The members of the Committee meet the independence requirements of the New York Stock Exchange and the Sarbanes-Oxley Act of 2002. The Board has determined that Robert A. Stefanko and J. Pension Plan Information

The Company maintains qualified and nonqualified defined benefit pension plans for eligible employees. The tax-qualified plan is The Davey Tree Expert Company Employee Retirement Plan ("ERP"). The nonqualified plans, all of which were effective on and after January 1, 2003, are The Davey Tree Expert Company Supplemental Executive Retirement Plan ("SERP") and The Davey Tree Expert Company Retirement Benefit Restoration Plan ("Restoration Plan").

Under the Restoration Plan, an employee whose benefit under the ERP is limited by applicable sections of the Internal Revenue Code is eligible to qualify for a benefit. The Board of Directors determines who, among eligible employees, will participate in the Restoration Plan. The Restoration Plan allows for a restoration accrual such that the employee would receive a monthly benefit that, when added to the monthly benefit from the ERP, equals the monthly retirement benefit that would have been payable if certain Internal Revenue Code provisions were not in effect.

The following table sets forth the estimated annual benefits payable under both the ERP and Restoration Plan that would be payable on a straight life annuity basis, in various compensation classifications upon retirement at age 65, after selected periods of service:

An employee's Final Average Annual Compensation is the employee's average W-2 earnings for the years participating in the plans.

As of December 31, 2005, the credited years of service under The Davey Tree Expert Company plans for Messrs. Cowan, Warnke, Adante, Celmer and Bowles were 20.4, 17.0, 23.0, 22.1 and 30.0, respectively.

The SERP provides a retirement benefit equal to 30% multiplied by a Final Average Compensation calculation, which is then reduced by the sum of the employee's Restoration Plan benefit, ERP benefit, 401KSOP Plan benefit, Match Plan benefit and one-half of the employee's Social Security benefit. This amount is further reduced if a participant has less than 20 years of service at age 65. "Final Average Compensation" is based on the average of the highest three annual earnings out of the five years prior to retirement. The Board of Directors determines who will participate in the SERP.

The estimated annual benefits payable on a straight life annuity basis upon retirement at age 65 under the SERP are as follows:

<u>Name</u>	<u>Annual Benefit</u>
R. Douglas Cowan	\$ 0
Karl J. Warnke	30,000
David E. Adante	0
C. Kenneth Celmer	0

REPORT OF THE COMPENSATION COMMITTEE

General

The Compensation Committee of the Board of Directors, composed entirely of nonemployee directors, is responsible for management succession matters, for administering the Company's executive incentive and benefits programs, and for establishing salaries for executive officers. The Committee's recommendations in these matters are presented to the Board of Directors for approval. In its deliberations, the Committee periodically retains outside consultants to assess the fairness of the Company's compensation programs and meets frequently with the Chief Executive Officer of the Company to obtain management's recommendations on compensation issues.

Compensation Policies

The Committee is careful to align executive officer compensation with the interests of shareholders. The Committee has established a policy whereby a substantial portion of the compensation of executive officers, including the Chief Executive Officer, is contingent on the profitability of the Company. Approximately 20% to 50% of an executive officer's compensation is determined based on operating profit, pretax income and return on invested capital. The fundamental theory of this policy is that the shareholders of the Company are entitled to a fair return on their investment before any incentive payments are made to executive officers. To the extent that the efforts of the executive officers result in a higher net income, the Committee believes that the officers should be rewarded. The Committee and the Board of Directors believe that this compensation policy creates a significant incentive for management of the Company, which in turn creates long-term benefits for the shareholders.

Due to limitations imposed by the Internal Revenue Code on retirement benefits available to executive officers under qualified retirement plans, like the 401KSOP and ESOP and the Employee Retirement Plan, executive officers of the Company would receive retirement benefits that are significantly less, as a percentage of final average pay, than the retirement benefits available to other Company employees and to executive officers at other comparable companies. As a result, beginning in 2003, the Committee undertook to study and improve the Company's retirement benefits for executive officers in order to provide additional retirement benefits to the Company's executive officers and to retain and attract qualified executive and management talent. The Committee determined to achieve its objectives by adopting non-qualified retirement plans that will supplement the Company's existing qualified retirement plans and by granting restricted stock awards. The combination of these programs will reduce the disparity between the Company's executive officers' retirement benefits and the retirement benefits available to other Company employees and to executive officers at comparable companies.

The provisions of the plans were developed by the Compensation Committee of the Board of Directors with the assistance of an independent consulting firm having substantial experience in designing employee benefit plans. The Board developed these plans while remaining fully cognizant of their duties to the shareholders and their obligations as contemplated by the intent of the Sarbanes-Oxley Act. **To assure investors that the plans were developed with these tenets in mind, Company management personnel were not involved in the development of the plans.**

Each of these programs is discussed under the appropriate heading below.

