Response letter dated December 8, 2010

Dear Ms. Williams:

We have reviewed your filings and response letter and have the following comments. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure.

Please respond to this letter within ten business days by amending your filing, by providing the requested information, or by advising us when you will provide the requested response. If you do not believe our comments apply to your facts and circumstances or do not believe an amendment is appropriate, please tell us why in your response.

After reviewing any amendment to your filing and the information you provide in response to these comments, we may have additional comments.

Form 10-K for Fiscal Year Ended December 31, 2009

General

1. We note a number of your prior responses indicate you intend to revise your future filings. Please note we believe an amendment to your Form 10-K for the fiscal year ended December 31, 2009 is appropriate.

2. We note from your response to comment number seven that your proved undeveloped oil and gas reserves primarily related to Main Pass 35 decreased by 64 percent and 94 percent, respectively, from December 31, 2008, which you attribute to the uneconomic nature of projects using 2009 twelve month average pricing. Please clarify for us the following:
 - Explain to us how you considered the disclosure requirements of ASC 932-10-65-c-3;
 - Tell us the specific price assumptions you used to establish your oil and gas reserves at December 31, 2009 and 2008, respectively;
 - Revise your proposed additional disclosure to quantify the capital expenditures made related to your PUDs pursuant to Item 1203(c) of Regulation S-K; and
 - Describe to us in detail the reasons why you did not address Item 1203 in your original filing.
3. We note your response to prior comment nine. Please remove any quantitative disclosure of Spitfire's estimated reserves and standardized measure from your document, and disclose the reasons such information is not included.

4. We note your response to prior comment 10 indicates you used a cumulative probability table to determine the amount of unrecognized tax positions to record. Please tell us how you considered providing enhanced analysis of the sensitivity of your estimates to changes in assumptions related to uncertain tax positions pursuant to Section V. of SEC Release No. 33-8350. As part of your response, explain to us in detail whether changes in the probabilities assigned to the outcomes you describe are reasonably likely to occur and could have a material impact.

5. We note your response to prior comment 11 indicates you have reviewed the recent accounting guidance in the current year and noted that your original conclusions with respect to your investment in BWI have not changed. Please expand your response to explain your analysis of changes to recent accounting guidance as well as whether the transactions with BWI in fiscal 2010 impacted your analysis and conclusions. your response, please explain to us in further detail the activities you believe most significantly impact BWI's economic performance and which member controls those activities. In addition, please describe the conditions in Section 5 of the Operating Agreement under which HKN would not be the sole decision maker.

6. We note your response to prior comment 16 indicates that you valued the total consideration transferred for the BWI acquisition at approximately \$1.4 million. Please explain to us in further detail why you believe the fair value of consideration transferred, which included a put/call option in addition to restricted shares, appears to be less than the total fair value of the restricted stock you transferred to consummate the acquisition. In this regard, it appears that consideration transferred should be at least equal to if not greater than the apparent fair value of the restricted stock.

You may contact Mark Wojciechowski at (202) 551-3759 or, in his absence, Mark Shannon, Branch Chief, at (202) 551-3299 if you have questions regarding comments on the financial statements and related matters.
