Erez Ezra

Managing Director (Clear Future VC) and, Head of Strategic Consulting and Scale-Up (Reichman University)
Herzliya, Tel Aviv District, Israel

Summary

At the helm of Clear Future, our team has cultivated a robust portfolio of Data Science Technology Startups, specializing in transformative sectors like Fintech and Smart Mobility (mostly B2B SaaS business). We are helping steering these startups through the intricate journey from seed stage to maturity, fostering key partnerships with leading financial institutions both in the USA and locally.

Parallel to my investment leadership, I serve as Head of Strategic Consulting & Scale-Up at Reichman University, where I leverage my industry insights to enhance the academic rigor of our Global MBA program.

The past experience as a CEO and Board member at many companies brings the synergy between my directorship at Clear Future and my academic role at Reichman University to underscores a commitment to nurturing the next generation of business innovators, as well as mentoring aspiring entrepreneurs and develop impactful courses that bridge the gap between theoretical knowledge and practical business acumen.

Experience

Clear Future
Managing Director
May 2016 - Present (8 years 10 months)

Clear Future is a Private Investment Fund and Family Office firm that invests in Data Science Technology startups and helps them become successful companies.

We specialize in Fintech, Insuretech, Smart Mobility and innovative Retail.

Clear Future is supporting its ventures across all stages of their capital development (including successful M&A's in addition to fund raising) from seed to growth and is cooperating with world-leading financial institutions in the USA and locally.
