What affects our business?

THE DIXIE GROUP

The market dynamics:

- Residentially
 - The market is driven by home sales and remodeling
 - New construction is a smaller effect
 - Dixie is driven by the wealth effect
 - The stock market and consumer confidence
- Commercially
 - The market is driven by remodeling of offices, schools, retail and hospitality as demonstrated by the investment in non-residential fixed structures
 - Dixie is driven by upper-end remodeling in offices, retail remodeling, higher education, and upper-end hospitality that primarily involves a designer

New and Existing Home Sales

Seasonally Adjusted Annual Rate

THE DIXIE GROUP

- “Insufficient supply appears to be hampering prospective buyers in several areas of the country and is hiking prices to near unsuitable levels.
- “Stronger price growth is a boon for homeowners looking to build additional equity, but it continues to be an obstacle for current buyers looking to close before rates rise.
- “With all indications pointing to a rate increase from the Federal Reserve this year – perhaps as early as this summer – affordability concerns could heighten as home prices and rents both continue to exceed wages

Recast Non-GAAP Information Year 2014

THE DIXIE GROUP

Use of Non-GAAP Financial Information:

The Company believes that non-GAAP performance measures, which management uses in evaluating the Company's business, may provide users of the Company's financial information with additional meaningful bases for comparing the Company's current results and results in a prior period, as these measures reflect factors that are unique to one period relative to the comparable period. However, the non-GAAP performance measures should be viewed in addition to, not as an alternative for, the Company's reported results under accounting principles generally accepted in the United States.

The Company has recast the numbers for 2014 in the following ways:

- Note 1 - Using the actual experience in claims and allowances in adjusting sales
- Note 2 - Using the manufacturing variances in line with the actual experience achieved in 2013 in adjusting Cost of Sales
- Note 3 - Eliminating the restructuring expense in Operating Income
- Note 4 - Removing the Atlas and Burtco transaction expenses in adjusting Cost of Sales & General and Administrative costs
- Note 4 - Removing the gain on purchase of Atlas and Burtco as a result of the write up of assets under fair value accounting
- Note 5 - Removing the operating loss and loss on asset disposal in Discontinued Operations due to the closure of the Carousel line of business
- Results do include results of Atlas Carpet Mills from March 2014 and Burtco from September 2014