Base Salary

Base salary levels are largely determined on the basis of comparisons with similar companies of approximately the same size and complexity. The Committee periodically retains a nationally-known compensation consulting firm to conduct a compensation competitiveness study to determine the adequacy of the Company's compensation for executive officers compared to the compensation of officers in comparable companies. The study was updated in 2006 and compensation ranges are established by the Committee for each of the officers on the basis of job description and market comparisons. The Committee's general policy regarding base salary is that the Company's executive officers should be compensated near the "mid-point" of the market range established by the consultants, giving allowance for experience and provided that the Company's long-term goals are being achieved. None of the executive officers has an employment agreement with the Company.

The Committee reviews the performance of each of the officers of the Company with the Chief Executive Officer at each of its meetings and is particularly attentive to an assessment of the officer's performance against goals, demonstrated capabilities and development of subordinates. The salary adjustments for the Chief Executive Officer and Chief Operating Officer are determined solely by the Committee after an evaluation of the same criteria used for other executive officers. The officers of the Company are generally on a 12- to 15-month salary adjustment cycle.

Incentive Compensation

In 2002, the Board of Directors adopted a Management Incentive Plan based on achieving a consolidated operating profit target. This operating profit target is established each year by the Compensation Committee and ratified by the Board of Directors. The Bonus Fund is determined each year based on that year's performance to target. If the consolidated operating profit is less than 80% of target, there will be no Bonus Fund. The amount of the Bonus Fund will increase the closer the actual results are to the target. If results are above the operating profit target, the fund will increase correspondingly. The Bonus Fund will continue to be allocated by the Committee to the management group based on individual performance, segment performance, as well as overall Company performance.

Omnibus Stock Plan

In 2004, the shareholders approved the 2004 Omnibus Stock Plan (the "Plan"), which consolidates into a single plan provisions for the grant of stock options, other stock-based incentives, and the maintenance of an employee stock purchase program. The Plan replaced the 1994 Omnibus Stock Plan under which no future grants will be made. Provisions of the Plan give the Committee broad discretion to fashion the terms of awards in order to provide the Company's employees with stock-based incentives that are appropriate under the circumstances.

The Committee approved regular and performance-based restricted stock awards under the Plan for certain executive officers, including the Chief Executive Officer. These awards were made to provide retention incentives, reward superior corporate performance and provide additional retirement benefits. The regular restricted stock awards were granted primarily to provide retention incentives and additional retirement benefits and will vest on the earlier to occur of five years following the date of grant or retirement. The performance-based restricted stock awards were made based upon the return on invested capital for the fiscal year and will vest on the earlier to occur of five years following the date of grant or retirement. The Committee believes that return on invested capital is an appropriate measure of corporate performance because achievement of these targets would increase shareholder return and provide expansion opportunities for the Company.

The return on invested capital target will be established each year by the Compensation Committee and ratified by the Board of Directors. The performance-based restricted stock awards will be made with respect to each fiscal year based upon performance. The level of an award is made based on a return on invested capital calculation; however, if the return on invested capital is less than 8%, there will be no performance-based restricted stock awards. The Committee established the return on invested capital target in 2004 at a level above that which historically has been achieved by the Company. In addition, in order to achieve the targeted retirement benefit for the executive officers, the Company's stock would have to appreciate in value over the period until retirement at a rate of 10% per year. By establishing performance targets aggressively and assuming strong appreciation rates, the Committee believes that it has aligned each executive officer's restricted stock award with shareholder interests.

The Committee awarded Mr. Cowan's restricted stock based upon the Company's success in achieving its performance targets, Mr. Cowan's contribution to the Company's overall performance and in light of the Committee's desire to provide additional retirement benefits to Mr. Cowan. Since Mr. Cowan is closer to normal retirement age than any of the other executive officers, his restricted stock awards were greater than those of the other executive officers, who are further from normal retirement age.

Nonqualified Retirement Plans

In 2004, the Board approved and implemented the nonqualified retirement plans described below. The Board retains the authority and responsibility to determine eligibility of and participation by Company employees in the plans.

The plans, all of which are effective on and after January 1, 2003, are The Davey Tree Expert Company 401KSOP Match Restoration Plan (the “Match Plan”), The Davey Tree Expert Company Supplemental Executive Retirement Plan (the “SERP Plan”), and The Davey Tree Expert Company Retirement Benefit Restoration Plan (the “Restoration Plan”). Copies of each of the plans were filed as exhibits to the Company’s Quarterly Report on Form 10-Q for the period ended July 3, 2004 and filed with the SEC on August 11, 2004.

