Our target projects will span from single-family residential flips to large-scale industrial properties, allowing us to diversify investments and leverage opportunities across various market segments. Our goal is to secure projects that are fundamentally sound and align with our metrics, ensuring protection for our returns.

Also, the Company depends on manufacturing in China, and the global pandemic raises supply chain issues and may result in an inability to fulfill orders of the Company’s product.

#### **Our business could be negatively impacted by cyber security threats, attacks and other disruptions.**

The Company may face advanced and persistent attacks on our information infrastructure where we manage and store various proprietary information and sensitive/confidential data relating to our operations. These attacks may include sophisticated malware (viruses, worms, and other malicious software programs) and phishing emails that attack our products or otherwise exploit any security vulnerabilities. These intrusions sometimes may be zero-day malware that are difficult to identify because they are not included in the signature set of commercially available antivirus scanning programs. Experienced computer programmers and hackers may be able to penetrate our network security and misappropriate or compromise our confidential information or that of our customers or other third-parties, create system disruptions, or cause shutdowns. Additionally, sophisticated software and applications that we produce or procure from third-parties may contain defects in design or manufacture, including “bugs” and other problems that could unexpectedly interfere with the operation of the information infrastructure. A disruption, infiltration or failure of our information infrastructure systems or any of our data centers as a result of software or hardware malfunctions, computer viruses, cyber-attacks, employee theft or misuse, power disruptions, natural disasters or accidents could cause breaches of data security, loss of critical data and performance delays, which in turn could adversely affect our business.

#### **Security breaches of confidential customer information, in connection with our electronic processing of credit and debit card transactions, or confidential employee information may adversely affect our business.**

Our business requires the Collection, transmission and retention of personally identifiable information, in various information technology systems that we maintain and in those maintained by third parties with whom we contract to provide services. The integrity and protection of that data is critical to us. The information, security and privacy requirements imposed by governmental regulation are increasingly demanding. Our systems may not be able to satisfy these changing requirements and customer and employee expectations, or may require significant additional investments or time in order to do so. A breach in the security of our information technology systems or those of our service providers could lead to an interruption in the operation of our systems, resulting in operational inefficiencies and a loss of profits. Additionally, a significant theft, loss or misappropriation of, or access to, customers’ or other proprietary data or other breach of our information technology systems could result in fines, legal claims or proceedings.

**The Company is not subject to Sarbanes-Oxley regulations and may lack the financial controls and procedures of public companies.**

The Company may not have the internal control infrastructure that would meet the standards of a public company, including the requirements of the Sarbanes Oxley Act of 2002. As a privately-held (non-public) Company, the Company is currently not subject to the Sarbanes Oxley Act of 2002, and its financial and disclosure controls and procedures reflect its status as a development stage, non-public company. There can be no guarantee that there are no significant deficiencies or material weaknesses in the quality of the Company's financial and disclosure controls and procedures. If it were necessary to implement such financial and disclosure controls and procedures, the cost to the Company of such compliance could be substantial and could have a material adverse effect on the Company's results of operations.

**We operate in a highly regulated environment, and if we are found to be in violation of any of the federal, state, or local laws or regulations applicable to us, our business could suffer.**

The Company is subject to a wide range of federal, state, and local laws and regulations. The violation of these or future requirements or laws and regulations could result in administrative, civil, or criminal sanctions against the Company, which may adversely impact the financial performance of the Company.

**Our success will depend upon the development of real estate, and we may be unable to consummate acquisitions or dispositions on advantageous terms, the developed properties may not perform as we expect, or we may be unable to efficiently integrate our project into our existing operations.**

We intend to acquire and sell real estate assets. The acquisition of real estate entails various risks, including the risks that our real estate assets may not perform as we expect, that we may be unable to quickly and efficiently integrate assets into our existing operations and that our cost estimates for the development and/or sale of a property may prove inaccurate.

**Reliance On Management To Select and Develop Appropriate Properties.**

The Company's ability to achieve its investment objectives is dependent upon the performance of the Management team in the quality and timeliness of the Company's acquisition of real estate properties. Investors in the Notes offered will have no opportunity to evaluate the terms of transactions or other economic or financial data concerning the Company's investments. Investors in the Notes must rely entirely on the management ability of and the oversight of the Company's principals.

