"I've known the founding team of Abstinence Spirits USA for almost 10 years, and I can tell you—they know how to execute. I've seen them put their heart and expertise into projects before, and this one is no different. That's why I'm excited to be an early investor and invite others to join in too. The non-alcoholic spirits market is taking off as more people look for healthier drink options that don't compromise on flavor or experience. Abstinence Spirits has created something really special with its unique, botanical flavors that are a true 1:1 replacement for alcohol. It's extensive product range feels premium, crafted with care, and stands out from the typical options on the shelf. Plus, today's consumers want more sustainable and mindful choices, and this brand checks those boxes. With a focus on quality ingredients with no chemical preservatives, it's the kind of product that aligns perfectly with what people are looking for right now. I'm investing because I believe in the team, the product, and the market opportunity. This is your chance to get in early on a growing trend with a brand that has the potential to make a big impact. If you're excited about where the beverage industry is headed and want to be part of something new and innovative, I'd encourage you to join me in supporting Abstinence Spirits USA."

"Beyond my expectations! This is my first time buying N/A spirits. I did a decent amount of research and am glad I did. Cape Floral is more than I hoped for! The aroma is as beautiful as the label and the flavor is amazing! Complex and delicious. I'm pleased that while it is floral, it is not sweet but peppery!"

Forbes Cara Patricia, co-founder of bar and bottle shop DEACANTsf ([Forbes, Apr '23](#))

"I love Abstinence Spirits from South Africa, especially their non-alcoholic aperitifs made from bittersweet lemon, alooe, and aromatic Buchu. It's a lovely replacement for limoncello or white vermouth, making a perfect summer spritz."

CG: "Oh, exceptional. I wanted to know if you could compare this to a regular aperol spritz, better or worse?"
JB: "I don't think it is as sweet."
CG: "Ironic how close it does taste. This is good. I'd drink this."

And so does the press and industry experts! We have received many awards and accolades.
