Global Gaming Technology, Inc.  
Notes to Financial Statements  
September 30, 2001

NOTE 1 – Summary of Significant Accounting Policies:

Organization and nature of business:

Global Gaming and Technology, Inc. (The “Company”) was incorporated in the State of Delaware in 1973 and has elected June 30th as its year end. The Company, although dormant until recently, is engaged in the research, development, manufacture, and marketing of electronic gaming devices and coinless games of chance.

Uses of estimates in preparation of financial statements:

The preparation of financial statements in conformity with general accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues during the reporting period. Actual results could differ from those estimates.

Loss per share:

Loss per share was computed by dividing the net loss or loss by the weighted average number of shares outstanding during the period.

Revenue recognition:

The Company recognizes revenue upon delivery of the machines.

NOTE 2 – Organization’s Ability to Continue as a Going Concern:

The Company was dormant for the past several years and lacks the resources to be competitive in the gaming industry at the present time. As of September 30, 2001, the Company has negative working capital of \$2,192,719 and Stockholders’ Deficit of \$2,192,519.

NOTE 3 – Related Party Transactions:

Note Receivable, related party at September 30, 2001, of \$55,895 is due from a company under common control, is non-interest bearing, and is scheduled to mature in March, 2002.

See “Note 4- Notes Payable” for details.

The Company received a down payment of \$360,150 and delivered 120 machines. Deferred revenue has been recorded based on the number of machines delivered for which the down payment has been received.

ITEM II – Management's Discussion and Analysis of  
Financial Condition and Results of Operations

As of September 30, 2001, the Company had negative working capital of \$2,192,719. The Company has no commitments for capital expenditures.

As of September 30, 2001, the Company had a stockholders' deficit of \$2,192,519.

Expenses for the three months totaled \$46,977, of which \$17,500 is accrued interest expense.

Based upon the business opportunities believed to exist in the tribal casino market in California, the Company registered and received Determination of Suitability to do business in the State of California in the past fiscal year. The Company has also been granted tribal vendor gaming license approval by the Colusa Tribal Counsel and Gaming Commission, Colusa, California and a temporary vendor license by the Hopland Tribal Council and Gaming Commission. The Company entered into a contract with the Sho-Ka-Wah Casino on October 6, 2000, which provided for the sale of 230 used gaming devices of various makes and manufacture in consideration for \$720,300. The Company received \$360,150 and delivered 120 machines in March, 2001. The Sho-Ka-Wah Casino had not paid the balance owed under the contract and the company could not deliver the remaining equipment contracted for without payment. Therefore, to mitigate its damages, the Company sold 80 of the remaining gaming devices covered by the contract to Gamemasters, a private Nevada sole proprietorship owned by Michael Wichinsky, the beneficial owner of 19.4 percent of the Company's outstanding common stock and the father of Glenn E. Wichinsky, the Company's President, and Claudia D. Wichinsky, a director of the Company. The Company has received \$30,000 during the three months ended September 30, 2001, from Gamemasters toward the sale price of \$87,895 for those 80 gaming devices which was the amount offset by money owed to Gamemasters related to the purchase of the original 120 used gaming machines that were delivered and additional parts and associated equipment previously shipped to the Sho-Ka-Wah Casino. See **Certain Relationships and Related Transactions**.

Global Gaming Technology, Inc. has been engaged in the design, manufacture and marketing of electronic microprocessor-controlled gaming machines. The Company, which was incorporated in Delaware in 1973, maintains its principal offices at 1200 N. Federal @ ighway, Ste.200, Boca Raton, FL 33432.

During the past two fiscal years, the company has not engaged in any research and development of new gaming products and no new gaming machines were manufactured. The Company did not extend its market or the marketing of its products during the past fiscal year beyond those activities discussed above with the Sho-Ka-Wah Casino.

However, the Company anticipates that it will continue marketing quality, used and refurbished gaming equipment for sale or lease in legal domestic gaming jurisdictions or for export to foreign markets. The Company has three salaried employees and one commissioned independent agent sales representative. All employees work part-time.

The gaming machine industry is highly competitive. Bally Gaming (“Bally”) and International Gaming Technology (“IGT”) are principal domestic competitors. Additionally, Asian and Australian manufacturing and marketing companies have entered the domestic market and have become a significant competitive factor. Newer technology has made certain products obsolete. The Company has lacked the financial resources to compete in markets for the sale of new products and seeks to redirect its emphasis into the marketing of quality used gaming equipment.

Some of the principal shareholders of the Company have informally agreed to participate in the contribution of shares to the Company, which the Company will have available for acquisitions of assets of other businesses. With the exception of the program to make acquisitions through the use of these shares, the Company has not yet formulated any specific financing arrangements.

The lack of financial resources has prohibited the Company from expanding operations. The primary gaming markets cannot be serviced unless the Company obtains gaming licenses in these states. Because of the prohibitive costs of obtaining these licenses, the Company has no plans to seek licensing in these states, but is attempting to export used gaming equipment to foreign markets, subject to obtaining the necessary financing.

## PART II – OTHER INFORMATION

### ITEM 1 – Legal Proceedings

The Company is not a party to any current or pending litigation.

### ITEM 2 – Changes in Securities

None.

### ITEM 3 – Defaults Upon Senior Securities

Not Applicable.

#### ITEM 4 – Submission of Matters to a Vote of Security Holders

No matter was submitted to the vote of security holders during the period ended September 30, 2001.

#### ITEM 5 – Certain Relationships and Related Transactions

Under the terms of a contract dated October 6, 2000, the Sho-Ka-Wah Casino agreed to purchase 230 used gaming machines from the Company in consideration for a total purchase price of \$720,300. Following execution of the contract, the Company agreed to purchase 150 of the machines and parts for those machines from Gamemasters. Gamemasters is a sole proprietorship owned by Michael Wichinsky, the beneficial owner of 19.45% of the Company's common stock and the father of Glenn Wichinsky, the Company's President, and Claudia Wichinsky, a Director of the Company. The remaining 80 machines were purchased from an unaffiliated third party. The Sho-Ka-Wah Casino only paid \$360,150 of the selling price and only 120 of the machines were delivered. These 120 machines were purchased on account from Gamemasters at a total price of \$184,100. The Company never received the remaining 30 machines from Gamemasters and Gamemasters agreed to assume any losses incurred by its having originally acquired these devices for subsequent resale to the Company.

Regarding the remaining 80 machines purchased from a third party, the Company's base cost for these machines was \$270,000. The Company determined that these 80 gaming devices were not readily marketable in other gaming jurisdictions without an investment of substantial capital. In addition, these devices require upgrading which would have entailed additional cost to the Company. To mitigate its damages, the Company accepted an offer of purchase from Gamemasters to acquire these 80 games in "as-is condition" without the requirement on the Company for further program upgrading at a cost of \$270,000, the price paid by the Company to the third party. This amount was offset by money owed to Gamemasters related to the purchase of the original 120 used gaming machines which were delivered and for orders of additional parts and associated equipment previously shipped to the Sho-Ka-Wah Casino. The balance due to the Company was \$85,895. Under the terms of an agreement between the company and Gamemasters, dated June 11, 2001, Gamemasters agreed to pay the Company \$10,000 per month without interest until its debt was paid. The payments began in July 2001, and will continue to March 2002. The Company determined not to assess interest on the \$85,895 balance because Gamemasters had relieved the Company of its obligation for the 30 machines Gamemasters had purchased for resale to the Company. The Company has received \$30,000 in payments during the period ending September 30, 2001.

#### ITEM 6 – Exhibits and Reports on Form 8-K