**Competition May Increase Costs.**

The Company will experience competition from other sellers of real estate and other real estate projects. Competition may have the effect of increasing acquisition costs for the Company and decreasing the sales price or lease rates of developed assets.

**Delays In Acquisition Of Properties.**

Delays the Manager may encounter in the selection, acquisition and development of properties could adversely affect the profitability of the Company. The Company may experience delays in identifying properties that meet the Company's ideal purchase parameters.

**Environmentally Hazardous Property.**

Under various Federal, City and local environmental laws, ordinances and regulations, a current or previous owner or operator of real property may be liable for the cost of removal or remediation of hazardous or toxic substances on, under or in such property. Such laws often impose liability whether or not the owner or operator knew of, or was responsible for, the presence of such hazardous or toxic substances. Environmental laws also may impose restrictions on the manner in which property may be used or businesses may be operated, and these restrictions

may require expenditures. Environmental laws provide for sanctions in the event of non-compliance and may be enforced by governmental agencies or, in certain circumstances, by private parties. In connection with the acquisition and ownership of its properties, the Company may be potentially liable for such costs. The cost of defending against claims of liability, complying with environmental regulatory requirements or remediation any contaminated property could materially adversely affect the business, assets or results of operations of the Company.

#### **Management's Discretion In The Future Disposition Of Properties.**

The Company cannot predict with any certainty the various market conditions affecting real estate investments which will exist at any particular time in the future. Due to the uncertainty of market conditions which may affect the future disposition of the Company's properties, the Company cannot assure you that it will be able to sell its properties at a profit in the future. Accordingly, the timing of liquidation of the Company's real estate investments will be dependent upon fluctuating market conditions.

#### **Real estate investments are not as liquid as other types of assets, which may reduce economic returns to investors.**

Real estate investments are not as liquid as other types of investments, and this lack of liquidity may limit our ability to react promptly to changes in economic, financial, investment or other conditions. In addition, significant expenditures associated with real estate investments, such as mortgage payments, real estate taxes and maintenance costs, are generally not reduced when circumstances cause a reduction in income from the investments. Thus, our ability at any time to sell assets or contribute assets to property funds or other entities in which we have an ownership interest may be restricted. This lack of liquidity may limit our ability to vary our portfolio promptly in response to changes in economic financial, investment or other conditions and, as a result, could adversely affect our financial condition, results of operations, and cash flows.

#### **We may be unable to sell a property if or when we decide to do so, including as a result of uncertain market conditions, which could adversely affect the return on an investment in our Company.**

Our ability to dispose of properties on advantageous terms depends on factors beyond our control, including competition from other sellers and the availability of attractive financing for potential buyers of the properties we acquire. We cannot predict the various market conditions affecting real estate investments which will exist at any particular time in the future. Due to the uncertainty of market conditions which may affect the future disposition of the properties we acquire, we cannot assure our Investors that we will be able to sell such properties at a profit in the future. Accordingly, the extent to which our Investors will receive cash distributions and realize potential appreciation on our real estate investments will be dependent upon fluctuating market conditions. Furthermore, we may be required to expend funds to correct defects or to make improvements before a property can be sold. We cannot assure our Investors that we will have funds available to correct such defects or to make such improvements. In acquiring a property, we may agree to restrictions that prohibit the sale of that property for a period of time or impose other restrictions, such as a limitation on the amount of debt that can be placed or repaid on that property. These provisions would restrict our ability to sell a property.

#### **Illiquidity of real estate investments could significantly impede the company's ability to respond to adverse changes in the performance of the portfolio investments and harm the company's financial condition.**

Since real estate investments are relatively illiquid, the Company's ability to promptly sell developed assets in response to changing economic, financial and investment conditions may be limited. In particular, these risks could arise from weakness in or even the lack of an established market for a property, changes in the financial condition or prospects of prospective purchasers, changes in local, regional national or international economic conditions, and changes in laws, regulations or fiscal policies of jurisdictions in which the property is located.

The Company may be unable to realize its investment objectives by sale, other disposition or refinance at attractive prices within any given period of time or may otherwise be unable to complete any exit strategy.

