*(Dollars in thousands)*

**1. Organization**

Transamerica Capital, Inc. (the “Company”) is a wholly owned subsidiary of AUSA Holding, LLC (“AUSA”) which is wholly owned by Transamerica Corporation (the “Parent”), which is a wholly owned subsidiary of AEGON N.V., a public limited liability company organized under Dutch law. The Company is a limited purpose broker-dealer registered with the Securities and Exchange Commission (“SEC”) and is a member of the Financial Industry Regulatory Authority (“FINRA”). The Company markets and distributes insurance products and mutual fund products as underwriter and distributor for affiliated companies.

**2. Summary of Significant Accounting Policies**

**Basis of Accounting**

The accompanying financial statement has been prepared in conformity with U.S. generally accepted accounting principles (“U.S. GAAP”).

**Estimates**

The preparation of financial statement in conformity with U.S. GAAP requires management to make estimates and assumptions affecting the reported amounts of assets, liabilities, revenues, and expenses and the disclosures of contingent assets and liabilities. Those estimates are inherently subject to change and actual results could differ from those estimates.

**Cash and Cash Equivalents**

Cash and Cash Equivalents include cash on deposit, and money market funds with original maturities of three months or less. Money market funds are valued based at amortized cost, which approximates fair value. At December 31, 2022, the Company had cash accounts, which exceeded federally insured limits, and are therefore not subject to FDIC insurance.

**Commission Receivable from Affiliates**

Commission Receivable from Affiliates represents the accrued variable annuity commission revenue accrued for variable annuities and variable universal life sales of insurance products and commission trails with affiliated entities. Refer to Note 6 for further details on related party transactions.

**Distribution Fees Receivable from Affiliates**

Distribution Fees Receivable include 12b-1 fees, concessions, variable annuities, and other receivables based on the sale of affiliated products with affiliated entities. Refer to Note 6 for further details on related party transactions.

**Deferred Tax Asset, net**

Deferred income tax assets or liabilities are computed based on the difference between the financial statement and income tax bases of assets and liabilities, using the enacted statutory tax rate. Deferred income tax expenses or credits are based on the changes in the asset or liability from period to period.

**TRANSAMERICA CAPITAL, INC.**  
**NOTES TO FINANCIAL STATEMENT**  
*(Dollars in thousands)*

**Due from Affiliates, net**

The Company is a party to a cost sharing agreement with affiliates in order to facilitate payments associated with employee costs, accounts payable services, underwriting services, distribution services, marketing services, and other miscellaneous expenses. The Company incurs affiliated interest expenses and or revenue on these balances with affiliated entities, which is included in part of the settlement. The Company settles with the Parent regularly. Refer to Note 6 for further details on related party transactions.

**Prepaid Expenses and Other Assets**

Prepaid Expenses and Other Assets primarily consist of monthly FINRA licensing fees paid directly through the FINRA Central Registration Depository account as well as prepaid event sponsorships.

**Commissions Payable to Affiliates**

Commissions Payable to Affiliates represents payables for affiliated variable universal life, variable annuities, and 12b-1 fees related to mutual fund products with affiliated entities. Refer to Note 6 for further details on related party transactions.

**Service Fees Payable**

Service Fees Payable represent fees owed to sub-advisors and other broker dealers based on the level of affiliated product sales and production levels.

**Salaries, Benefits, and Bonuses Payable**

The Company has employees that accrue salaries, benefits, and bonuses according to the timing of pay cycles.

**Other Liabilities**

Other Liabilities represent accounts payable accruals related to operating expenses, use tax, bank sweep timing differences, legal and regulatory fee accruals, and event sponsorships.

**Current Expected Credit Losses**

For financial assets measured at amortized cost basis, the Company estimates expected credit losses over the life of the financial assets as of the reporting date based on relevant information about past events, current conditions, and reasonable and supportable forecasts. This estimate of expected credit losses is recorded as an allowance for credit losses and is reported as a valuation adjustment on the balance sheet that is deducted from the asset's amortized cost basis.

Financial assets measured at amortized cost include cash equivalents within Cash and Cash Equivalents and other assets within Prepaid Expenses and Other Assets in the Statement of Financial Condition.

Amounts owed to the Company related to these balances are settled within a maximum of six months, with most settling in less than three months. It is the Company's policy to review, as necessary, the credit standing of the counterparties and the Company has had no historical experience of credit loss. As of December 31, 2022, risk of credit loss is considered remote, therefore an allowance for credit losses on the financial assets measured at amortized cost is immaterial and no allowance was recorded.

**TRANSAMERICA CAPITAL, INC.**  
**NOTES TO FINANCIAL STATEMENT**  
*(Dollars in thousands)*

**3. Receivable from Contracts with Customers**

*Distribution Fees*

The beginning receivable balance related to distribution fees was \$39,834, whereas the December 31, 2022 ending balance was \$29,270 reflected under Distribution Fees from Affiliates and Commission Receivable from Affiliates on the Statement of Financial Condition.

