Owner Smartfast Labs
June 2023 - Present (2 years)
Burnet County, Texas, United States

LitLingo Technologies
Co-Founder and CTO LitLingo Technologies
September 2019 - September 2023 (4 years 1 month)
Austin, Texas Area

LitLingo helps businesses communicate better. Our AI proactively identifies problematic language in employee communications in real-time by flagging risky or non-compliant language before the message is sent. While you are busy writing, our algorithms are working hard behind the scenes to recalibrate any mishaps in your messaging and help you avoid risky conversations altogether. LitLingo integrates with all of the enterprise communication channels your company is already using (e.g., Gmail, Outlook, Slack, Microsoft Teams, and Zendesk), providing real-time feedback to end-users, ensuring messages are in compliance, and your assets are protected. For more information, you can find us at www.litlingo.com.

Uber Advanced Technologies Group
4 years 5 months