**The terms of new or renewal leases may result in a reduction in income.**

Should the Company lease its real estate properties, the terms of any such new or renewal leases may be less favorable to the Company than the previous lease terms. Certain significant expenditures that the Company, as a landlord, may be responsible for, such as mortgage payments, real estate taxes, utilities and maintenance costs generally are not reduced as a result of a reduction in rental revenues. If lease rates for new or renewal leases are substantially lower than those for the previous leases, Company's rental income might suffer a significant reduction that may. Additionally, the Company may not be able to sell a property at the price, on the terms or within the time frame it may seek. Accordingly, the timing of liquidation of the Company and the extent to which Investors may receive payments and realize potential appreciation on the Company's real estate investments may be dependent upon fluctuating market conditions. The price the Company obtains from the sale of a property will depend upon various factors such as the property's operating history, demographic trends in the property's locale and available financing for, and the tax treatment of, real estate investments. The Company may not realize significant appreciation and may even incur losses on its properties and other investments. The recovery of any portion or all of an Investor Member's investment and any potential return thereon will depend on the amount of net proceeds the Company is able to realize from a sale or other disposition of its properties.

**Property the Company acquires may have liabilities or other problems.**

The Company intends to perform appropriate due diligence for each property or other real estate related investment it acquires. The Company also will seek to obtain appropriate representations and indemnities from sellers in respect of such properties or other investments. The Company may, nevertheless, acquire properties or other investments that are subject to uninsured liabilities or that otherwise have problems. In some instances, the Company may have only limited or perhaps even no recourse for any such liabilities or other problems or, if the Company has received indemnification from a seller, the resources of such seller may not be adequate to fulfill its indemnity obligation. As a result, the Company could be required to resolve or cure any such liability or other problems, and such payment could have an adverse effect on the Company's cash flow available to meet other expenses or to make payments to Investors.

**The Company's investments may be subject to risks from the use of borrowed funds.**

The Company may acquire properties subject to existing financing or by borrowing funds. The Company may also incur or increase its indebtedness by obtaining loans secured by certain of its properties in order to use the proceeds for acquisition of additional properties. In general, for any particular property, the Company will expect that the property's cash flow will be sufficient to pay the cost of its mortgage indebtedness, in addition to the operating and related costs of the property. However, if there is insufficient cash flow from the property, the Company may be required to use funds from other sources to make the required debt service payments, which generally would reduce the amount available for distribution to Investors. The incurrence of mortgage indebtedness increases the risk of loss from the Company's investments since one or more defaults on mortgage loans secured by its properties could result in foreclosure of those mortgage loans by the lenders with a resulting loss of the Company's investment in the properties securing the loans. For tax purposes, a foreclosure of one of the Company's properties would be treated as a sale of the property for a purchase price equal to the outstanding balance of the indebtedness secured by the mortgage. If that outstanding balance exceeds the Company's tax basis in the property, the Company would recognize a taxable gain as a result of the foreclosure, but it would not receive any cash proceeds as a result of the transaction.

Mortgage loans or other financing arrangements with balloon payments in which all or a substantial portion of the original principal amount of the loan is due at maturity, may involve greater risk of loss than those financing

arrangements in which the principal amount of the loan is amortized over its term. At the time a balloon payment is due, the Company may or may not be able to obtain alternative financing on favorable terms, or at all, to make the balloon payment or to sell the property in order to make the balloon payment out of the sale proceeds. If interest rates are higher when the Company obtains replacement financing for its existing loans, the cash flows from its properties, as well as the amounts the Company may be able to distribute to Investors, could be reduced. If interest rates are higher when the Company obtains replacement financing for its existing loans, the cash flows from its properties, as well as the amounts the Company may be able to distribute to Investors, could be reduced. In some instances, the Company may only be able to obtain recourse financing, in which case, in addition to the property or other investment securing the loan, the lender may also seek to recover against the Company's other assets for repayment of the debt. Accordingly, if the Company does not repay a recourse loan from the sale or refinancing of the property or other investment securing the loan, the lender may seek to obtain repayment from one or more of such other assets.