*Marketing Concessions from Affiliates*

The beginning and ending receivable balance related to Marketing Concessions from Affiliates was zero for 2022.

*Event Sponsorships*

The beginning and ending receivable balance related to event sponsorships was zero for 2022.

**4. Fair Value Measurements and Fair Value Hierarchy**

ASC 820, *Fair Value Measurement*, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and enhances disclosure requirements for fair value measurements.

In accordance with ASC 820, the Company has categorized its financial instruments into a three-level hierarchy, which is based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument.

Financial assets and liabilities recorded at fair value on the Statement of Financial Condition are categorized as follows:

- *Level 1.* Unadjusted quoted prices for identical assets or liabilities in an active market that the company has ability to access at measurement date.
- *Level 2.* Quoted prices in markets that are not active or inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
  - a) Quoted prices for similar assets or liabilities in active markets
  - b) Quoted prices for identical or similar assets or liabilities in non-active markets
  - c) Inputs other than quoted market prices that are observable
  - d) Inputs that are derived principally from or corroborated by observable market data through correlation or other means
- *Level 3.* Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Both observable and unobservable inputs may be used to determine the fair value of positions classified in Level 3. The circumstances for using unobservable measurements include those in which there is little, if any, market activity for the assets or liabilities. Therefore, the Company must

**TRANSAMERICA CAPITAL, INC.**  
**NOTES TO FINANCIAL STATEMENT**  
*(Dollars in thousands)*

make assumptions about inputs that a hypothetical market participant would use to value the assets or liabilities.

The following table presents the Company's hierarchy for its assets measured at fair value on a recurring basis at December 31, 2022:

	December 31, 2022			
	Level 1	Level 2	Level 3	Total
<b>Assets</b>				
Money market funds (a)	\$ 63,538	\$ -	\$ -	\$ 63,538
<b>Total assets</b>	<b>\$ 63,538</b>	<b>\$ -</b>	<b>\$ -</b>	<b>\$ 63,538</b>

(a) Cash equivalents of \$63,538 classified as level 1 are money market mutual funds and are valued at amortized cost, which approximates fair value. Cash is not included in the above table.

The following table presents fair value of the Company's money market funds and the related redemption requirements at December 31, 2022:

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Money market funds	\$ 63,538	\$ -	any dealing day	0 days
<b>Total</b>	<b>\$ 63,538</b>			

The carrying values of other financial instruments including accounts receivable and accounts payable approximate fair value because of the short-term nature of these instruments.

## 5. Income Taxes

At December 31, 2022, the Company recorded deferred tax assets of \$10,327 which consist of federal net operating loss carryforwards and compensation and benefit accruals.

The Company's recorded deferred tax assets are net of a \$4,108 valuation allowance. This valuation allowance represents the portion of the Company's state deferred tax assets that it does not expect to recognize in future periods due to a history of losses and projected future losses in the respective tax jurisdiction. The Company's valuation allowance increased in 2022 from additional operating losses in state tax jurisdictions where a valuation allowance was already recorded against operating loss carryforwards.

The Company settles all accrued income taxes that are not cash settled under a tax sharing agreement through a capital contribution or dividend with its parent company. The following table summarizes the tax related contributions and/or dividends for the current year.

	2022
Federal	\$ 17
State	(105)
Total contribution (dividend)	<b>\$ (88)</b>

The Company's federal and state (where applicable) income tax returns are consolidated with other includible affiliated companies. The method of allocation between the companies is subject to a written tax allocation agreement. Under the terms of the tax allocation agreement, allocations are based on separate income tax return calculations. The Company is entitled to recoup federal income taxes paid in the event the future losses and credits reduce the greater of the Company's separately computed income tax liability or the consolidated group's income

**TRANSAMERICA CAPITAL, INC.**  
**NOTES TO FINANCIAL STATEMENT**

tax liability in the year generated. The Company is also entitled to recoup federal income taxes paid in the event the losses and credits reduce the greater of the Company's separately computed income tax liability or the consolidated group's income tax liability in any carryback or carry forward year when so applied. State tax allocations do not consider the effects of state tax attribute carryovers and carrybacks in jurisdictions where the company files a consolidated state tax return. Receivables from the Parent under the tax allocation agreement are presented gross in the Statement of Financial Condition and are settled net with other amounts due to affiliates.

The Internal Revenue Service (IRS) completed its examination for 2009 through 2013 for which an appeals conference is in process. The IRS opened an exam for the 2014 through 2018 amended tax returns. Federal income tax returns filed in 2019 through 2021 remain open, subject to potential future examination. The Company believes there are adequate defenses against, or sufficient provisions established related to any open or contested tax positions.
