ISAAK BOND INVESTMENTS, INC. AND SUBSIDIARY

Notes to Consolidated Financial Statements

Description of Business and Summary of Significant Accounting Policies

Isaak Bond Investments, Inc. and Subsidiary (the "Company") is a Colorado corporation established on March 1, 1977. On July 1, 2010, the Company elected S corporation status. The Company is registered as a broker-dealer under the Securities Exchange Act of 1934 and is a member of the Financial Industry Regulatory Authority ("FINRA"). The Company's primary operation is proprietary trading of municipal bond securities. The Company's wholly owned subsidiary, Funds Management Corp. ("Management Corp."), has been dormant for several years.

The Company operates under the provisions of Paragraph (k)(2)(ii) of Rule 15c3-3 of the Securities Exchange Act of 1934 and, accordingly, is exempt from the remaining provisions of that rule. Essentially, the requirements of Paragraph (k)(2)(ii) provide that the Company clears all transactions on behalf of customers on a fully disclosed basis with a clearing broker-dealer and promptly transmits all customer funds and securities to the clearing broker-dealer. The Company's clearing broker is Hilltop Securities, Inc. ("Hilltop Securities"). Hilltop Securities carries all of the accounts of customers and maintains and preserves all related books and records as are customarily kept by a clearing broker-dealer.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Isaak Bond Investments, Inc. and its subsidiary, Management Corp. All intercompany accounts and transactions have been eliminated in consolidation.

Cash and Cash Equivalents

The Company considers all highly liquid instruments purchased with an original maturity of three months or less to be cash equivalents. The Company continually monitors its positions with, and the credit quality of, the financial institutions with which it invests.

Due from Clearing Broker and Dealers and Other Receivables

Due from clearing broker and dealers are recorded as trades and executed on a trade-date basis. The Company has not provided a reserve for uncollectible accounts, as management believes all receivables are fully collectible.

Property and Equipment

Property and equipment are stated at cost. Depreciation is provided utilizing straight-line and accelerated methods over the estimated useful lives for owned assets, ranging from three to seven years.

ISAAK BOND INVESTMENTS, INC. AND SUBSIDIARY

Notes to Consolidated Financial Statements

Note 1 - Description of Business and Summary of Significant Accounting Policies (continued)

Clearing Deposit and Other Assets

Other assets include \$50,936 deposited with Hilltop Securities to offset certain risks assumed by Hilltop Securities related to the clearing and settling of securities and cash transactions on behalf of the Company.

Concentrations of Credit Risk

Financial instruments, which potentially subject the Company to concentration of credit risk, consist principally of cash and securities owned. The Company places its temporary cash investments with what management believes are high-credit, quality financial institutions. Securities owned consist primarily of municipal & corporate bond securities invested in a diversified portfolio of bond positions.

Securities transactions are initiated on a fully disclosed basis with Hilltop Securities. Under the terms of the clearing agreement, the Company is ultimately responsible for the executing of transactions and the contractual obligations thereunder. In conjunction with the clearing broker, the Company seeks to control the risks of activities and is required to maintain collateral in compliance with various regulatory and internal guidelines. Compliance with the various guidelines is monitored daily and, pursuant to such guidelines, the Company may be required to deposit additional collateral or reduce positions when necessary.

The Company is engaged in various trading and brokerage activities where counterparties primarily include broker-dealers, banks, and other financial institutions. In the event these counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty with which it conducts business.

Market risk arises due to fluctuations in interest rates and market prices that may result in changes in the values of trading instruments. The Company manages its exposure to market risk resulting from trading activities through its risk management function. Risk reports are reviewed daily by management to mitigate market risk.

Derivative Financial Instruments

Derivative financial instruments used for trading purposes are carried at fair value. These derivative instruments consist principally of future contracts to purchase or sell government securities. Fair values are based upon quoted market prices. The fair value of those financial instruments is recorded in securities owned or due to clearing broker, as appropriate. Unrealized gains or losses resulting from these financial instruments are recorded in net trading gains and commissions on the consolidated statement of income.

ISAAK BOND INVESTMENTS, INC. AND SUBSIDIARY

Notes to Consolidated Financial Statements

Note 1 - Description of Business and Summary of Significant Accounting Policies (continued)

Fair Value Accounting

The Financial Accounting Standards Board Accounting Standards Codification ("ASC") Topic 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

Level 1: Quoted prices in active markets for identical assets or liabilities;

Level 2: Quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability; or

Level 3: Unobservable inputs in which there is little or no market data, which requires the reporting entity to develop its own assumptions.