**Uninsured losses relating to real property may adversely affect an investor member's return.**

The Managing Member will attempt to assure that all of the Company's properties are comprehensively insured (including liability, fire, and extended coverage) in amounts sufficient to permit replacement in the event of a total loss, subject to applicable deductibles. However, to the extent of any such deductible and/or in the event that any of the Company's properties incurs a casualty loss which is not fully covered by insurance, the value of the Company's assets will be reduced by any such loss. Also, certain types of losses, generally of a catastrophic nature, resulting from, among other things, earthquakes, floods, hurricanes or terrorist acts may not be insurable or even if they are, such losses may not be insurable on terms commercially reasonable to the Company. Further, the Company may not have a sufficient external source of funding to repair or reconstruct a damaged property; there can be no assurance that any such source of funding will be available to the Company for such purposes in the future.

**Competition for investments may increase costs and reduce returns.**

The Company will experience competition for real property investments from individuals, corporations and bank and insurance company investment accounts, as well as other real estate limited partnerships, real estate investment funds, commercial developers, pension plans, other institutional and foreign investors and other entities engaged in real estate investment activities. The Company will compete against other potential purchasers of properties of high quality commercial properties leased to credit-worthy tenants and residential properties and, as a result of the weakened U.S. economy, there is greater competition for the properties of the type in which the Company will invest. Some of these competing entities may have greater financial and other resources allowing them to compete more effectively. This competition may result in the Company paying higher prices to acquire properties than it otherwise would, or the Company may be unable to acquire properties that it believes meet its investment objectives and are otherwise desirable investments.

In addition, the Company's properties may be located close to properties that are owned by other real estate investors and that compete with the Company for tenants. These competing properties may be better located and more suitable for desirable tenants than the Company's properties, resulting in a competitive advantage for these other properties. The Company may face similar competition from other properties that may be developed in the future. This competition may limit the Company's ability to lease space, increase its costs of securing tenants, limit its ability to charge rents and/or require it to make capital improvements it otherwise might not make to its properties. As a result, the Company may suffer reduced cash flow with a decrease in payments it may be able to make to Investors.

**Environmental regulation and issues, certain of which the Company may have no control over, may adversely impact the Company's business.**

Federal, state and local laws and regulations impose environmental controls, disclosure rules and zoning restrictions which directly impact the management, development, use, and/or sale of real estate. Such laws and regulations tend to discourage sales and leasing activities and mortgage lending with respect to some properties, and may therefore adversely affect the Company specifically, and the real estate industry in general. Failure by the Company to uncover and adequately protect against environmental issues in connection with a Portfolio Investment may subject the Company to liability as the buyer of such property or asset. Environmental laws and regulations impose liability on current or previous real property owners or operators for the cost of investigating, cleaning up or removing contamination caused by hazardous or toxic substances at the property. The Company may be held liable for such costs as a subsequent owner and developer of such property. Liability can be imposed even if the original actions were legal and the Company had no knowledge of, or was not responsible for, the presence of the hazardous or toxic substances. The Company may also be held responsible for the entire payment of the liability if the Company is subject to joint and several liability and the other responsible parties are unable to pay. Further, the Company may be liable under common law to third parties for damages and injuries resulting from environmental contamination emanating from the site, including the presence of asbestos containing materials. Insurance for such matters may not be available.

When excessive moisture accumulates in buildings or on building materials, mold growth may occur, particularly if the moisture problem remains undiscovered or is not addressed over a period of time. Some molds may produce airborne toxins or irritants. Concern about indoor exposure to mold has been increasing as exposure to mold may cause a variety of adverse health effects and symptoms, including allergic or other reactions. As a result, the presence of significant mold at any of our properties could require the Company to undertake a costly remediation program to contain or remove the mold from the affected property. In addition, the presence of significant mold could expose the Company to liability from its tenants, employees of such tenants and others if property damage or health concerns arise.

**The Company will be subject to risks related to the geographic location of the property it develops.**

The Company intends to develop and sell real estate assets. If the commercial or residential real estate markets or general economic conditions in this geographic area decline, the Company may experience a greater rate of default by tenants on their leases with respect to properties in these areas and the value of the properties in these areas could decline. Any of these events could materially adversely affect the Company's business, financial condition or results of operations.

**Risks Related to the Offering**

**There can be no guarantee that the Company will reach its funding target from potential Investors with respect to any Class or future proposed Class.**

Due to the start-up nature of the Company, there can be no guarantee that the Company will reach its funding target from potential Investors with respect to any Class or future proposed Class. In the event the Company does not reach a funding target, it may not be able to achieve its investment objectives.