Pursuant to the Match Plan, an employee who has elected to contribute as tax-deferred contributions the maximum amount which was eligible for matching under the 401KSOP Plan, but who is precluded by specified sections of the Internal Revenue Code from fully participating, is eligible to participate in the Match Plan. The Company will establish an account for each employee with respect to whom such a situation has occurred to reflect that employee’s interest in the Match Plan. Payments under the Match Plan will be made from the Company’s general assets.

The SERP provides a retirement benefit equal to 30% multiplied by a Final Average Compensation calculation, which is then reduced by the sum of the employee’s Restoration Plan benefit, ERP benefit, 401KSOP Plan benefit, Match Plan benefit and one-half of the employee’s Social Security benefit. This amount is further reduced if a participant has less than 20 years of service at age 65. “Final Average Compensation” is based on the average of the highest three annual earnings out of the five years prior to retirement. The Board of Directors determines who will participate in the SERP.

Under the Restoration Plan, an employee whose benefit under the Company’s Employee Retirement Plan is limited by the Internal Revenue Code is eligible to qualify for a benefit. The plan allows for a restoration payment that, when added to the monthly retirement benefit, equals the monthly retirement benefit that would have been payable if certain Internal Revenue Code provisions were not in effect.

Although the Board of Directors does not have any current plans to do so, amendments to the plans can be made by the Board of Directors to change the cost thereof and the allocation of benefits between the persons and groups.

By the Compensation Committee of the Board of Directors: R. Cary Blair (Chairman), J. Dawson Cunningham, Douglas K. Hall, Willard R. Holland and Robert A. Stefanko.

Indebtedness of Management

The 2002 stock subscription offering resulted in subscriptions for 836,007 common shares, whereby some employees opted to finance their subscriptions with a down payment of at least 10% of their total purchase price and a seven-year promissory note for the balance due, with the interest due at 4.75%. Promissory note payments of both principal and interest are made either by payroll deduction or annual lump sum payment. The promissory notes are collateralized with the common shares subscribed and the common shares are only issued when the related promissory note is paid-in-full. Dividends are paid on all unissued subscribed shares. The loans made pursuant to the subscription offering preceded the effective date and are, therefore, not subject to the prohibition of loans to Company officers under the Sarbanes-Oxley Act of 2002. In connection with the stock subscription offering, certain officers were indebted to the Company for amounts in excess of \$60,000, as follows, representing the balance due on their promissory notes at December 31, 2005.

<u>Officer</u>	<u>Largest Total Subscription Shares</u>	<u>Largest Amount of Indebtedness (Excluding Interest) in 2005</u>	<u>Total Indebtedness (Excluding Interest) at December 31, 2005</u>

INDEPENDENT AUDITORS

The Company engaged Ernst & Young LLP as its independent auditors to act as the principal accountant to audit the Company's consolidated financial statements and internal control over financial reporting for 2005 and to attest to management's report on internal control over financial reporting.

The Board of Directors and its Audit Committee participated in and approved the engagement of Ernst & Young.

Fees and Other Matters

Under the Audit Committee's charter (Appendix B to this proxy statement), the Committee is required to give advance approval of any nonaudit services to be performed by the independent auditors, provided that such services are not otherwise prohibited by law or regulation. There is no *de minimis* exception to the Committee's preapproval procedures. The Committee may delegate the responsibility for this approval to one or more of its members, so long as the members report any such approvals to the full Committee at its next meeting. Such delegation procedures are presently in place. In addition, the Committee has also set specific limits on the amount of such services which the Company would obtain from Ernst & Young and requires management to report the specific engagement to the Committee at its next meeting.

The aggregate fees billed to the Company for professional services rendered by Ernst & Young for 2005 and 2004 were:

<u>Type of Fees</u>	<u>2005</u>	<u>2004</u>
Audit fees	\$ 452,600	\$ 463,000
Audit-related fees	50,700	27,200
Tax fees	89,300	239,000
All other fees	-0-	-0-

In the above table, “audit fees” are fees the Company paid Ernst & Young for professional services for the audit of the Company’s consolidated financial statements included in its Form 10-K, review of financial statements included in its Forms 10-Q under Section 404 of the Sarbanes-Oxley Act. “Audit fees” include Sarbanes-Oxley Section 404 fees of \$185,000 in 2005 and \$215,000 in 2004. “Audit-related fees” are fees for audits of employee benefit plan financial statements and other assurance services; “tax fees” are for tax compliance, tax advice and tax planning; and “all other fees” are for fees billed by Ernst & Young to the Company for any services not included in the first three categories.

