Collectively Bargained Savings and Retirement Plan

We have audited the accompanying statements of assets available for benefits of Cooper-Standard Automotive (Gaylord, Michigan Plant) UAW Local 388 Collectively Bargained Savings and Retirement Plan (the Plan) as of June 30, 2002 and 2001 and the related statement of changes in assets available for benefits for the year ended June 30, 2002. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets available for benefits of the Plan at June 30, 2002 and 2001, and the changes in its assets available for benefits for the year ended June 30, 2002, in conformity with accounting principles generally accepted in the United States.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules of assets (held at end of year) as of June 30, 2002, and reportable transactions for the year then ended, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

Notes to Financial Statements (Continued)

1. Description of Plan (continued)

Participant Loans

Participants may borrow the lesser of 100 percent of their participant elected contributions account or 50 percent of the vested value of their entire account. In no event should the maximum loan exceed \$50,000. The interest rate is established based on the prime rate. Interest rates as of June 30, 2002 range from 4.75% to 9.50%. The loan repayment schedule can be no longer than 54 months. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

In the event of retirement, death, termination, permanent disability or other separation from service, participants shall be entitled to receive an amount equal to the value of the vested value of their account. Payment of benefits may be taken in a lump sum cash distribution or in various annuity options.

Termination of the Plan

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to terminate the Plan subject to the provisions of ERISA.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Recognition

Except for the investments contracts held in the Investment Trust, the Plan's investments are stated at fair value, which equals the quoted market price on the last business day of the Plan year. The shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. The participant loans are valued at their outstanding balances, which approximate fair value.

Investment contracts are recorded at their contract values, which represent contributions and reinvested income, less any withdrawal plus accrued interest, because these investments have fully-benefit responsive features. There are no reserves against contract values for credit risk of contract issues or otherwise. The average yield was approximately 5.10% in 2002. The crediting interest rate of these investment contracts is reset monthly by the issuer but cannot be less than zero and ranged from 2.24% to 6.32% at June 30, 2002.