**The Company's management may have broad discretion in how the Company uses the net proceeds of the Offering.**

Unless the Company has agreed to a specific use of the proceeds from the Offering, the Company's management will have considerable discretion over the use of proceeds from the Offering. An investor may not have the opportunity, as part of their investment in the Offering, to assess whether the proceeds are being used appropriately.

**The Company has the right to limit individual Investor commitment amounts based on the Company's determination of an Investor's sophistication.**

The Company may prevent any Investor from committing more than a certain amount in this Offering based on the Company's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Company's determination and not in line with relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Company's determination.

**The Company has the right to extend the Offering Deadline.**

The Company may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Target Offering Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment in the event the Company extends the Offering Deadline, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Company receiving the Target Offering Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Target Offering Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after the release of such funds to the Company, the Securities will be issued and distributed to you.

**The Company may also end the Offering early.**

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Company can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner may prevent you from being able to invest in this Offering – it also means the Company may limit the amount of capital it can raise during the Offering by ending the Offering early.

**The Company has the right to conduct multiple closings during the Offering.**

If the Company meets certain terms and conditions, an intermediate close of the Offering can occur, which will allow the Company to draw down on the proceeds committed and captured in the Offering during the relevant period. The Company may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

**Investors will not be entitled to any inspection or information rights other than those required by law.**

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by law. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information. Additionally, there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Company such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

**There is no guarantee of a return on an Investor's investment.**

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

**Risks Related to the Securities****Risks Of Borrowing.**

If the Company incurs indebtedness, a portion of its cash flow will have to be dedicated to the payment of principal and interest on such indebtedness. Typical loan agreements also might contain restrictive covenants which may impair the Company's operating flexibility. Such loan agreements would also provide for default under certain circumstances, such as failure to meet certain financial covenants. A default under a loan agreement could result in the loan becoming immediately due and payable and, if unpaid, a judgment in favor of such lender which would be senior to the rights of owners of Promissory Notes of the Company. A judgment creditor would have the right to foreclose on any of the Company's assets resulting in a material adverse effect on the Company's business, operating results or financial condition.

**Compliance With Securities Laws.**

The Notes are being offered for sale in reliance upon certain exemptions from the registration requirements of the Securities Act, applicable Wyoming Securities Laws, and other applicable state securities laws. If the sale of Notes were to fail to qualify for these exemptions, purchasers may seek rescission of their purchases of Notes. If a number of purchasers were to obtain rescission, GxP Collective Fund I LLC would face significant financial demands which could adversely affect GxP Collective Fund I LLC as a whole, as well as any non-rescinding purchasers.

**Limited Transferability & Liquidity.**

To satisfy the requirements of certain exemptions from registration under the Securities Act, and to conform with applicable state securities laws, each investor must acquire his Notes for investment purposes only and not with a view towards distribution. Consequently, certain conditions of the Securities Act may need to be satisfied prior to any sale, transfer, or other disposition of the Notes. Some of these conditions may include a minimum holding period, availability of certain reports, including financial statements from GxP Collective Fund I LLC, limitations on the percentage of Notes sold and the manner in which they are sold. GxP Collective Fund I LLC can prohibit any sale, transfer or disposition unless it receives an opinion of counsel provided at the holder's expense, in a form satisfactory to GxP Collective Fund I LLC, stating that the proposed sale, transfer or other disposition will not result in a violation of applicable federal or state securities laws and regulations. No public market exists for the Notes and no market is expected to develop. Consequently, owners of the Notes may have to hold their investment indefinitely and may not be able to liquidate their investments in GxP Collective Fund I LLC or pledge them as collateral for a loan in the event of an emergency.

**Long Term Nature Of Investment.**

An investment in the Notes may be long term and illiquid. As discussed above, the offer and sale of the Notes will not be registered under the Securities Act or any foreign or state securities laws by reason of exemptions from such registration which depends in part on the investment intent of the investors. Prospective investors will be required to represent in writing that they are purchasing the Notes for their own account for long-term investment and not with a view towards resale or distribution. Accordingly, purchasers of Notes must be willing and able to bear the economic risk of their investment for an indefinite period of time. It is likely that investors will not be able to liquidate their investment in the event of an emergency.

