest either \$2,500 or 5% of their annual income or net worth, whichever is greater. If both their annual income and net worth are equal to or more than \$124,000, then during any 12-month period, they can invest up to 10% of annual income or net worth, whichever is greater, but their investments cannot exceed \$124,000.

Article VI

A director shall not be personally liable to the Corporation or its stockholders for monetary damages for breach of fiduciary duty as a director; provided that this Article VI shall not eliminate or limit the liability of a director (i) for any breach of his duty of loyalty to the Corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of the law, (iii) under Section 174 of the General Corporation Law of the State of Delaware, or (iv) for any transaction from which the director derives an improper personal benefit. This Article VI shall not eliminate or limit the liability of a director for any act or omission occurring prior to the date when this Article VI becomes effective.

Any repeal or modification of the foregoing provisions of this Article VI by the stockholders of the Corporation shall not adversely affect any right or protection of a director of the Corporation existing at the time of such repeal or modification.

Article VII

The Corporation shall, to the broadest and maximum extent permitted by Delaware law, as the same exists from time to time, indemnify each person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative by reason of the fact that he is or was a director or officer of the Corporation, or is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with such action, suit or proceeding.

In addition, the Corporation shall, to the broadest and maximum extent permitted by Delaware law, as the same may exist from time to time, pay to such person any and all expenses (including attorneys' fees) incurred in defending or settling any such action, suit or proceeding in advance of the final disposition of such action, suit or proceeding upon receipt of an undertaking by or on behalf of the director or officer, to repay such amount if it shall ultimately be determined by a final judgment or other final adjudication that he is not entitled to be indemnified by the Corporation as authorized in this Article. The rights to indemnification and to the advancement of expenses conferred in this Article VII shall not be exclusive of any other right which any person may have or hereafter acquire under any statute, this Certificate of Incorporation, the Bylaws of this Corporation, by agreement, vote of stockholders, or disinterested directors or otherwise.

Article VIII

The duration of the Corporation shall be perpetual.

Article IX

In furtherance and not in limitation of the powers conferred by statute, the Board of Directors is expressly authorized to make, alter, amend or repeal the Bylaws of the Corporation.

Article X

The Corporation reserves the right to amend, alter, change or repeal any provision contained in this Certificate of Incorporation, in the manner now or hereafter prescribed by statute, and all rights conferred upon stockholders herein are granted subject to this reservation.

I, **THE UNDERSIGNED**, being the incorporator hereinbefore named, for the purpose of forming a corporation pursuant to the General Corporation Law of the State of Delaware, does make this Certificate, hereby declaring and certifying that this is my act and deed and the facts herein stated are true, and accordingly has executed this Certificate on October 7, 2024.

Jeffrey S. Marks, Incorporator