At the Annual Meeting

Representatives of Ernst & Young will have the opportunity to make a statement at the Annual Meeting and will be otherwise available to respond to appropriate questions from the shareholders.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee of the Board of Directors has reviewed and discussed with management the audited consolidated financial statements of the Company.

The Committee reviewed with the independent auditors their judgments as to the quality, not just the acceptability, of the Company’s accounting principles, and such other matters as the Committee and the auditors are required to discuss under auditing standards generally accepted in the United States. The Committee also discussed with the auditors the auditors’ independence from management and the Company, including the matters in the written disclosures required by the Independence Standards Board, and considered the compatibility of nonaudit services with the auditors’ independence. In addition, the Committee discussed with management their assessment of the effectiveness of the Company’s internal control over financial reporting, and discussed with Ernst & Young their audits of (i) management’s assessment of the effectiveness of internal control over financial reporting and (ii) the effectiveness of internal control over financial reporting.

Based on the foregoing reviews and discussions, the Committee recommended to the Board of Directors that the audited consolidated financial statements of the Company be included in the Company’s annual report on Form 10-K for the year ended December 31, 2005, for filing with the SEC.

By the Audit Committee of the Board of Directors: Dr. Carol A. Cartwright, J. Dawson Cunningham, Douglas K. Hall (Chairman) and Robert A. Stefanko.

Audit Committee Charter

The Audit Committee Charter is attached hereto as Appendix B.

GENERAL

Voting at the Meeting

Shareholders of record at the close of business on April 1, 2006 (the “record date”) are entitled to notice of and to vote at the meeting. On that date, a total of 8,255,795 of the Company’s common shares were outstanding and entitled to vote. Each of the Company’s common shares is entitled to one vote.

Each shareholder has the right to vote cumulatively if any shareholder gives notice in writing to the President, any Vice President or the Secretary of the Company at least 48 hours before the time set for the meeting and an announcement of the notice is made at the beginning of the meeting by the Chairman or the Secretary, or by or on behalf of the shareholder giving notice. If cumulative voting is in effect, shareholders will be entitled to cast a number of votes equal to the number of shares voting multiplied by the number of directors to be elected. A shareholder may cast all of these votes for one nominee or distribute them among several nominees, as that shareholder sees fit. If cumulative voting is in effect, shares represented by each properly signed proxy card will also be voted on a cumulative basis, with the votes distributed among the nominees in accordance with the judgment of the persons named in the proxy card.

Under Ohio law, directors are elected by a plurality of the votes of shareholders of the Company present at a meeting at which a quorum is present, and proposals are adopted or approved by the vote of a specified percentage of the voting power of the Company. Abstentions and nonvotes are tabulated in determining the votes present at the meeting. Consequently, except as provided in the 401KSOP and ESOP Plan, an abstention or a nonvote may have the same effect as a vote against a director nominee or a proposal, as each abstention or nonvote would be one less vote for a director nominee or a proposal.

If any of the nominees listed on pages three and four becomes unable or declines to serve as a director, each properly signed proxy card will be voted for another person recommended by the Board of Directors. However, the Board of Directors has no reason to believe that this will occur.

Other than as presented in this Proxy Statement, the Board of Directors knows of no other matters that will be presented at the meeting. However, if other matters do properly come before the meeting, the person named in the proxy card will vote on these matters in accordance with his or her best judgment.

Shareholder Proposals and Communications

Any shareholder who wishes to submit a proposal to be considered for inclusion in next year’s Proxy Statement should send the proposal to the Company on or before December 18, 2006. Additionally, a shareholder may submit a proposal for consideration at next year’s Annual Meeting of Shareholders, but not for inclusion in next year’s Proxy Statement, if that proposal is submitted on or before March 3, 2007.

The Company has established procedures to permit confidential communications by shareholders to the Board of Directors regarding the Company. Shareholders may communicate directly with the Board of Directors by mail at the following address: Mr. R. Douglas Cowan, Director, c/o Secretary, The Davey Tree Expert Company, Attn: Shareholder Communications, 1500 North Mantua Street, Kent, OH 44240.

Expenses of Requesting Proxies

The Company will bear the expense of preparing, printing, and mailing this Notice and Proxy Statement. In addition to requesting proxies by mail, officers and regular employees of the Company may request proxies by telephone or in person. The Company will ask custodians, nominees, and fiduciaries to send proxy material to beneficial owners in order to obtain voting instructions. The Company will, upon request, reimburse them for their reasonable expenses for mailing the proxy material.

Annual Report

The Company's Annual Report to Shareholders, including financial statements for the year ended December 31, 2005, is being mailed to shareholders of record with this Proxy Statement.

DAVID E. ADANTE
Secretary