**State and federal securities laws are complex, and the Company could potentially be found to have not complied with all relevant state and federal securities law in prior offerings of securities.**

The Company has conducted previous offerings of securities and may not have complied with all relevant state and federal securities laws. If a court or regulatory body with the required jurisdiction ever concluded that the Company may have violated state or federal securities laws, any such violation could result in the Company being required to offer rescission rights to Investors in such offering. If such Investors exercised their rescission rights, the Company would have to pay to such Investors an amount of funds equal to the purchase price paid by such Investors plus interest from the date of any such purchase. No assurances can be given the Company will, if it is required to offer such Investors a rescission right, have sufficient funds to pay the prior Investors the amounts required or that proceeds from this Offering would not be used to pay such amounts. In addition, if the Company violated federal or state securities laws in connection with a prior offering and/or sale of its securities, federal or state regulators could bring an enforcement, regulatory and/or other legal action against the Company which, among other things, could result in the Company having to pay substantial fines and be prohibited from selling securities in the future.

**The U.S. Securities and Exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.**

You should not rely on the fact that our Form C is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C, nor any document or literature related to this Offering.

**Neither the Offering nor the Securities have been registered under federal or state securities laws.**

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits available in registered offerings, which may include access to quarterly and annual financial statements that have been audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C and the accompanying exhibits.

**The Securities will not be freely tradable under the Securities Act until one year from the initial purchase date.**

Although the Securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney. You should be aware of the long-term nature of this investment. There is not now and likely will not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof.

**There is no present market for the Securities and we have arbitrarily set the price.**

The Offering price was not established in a competitive market. We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our net

worth or prior earnings. We cannot guarantee that the Securities can be resold at the Offering price or at any other price. Investors Purchasing the Securities will have limited rights.

**A majority of the Company is owned by a small number of owners.**

Prior to the Offering, one entity beneficially owns 100% of outstanding membership interests of the Company. This individual security holder may be able to exercise significant influence over matters requiring owner approval, including the election of directors or managers and approval of significant Company transactions, and will have significant control over the Company's management and policies. This individual security holder may have securities that are different from yours. For example, this entity may support proposals and actions with which you may disagree. The concentration of ownership could delay or prevent a change in control of the Company or otherwise discourage a potential acquirer from attempting to obtain control of the Company, which in turn could reduce the price potential Investors are willing to pay for the Company. In addition, this individual security holder could use its voting influence to maintain the Company's existing management, delay or prevent changes in control of the Company, or support or reject other management and board proposals that are subject to owner approval.

**IN ADDITION TO THE RISKS LISTED ABOVE, RISKS AND UNCERTAINTIES NOT PRESENTLY KNOWN, OR WHICH WE CONSIDER IMMATERIAL AS OF THE DATE OF THIS FORM C, MAY ALSO HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND RESULT IN THE TOTAL LOSS OF YOUR INVESTMENT.**

## Independent Auditor's Report

To the Manager of

**GxP Collective Fund 1 LLC**

### Opinion

We have audited the accompanying financial statements of **GxP Collective Fund 1 LLC** (the "Company"), which comprise the balance sheet as of January 31, 2025, and the related statements of operations, changes in member's deficit, and cash flow for the period from January 17, 2025 (inception) to January 31, 2025 and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of January 31, 2025, and the related statements of operations, changes in member's deficit, and cash flow for the period from January 17, 2025 (inception) to January 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

### Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.

**Doubt about the Company's Ability to Continue as a Going Concern**

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note C to the financial statements include no assets or equity. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's evaluation of the events and conditions and management's plans regarding those matters are also described in Note C. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is not modified with respect to this matter.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

## **Notes to Financial Statements**

**January 31, 2025**

---

### **Note A – Nature of Business and Organization**

#### **Nature of Operations**

GxP Collective Fund 1 LLC was organized as a Wyoming Limited Liability Company that is structured as a debt fund dedicated to financing the acquisition, rehabilitation, and value-add transformation of real estate assets across diverse property types. Our target projects will span from single-family residential flips to large-scale industrial properties, allowing us to diversify investments and leverage opportunities across various market segments. Our goal is to secure projects that are fundamentally sound and align with our metrics, ensuring protection for our returns.

