Form 10-K For the fiscal year ended December 31, 2021

Consolidated Financial Statements

Note 8. Other Operating Expenses, page 86

1. We note you entered into a series of related agreements to resolve litigation and to modify and partially terminate the related prior commercial arrangements, and \$547 million was recorded as pretax contract settlement expense due to the unfavorable nature of the arrangement and \$34 million was capitalized as intangible assets. Please explain to us in further detail the basis for predominantly recording the arrangement as contract settlement expense. As part of your response, please provide details of the significant assumptions and methodologies in the valuation used to assist you in determining the value of each of the elements of the transaction. In addition, your response should also include:

- details of the underlying litigation;
- the significant terms of each of the agreements;

- the reason why the payments were structured over a duration through 2029, and not all upfront;
- how the non-fixed portion of the payments are to be determined;
- the elements of the transaction and the specific unfavorable nature of the prior arrangement that resulted in significant expense being recorded and why greater value was not attributed to the ongoing acquired rights;
- the reason why the payments are not expensed as due;
- the reason why you did not account for each agreement on a stand-alone basis; and
- the reason it is appropriate to present the cash outflows as a financing activity.

In closing, we remind you that the company and its management are responsible for the accuracy and adequacy of their disclosures, notwithstanding any review, comments, action or absence of action by the staff.