The determination of where assets and liabilities fall within this hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Revenue Recognition and Securities Owned

The Company recognizes revenue relating to proprietary securities transactions and commission income and expense related to customers' securities transactions on a trade-date basis. Municipal securities owned and investment securities are valued at fair value based on trade activity within a publicly observable marketplace with the resulting net unrealized gains and losses included in earnings of the current period.

Income Taxes

The Company has elected to be treated as an S corporation for income taxes purposes. Accordingly, taxable income and losses of the Company are reported on the income tax returns of the Company's stockholders, and no provision for income taxes has been recorded in the accompanying consolidated financial statements.

The Company follows the guidance of ASC Topic 740, *Accounting for Uncertainty in Income Taxes*. ASC Topic 740 prescribes a more-likely-than-not recognition threshold and a measurement attribute for the consolidated financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The interpretation also provides guidance on the related derecognition, classification, interest and penalties, accounting for interim periods, and disclosure and transition of uncertain tax positions.

Interest and penalties associated with tax positions are recorded in the period assessed as other operating expenses. No interest or penalties have been assessed as of December 31, 2020.

Notes to Consolidated Financial Statements

Note 1 - Description of Business and Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

ISAAK BOND INVESTMENTS, INC. AND SUBSIDIARY

Notes to Consolidated Financial Statements

Note 2 - Fair Value Accounting

The following tables set forth by level, within the fair value hierarchy, the Company's investment assets and liabilities at fair value on a recurring basis as of December 31, 2020:

<u>Investment Assets</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
US Treasuries	\$ 1,425,187	\$ -	\$ -	\$ 1,425,187
Municipal bonds	-	2,670,757	-	2,670,757
Corporate bonds	-	881,025	-	881,025
Total	<u>\$ 1,425,187</u>	<u>\$ 3,551,782</u>	<u>\$ -</u>	<u>\$ 4,976,969</u>

<u>Investment Liabilities</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

US Treasury futures contracts	1,558,687	-	-	1,558,687

Total	<u>\$ 3,741,649</u>	<u>\$ 434,000</u>	<u>\$ -</u>	<u>\$ 4,175,649</u>

The Company values US Treasuries based on readily available marketplace quotes from Treasury dealers based on a high volume of specified securities. Municipal and corporate bonds are valued based on trades of the bonds within a publicly observable marketplace. The bond market is based on negotiated contracts between a limited number of parties rather than high-volume exchange transactions. The pricing of bonds can be determined through review of transactions involving the specified bond or a like-kind bond. US Treasury futures contracts are derivatives that are valued at market based on the underlying US Treasuries.

Gains and losses (realized and unrealized) included in earnings for the year ended December 31, 2020 are reported in trading revenues and in other revenues as follows:

	<u>Trading Revenues</u>	<u>Interest</u>
Total gains or losses included in earnings for the year ended December 31, 2020	<u>\$ 3,415,087</u>	<u>\$ 207,864</u>

INDEPENDENT ACCOUNTANT'S REPORT

To the Owner of Isaak Bond Investments, Inc. and subsidiary

We have performed the procedures included in Rule 17a-5(e)(4) under the Securities Exchange Act of 1934 and in the Securities Investor Protection Corporation (SIPC) Series 600 Rules, which are enumerated below, and were agreed to by Isaak Bond Investments, Inc. and subsidiary (Company) and the SIPC, solely to assist you and the SIPC in evaluating the Company's compliance with the applicable instructions of the General Assessment Reconciliation (Form SIPC-7) for the year ended December 31, 2020. Management of the Company is responsible for its Form SIPC-7 and for its compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures we performed and our findings are as follows:

2. Compared the Total Revenue amounts reported on the Annual Audited Report Form X-17A-5 Part III for the year ended December 31, 2020, with the Total Revenue amounts reported in Form SIPC-7 for the year ended December 31, 2020 noting no differences;
3. Compared any adjustments reported in Form SIPC-7 with supporting schedules and working papers noting no differences;
4. Recalculated the arithmetical accuracy of the calculations reflected in Form SIPC-7 and in the related schedules and working papers supporting the adjustments noting no differences; and
5. Compared the amount of any overpayment applied to the current assessment with the Form SIPC-7 on which it was originally computed noting no differences.

We were not engaged to, and did not conduct an examination or a review, the objective of which would be the expression of an opinion or conclusion, respectively, on the Company's compliance with the applicable instructions of the Form SIPC-7 for the year ended December 31, 2020. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Company and the SIPC and is not intended to be and should not be used by anyone other than these specified parties.