### **Note B – Significant Accounting Policies**

#### **Basis of Accounting**

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

#### **Financial Instruments**

The Company's financial instruments consist primarily of cash and investments. The carrying value of the financial instruments are considered to be representative of their respective fair value.

#### **Income Taxes**

GxP Collective Fund 1 LLC with the consent of its members, has elected to be taxed as a partnership. In lieu of income taxes, the members of partnerships are taxed on their proportionate share of the Company's taxable income. Therefore, no provision or liability for income taxes has been included in the financial statements.

Management has determined that the Company does not have any uncertain tax positions and associated unrecognized benefits that materially impact the financial statements or related disclosures. Since tax matters are subject to some degree of uncertainty, there can be no assurance that the Company's tax returns will not be challenged by the taxing authorities and that the Company will not be subject to additional tax, penalties, and interest as a result of such challenge.

#### **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make judgments, estimates and assumptions that affect the application of accounting policies, reported amounts, and disclosures. Actual results could differ from these estimates.

### **Note C – Going Concern**

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. The ability of the Company to continue as a going concern is dependent upon future sales and obtaining additional capital and financing. Accordingly, there is substantial doubt about the Company's ability to continue as a going concern. While the Company believes in the viability of its ability to raise additional funds, there can be no assurances to that effect. The financial statements do not include adjustments to reflect the possible effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the outcome of this uncertainty.

FOR VALUE RECEIVED, this Promissory Note (this “**Note**”) is made by GxP Collective Fund I LLC, a Wyoming limited liability company (“**Borrower**”), to and in favor of the undersigned (together with its successors and/or assigns, the “**Lender**”). This Note is being made in conjunction with that certain Regulation CF Note Purchase Subscription Agreement between the Borrower and the Lender and is dated as of the date of the signed agreement (the “**Subscription Agreement**”). Capitalized terms used but not otherwise defined in this Note have the meanings given such terms in the Subscription Agreement. This Note is one of the “**Notes**” referred to in, and evidences indebtedness incurred under, the Subscription Agreement, to which reference is made for a description of this Note.

NOW, THEREFORE, FOR VALUE RECEIVED, Borrower unconditionally promises to pay to the order of Lender, without any counterclaim, setoff or deduction whatsoever, the loan amount set forth on the signature page of the Subscription Agreement (hereinafter referred to as the “**Principal Balance**”), together with Interest Rate (defined below) beginning on the date of Closing set forth in the terms of the Subscription Agreement, in lawful money of the United States of America, which shall at the time of payment be legal tender in payment of all debts and dues, public and private.

### **ARTICLE I** **TERMS AND CONDITIONS**

1.1 **Terms of Note and Payment.** Borrower hereby promises to pay to the order of Lender the sum of the Principal Balance plus the fixed interest rate on the Principal Balance set forth on the signature page of the Subscription Agreement (the “**Interest Rate**”), as follows: Principal Balance and all interest shall be payable in a single “balloon” payment on the last day of the month set forth on the signature page of the Subscription Agreement, following the date of Closing set forth in the Subscription Agreement (the “**Maturity Date**”). On the Maturity Date, all interest and the outstanding, unpaid Principal Balance, and all other charges (including but not limited to Late Charges (defined below)), costs and fees shall be due and payable in full. Each

payment will be applied first to charges (including but not limited to Late Charges, costs and fees), then to interest and then to Principal Balance.

1.2 **Place of Payment.**

Borrower shall make payment in full of the Principal Balance, together with interest thereon pursuant to Section 1.1, by tendering payment to Lender at the address shown on the Subscription Agreement signature page or at such other place as from time to time may be designated in writing by Lender.

1.3 **Automatic Extension.**

Borrower shall issue written notice to Lender not less than sixty (60) and not more than ninety (90) days prior to the Maturity Date and Lender shall have thirty (30) days from the date of such notice to issue written notice to Borrower requesting payment of the entire Principal Balance then remaining unpaid, together with unpaid interest thereon, at the Maturity Date. In the event Lender does not make such request, the Maturity Date shall automatically and without further action be extended for one (1) year (the “**Extension Term**”), and may thereafter be extended for additional one (1) year periods in accordance with this Section 1.3.

