Impairment of goodwill, trade names and other intangible assets, page 34

1. We note that due to recent sales and profit declines, a significant portion of the excess between fair value and the carrying value of certain of your personal care trade names has eroded. To help inventors more fully understand the potential impairment risk associated with these assets, please identify each material trade name with a fair value that is not substantially in excess of its carrying value and disclose the following:
 - the carrying value and the percentage by which fair value exceeded carrying value; and
 - describe the variables underlying your “relief from royalty” and/or “excess earnings” discounted cash flows such that changes in those variables may result in a decline in fair value significant enough to trigger an impairment charge for the trade name.Refer to Section V of Release 33-8350.
