1. INCORPORATION AND CORPORATE ACTIVITIES

Canaccord Genuity Wealth Management (USA) Inc. [the “Company”] is an introducing broker/dealer registered with the Securities and Exchange Commission [“SEC”] and is a member of the Financial Industry Regulatory Authority [“FINRA”] and the Securities Investor Protection Corporation. The Company’s primary source of revenue is commission income relating to securities trade execution for U.S. resident clients. The Company clears all transactions with and for clients through Pershing LLC. Accordingly, the Company does not handle nor hold any client monies and securities or perform custodial functions relating to client accounts.

2. SIGNIFICANT ACCOUNTING POLICIES

These financial statements have been prepared in accordance with accounting principles generally accepted in the United States. The significant accounting policies are as follows:

Securities transactions and commissions

Commission income and expenses from customers' securities transactions are recorded on a trade-date basis.

Revenue recognition

Commission revenue consists of revenue generated through commission-based brokerage services and is recognized on a trade-date basis.

Interest income consists of interest earned on cash deposited in bank accounts and on a deposit held with Pershing LLC and is recognized on an accrual basis.

Other revenue includes foreign exchange gains or losses and administrative fee revenue.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Canaccord Genuity Wealth Management (USA) Inc.

NOTES TO FINANCIAL STATEMENTS

[Expressed in U.S. dollars]

March 31, 2022

Income taxes

The Company is included in the consolidated federal income tax return filed by Canaccord Adams Financial Group Inc. The Company's effective federal and state income tax rate of 29.55% for the year is based on calculations pursuant to the tax sharing arrangement amongst the U.S. consolidated group members, and is payable via the intercompany accounts through periodic cash settlements. The federal income taxes are calculated as if the Company filed a separate federal income tax return. The tax sharing arrangement among the companies within the U.S. consolidated group provides that profitable entities such as the Company pay through the intercompany accounts the Company's separate federal income tax liability, to other members of the U.S. consolidated group. The Company joins in the filing of combined state returns with other members of the U.S. consolidated group.

The amount of current taxes payable is recognized as at the date of the financial statements, utilizing currently enacted tax rates and laws.

The Company has adopted Financial Accounting Standards Board ["FASB"] Accounting Standards Codification ["ASC"] 740-10, *Accounting for Income Taxes*, which requires the Company to recognize deferred tax liabilities and assets for the expected future tax consequences of events that have been recognized in the Company's financial statements or tax returns using the liability method. Under this method, deferred tax liabilities and assets are determined based on the temporary differences between the financial statement and tax bases of assets and liabilities using enacted tax rates and laws in effect in the year in which the differences are expected to reverse.

Translation of foreign currencies

The functional currency of the Company is the U.S. dollar. Monetary assets and liabilities denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect as at the reporting date. Non-monetary assets and liabilities denominated in foreign currencies are translated into U.S. dollars at historical rates. Revenue and expenses are translated at the average exchange rate prevailing during the period. Foreign currency transaction gains and losses are included in income in the period in which they occur.

Fair value measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most

advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 inputs are quoted prices [unadjusted] in active markets for identical assets or liabilities the Company has the ability to access.

Level 2 inputs are inputs [other than quoted prices included within Level 1] that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. The unobservable inputs are developed based on the best information available in the circumstances and may include the Company's own data.

3. FINANCIAL INSTRUMENTS

The Company's financial instruments include cash, deposit with clearing broker, receivable from clearing broker, other securities, due from affiliated companies, due to affiliated companies and accounts payable. It is management's opinion that the Company is not exposed to significant interest rate, currency or credit default risks arising from these financial instruments.

Credit risk

The Company's exposure to credit risk arises from the possibility that a counterparty to a transaction might fail to perform under its contractual commitment, resulting in a financial loss to the Company. The risk is maintained by the Company's overall credit risk management framework, including monitoring credit exposures, limiting transactions with specific counterparties and assessing the creditworthiness of counterparties.

Market risk

Market risk is the risk that the fair value of financial instruments will fluctuate because of changes in market prices. The Company believes that any exposure to risk is in the normal course of business and does not anticipate any significant loss to such risk.

Report of independent registered public accounting firm

The Board of Directors and Management of
Canaccord Genuity Wealth Management (USA) Inc.

We have reviewed management's statements, included in the accompanying Canaccord Genuity Wealth Management (USA) Inc. Exemption Report, in which [1] **Canaccord Genuity Wealth Management (USA) Inc.** [the "Company"] identified the following provisions of 17 C.F.R. § 15c3-3(k) under which the Company claimed an exemption from 17 C.F.R. § 240.15c3-3 (k) (2 (ii) [the "exemption provisions"] and [2] the Company stated that it met the identified exemption provisions in 17 C.F.R. § 240.15c3-3(k) throughout the most recent fiscal year ended March 31, 2022, except as described in its exemption report. Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the *Securities Exchange Act of 1934*.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, the Financial Industry Regulatory Authority, other regulatory agencies that rely on Rule 17a-5 under the *Securities Exchange Act of 1934* in their regulation of registered brokers and dealers, and other recipients specified by Rule 17a-5(d)(6) and is not intended to be and should not be used by anyone other than these specified parties.