**ARTICLE II**  
**PREPAYMENT AND FEES**

2.1 **Default.**

(a) **Events of Default.** Occurrence of any of the following shall constitute an event of default: (a) the nonpayment of any principal or interest by Borrower on the Note when the same becomes due and payable; (b) Borrower fails to pay when due any installment of interest hereunder or any other payment due hereunder and such failure continues for a period of five days, or (c) Borrower’s failure to comply with any material term, obligation, covenant, or condition contained in the Note. Upon an event of default, Lender may choose to notify Borrower of the default. Borrower shall have thirty (30) days from the date of the notice to remedy the default condition.

(b) **Late Charges.** If Lender has not received the full amount of any payment by the end of three hundred sixty five (365) calendar days after the date the payment is due, Borrower shall pay a late charge to Lender (the “**Late Charge(s)**”). The amount of the charge will be one percent (1%) of the overdue amount. The payment of such late charge shall not affect Lender’s other rights under this Note.

2.2 **Prepayment** Borrower may prepay all or a portion of the outstanding Principal Balance of this Note before or after the invocation of an Extension Term, without penalty of any kind (“**Prepayment**”). If Borrower intends to make a Prepayment, Borrower shall notify Lender in writing in advance of such Prepayment, and any Prepayment shall be accompanied by the payment of all costs, expenses or charges then owed to Lender pursuant to this Note; then Lender shall apply such Prepayment to reducing the outstanding Principal Balance under this Note.

2.3 **Redemption of Note.**

Prior to the Maturity Date, in the event the Lender desires redemption of this Note, the Lender shall submit a written request (“**Redemption Request**”) to the Borrower. The Borrower shall have sole and absolute discretion to determine whether or not the Borrower shall accept such Redemption Request. If the Borrower accepts a Redemption Request, to the extent there is sufficient and available cash flow, as determined by the Borrower in its sole discretion, the Borrower shall redeem the Note from the Lender for the Redemption Price. For purposes of this Note, the “**Redemption Price**” shall be equal to the original Principal Balance set forth above, and in such circumstance, the Lender specifically agrees to waive any right to the payment of any interest or other costs or charges accrued hereunder. If accepted by the Borrower, closing on the redemption of this Note shall occur electronically no later than the last business day of the subsequent fiscal quarter after the Borrower receives a Redemption Request, and the Borrower shall tender cash or other readily available funds to the Lender in payment of the Redemption Price for this Note.

**ARTICLE III**  
**SECURITY / ACCELERATION**

3.1 **Security** This Note is unsecured.

3.2 **Acceleration of Maturity**

In addition to any other remedy that Lender may have, at the option of Lender, in the event that Borrower shall be generally not paying its debts as they become due, or shall admit in writing its inability to pay such debts generally as they become due, or shall make a general assignment for the benefit of creditors; or any proceeding shall be instituted by or against Borrower, seeking to adjudicate Borrower bankrupt or insolvent, or seeking dissolution, liquidation, winding up, reorganization, arrangement, adjustment, protection, relief or composition of Borrower or the debts of Borrower under any law relating to bankruptcy, insolvency or reorganization or relief of debtors, or seeking the entry of an order for relief or the appointment of a receiver, trustee, custodian or other similar official for Borrower or for any substantial part of the property of Borrower, and, in the case of any such proceeding instituted against Borrower, the petition commencing such proceeding is not dismissed within 120 calendar days of the date of the filing thereof; or Borrower shall take any action to authorize or effect any of the actions set forth above, the whole of the Principal Balance, together with all interest and other charges due under this Note, shall immediately become due and payable (“**Acceleration of Maturity**”).

### 3.3 **Collection and Enforcement Costs**

In the event any interest is paid on this Note that is deemed to be in excess of the then legal maximum rate, then that portion of the interest payment representing an amount in excess of the then legal maximum rate shall be deemed a payment of principal and applied against the principal of this Note.

4.11 Severability. If any term or provision of this Note is invalid, illegal, or unenforceable in any jurisdiction, such invalidity, illegality, or unenforceability shall not affect any other term or provision of this Note or the Security Agreement or invalidate or render unenforceable such term or provision in any other jurisdiction.

4.12 Governing Law. This Note and all actions arising out of or in connection with this Note shall be governed by and construed in accordance with the laws of the State of Wyoming, without regard to the conflicts of law provisions of the State of Wyoming, or of any other state.
